Preface

This book teaches Punjabi one word at a time, and it teaches each word by taking it apart. It is written for someone starting from zero — who may not read a single Gurmukhi letter — so the script is taught *inside the word lessons themselves*: each word introduces exactly the letters it needs, so you learn to read ਨਮਸਤੇ *and* learn what it means in the same few minutes. (A reader who already reads Gurmukhi simply skims the "letters in this word" notes.)

Punjabi is an **Indo-Aryan** language — descended, like Hindi and Sanskrit, from an old common ancestor — and it is written in **Gurmukhi**, "from the mouth of the Guru," the script the Sikh Gurus shaped to carry their scriptures. Two threads run through the book: Punjabi's Sanskrit inheritance (shared with Hindi), and the deep **Perso-Arabic** layer it absorbed on the old road between Persia and India — so "thank you" is both the Sanskritic ਧੰਨਵਾਦ and the Persian ਸ਼ੁਕਰੀਆ. Roots are traced to Sanskrit, to Persian/Arabic, and, where they reach, to the wider family that also gave English its words — every form supplied in full.

How to use this book

Every numbered section is one word, or one small phrase, and takes a few minutes — the length of a queue, an errand, or the walk to the bus. Read them in order the first time through: each section stands on the ones before it, and nothing is used before it has been taught. After that the book becomes reference, and you can open it anywhere.

Say the Punjabi out loud wherever you can. The prompts under *Your turn* are written to be spoken, and saying a word is most of what makes it stay. The questions under *Before you move on* carry their own answers in brackets: cover them, answer from memory, then look.

Nothing here is gated behind the alphabet. Each lesson introduces exactly the letters and sounds its own word needs, so you are reading real words from the first page rather than drilling a chart. The whole script is gathered in a reference at the back of the book — somewhere to look things up when you are curious, never a chapter to sit through first.

Chapter 1

Greetings

Modes: 🚗 **voice** (4) 👁 **eyes** (1) ✎ **pen** (8) 🚗 **Hands-free start:** the first 3 of 13 lessons.

> ***By the end of this chapter:*** I can greet someone in Punjabi and keep reading, listening, independent writing, and speaking separately measurable when I answer yes or no.
>
> *Complete four short, separately scored checks: read* ਹਾਂ, *distinguish heard* ਹਾਂ *and* ਨਹੀਂ, *write* ਹਾਂ *from sound with no visible model, and answer aloud without borrowing credit across skills.*

1.1 *sat srī akāl* — the Sikh greeting by ear

> Begin with one respectful greeting you can hear and return.
> The printed Gurmukhi is a label today, not a decoding task.

You'll want to know first — listen and answer

Hear: sat srī akāl. It serves as both **hello** and **goodbye** among Sikhs. Answer by repeating it: *Say it: sat srī akāl.* One careful return is enough.

The phrase is also a small statement of faith: *sat* is "truth," *srī* is an honorific, and *akāl* is "timeless" — *a-* "not" plus *kāl* "time." *Akāl* names the Timeless One. *Sat* descends from Sanskrit *satya*, from the same old being-and-truth family remembered by English **sooth** and **soothsayer**.

Why it's said this way

This is specifically a Sikh greeting, often said with folded hands. Do not treat it as a generic label for every Punjabi speaker. The next lesson gives a broader pan-Indian greeting.

Writing — let your finger meet one shape

Here is the first printed shape of the greeting's written form: ਸ. Follow that shape once with your finger while you say *sat srī akāl.*

Do not write it yet, and do not try to read it. This first pass only lets your eye, ear, and hand meet the same greeting together. Later script lessons teach how each Gurmukhi shape is made; tracing a typeface here does not claim a handwriting stroke order.

Before you move on

Does this greeting serve only as hello? (**No — hello and goodbye.**)

1.2 *namaste* — the shared greeting by ear

Return *sat srī akāl* once. Now meet a broader greeting. Its printed form is still only a label; no sign must be decoded.

The exchange — listen and answer

Hear: namaste. It is a respectful **hello** used across communities and across much of India. Answer in kind: *Say it: namaste.*

Sanskrit *namas* means "a bow" and *te* means "to you": "a bow to you." That is why the same word appears in several modern languages. Shared history does not make every community's greeting interchangeable: use *sat srī akāl* when that Sikh context is present, and *namaste* as the broader greeting taught here.

Before you move on

What do the two Sanskrit pieces mean? (*Namas*, "a bow," plus *te*, "to you.")

1.3 *hā̃* / *nahī̃* — “yes” and “no” by ear

Two tiny answers no conversation survives without. Today they belong to your ear and voice. The printed forms are labels, not a reading test.

You’ll want to know first — meaning before spelling

Hear: hā̃ — **yes**. Hold the vowel, then let the ending pass gently through the nose.

Hear: nahī̃ — **no**. The second syllable is long, and its ending is nasal too.

Answer aloud once: *Say it: hā̃* — yes. Then once: *Say it: nahī̃* — no. Do not take the Gurmukhi apart yet. The next three tiny sessions will teach one piece at a time before you are asked to read or write ਹਾਂ.

The word, taken apart — its roots and family

Punjabi *nahī̃* is built on ancient **na-**, from the same Proto-Indo-European ***ne** behind English **no**, **not**, and **none**. That history is a memory hook for the sound and meaning; it is not a spelling cue.

Before you move on

Say the two answers in order: **yes, no** — *hā̃, nahī̃.*

1.4 ਹ — the consonant ha

You can already hear and say *hā̃*, “yes.” Today your hand meets only its first consonant. The whole word is still not a reading or writing task.

Script

Gurmukhi is an **abugida**: a consonant already carries a vowel, and you write a vowel mark only when you want a different one.

ਹ

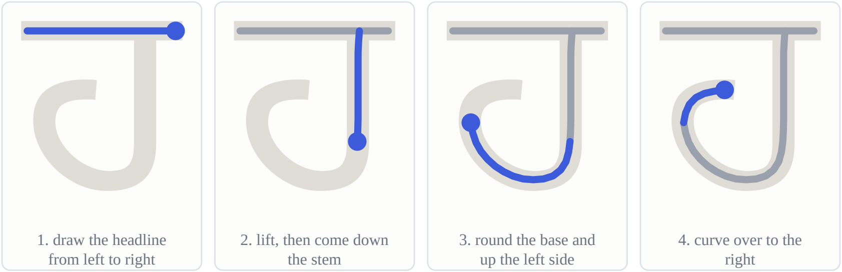
That is **ha** — the consonant *h* with an **a** already inside it, the *a* of English *about*. Nobody wrote that vowel. A bare consonant is understood to carry it, and it is called the **inherent vowel**.

Now the name, because it tells you what this script is for. **Gurmukhi** means “from the mouth of the Guru.” It was standardised in the sixteenth century by Guru Angad, the second Sikh Guru, to write down what had until then been recited — and that origin is why it is a **tidier** script than its neighbours: it was designed in one go, for one purpose, rather than drifting into shape over centuries.

Look at the top. There is a **head-line** across it, as in Devanagari, and in running text it joins up so a word appears to hang from a line. Gujarati is the sister that erases this line; Gurmukhi keeps it.

Writing — observe and trace

How it is written — 2 strokes · 1 pen lift · 4 movements



1. draw the headline from left to right
2. lift, then come down the stem
3. round the base and up the left side
4. curve over to the right

Stroke order after GNPS, Gurmukhi Sikho (GNPS Learning Hub), Alphabet Tracing lesson, ਹ (haahaa) checkpoints, strokes 1–2 (lib/data/lessons/lesson_tracing.dart line 157, commit de1e560; Apache-2.0)
This order is attested, not standardised; the source records where it varies.

How ਹ *is written, stroke by stroke*

Keep ਹ visible. Follow its printed path once with your finger, then trace one printed model once with a pencil. Say *ha* after your hand stops. Do not hide the model and do not try to write ਹਾਂ yet.

Before you move on

What vowel does a bare consonant carry? (**a** — nobody writes it.)
What does *Gurmukhi* mean? (**From the mouth of the Guru**.)
And is the head-line there? (**Yes** — kept, not erased.)
Source: Unicode Gurmukhi chart.

1.5 ◌ਾ — the vowel sign that replaces the inherent a

Write the piece from the previous lesson before adding another.

Script

To get a different vowel you **replace** the inherent one, with a mark called a **mātrā**.

◌ਾ

A single upright stroke standing to the **right** of its consonant, dropping from the head-line. Attached, it swaps the short *a* for **ā**, the *a* of English *father*.

ਹ + ◌ਾ → ਹਾ

hā. One beat — a mātrā changes the vowel, it never adds a beat.

You are one mark away from a word.

Writing — observe and trace

Keep ◌ਾ visible beside ਹ. Finger-trace the vowel sign once, then trace one printed model once with a pencil. Point to ਹ, then ◌ਾ, and say *hā*. Keep the model visible; the nasal ending has not been taught yet.

Before you move on

What does a mātrā do to the inherent vowel? (**Replaces** it.) Where does this one sit? (To the **right**.) And does it add a beat? (**No**.) Source: Unicode Gurmukhi chart.

1.6 ◌ਂ — a dot above the line that nasalises the vowel

Write the piece from the previous lesson before adding another.

Script

Here is a mark that is not a vowel at all.

◌ਂ

This is the **bindi**, a dot sitting **above the head-line**. It does not change which vowel you say. It says: **send that vowel through your nose.**

English does this constantly and never writes it. Say *bad*, then say *ban* — the vowel in the second is nasalised before you ever reach the *n*. Punjabi writes what English leaves implicit.

ਹਾ + ◌ਂ → ਹਾਂ

hāṁ — and that is **yes**, the word you have been saying since your first lesson.

Nasalisation is meaning-bearing here. It is not an accent or a flourish; drop the dot and you have a different word. That is why the script spends a character on it.

Writing — observe and trace

Keep ◌ਂ visible above the head-line. Point to it once, finger-trace the dot once, then trace one printed model with a pencil. Say “nasal” as your hand stops. Do not copy the whole word yet; assembly is the next separate session.

Before you move on

What does the bindi do? (**Nasalises** the vowel — sends it through the nose.) Does it change which vowel you say? (**No**.) And what word did it complete? (ਹਾਂ — *hāṁ*, “yes”.)
Source: Unicode Gurmukhi chart.

1.7 ਹਾਂ — three known pieces become one known answer

Point to the three pieces you met separately: ਹ, ◌ਾ, ◌ਂ. Say their jobs: *h*, long *ā*, nasal ending.

Script — assemble with no new sign

Slide the known pieces together from left to right:

ਹ + ◌ਾ + ◌ਂ → ਹਾਂ

Read *hā̃*, “yes.” Point once to each piece while you say its part, then read the whole answer once at natural speed. Your pencil stays down today; assembly and copying are separate steps.

Before you move on

Which piece nasalises the ending? (◌ਂ, the bindi.)

1.8 ਹਾਂ — one supported copy

Keep ਹਾਂ visible. Point to ਹ, then attached ◌ਾ, then the bindi ◌ਂ. Read the known answer *hā̃*, “yes.”

Writing — guided copy

Copy ਹਾਂ once beside the model. Look back after every piece if you need to. Touch the three pieces in your copy and read *hā̃*. Large and slow is correct; memory is not being tested yet.

Before you move on

Compare one piece at a time. Repair one piece if needed, then stop.

1.9 ਹਾਂ — look, hide, write, compare

Look at ਹਾਂ for five seconds. Point to its three pieces. Do not copy it yet.

Writing — delayed copy

1. cover ਹਾਂ
2. wait five seconds
3. write it once from memory

4. uncover the model and compare ਹ, ◌ਾ, then ◌ਂ

Circle and repair only a differing piece. Repair is part of the exercise, not a failure.

Before you move on

Read your repaired word as *hā̃*. Stop after one memory attempt.

1.10 One heard answer — write what you know

Cover the answer lower on this page. You will hear one familiar answer. No new Punjabi or new sign is hiding here.

Writing — short dictation

Hear: hā̃ — "yes"

Write the Punjabi word from sound alone. Now uncover and compare: ਹਾਂ. Check ਹ first, attached ◌ਾ second, and ◌ਂ above the line last. Repair one place if needed.

Before you move on

Writing from sound completes this tiny runway. Later lessons must grow from one known word to phrases, messages, and timed exam tasks.

1.11 *dhannavād* — "thank you," the Sanskrit way

You can greet and answer yes or no. Add one spoken thanks. The Gurmukhi above is a label, not a word you must decode.

You'll want to know first — listen and use

Hear: dhannavād — **thank you**. Return it once: *Say it: dhannavād.*

It descends from Sanskrit *dhanya*, "worthy" or "blessed," plus *vāda*, "a saying." This is Punjabi's Sanskritic thanks. The next session adds a Perso-Arabic choice with the same everyday function.

Before you move on

Is this the Sanskritic or Perso-Arabic choice? (**Sanskritic.**)

1.12 *shukrīā* — “thank you,” the Persian way

Say the Sanskritic thanks *dhannavād*. Now add a second spoken choice. No new Gurmukhi sign is required.

You’ll want to know first — listen and use

Hear: shukrīā — **thank you**. Return it once: *Say it: shukrīā*.

The word came through Persian from Arabic *shukr*, “gratitude,” the same root heard in Arabic *shukran*. Punjabi carries both a Sanskritic thanks, *dhannavād*, and this Perso-Arabic one. Learn the contrast by history and sound; the dotted borrowed-sound spelling can wait for its own sign lesson.

Before you move on

Say both choices in historical order: Sanskritic *dhannavād*, then Perso-Arabic *shukrīā*.

1.13 Chapter 1 — four small checks, four separate scores

No new Punjabi. Complete each tiny check on its own. A correct answer in one skill never erases a miss in another.

How to answer — greetings and courtesy first

Say it: sat srī akāl, *Say it: namaste*, *Say it: dhannavād*, *Say it: shukrīā*. Record this courtesy check separately from the yes/no speaking check below.

Script — see and understand

Read ਹਾਂ without saying the answer from memory first. Record only the reading result.

You’ll want to know first — hear and choose

Hear: nahī̃ Choose the meaning without looking at a written Punjabi answer. Record only the listening result.

Writing — one independent answer

Cover every Gurmukhi answer on this page. Hear *hā̃*, “yes,” once and write it from sound alone. Do not award writing credit for a romanized answer or a copy. After scoring, uncover ਹਾਂ and repair one piece if needed.

Your turn — answer aloud

Say it: hā̃ — yes. Record only the spoken response. The written answer from the previous check cannot supply speaking credit.

Before you move on

Name the four separately scored skills: reading, listening, writing, and speaking. Repeat only the skill that missed; do not average it away.

Chapter 2

Introducing Yourself

Modes: 🚗 **voice** (3) 👁 **eyes** (6) ✎ **pen** (2) 🚗 **Hands-free start:** the first 6 of 11 lessons.

> ***By the end of this chapter:*** I can introduce myself in Punjabi, give my name, and understand the other person's name.
>
> *Complete separate oral listening and speaking checks for a respectful Punjabi introduction. Independent Gurmukhi writing remains explicitly blocked: the chapter's two recognition sessions keep the model visible and are scored as recognition only, and romanization earns no script credit.*

2.1 ਨਾਂ (nāṁ) — "name," a word older than Europe

> The first word of the introduction — and one of the clearest bridges between India and Europe.

The letters in this word

ਨ (*na*) + ◌ਾ (the *kannā*, long-*ā* sign) + ◌ਂ (the *bindi*, a nasal dot) → ਨਾਂ (*nāṁ*). A single nasalised syllable.

The word, taken apart — its roots and family

ਨਾਂ (*nāṁ*, "name") ← Sanskrit *nāman* (a Sanskrit word, so it is written here the way Sanskrit is written in this book — in roman letters, not in Gurmukhi), from Proto-Indo-European ***h$_3$nómn** (with a syllabic final *n*) — the *same* ancient root as English **name**, Latin *nōmen* (English **noun**, **nom**inate), and Greek *onoma*. So Punjabi *nāṁ* and English *name* are cousins from before either language existed. (The Hindi form is *nām*; Punjabi nasalises the ending to *nāṁ*.)

Your turn

Say these aloud:

- "nāṁ"
- the family — *nāṁ* / English *name* / Latin *nōmen* / Greek *onoma*

Before you move on

What Sanskrit and PIE roots is *nāṁ* from, and its English cousins? (*Nāman* / *$h_3$nómn, with a syllabic final *n*; **name**, **noun**, **nominate**.)

2.2 ਮੇਰਾ (merā) — "my"

The little word that makes the name *yours*.

The letters in this word

ਮ (*ma*) + ◌ੇ (the *lāvā̃*, *e*-sign) → ਮੇ (*me*); ਰ (*ra*) + ◌ਾ (long *ā*) → ਰਾ (*rā*). Read ਮੇ · ਰਾ → *merā*.

The word, taken apart — its roots and family

ਮੇਰਾ (*merā*, "my") is on the first-person root **ma-** — the same *ma-/me-* behind English **me**, **my**, **mine** and Latin *meus*, and the same root as Hindi *merā*. The Punjabi "my" and the English "my" are, at the root, one word.

Grammar Lens: "my" agrees with the noun

Punjabi possessives change to match what is owned: ਮੇਰਾ (*merā*, masculine), *merī* (feminine), *mere* (plural). *nāṁ* ("name") is masculine, so it takes *merā*: *merā nāṁ*. (You will meet *merī* the first time you own a feminine noun.)

Your turn

Say these aloud:

- “merā”
- the m- family — *merā* (my), English *me*, *my*
- the feminine form (*merī*)

Before you move on

What root links *merā* and English *my*, and what is its feminine form? (The first-person *ma-*; *merī*.)

2.3 ਹੈ (hai) — “is,” cousin of English *is*

The little verb “is” — the same “is” spoken from Ireland to India.

The letters in this word

ਹ (*ha*) + ◌ੈ (the *dulāvā̃*, *ai*-sign) → ਹੈ (*hai*). One syllable.

The word, taken apart — its roots and family

ਹੈ (*hai*, “is”) ← Sanskrit *asti* (“is”), from Proto-Indo-European **$*h_1$es-** — the root of “to be” across the whole family: English **is**, German *ist*, Latin *est*, Spanish *es*. Punjabi *hai* is the Indian cousin of the same tiny verb.

Grammar Lens: the verb comes last

Punjabi is **subject–object–verb**: “my name Arun **is**.” *hai* sits at the *end* of the sentence, where English puts “is” in the middle. Bank the shape — in Punjabi the verb waits until the end.

Your turn

Say these aloud:

- “hai”

- the family — *hai* / *is* / *ist* / *est* / *es*
- “merā nāṁ Arun hai” — note *hai* at the end

Before you move on

What root is *hai* from, and where does the verb sit in a Punjabi sentence? (Sanskrit *asti* / PIE *$*h_1es$-*; at the end.)

2.4 ਮੇਰਾ ਨਾਂ … ਹੈ (merā nāṁ … hai) — “my name is…”

Three atoms you now own, assembled into a first sentence.

The exchange — assembled

ਮੇਰਾ (my) + ਨਾਂ (name) + your name + ਹੈ (is) = **merā nāṁ … hai**, “my name is…” *Merā nāṁ Arun hai.* → “My name is Arun.”

The word, taken apart — its roots and family

ਮੇਰਾ ਨਾਂ … ਹੈ (*merā nāṁ … hai*) is built from inherited words: *merā*, “my”, which CDIAL lists under the Sanskrit first-person base *ma-* (CDIAL 9691); *nāṁ*, “name”, from Sanskrit *nāman* (CDIAL 7067); and *hai*, “is”, usually traced to Sanskrit *asti*, “is”.

Grammar Lens: the verb goes last

Punjabi is a **subject–object–verb** language — literally “my name Arun **is**.” The *hai* sits at the end, where English puts “is” in the middle. Bank this shape: in Punjabi, the verb waits until the end of the sentence.

Your turn

Say these aloud:

- “merā nāṁ … hai” with your name
- notice the verb *hai* comes last

Before you move on

Give your name in Punjabi, and say where the verb sits. (*Merā nāṁ … hai*; the verb is last.)

2.5 Tū̃ / tusī̃ — “you,” familiar and respectful

To ask a name you need “you” — and Punjabi grades respect the way French does.

The letters in this word

ਤੁਸੀਂ: ਤ (*ta*) + ◌ੁ (short *u*) → *tu*; then ਸ with ◌ੀ (long *ī*) and the nasal *bindi* ◌ਂ → *sī̃*. A longer, plural-shaped word, and the one to read first. The familiar *tū̃* stays spoken for now: its written form needs two signs this book has not shown yet.

The word, taken apart — its roots and family

Tū̃ (familiar “you”) ← Sanskrit *tvam*, from PIE ***tū** — the same root as English archaic **thou**, Latin *tū*, French *tu*. ਤੁਸੀਂ (*tusī̃*, respectful “you”) is grammatically plural — the same courtesy-by-plural used by French *vous* and Hindi *āp*.

Grammar Lens: two levels of “you”

- *tū̃* — familiar: friends, children, intimates.
- ਤੁਸੀਂ (*tusī̃*) — respectful: elders, strangers, politeness (and true plural, “you all”).

For a first meeting, always ਤੁਸੀਂ. Respect takes the plural verb, exactly as in the Romance and other Indo-Aryan tracks.

Your turn

Say these aloud:

- “tū̃” (familiar) and “tusī̃” (respectful)
- the English cousin of *tū̃* (**thou**)

- which you use on first meeting (*tusī̃*)

Before you move on

Which “you” is respectful, and what English word is *tū̃* cousin to? (*Tusī̃*; archaic **thou**, from PIE **tū*.)

2.6 ਕੀ (kī) — “what”

The question-word — and it starts with the **k-** that heads nearly every Punjabi question.

The letters in this word

ਕ (*ka*) + ◌ੀ (the *bihārī*, long-*ī* sign) → ਕੀ (*kī*).

The word, taken apart — its roots and family

ਕੀ (*kī*, “what”) ← Sanskrit *kim* / the interrogative stem **ka-**, from PIE ***k^{w}o-** — the same question-root behind English **wh-** words (**what**, **who**, **which**) and Latin *qu-*. Punjabi’s question-words nearly all begin with this **k-**: *kī* (what), *kauṇ* (who), *kad* (when), *kithē* (where), *kivēṁ* (how). Learn the *k-* and you can hear a question coming.

Your turn

Say these aloud:

- “kī”
- the k- question family — *kī, kauṇ, kad, kithē, kivēṁ*
- the English cousins (*what, who, which*)

Before you move on

What root do Punjabi’s question-words share, and its English family? (The interrogative *k-*, PIE **k^{w}o-*; the *wh-* words.)

2.7 ਮ · ਰ · ◌ੇ — three pieces met inside a word you already say

You are about to say *merā nāṁ* out loud for a whole chapter. Three of the marks that spell it stop being decoration now.

First, say the last things you learned once more, out loud and from memory:

- *Say it: dhannavād · shukrīā*

Script you'll notice: ਮ · ਰ · ◌ੇ

ਮ

mammā — *ma.* A consonant. In Gurmukhi a bare consonant already carries an *a*, so this is *ma*, never a bare *m.*

ਰ

rārā — *ra.* A consonant, tapped once with the tip of the tongue — closer to Spanish *pero* than to English *r.*

◌ੇ

lāvā̃ — *-e.* Not a letter. A **mātrā** — a vowel sign — and it rides **on the head-line above** the consonant it changes.

Now put them where you have already heard them:

ਮ + ◌ੇ → ਮੇ (*me*); ਰ + ◌ਾ → ਰਾ (*rā*)

ਮੇਰਾ — *merā* — **my**

You are not being asked to write any of this. You are being asked to **recognise** it the next time it goes past.

Writing: copy what you can see

Keep ਮ · ਰ · ◌ੇ in front of you and do not cover any of them. Follow each shape once with a finger, then copy it once with a pencil, larger than it is printed. Say its sound as your hand stops.

> This is **observe-and-trace with the model visible**. Nothing in these chapters asks you to write a Punjabi word from memory; that ladder starts later, and it starts from these same shapes.

Your turn

- *Look:* at ਮੇਰਾ and point to each of today's pieces in turn
- *Say it: ma*, *ra*, *-e*, then the whole word — *merā*
- *Look:* back at the headword at the top of any earlier lesson in this chapter and find one shape you now know

2.8 ਤੁਹਾਡਾ ਨਾਂ ਕੀ ਹੈ? (tuhāḍā nāṁ kī hai?) — "what's your name?"

Turn the introduction around — ask, instead of tell.

The exchange — assembled

ਤੁਹਾਡਾ (*tuhāḍā*, "your," the respectful possessive from *tusī̃*) + ਨਾਂ (name) + ਕੀ (what) + ਹੈ (is) → literally "**your name what is?**" Punjabi keeps the verb last again, and simply drops the question-word *kī* into the object slot.

The word, taken apart — its roots and family

Every word is inherited: *tuhāḍā* goes with *tusīṁ*, listed under Sanskrit *yuṣmad-* (CDIAL 10511); *nāṁ* is from *nāman* (CDIAL 7067), *kī* from *kim* (CDIAL 3164), and *hai* usually from *asti*.

Grammar Lens: answering

Answer it with the sentence you built: *Merā nāṁ Arun hai.* The familiar version swaps *tuhāḍā* for ਤੇਰਾ (*terā*, "your," from *tū̃*): *terā nāṁ kī hai?*

Your turn

Say these aloud:

- the respectful question — *tuhāḍā nāṁ kī hai?*
- answer it — *merā nāṁ … hai*
- the familiar “your” (*terā*)

Before you move on

Ask someone’s name respectfully, and note where the verb sits. (*Tuhāḍā nāṁ kī hai?*; the verb is last.)

2.9 Khushī hoī — “pleased to meet you”

The warm close of an introduction — and, like *shukrīā*, it comes from Persian, not Sanskrit.

The letters in this word

ਖ਼ੁਸ਼ੀ (*khushī*): note **two** *pair bindis* (dots beneath) — ਖ਼ (*kh*) and ਸ਼ (*sh*) — both marking Perso-Arabic sounds. The same dotted ਸ਼ spells the *sh* of *shukrīā*, the Chapter 1 thanks you have so far only heard. The short second word, *hoī*, stays spoken for now.

The word, taken apart — its roots and family

The Punjabi “pleased to meet you” is *tuhānū̃ mil ke khushī hoī* — literally “**having met you, happiness happened**.” The key word ਖ਼ੁਸ਼ੀ (*khushī*, “happiness”) is **not** Sanskrit — it is **Persian** (*khush*, “happy, pleasant”), one of the thousands of Persian words woven through Punjabi. So even introducing yourself draws on Punjabi’s **two vocabularies**: Sanskrit (*nāṁ*, *hai*) and Perso-Arabic (*khushī*) — the thread you first met in Chapter 1’s *shukrīā*.

Your turn

Say these aloud:

- “khushī hoī”
- which heritage *khushī* belongs to (Persian, not Sanskrit)
- what the two *pair bindis* (ਖ਼, ਸ਼) mark (Perso-Arabic sounds)

Before you move on

What does the phrase literally mean, and where does *khushī* come from? (“Having met you, happiness happened”; Persian *khush*, “happy” — Punjabi’s second vocabulary.)

2.10 ਸ · ਤ · ਕ — three pieces met inside a word you already say

Three more consonants — and with the two you met a moment ago, whole words start falling out.

First, say the last things you learned once more, out loud and from memory:

- *Say it: hai · merā nāṁ ... hai · tū̃ / tusī̃*

Script you’ll notice: ਸ · ਤ · ਕ

ਸ

sassā — *sa.* A consonant, a plain *s.* It is also the letter the whole script is often taught from first.

ਤ

tattā — *ta.* A consonant, the **dental** *t*: tongue on the teeth, softer than any English *t.*

ਕ

kakkā — *ka.* A consonant, the plain *k* of *skin* — no puff of breath, unlike the *k* of English *kin.*

Now put them where you have already heard them:

ਸ + ◌ਾ + ਰ + ◌ਾ → ਸਾਰਾ (*sārā*, “whole”)

ਤ + ◌ਾ + ਰ + ◌ਾ → ਤਾਰਾ (*tārā*, “star”)

ਕ + ਰ → ਕਰ (*kar*, “do!”)

ਤਾਰਾ — *tārā* — **star**

You are not being asked to write any of this. You are being asked to **recognise** it the next time it goes past.

Writing: copy what you can see

2.11 Chapter 2 — The introduction exchange

No new words. The whole introduction, assembled from atoms you now own.

The exchange

Say these aloud:

- "My name is Mira." — *merā nāṁ Mira hai.*
- "What's your name?" — *tuhāḍā nāṁ kī hai?*
- "My name is Arun." — *merā nāṁ Arun hai.*
- "Pleased to meet you." — *tuhānū̃ mil ke khushī hoī.*

Your turn — the atoms

Say these aloud:

- "name," "my," "is" (*nāṁ*, *merā*, *hai*)
- the two "you" levels (*tū̃* / *tusī̃*)
- "what" and where the verb sits (*kī*; the verb is last)

The word, taken apart — its roots and family

- *nāṁ* ← Sanskrit *nāman* → English **name**
- *merā* ← *ma-* → English **my**; *hai* ← *asti* → English **is**
- *kī* ← *ka-* → English **what**; *tū̃* ← **tū* → **thou**
- *khushī* ← **Persian** — Punjabi's second vocabulary

Independent Gurmukhi reading and writing are **not scored here**. Chapter 2 still contains untaught forms; #13068 must build their visible-model, guided-copy, delayed-copy, and dictation runway before either skill can earn credit. A romanized answer never counts as Gurmukhi writing.

Introduce yourself and ask a stranger's name in Punjabi. (*Merā nāṁ … hai. Tuhāḍā nāṁ kī hai?*)

3.1 ਨ · ◌ੀ · ◌ੈ — three pieces met inside a word you already say

Nahī̃ and *maiṁ* are already in your mouth. Today they arrive on the page.

First, say the last things you learned once more, out loud and from memory:

- *Say it: tuhāḍā nāṁ kī hai? · khushī hoī*

Script you'll notice: ਨ · ◌ੀ · ◌ੈ

ਨ

nannā — *na.* A consonant, the dental *n*: the tongue touches the **teeth**, not the ridge behind them.

◌ੀ

bihārī — -*ī.* A mātrā for the long *ee* of *see.* It stands to the **right** and hooks back over the head-line.

◌ੈ

dulāvā̃ — -*ai.* A mātrā built from **two** strokes above the line — *dulāvā̃* means "the double *lāvā̃.*"

Now put them where you have already heard them:

ਨ + ਹ + ◌ੀ + ◌ਂ → ਨਹੀਂ (*nahī̃*)

ਮ + ◌ੈ + ◌ਂ → ਮੈਂ (*maiṁ*, "I")

ਨਹੀਂ — *nahī̃* — **no**

You are not being asked to write any of this. You are being asked to **recognise** it the next time it goes past.

Writing: copy what you can see

Keep ਨ · ◌ੀ · ◌ੈ in front of you and do not cover any of them. Follow each shape once with a finger, then copy it once with a pencil, larger than it is printed. Say its sound as your hand stops.

3.2 ਕਿਵੇਂ (kivēṁ) — "how," another of the k-questions

You met ਕੀ (*kī*, "what") in Chapter 2. Here is its sibling — and, like all of Punjabi's question-words, it starts with **k-**.

The letters in this word

ਕ (*ka*) + ਿ (the *sihārī*, *i*-sign, written before) → ਕਿ (*ki*); ਵ (*va*) + ੇ (*e*-sign) + ਂ (nasal) → ਵੇਂ (*vēṁ*). Read ਕਿ · ਵੇਂ → *kivēṁ*.

The word, taken apart — its roots and family

ਕਿਵੇਂ (*kivēṁ*, "how") is from the interrogative stem **ka-**, from PIE ***k^{w}o-** — the same question-root behind English **wh-** and Latin *qu-*. Punjabi's questions nearly all begin with this **k-**: *kī* (what), *kauṇ* (who), *kad* (when), *kithē* (where), *kivēṁ* (how). Learn the *k-* and you can spot a question.

Your turn

Say these aloud:

- "kivēṁ"
- the k- question family — *kī, kauṇ, kad, kithē, kivēṁ*

Before you move on

What root do Punjabi's question-words share, and its English family? (The interrogative *k-*, PIE **k^{w}o-*; the *wh-* words.)

3.3 ਤੁਸੀਂ ਕਿਵੇਂ ਹੋ? (tusī̃ kivēṁ ho?) — “how are you?”

Three words you own, assembled into the first thing you ask after hello.

The word, taken apart — its roots and family

ਤੁਸੀਂ ਕਿਵੇਂ ਹੋ? = ਤੁਸੀਂ (*tusī̃*, respectful “you”) + ਕਿਵੇਂ (*kivēṁ*, “how”) + ਹੋ (*ho*, “are”) — literally “**you how are?**” Punjabi keeps the verb **last**, as in Chapter 2. The copula *ho* is the respectful “are” that goes with *tusī̃* — its whole set is *maiṁ hāṁ* (I am), *tū̃ haiṁ* (you are, familiar), *oh hai* (he is), *tusī̃ ho* (you are, respectful).
The words are inherited: *tusīṁ* from Sanskrit *yuṣmad-*, “you (plural)” (CDIAL 10511); *kivēṁ* on the old question stem *ka-*; and *ho* from *hoṇā*, “to be”, which CDIAL lists under *bhavati*, “becomes, is” (CDIAL 9416).

Grammar Lens: match the “you” to the verb

To an elder or stranger: *tusī̃ kivēṁ ho?* To a friend: *tū̃ kivēṁ haiṁ?* Respect takes the plural-shaped *tusī̃ … ho*.

Your turn

Say these aloud:

- the respectful question — *tusī̃ kivēṁ ho?*
- the familiar version — *tū̃ kivēṁ haiṁ?*
- where the verb sits (at the end)

Before you move on

Ask “how are you?” respectfully, and say where the verb goes. (*Tusī̃ kivēṁ ho?*; the verb is last.)

3.4 The respectful question returns at R1

No new words and no script test. Answer aloud before recording the romanization.

Your turn

Say these aloud:

- respectful **you are** — *tusī̃ … ho*
- *kī, kivēṁ*; keep their opening *k-*

The typed romanization records an answer already spoken aloud. It earns no Gurmukhi reading or writing credit.

Before you move on

Complete *tusī̃ kivēṁ …?* (**ho**) and name the question-family sound (**k-**).

3.5 ਮੈਂ (maiṁ) — "I," the m- of the first person

To answer "how are you?" you first need "I." In Chapter 2 you learned *merā* ("my"); here is its owner.

The letters in this word

ਮ (*ma*) + ◌ੈ (*ai*-sign) + ◌ਂ (nasal *bindi*) → ਮੈਂ (*maiṁ*). One nasal syllable.

The word, taken apart — its roots and family

ਮੈਂ (*maiṁ*, "I") is on the first-person root **ma-** — the same root that gave you *merā* ("my"), and the same **m-** behind English **me**, **my**, **mine** and Latin *mē*. Punjabi's "I," its "my," and English's "me/my" all grow from one ancient first-person sound.

Grammar Lens: the copula pairs with it

Maiṁ takes the copula ਹਾਂ (*hāṁ*, "am"): *maiṁ … hāṁ*. Watch out — this *hāṁ* ("am") is spelled the same as the *hāṁ* ("yes") from Chapter 1; context tells them apart. So the reply to "how are you?" will begin *maiṁ …*

Your turn

Say these aloud:

- “maiṁ”
- the m- family — *maiṁ* (I), *merā* (my), English *me*, *my*
- “maiṁ … hāṁ” — I am …

Before you move on

What root links *maiṁ*, *merā*, and English *me*, and what copula does *maiṁ* take? (The first-person *ma-*; *hāṁ*, “am.”)

3.6 ਟ · ਠ · ਡ — three pieces met inside a word you already say

English has no letter for any of these. The tongue curls back to the roof of the mouth for all three.

First, say the last things you learned once more, out loud and from memory:

- *Say it: tusī̃ kivēṁ ho? · tusī̃ kivēṁ ho — k- · maiṁ*

Script you’ll notice: ਟ · ਠ · ਡ

ਟ

ṭaiṅkā — *ṭa.* A **retroflex** *t*, with no breath: the tongue curls back and taps the roof of the mouth.

ਠ

ṭhaṭṭhā — *ṭha.* A **retroflex** *t* with a puff of breath: tongue curled back to the roof of the mouth.

ਡ

ḍaḍḍā — *ḍa.* A **retroflex** *d*, the voiced partner of ṭaiṅkā.
Now see one of them inside the word the next lesson teaches:

ਟ ਠ ਡ — one row, one tongue position, three degrees of breath and voice

ਠ + ੀ + ਕ → ਠੀਕ (*ṭhīk*)

You are not being asked to write any of this. You are being asked to **recognise** it the next time it goes past.

Writing: copy what you can see

Source: Unicode Gurmukhi chart.

3.7 ਠੀਕ (ṭhīk) — "fine," and how to answer

The word that answers "how are you?" — and does a dozen other jobs.

The letters in this word

ਠ (*ṭha*, a **retroflex** *th* — tongue curled to the roof of the mouth) + ◌ੀ (long *ī*) + ਕ (*ka*) → ਠੀਕ (*ṭhīk*). The retroflex ਟ-ਠ-ਡ series is a hallmark of Indian sound.

The word, taken apart — its roots and family

ਠੀਕ (*ṭhīk*) means "correct, right, fine, OK" — a native Indian word (shared with Hindi and Urdu), one of the most useful in the language: *ṭhīk hai* ("OK / agreed"), *sab ṭhīk?* ("all well?"). Not every word has a far-flung cognate, and that is worth seeing too: *ṭhīk* is Indian to the core.
CDIAL lists it under a reconstructed **ṭhīkka*, "firm, right", which it derives, probably, from Sanskrit *sthita*, "standing" (CDIAL 5503).

Grammar Lens: the reply

Put it together: ਮੈਂ ਠੀਕ ਹਾਂ (*maiṁ ṭhīk hāṁ*) — "**I am fine**" (literally "I fine am," verb last). Add thanks: *maiṁ ṭhīk hāṁ, dhannavād.* The whole exchange:

> — *tusī̃ kivēṁ ho?* (“How are you?”) — *maiṁ ṭhīk hāṁ, dhannavād.* (“I’m fine, thank you.”)

Your turn

Say these aloud:

- “ṭhīk” — feel the retroflex *ṭh*
- the full reply — *maiṁ ṭhīk hāṁ*
- the casual “OK” — *ṭhīk hai*

Before you move on

Give the reply to *tusī̃ kivēṁ ho?* aloud. (*Maiṁ ṭhīk hāṁ.*)

3.8 Koī gall nahīṁ — “it’s nothing”

> When someone thanks you — or apologises — this is the easy, gracious reply, built on a word from Chapter 1.

The letters in this word

koī (“any”) + ਗੱਲ (*gall*, “matter, talk” — note the *addak*, the doubling mark, on ◌ੱਲ) + ਨਹੀਂ (*nahīṁ*, “not,” from Chapter 1) → *koī gall nahīṁ.* The first word’s spelling, which ends on a standalone long-*ī* letter, comes later.

The word, taken apart — its roots and family

Koī gall nahīṁ literally means “**[there is] no matter**” — *koī* (“any”) + *gall* (“matter, thing, talk”) + *nahīṁ* (“not”). It serves as “it’s nothing / no worries / never mind / you’re welcome.” The word ਗੱਲ (*gall*, “talk, matter”) is a warm, everyday native Punjabi word — *gall karnā* (“to have a chat”). And ਨਹੀਂ (*nahīṁ*) you already met in Chapter 1: the ancient negative *na-*, the same PIE ***ne** behind English **no**, **not**, **none**.

Your turn

Say these aloud:

- “koī gall nahīṁ”
- what it literally means (“[there is] no matter”)
- the exchange — *dhannavād / koī gall nahīṁ*

> Before you move on
>
> What does *koī gall nahīṁ* literally say, and which Chapter-1 word does it reuse? (“There’s no matter”; *nahīṁ*, “not” — from PIE **ne*, English *no*.)

3.9 Chapter 3 — The how-are-you exchange

No new words. The whole responding cycle, from atoms you now own.

The exchange

Say these aloud:

- “How are you?” (respectful) — *tusī̃ kivēṁ ho?*
- “I’m fine, thank you.” — *maiṁ ṭhīk hāṁ, dhannavād.*
- “It’s nothing / you’re welcome.” — *koī gall nahīṁ.*
- the familiar question — *tū̃ kivēṁ haiṁ?*

Your turn — the atoms

Say these aloud:

- the k- question-word for “how” (*kivēṁ*)
- “I” and its copula (*maiṁ*, *hāṁ*)
- the homophone trap — *hāṁ* means both “am” and “yes”

The word, taken apart — its roots and family

- *kivēṁ* ← the interrogative *k-* (PIE *$^{*}k^{w}o$-*), cousin of English *how/what*
- *maiṁ* ← *ma-* (PIE **me-*), cousin of English *me/my*
- *ṭhīk* — native Indian "fine," no European cognate
- *koī gall nahīṁ* — "no matter"; *nahīṁ* ← PIE **ne*, English *no*

Before you move on

A stranger asks *tusı̃̄ kivēṁ ho?* — give a full, polite reply, and answer their thanks. (*Maiṁ ṭhīk hāṁ, dhannavād* — and to thanks, *koī gall nahīṁ*.)
Independent Gurmukhi reading and writing are **not scored here**. Chapter 3 still contains untaught forms; #13068 must build their visible-model, guided-copy, delayed-copy, and dictation runway before either skill can earn credit. A romanized answer never counts as Gurmukhi writing.

Chapter 4

Farewells

Modes: 🚗 **voice** (3) 👁 **eyes** (3) ↙ **pen** (1) 🚗 **Hands-free start:** the first 5 of 7 lessons.

> ***By the end of this chapter:*** I can end a Punjabi conversation politely and choose a farewell that fits the situation.
>
> *Complete separate oral listening and speaking checks: hear a parting and say what it promises, then part three ways yourself — the formal sat srī akāl, the everyday phir milāṁge, and the blessing rabb rākhā. Independent Gurmukhi reading and writing remain blocked until #13068 teaches the forms.*

4.1 ਫਿਰ (phir) — “again,” the seed of “see you again”

> One small word turns a goodbye from “farewell” into “**till next time**.”

The letters in this word

ਫ (*pha*, an aspirated *p*) + ਿ (the *sihārī*, *i*-sign) + ਰ (*ra*) → ਫਿਰ (*phir*).

Only ਰ is yours to read so far. The other two pieces are shapes to notice, not to decode: a later session in this chapter teaches them.

The word, taken apart — its roots and family

ਫਿਰ (*phir*) means “again, then, afterwards” — a native Indo-Aryan adverb (the same word as Hindi *phir*) with no tidy English cognate, but a familiar *job*: it turns a parting into a promise. English “see you **again**,” Punjabi *phir milāṁge* (“we’ll meet **again**”).

Your turn

Say these aloud:

- “phir” — mind the aspirated *ph*
- what it adds to a goodbye (“again / then”)

Before you move on

What does *phir* mean, and what does it do to a farewell? (“Again / then”; it makes the parting a promise of return.)

4.2 ਮਿਲਾਂਗੇ (milāṁge) — “(we) will meet”

A future-tense verb — the other half of “see you again.”

The letters in this word

ਮਿ (*mi*) + ਲਾਂ (*lāṁ*, *la* + long *ā* + nasal) + ਗੇ (*ge*) → ਮਿਲਾਂਗੇ (*milāṁge*). You already read ਮ and ਲ. The rest are shapes to notice for now.

The word, taken apart — its roots and family

ਮਿਲਾਂਗੇ (*milāṁge*, “we will meet”) is the future of *milṇā* (“to meet, to be found”), from Sanskrit *mil-* (“to join, unite”) — the root of *milāp* (“a union, meeting”).

Grammar Lens: the future is an ending

Punjabi marks the future with an ending on the stem: *mil-* (“meet”) + *-āṁge* (“we will”) → *milāṁge*. No helper-word like English “will” — the tense lives in the ending.

Your turn

Say these aloud:

- “milāṁge”
- the root and its cousin-noun (*mil-* “to join,” *milāp* “a meeting”)

Before you move on

What verb is *milāṁge* from, and how does Punjabi mark “will”? (*Milṇā* “to meet,” from Sanskrit *mil-*; with the ending *-āṁge*, not a separate word.)

4.3 ਫਿਰ ਮਿਲਾਂਗੇ (phir milāṁge) — “we’ll meet again”

The warm, everyday goodbye — where Chapter 1’s *sat srī akāl* is the formal one.

The word, taken apart — its roots and family

ਫਿਰ ਮਿਲਾਂਗੇ = **ਫਿਰ** (*phir*, “again”) + **ਮਿਲਾਂਗੇ** (*milāṁge*, “we will meet”) — “**we’ll meet again**.” Chapter 1 gave you *sat srī akāl*, the Sikh greeting that doubles as a formal goodbye; *phir milāṁge* is the everyday, hopeful one — the same “promise of return” the whole subcontinent prefers to a blunt farewell (Hindi *phir milenge*, Bengali *āshi*, Tamil *pōy varugiṟēṉ*). Even more casual: *phir mildē hāṁ* (“(we) meet again,” present for a near future).
Both words are inherited. *phir* is the absolutive of **phirati*, “turns”, used as an adverb (CDIAL 9078), and *milāṁge* is the future of *milṇā*, “to meet”, from Sanskrit *milati*, “meets, encounters” (CDIAL 10133).

Your turn

Say these aloud:

- the warm goodbye — *phir milāṁge*
- the two words it’s built from (*phir* + *milāṁge*)
- the Hindi twin of the phrase (*phir milenge*)

Before you move on

What does *phir milāṁge* literally say, and when would you use it over *sat srī akāl*? (“We’ll meet again”; for everyday partings, where *sat srī akāl* is the formal Sikh greeting-goodbye.)

4.4 The wellbeing cycle returns at R2

Keep three oral scores: respectful question, natural reply, and courtesy close. Repair only a missed turn.

The exchange

- *Ask: tusī̃ kivēṁ ho?*
- *Reply: maiṁ ṭhīk hāṁ*; then name its first-person *m-* family
- *Close: koī gall nahīṁ*; then name the negative *n-* family

Romanization records speech only. Gurmukhi reading and writing remain unscored until #13068 closes the load-bearing script runway.

Before you move on

Perform the three turns once more without looking back.

4.5 ਰੱਬ ਰਾਖਾ (rabb rākhā) — “God keep you”

A tender Punjabi goodbye — one that puts you in God’s care.

The letters in this word

ਰੱਬ (*rabb*, “God” — note the *addak* doubling on ੱਬ) + ਰਾਖਾ (*rākhā*, “keeper, protector”). Both words open with the ਰ you already read.

The word, taken apart — its roots and family

ਰੱਬ ਰਾਖਾ means “[**may**] **God** [**be your**] **keeper**” — *rabb* (“God”) + *rākhā* (“protector,” from *rakhṇā*, “to keep, protect,” ← Sanskrit *rakṣ-*, “to guard,” the root of *rākṣas* and of English-borrowed *rakhi*). The word for God, ਰੱਬ (*rabb*), is itself telling: it is **Arabic** *rabb* (“lord, master”) — the same *rabb* of Arabic *rabb al-ᶜālamīn* (“Lord of the worlds”). So this most Punjabi of farewells fuses an **Arabic** name for God with a **Sanskrit** verb of keeping — Punjabi’s two vocabularies in one blessing. Warmer still: *rabb rākhā, phir milāṁge* (“God keep you, we’ll meet again”).

Your turn

Say these aloud:

- “rabb rākhā”
- its two heritages (Arabic *rabb* “God” + Sanskrit *rakṣ-* “to keep”)
- pair it with the other goodbye — *rabb rākhā, phir milāṁge*

Before you move on

What does *rabb rākhā* mean, and what two vocabularies meet in it? (“God [be your] keeper”; Arabic *rabb* “God” + Sanskrit *rakṣ-* “to protect.”)

4.6 ਫ · ਗ · ਿ — three pieces met inside a word you already say

The first word of this chapter is three pieces long, and the last one arrives today.

First, say the last things you learned once more, out loud and from memory:

- *Say it: ṭhīk · koī gall nahīṁ*

Script you’ll notice: ਫ · ਗ · ਿ

ਫ

phapphā — *pha.* A consonant with a puff of breath after it — *p* plus an audible *h*, not the *f* of English *phone.*

ਗ

gaggā — *ga*. A consonant, the voiced *g* of *go*, with no breath after it.

◌ਿ

sihārī — -*i*. A mātrā for short *i*, and the one that surprises everybody: it is **written before** the consonant it is **spoken after**.

Now put them where you have already heard them:

ਫ + ◌ਿ + ਰ → ਫਿਰ (*phir*)

ਫਿਰ — *phir* — **again, then**

You are not being asked to write any of this. You are being asked to **recognise** it the next time it goes past.

Writing: copy what you can see

Keep ਫ · ਗ · ◌ਿ in front of you and do not cover any of them. Follow each shape once with a finger, then copy it once with a pencil, larger than it is printed. Say its sound as your hand stops.

> This is **observe-and-trace with the model visible**.
> Nothing in these chapters asks you to write a Punjabi word from memory; that ladder starts later, and it starts from these same shapes.

Your turn

- *Look:* at ਫਿਰ and point to each of today's pieces in turn
- *Say it:* *pha*, *ga*, -*i*, then the whole word — *phir*
- *Look:* back at the headword at the top of any earlier lesson in this chapter and find one shape you now know

Before you move on

Name today's pieces: *phapphā*, *gaggā*, *sihārī*. Which of them is a **mātrā** or a mark rather than a letter, and what does ਫਿਰ say? (*phir*, "again, then".)

4.7 Chapter 4 — The farewells

No new words. Three ways to part, from the formal to the tender.

The exchange — three ways to part

Say these aloud:

- the formal Sikh greeting-goodbye (Chapter 1) — *sat srī akāl*
- the everyday “we’ll meet again” — *phir milāṁge*
- the blessing “God keep you” — *rabb rākhā*
- the two together — *rabb rākhā, phir milāṁge*

Your turn — the atoms

- *Say it:* “again” and “(we) will meet” (*phir*, *milāṁge*)
- *Say it:* the ending that carries “we will” (-*āṁge*)
- *Look:* at ਫਿਰ and name the three pieces this chapter taught you — *phapphā*, *gaggā*, *sihārī*

The word, taken apart — its roots and family

- *milāṁge* ← *mil-* “to join” (*milāp*, “a meeting”)
- *rabb* ← Arabic “Lord/God”; *rākhā* ← Sanskrit *rakṣ-* “to protect”
- the future -*āṁge* ending — “we will,” carried in the verb

Before you move on

You’re leaving a friend and expect to see them soon. Give the warm goodbye, then bless them on the way. (*Phir milāṁge* — and *rabb rākhā.*)
Independent Gurmukhi reading and writing are **not scored here**. Romanization is evidence for spoken recall only; a typed romanization never counts as Gurmukhi writing.

Chapter 5

The First Verbs

Modes: 🚗 **voice** (2) 👁 **eyes** (5) ↙ **pen** (1) 🚗 **Hands-free start:** the first 6 of 8 lessons.

> ***By the end of this chapter:*** I can say what language I speak, where I live and what I do, building each sentence from a verb stem, a gender ending and the copula.
>
> *Complete separate oral listening and speaking checks: hear a present-habitual sentence and say what its ending reveals about the speaker, then build three sentences about yourself — your language, your city and your work. Independent Gurmukhi reading and writing remain blocked until #13068 teaches the forms.*

5.1 ਬੋਲਣਾ (bolṇā) — "to speak," your first full verb

> Until now, "to be." Here is a verb that *does* something — in a shape you'll see on every Punjabi verb.

The letters in this word

ਬ (*ba*) + ◌ੋ (the *horā*, *o*-sign) → ਬੋ (*bo*); ਲ (*la*); ਣਾ (*ṇā*, retroflex *ṇ* + long *ā*). Read ਬੋ · ਲ · ਣਾ → *bolṇā.*

None of these pieces is yours to read yet. A later session in this chapter teaches ਬ, ਲ and ◌ੋ; until then the word travels by ear.

The word, taken apart — its roots and family

ਬੋਲਣਾ (*bolṇā*, “to speak”) is a native Indo-Aryan verb (the same word as Hindi *bolnā*). Its ending **-ਣਾ** (*-ṇā*) is the point: **every** Punjabi verb, named in the dictionary, ends in *-ṇā* (or *-nā*) — Punjabi’s “to _____”: *bol-ṇā* “to speak,” *mil-ṇā* “to meet” (from *milāṁge*), *rakh-ṇā* “to keep” (from *rabb rākhā*).

Grammar Lens: stem + ending

Strip the *-ṇā* and you have the **stem**: *bol-*. The stem holds the action; endings pin down who and when: *bol-dā* (speaking, m.), *bol-dī* (speaking, f.), *bol* (speak!, familiar command). Every tense in this book is built by adding to a stem like this.

Your turn

Say these aloud:

- “bolṇā”
- the stem left when you strip *-ṇā* (*bol-*)
- three verbs whose stems you can now hear (*bol-, mil-, rakh-*)

Before you move on

What is *bolṇā*’s stem, and what do you take off to find it? (*bol-*; the infinitive ending *-ṇā*.)

5.2 ਪੰਜਾਬੀ (panjābī) — the language names itself after five rivers

You have a verb for speaking. Before you can say what you speak, you need the name of the language itself.

The letters in this word

ਪੰ (*paṁ*, with the *ṭippī* nasal) + ਜਾ (*jā*) + ਬੀ (*bī*) → ਪੰਜਾਬੀ (*panjābī*). Shapes to notice only. Say the word; the reading comes later.

The word, taken apart — its roots and family

ਪੰਜਾਬੀ (*panjābī*) is the name of the language — and it is **Persian**: *panj* ("five") + *āb* ("water, river") = "**[the language] of the five rivers**," for the five great rivers that cross the Punjab. The very name of the language is a small Persian geography lesson.

And *panj* itself is an old relative: it is a distant cousin of English **five**, Latin *quinque* and Greek *pente*, all from one Indo-European word for the number. A later chapter comes back to *panj* as an ordinary number you can count with.

Your turn

Say these aloud:

- "panjābī"
- its two Persian halves (*panj* "five" + *āb* "water, river")
- the English cousin of *panj* (*five*)

Before you move on

Unpack the name *panjābī*, and name the English cousin of its first half. (*Panj* "five" + *āb* "river"; *panj* is cousin to English *five*.)

5.3 ਮੈਂ ਪੰਜਾਬੀ ਬੋਲਦਾ ਹਾਂ (maiṁ panjābī boldā hāṁ) — "I speak Punjabi"

Three words you already own — "I," the language, the verb. Here they become your first complete, moving sentence.

The word, taken apart — its roots and family

ਮੈਂ ਪੰਜਾਬੀ ਬੋਲਦਾ ਹਾਂ = ਮੈਂ (*maiṁ*, "I") + ਪੰਜਾਬੀ (*panjābī*, the object) + ਬੋਲਦਾ (*boldā*, "speak," m.) + ਹਾਂ (*hāṁ*, "am") — literally "**I Punjabi speaking am**," with the verb-frame last, exactly as *hai* first showed you.

ਬੋਲਦਾ (*boldā*) is the stem *bol-* plus **-ਦਾ** (*-dā*). Nothing new has been added to the verb but an ending.

Its pieces come from two sources: *maiṁ* goes back to the Sanskrit first-person base *ma-* (CDIAL 9691) and *bol-* to a reconstructed **bōll*, "speak" (CDIAL 9321), while *panjābī* is built on Persian *panj āb*, "five waters".

Grammar Lens: the present habitual, gendered

To say "I do X," Punjabi uses **stem + -dā/-dī + the copula**, and the participle **agrees with the speaker's gender**:

- a man: ਮੈਂ ਪੰਜਾਬੀ ਬੋਲਦਾ ਹਾਂ (*boldā hāṁ*)
- a woman: ਮੈਂ ਪੰਜਾਬੀ ਬੋਲਦੀ ਹਾਂ (*boldī hāṁ*)

The *-dā/-dī* marks the speaker — a feature English has no trace of.

Your turn

Say these aloud:

- *maiṁ panjābī boldā hāṁ* (a man) · *maiṁ panjābī boldī hāṁ* (a woman)
- which ending would be yours (*-dā* or *-dī*)

Before you move on

Build "I speak Punjabi" as a woman, and say which word changed. (*Maiṁ panjābī boldī hāṁ* — the participle, *boldā* becoming *boldī*.)

5.4 ਰਹਿਣਾ (rahiṇā) — "to live, to stay"

A second verb, so you can say where you live — and watch the *stem + ending* machine work a second time.

The letters in this word

ਰ (*ra*) + ਹਿ (*hi*) + ਣਾ (*ṇā*, the retroflex infinitive) → ਰਹਿਣਾ (*rahiṇā*). The opening ਰ is one you read already.

The word, taken apart — its roots and family

ਰਹਿਣਾ (*rahiṇā*, “to live, to remain, to stay”) is from Sanskrit *rah-* (“to remain”) — the same verb as Hindi *rahnā*. It covers both “reside” and “keep on”: *maiṁ Amritsar rahindā hāṁ* (“I live in Amritsar”). Stem *rahi-* + *-dā/-dī* + copula, exactly like *bolṇā*.

Grammar Lens: “in” comes after the noun (or is dropped)

maiṁ Amritsar rahindā hāṁ — “I live in Amritsar.” Punjabi, like Hindi, uses **post**positions (*vic*, “in”) where English uses prepositions — and with a place-name it often drops “in” entirely. The verb, as ever, is last.

Your turn

Say these aloud:

- *maiṁ Amritsar rahindā hāṁ* (a man) · *maiṁ Amritsar rahindī hāṁ* (a woman)
- where Punjabi puts “in,” if it says it at all (after the noun)

Before you move on

Say “I live in Amritsar,” and name the root of *rahiṇā*. (*Maiṁ Amritsar rahindā/rahindī hāṁ*; Sanskrit *rah-*, “to remain.”)

5.5 ਕਰਨਾ (karnā) — “to do,” the verb whose root you met in your first greeting

The third verb of the chapter — and the one whose root has been sitting inside a word you have said since your very first greeting.

The letters in this word

ਕ (*ka*) + ਰ (*ra*) + ਨਾ (*nā*) → ਕਰਨਾ (*karnā*). Two of the three pieces are already yours to read.

The word, taken apart — its roots and family

ਕਰਨਾ (*karnā*, “to do, to make”) is from the Sanskrit root √*kṛ* (“to do”), from PIE ***kʷer-** — one of Sanskrit’s most productive roots. You met its family in Chapter 1’s ਨਮਸਤੇ/ਨਮਸਕਾਰ (*namaskār* = *namas* + *kār*, “the **making** of a bow”) and in *karma* (“a thing **done**”). Strip -*nā* and the stem is *kar*-, exactly as *bol*- and *rahi*- came out of their infinitives.

Your turn

Say these aloud:

- “karnā” and its stem (*kar*-)
- the Chapter-1 word that shares its root (*namaskār* — the “making” of a bow)

Before you move on

What Sanskrit root is *karnā* from, and name a Chapter-1 word built on it. (√*kṛ*, “to do”; *namaskār* — “the making of a bow.”)

5.6 ਕੰਮ ਕਰਨਾ (kamm karnā) — “to work”

You have “to do.” Put a noun in front of it and Punjabi builds a whole family of verbs.

The letters in this word

ਕੰਮ (*kamm*, “work”): ਕੰ (*kaṁ*, with the *ṭippī* nasal) + ਮ (*ma*). Both ਕ and ਮ are already yours.

The word, taken apart — its roots and family

ਕੰਮ (*kamm*) is the noun “work” — the thing done, from the same √*kṛ* family as *karnā*. Said on its own it means a job, a task, a piece of business: *bahut kamm hai* (“there is a lot of work”).
Both words are inherited: *kamm* from Sanskrit *karman*, “act, work” (CDIAL 2892), and *karnā* from *karoti*, “does” (CDIAL 2814).

Grammar Lens: noun + ਕਰਨਾ

Like Hindi, Punjabi builds countless verbs as **noun + ਕਰਨਾ**:

- ਕੰਮ ਕਰਨਾ (*kamm karnā*) = "work-do" = "**to work**"
- *gall karnā* = "to have a chat" (*gall*, the "matter/talk" you already know from *koī gall nahīṁ*)

So *maiṁ kamm kardā hāṁ* = "I work." Learn *karnā* and a whole grammar of "do-verbs" opens up.

Your turn

Say these aloud:

- "kamm karnā" (to work)
- "I work" (m./f.) — *maiṁ kamm kardā hāṁ / kardī hāṁ*
- one more noun-plus-*karnā* verb (*gall karnā*, "to have a chat")

Before you move on

How does Punjabi say "to work," and what is the pattern? (*Kamm karnā*, "work-do"; a noun in front of *karnā*.)

5.7 ਬ · ਲ · ◌ੋ — three pieces met inside a word you already say

The stem of this chapter's first verb is three pieces, and they are today's three.

First, say the last things you learned once more, out loud and from memory:

- *Say it: tusī̃ kivēṁ ho — maiṁ ṭhīk hāṁ — koī gall nahīṁ · rabb rākhā*

Script you'll notice: ਬ · ਲ · ◌ੋ

ਬ

babbā — *ba.* A consonant, the voiced *b* of *bat*, with no breath after it.

ਲ

lallā — *la.* A consonant, a clear *l* made at the teeth — never the dark *l* at the end of English *full.*

◌ੋ

horā — *-o.* A mātrā for *o*, written as a single stroke **above** the head-line.

Now put them where you have already heard them:

ਬ + ◌ੋ → ਬੋ (*bo*); ਬੋ + ਲ → ਬੋਲ (*bol*)

ਬੋਲ — *bol* — **speak — the bare stem of this chapter's first verb**

You are not being asked to write any of this. You are being asked to **recognise** it the next time it goes past.

Writing: copy what you can see

Keep ਬ · ਲ · ◌ੋ in front of you and do not cover any of them. Follow each shape once with a finger, then copy it once with a pencil, larger than it is printed. Say its sound as your hand stops.

> This is **observe-and-trace with the model visible**. Nothing in these chapters asks you to write a Punjabi word from memory; that ladder starts later, and it starts from these same shapes.

Your turn

- *Look:* at ਬੋਲ and point to each of today's pieces in turn
- *Say it:* *ba*, *la*, *-o*, then the whole word — *bol*
- *Look:* back at the headword at the top of any earlier lesson in this chapter and find one shape you now know

Before you move on

Name today's pieces: *babbā*, *lallā*, *horā*. Which of them is a **mātrā** or a mark rather than a letter, and what does ਬੋਲ say? (*bol*, "speak — the bare stem of this chapter's first verb".)
Source: Unicode Gurmukhi chart.

5.8 Chapter 5 — The first verbs

No new words. Three verbs, one engine — build real sentences about yourself.

The exchange — three sentences about yourself

Say these aloud:

- "I speak Punjabi" (m./f.) — *maiṁ panjābī boldā/boldī hāṁ*
- "I live in Amritsar" — *maiṁ Amritsar rahindā/rahindī hāṁ*
- "I work" — *maiṁ kamm kardā/kardī hāṁ*

Your turn — the engine

- *Say it:* what you strip off an infinitive to reach the stem (*-ṇā/-nā*)
- *Say it:* the two agreements in a present sentence (*-dā/-dī* for gender; *hāṁ/haiṁ/ho* for person)
- *Say it:* where the verb sits, and which side of a noun "in" would sit (last; after the noun)
- *Look:* at ਬੋਲ and name this chapter's three pieces — *babbā*, *lallā*, *horā*

The word, taken apart — its roots and family

- *bolṇā* "to speak" (native Indo-Aryan)
- *rahiṇā* "to live" ← *rah-* "to remain"
- *karnā* "to do" ← *√kṛ* — the root of *namaskār* and *karma*
- *panjābī* ← *panj* "five" (cousin of English *five*) + *āb* "river"

Before you move on

In one breath, tell me your language, your city, and your work in Punjabi (as a woman). (*Maiṁ panjābī boldī hāṁ. Maiṁ … rahindī hāṁ. Maiṁ kamm kardī hāṁ.*)
Independent Gurmukhi reading and writing are **not scored here**. Romanization is evidence for spoken recall only; a typed romanization never counts as Gurmukhi writing.

Chapter 6

Numbers One to Five

Modes: **voice** (5) **pen** (1) **Hands-free start:** none of the 6 lessons.

> ***By the end of this chapter:*** I can count from one to five in Gurmukhi, tell the addak apart from the tippi, and show that ਪੰਜ is inherited from Sanskrit rather than borrowed from the Persian panj in Punjab.
>
> *Set Punjabi ਪੰਜ beside Persian panj and argue the match is convergence, not borrowing: post-nasal voicing carried pañca to panj on the Indo-Aryan side, with panjāh against Hindi pacās as the evidence, while Iranian panč voiced separately.*

6.1 ਅ · ਆ — two pieces met inside a word you already say

The two letters a Punjabi word uses when it opens on a vowel and has no consonant to hang a mātrā on.

First, say the last things you learned once more, out loud and from memory:

- *Say it: rahiṇā · kamm karnā*

Script you'll notice: ਅ · ਆ

ਅ

aiṛā — *a*. The bare **vowel carrier**. On its own it is *a*; with a mātrā hung on it, it is whatever that mātrā says.

ਆ

aiṛā + kannā — *ā*. The vowel carrier wearing the *kannā* you already know — so it is long *ā*, at the start of a word.

Now put them where you have already heard them:

> ਅ alone is *a*; ਆ is the same carrier wearing the *kannā* you already know.
>
> ਆ + ਸ → ਆਸ (*ās*)
>
> ਆਸ — *ās* — **hope**

You are not being asked to write any of this. You are being asked to **recognise** it the next time it goes past.

Writing: copy what you can see

Keep ਅ · ਆ in front of you and do not cover any of them. Follow each shape once with a finger, then copy it once with a pencil, larger than it is printed. Say its sound as your hand stops.

> This is **observe-and-trace with the model visible**. Nothing in these chapters asks you to write a Punjabi word from memory; that ladder starts later, and it starts from these same shapes.

Your turn

- *Look:* at ਆਸ and point to each of today's pieces in turn
- *Say it:* *a*, *ā*, then the whole word — *ās*
- *Look:* back at the headword at the top of any earlier lesson in this chapter and find one shape you now know

Before you move on

Name today's pieces: *aiṛā*, *aiṛā + kannā*. Which of them is a **mātrā** or a mark rather than a letter, and what does ਆਸ say? (*ās*, "hope".) Source: Unicode Gurmukhi chart.

6.2 ਇੱਕ, ਦੋ, ਤਿੰਨ, ਚਾਰ, ਪੰਜ — one to five

Four of these are new. The fifth you have known since **Chapter 5** — you just didn't know it was a number.

You'll want to know: the five

	Punjabi	said
1	ਇੱਕ	*ikk*
2	ਦੋ	*do*
3	ਤਿੰਨ	*tinn*
4	ਚਾਰ	*chār*
5	ਪੰਜ	*panj*

This is **Gurmukhi**, not Devanagari — a related but distinct script. It does have a top line like Devanagari's, so words hang from a bar in the same way.

The word, taken apart — its roots and family

All five are inherited from Sanskrit. *ikk* comes from **ekka*, which replaced *eka*, "one" (CDIAL 2462); *do* from *dva*, "two" (CDIAL 6648); *tinn* from *trīṇi*, "three" (CDIAL 5994); *chār* from *catvāraḥ*, "four" (CDIAL 4655); and *panj* from *pañca*, "five" (CDIAL 7655).

Your turn

- *Say it:* "ikk, do, tinn, chār, panj"

Before you move on

Count to five in Punjabi. (*Ikk, do, tinn, chār, panj.*) What script is this? (**Gurmukhi** — related to Devanagari, and it has a top line too.) Next: the two small marks riding on *ikk*, *tinn* and *panj*.

6.3 ◌ੱ and ◌ੰ — two marks, and five as a number

Count to five once more: *ikk, do, tinn, chār, panj*. Three of those words carry a small mark above them. Which? (*Ikk*, *tinn* and *panj*.)

And the script you are reading: what does Gurmukhi share with Devanagari across the top of each word? (The top line.)

What you’ve built: two marks that look alike

Two marks worth telling apart, because they look similar and do different jobs:

- ◌ੱ — the **addak**, on *ikk*. It **doubles the following consonant**.
- ◌ੰ — the **tippi**, on *tinn* and *panj*. It marks a **nasal**.

(So *tinn*’s double *n* is not the addak’s doing — that word is spelled with a nasal mark, and the doubling is in the pronunciation.)

What you’ve built: ਪੰਜ as a number

Chapter 5 took the name ਪੰਜਾਬੀ (*panjābī*) apart for you: Persian ਪੰਜ *panj*, “five,” plus ਆਬ *āb*, “water” — the language **of the five rivers**. You learned *panj* there as a piece of a place-name. Here it arrives as what it actually is: **the number five**, an ordinary word you will count with.

The next prerequisite-ordered lesson explains an important twist: Punjabi’s numeral and the Persian word reached the same *panj* shape independently.

Your turn

Say these aloud:

- the two marks — “**addak** doubles, **tippi** nasalises”
- the Ch. 5 callback — “**panj** + **āb** = five rivers”

Before you move on

What do ◌ੱ and ◌ੰ each do? (**Addak** doubles the following consonant; **tippi** marks a nasal.) Chapter 5 told you *panjābī* means “of the five rivers.” What has changed now? (***Panj* is a number you can count with**, not just a piece of a name.) Next: learn why Punjabi and Persian both say *panj*.

6.4 *Panj*: the odd one out among its neighbours

Say “five” in Punjabi. (*Panj.*) Where did Chapter 5 first show that shape? (Inside Persian *panj* + *āb*, “five waters.”)

In ਪੰਜ, which mark sits on top, and what does it do? (The tippi, ◌ੰ: a nasal.) And the addak, the small crescent? (It doubles the next consonant.)

What you’ve built: the surprising family comparison

language	**“five”**
Sanskrit	*pañca*
Hindi	*pāṁch*
Bengali	*pā̃ch*
Gujarati	*pā̃ch*
Punjabi	***panj***
Persian	***panj***

The neighbours keep a **-ch** shape. Punjabi matches Persian **-j**, but the obvious borrowing story is wrong.

Your turn

Say these aloud:

- the neighbours’ *-ch* — Hindi *pāṁch*, Bengali and Gujarati *pā̃ch*
- the language whose “five” matches Punjabi’s — Persian *panj*

Before you move on

Which neighbours keep a *-ch* in “five”? (Hindi, Bengali, Gujarati.) Which language says *panj*, exactly as Punjabi does? (Persian.) So did Punjabi borrow it? Next: the answer is no.

6.5 Punjabi’s *panj* is homegrown

Which other language says *panj*, exactly as Punjabi does? (Persian.) Was Punjabi’s number borrowed from it?

The word, taken apart — its roots and family

Punjabi *panj* is inherited from Sanskrit *pañca*. North-western Indo-Aryan regularly **voiced a stop after a nasal**, turning *-ñc-* into *-nj-*.
Punjabi **panjāh** "fifty" (from Sanskrit *pañcāśat*) makes the rule visible; Hindi **pacās** shows the same source changing differently.

Your turn

- *Say it:* Punjabi's path and proof — Sanskrit *pañca* → post-nasal *-nj-*; *panjāh / pacās*

Before you move on

Borrowed from Persian? (No: Punjabi *panj* inherits Sanskrit *pañca*.) What made *-nj-*? (A post-nasal stop voiced.) Evidence? (*Panjāh / pacās*.) Next: how Persian reached the same shape.

6.6 Persian reached *panj* separately

Punjabi's *panj* comes from which Sanskrit word? (*Pañca*.)

The word, taken apart — its roots and family

Persian independently voiced ancestral *č* to *j*: Iranian *panč* became *panj*. Two Indo-Iranian branches therefore reached the same shape separately:

branch	**path**
Punjabi	Sanskrit *pañca* → nasal-triggered *-nj-*
Persian	Iranian *panč* → voiced *panj*

This is **convergence, not borrowing**. The **place-name** *Punjab* is Persian; Punjabi's look-alike **numeral** is inherited from Sanskrit.

Your turn

Say these aloud:

- Persian's path and the conclusion — *panč* → *panj* independently; convergence, not borrowing
- Persian place-name, inherited Punjabi number

Before you move on

Persian's path? (Its ancestral *č* voiced separately.) In *Punjab*, what is Persian? (The place-name; Punjabi's number is homegrown.)

Chapter 7

Six Verbs at the Core

Modes: 🚗 **voice** (9) ↙ **pen** (2) 🚗 **Hands-free start:** the first 2 of 11 lessons.

> ***By the end of this chapter:*** I can name six everyday Punjabi verbs by the -ਣਾ/-ਨਾ ending, strip that ending to reach the stem, trace each one to its Sanskrit and Indo-European root, and explain how the lost breathy consonants left Punjabi with a tone no other major Indo-Aryan language has.
>
> *The sixth verb runs the whole chapter at once: hold the doubled n that keeps jāṇnā apart from jāṇā, separate the two* ਜ *that came from different Sanskrit sounds, strip the stem off all six infinitives, and state that none of them carries a tone.*

7.1 ਹੋਣਾ — "to be," and the two old verbs braided inside it

You have been saying ਹੈ *hai*, "is," since Chapter 2. Here is the verb it belongs to — and it sounds nothing like it.

You'll want to know first — one word

ਹੋਣਾ — *hoṇā* — **to be**

Four shapes, hanging from the top line: ਹ *h*, with the ੋ sign on it for *o*; then ਣ, an *n* made with the tongue tip curled back; then ਾ for long *ā*. It reads *ho-ṇā*.

The ending **-ਣਾ** *-ṇā* is how Punjabi names a verb — the same ending that sat on *bolṇā*. English names a verb by putting a word in front of it, *to be*; Punjabi puts an ending on the back and never uses a separate word. Take that ending off and what remains is the **stem**: **ho-**.

The word, taken apart — its roots and family

hoṇā comes from Sanskrit *bhavati*, “becomes,” built on the root *bhū-*. Middle Indo-Aryan softened that *bh-* to *h-*, so *bhavati* thinned to *hoi* and then to **hoṇā**.
The root is Indo-European, **b^huH-*, “grow, become.” English keeps it in **be** and **been**, and — by way of “the place where one dwells” — in **build**, **booth**, and **bower**. Latin held it as *fuī* “I was” and *futūrus*, which English borrowed as **future**. Greek held it as *phúsis* “nature,” which English borrowed as **physics**.

Your turn

- *Say it:* **hoṇā** — to be
- *Strip:* **hoṇā** minus **-ṇā** leaves the stem **ho-**
- *Connect:* **hoṇā** ← *bhavati* → English **be**

Before you move on

Which ending names a Punjabi verb, and what is left of *hoṇā* once you take it off? (**-ṇā**; the stem **ho-**.) Which English word shares its root? (**be**, from the same *bhū-* verb as *bhavati*.) Next: why *hai* looks nothing like it.

7.2 (ਹੋਣਾ, continued) — one verb, two roots

Before going on: say ਹੋਣਾ again, and what it means.

What turned Sanskrit *pañca* into Punjabi *panj*? (A stop voiced after a nasal: *-ñc-* became *-nj-*.) And the proof? (*Panjāh* “fifty,” against Hindi *pacās*.)

Grammar Lens: one verb, two roots

Chapter 2 traced ਹੈ *hai* to a different Sanskrit verb altogether — *asti*, “is,” the root behind English **is**, Latin *est*, German *ist*. So Punjabi’s “to be” is **two ancient verbs braided into one**: the name and the stem come from *bhū-*, the everyday present tense comes from *as-*. English braids the very same two, at the very same seam, and nobody notices: *am, is, are* belong to the *as-* verb; *be, being, been* belong to the $b^{h}uH$- verb.

Your turn

- *Connect:* **hoṇā** ← *bhavati* → English **be**
- *Connect:* **hai** ← *asti* → English **is**

Before you move on

Why do *hoṇā* and *hai* not resemble each other at all? (They are two different ancient verbs braided into one — the *bhū-* verb and the *as-* verb, exactly as English braids *be* with *is*.)

7.3 ਣ · ਜ · ਵ — three pieces met inside a word you already say

Almost every verb in this chapter ends in the same two pieces. Meet them.

First, say the last things you learned once more, out loud and from memory:

- *Say it: ikk do tinn chār panj · panj · panj · hoṇā*

Script you'll notice: ਣ · ਜ · ਵ

ਣ

ṇāṇā — *ṇa.* A consonant, the **retroflex** *n*: the tongue curls back and taps the roof of the mouth.

ਜ

jajjā — *ja.* A consonant, the *j* of *jam*, with no breath after it.

ਵ

vāvvā — *va.* A consonant between English *v* and *w* — the lip barely touches the teeth.

Now put them where you have already heard them:

ਹ + ੋ + ਣ + ਾ → ਹੋਣਾ (*hoṇā*)

ਹੋਣਾ — *hoṇā* — **to be**

You are not being asked to write any of this. You are being asked to **recognise** it the next time it goes past.

7.4 ਜਾਣਾ — "to go," and a sound law you can run yourself

Name the ending that turns a Punjabi stem into the verb's plain name. (**-ਣਾ** -*ṇā*.) Here is the second verb to wear it.

You'll want to know first — one word

ਜਾਣਾ — *jāṇā* — **to go**

ਜ *j*, then ◌ਾ long *ā*, then ਣ — the curled-back *ṇ* you already met inside *hoṇā* — then ◌ਾ again. Nothing new to decode. Strip the **-ਣਾ** and the stem is **jā-**.

The word, taken apart — its roots and family

jāṇā is Sanskrit *yāti*, "goes," on the root *yā-*, "travel." The *y* became a *j*, and that was not an accident about this one word. Early Indo-Aryan turned **every** initial *y-* into *j-* on the way to Punjabi, and the change is regular enough to run backwards yourself:

- Sanskrit *yoga* → Punjabi **jog**
- Sanskrit *yuvan* "young" → Punjabi **javān**
- Sanskrit *yamunā*, the river → Punjabi **Jamnā**

So a Sanskrit word beginning *y-* is very often a Punjabi word you half know already, hiding behind a *j*.

The root itself is Indo-European, *yeh_2-, “to go, travel” — the same verb as Lithuanian *jóti*, “to ride.” It is one of the rare cases where English inherited nothing usable, so the prize here is the rule, not the cousin.

Your turn

- *Say it:* **jāṇā** — to go
- *Strip:* **jāṇā** minus **-ṇā** leaves the stem **jā-**
- *Run the rule: yoga* → **jog**, *yuvan* → **javān**, *yamunā* → **Jamnā**
- *Connect:* **jāṇā** ← Sanskrit *yāti*, “goes”

Before you move on

Which Sanskrit verb is *jāṇā*, and what happened to its first sound? (*Yāti*, “goes”; the *y-* became *j-*.) Give one more word the same change caught. (*Jog*, *javān*, or *Jamnā*.)

7.5 ਆਉਣਾ — “to come,” which is “go” pointed back at you

You can say *jāṇā*, “to go.” Its opposite is not a different verb.
It is the same verb with one small piece stuck on the front.

You’ll want to know first — one word

ਆਉਣਾ — *āuṇā* — **to come**

ਆ is a whole syllable on its own, long *ā*: a Punjabi word cannot start with a bare vowel sign, so a vowel that opens a word rides a carrier letter. Then ਉ for *u*, then the familiar ਣਾ ending. It reads *ā-u-ṇā*, three beats. The stem is **ā-**.

The word, taken apart — its roots and family

āuṇā goes back to Sanskrit *ā-gacchati*, “comes.” Take that apart and it is the prefix **ā-**, “toward, hither,” sitting on the verb **gam-**, “go.” Punjabi’s “come” is literally *go-toward-me*, and the *g* wore away over the centuries until only the rounded *-u-* was left of it.

That prefix is a tool, not a one-off: Punjabi keeps *ā-* in the sense of motion **toward** the speaker, the same job English does with a separate word.

And **gam-** is the good part. It is Indo-European *$*g^w em$-*, “to step, go” — and English inherited it straight down the Germanic line as **come**. Latin took the same root as *venīre*, which English then borrowed back many times over: **advent**, **invent**, **convene**, **venue**, **event**, **revenue**, **intervene**, **souvenir**. Greek took it as *baínein*, “to step,” giving English **base**, **basis**, and **acrobat**.

So when a Punjabi speaker says *ā*, the second syllable of that word is the same ancient step as your own *come*.

Your turn

- *Say it:* **jāṇā** to go, then **āuṇā** to come
- *Split:* **ā-** toward, plus **gam-** go
- *Connect:* *gam-* ← *$*g^w em$-* → English **come**, **advent**, **acrobat**

Before you move on

What two pieces are inside *āuṇā*? (The prefix *ā-*, “toward,” and the old verb *gam-*, “go.”) Which everyday English verb is that second piece? (**Come**.)

7.6 ੜ · ਘ · ਟ — three pieces met inside a word you already say

Two shapes English has no letter for — and one of them carries a **tone**.

First, say the last things you learned once more, out loud and from memory:

- *Say it: jāṇā · āuṇā*

Script you'll notice: ੜ · ਘ · ਦ

ੜ

ṛāṛā — *ṛa.* A consonant English does not have: a **retroflex flap**, the tongue curled back and flicked forward once.

ਘ

ghaggā — *gha.* Written as a breathy *g*, but modern Punjabi says it as a plain *k*-like sound carried on a **falling tone**. The letter is the record of a sound that moved into the pitch.

ਦ

daddā — *da.* A consonant, the **dental** *d*: tongue on the teeth.
Now put them where you have already heard them:

ਘ + ◌ੋ + ੜ + ◌ਾ → **ਘੋੜਾ** (*ghoṛā*)

and the dental one, in an ending this chapter leans on: **ਦ** + ◌ਾ → **ਦਾ** (*dā*)

ਘੋੜਾ — *ghoṛā* — **horse**

You are not being asked to write any of this. You are being asked to **recognise** it the next time it goes past.

7.7 ਖਾਣਾ — "to eat," and the tone hiding one letter away

This verb is easy. Its neighbour in the alphabet is the strangest thing in the whole language, and this is where you meet it.

You'll want to know first — one word

ਖਾਣਾ — *khāṇā* — **to eat**

ਖ is *kh*: a *k* with a puff of breath after it, as in English *back-hand* said fast. Then ◌ਾ, then the ending ਣਾ. The stem is **khā-**.

It comes straight from Sanskrit *khādati*, "chews, eats." No English cousin has been securely traced from that root, and that is fine — the prize in this word is its **sound**.

Your turn

- *Say it:* **khāṇā** — to eat
- *Strip:* **khāṇā** minus **-ṇā** leaves the stem **khā-**

Before you move on

Say "to eat." (**khāṇā**.) What is its stem? (**khā-**.) Which Sanskrit word does it come from? (*khādati*, "chews, eats.") Next: the tone that only Punjabi kept.

7.8 (ਖਾਣਾ, continued) — Sounds you'll need — the tone that only Punjabi kept

Before going on: say ਖਾਣਾ again, and what it means.

The letters in this word

Gurmukhi keeps its consonants in rows of five. The *k*-row runs ਕ *ka*, ਖ *kha*, ਗ *ga*, ਘ — and that fourth letter was once *gha*, a *g* said with a breathy voice.

Punjabi lost those breathy-voiced sounds. It did **not** lose the words. When ਘ *gh* starts a word it is now said as a plain *k*, and everything the old consonant carried moved onto the vowel as a **low, rising pitch**. Same elsewhere in the word, in mirror image: the pitch falls instead. That leaves pairs which are spelled differently and pronounced identically, apart from the tune:

Punjabi	**said**
ਘੋੜਾ horse	*kòṛā*, pitch dipping then rising
ਕੋੜਾ whip	*koṛā*, pitch level

Two words, one string of consonants and vowels, and the only difference is music. That makes Punjabi the one major Indo-Aryan language with **tone** — Hindi, Urdu, Bengali, Gujarati, and Marathi have nothing like it.

Your ਖਾਣਾ is safe: ਖ *kh* is voiceless, it never had the breathy voice, so it never traded anything for a tone. *Khāṇā* is said flat.

Your turn

Say these aloud:

- **khāṇā** — to eat — flat, no tune
- the pair — *kòṛā* horse, dipping; then *koṛā* whip, level
- the rule — the old breathy *gh* went and left a pitch behind

Before you move on

What separates *kòṛā* “horse” from *koṛā* “whip”? (Pitch alone — the first dips and rises.) Where did that pitch come from? (From ਘ, an old breathy *gh* that stopped being breathy.) And does *khāṇā* carry one? (No — ਖ *kh* has no voice to lose.)

7.9 ਵੇਖਣਾ — “to see,” a verb built out of the eye itself

The ਖ *kh* you learned in *khāṇā* turns up again here, in the middle of a word this time. Same puff of breath, same flat pitch.

You’ll want to know first — one word

ਵੇਖਣਾ — *vekhṇā* — **to see, to look**

ਵ *v*, with the ੇ sign on it for *e*; then ਖ *kh*; then the ending ਣਾ. It reads *vekh-ṇā*, and the stem is **vekh-**.

Punjabi also says ਦੇਖਣਾ *dekhṇā* for the same thing, which is the form Hindi settled on. One word, two front consonants, both alive in Punjabi — *vekhṇā* is the more homely, more Punjabi-sounding of the two.

The word, taken apart — its roots and family

vekhṇā comes from Sanskrit *prekṣate*, “looks at” — the prefix *pra-*, “forth,” on the verb *īkṣ-*, “see.” And *īkṣ-* is built on *akṣi*, the Sanskrit word for the **eye**. Punjabi’s verb for seeing is, underneath, the organ you do it with.

That noun is Indo-European, *h_3ek^w-, and English is full of it. Inherited plainly: **eye** — and **window**, borrowed from Norse *vindauga*, a “wind-eye,” the hole that let the smoke out. Borrowed from Latin *oculus*: **ocular**, **binoculars**, **inoculate**. Borrowed from Greek *ōps* and *optikós*: **optic**, **optician**, **autopsy** (seeing for oneself), **synopsis**, **myopia**.

So *vekhṇā*, *eye*, *window*, and *autopsy* are four settlements of one very old word for the thing in your head.

Your turn

- *Say it:* **vekhṇā** — to see — then its twin **dekhṇā**
- *Strip:* **vekhṇā** minus **-ṇā** leaves **vekh-**
- *Connect:* *īkṣ-* ← *h_3ek^w- → English **eye**, **optic**, **window**

Before you move on

What noun is hiding inside *vekhṇā*? (The **eye** — Sanskrit *akṣi*, behind the verb *īkṣ-*.) Name two English words off that root. (Any of **eye**, **window**, **ocular**, **optic**, **autopsy**.) And what is the Hindi-shaped twin of this verb? (*Dekhṇā*.)

7.10 Every wellbeing atom returns at R3

No new language. Listen once, then speak two short turns.
Keep each score independent and repair only a miss.

The exchange

1. Listen to *tusī̃ kivēṁ ho?* and give its meaning before repeating it.
2. Reply *maiṁ ṭhīk hāṁ* from the English cue alone.
3. Answer thanks with *koī gall nahīṁ*.
4. Name the three small root cues: question *k-*, first-person *m-*, negative *n-*.

Romanization is only a machine-readable record of prior speech. It is not Gurmukhi reading or writing evidence.

Before you move on

Ask, answer, and close the exchange once more from meaning alone.

7.11 ਜਾਣਨਾ — "to know," one letter from "to go"

Run the five you have — *hoṇā, jāṇā, āuṇā, khāṇā, vekhṇā* — and pull the stem off each one. The sixth is the closest of them all to English.

You'll want to know first — one word

ਜਾਣਨਾ — *jāṇnā* — **to know**

ਜ *j*, ◌ਾ long *ā*, then ਣ — the curled-back *ṇ* — and then a second, different *n*: ਨ, made with the tongue on the teeth. Then ◌ਾ. Both are pronounced, one after the other: *jāṇ-nā*, held long across the seam, the way English does in *thin-ness*.

That second letter is the whole difference between ਜਾਣਾ *jāṇā* "to go" and ਜਾਣਨਾ *jāṇnā* "to know." The stem here is **jāṇ-**, and because it already ends in the curled-back *ṇ*, the infinitive shows up in its other shape, plain **-ਨਾ** *-nā*.

The word, taken apart — its roots and family

jāṇnā continues Sanskrit *jānāti*, on the root *jñā-*, "know." Note what that means for the rule from *jāṇā*: these two Punjabi verbs both open with ਜ *j*, but from different sources — *jāṇā*'s *j* was a Sanskrit *y*, while *jāṇnā*'s was already there, in *jñā-*.

That root is Indo-European **ǵneh*$_3$*-*, and English is stuffed with it. Down the Germanic line: **know**, **knowledge**, **can** (once "to know how"), **cunning**, **ken**, and **uncouth**, which is "un-known." Borrowed from Latin *(g)nōscere*: **notice**, **note**, **notion**, **cognition**, **recognize**, **acquaint**, **narrate**, and **ignore** — "not to know." Borrowed from Greek *gnōsis*: **diagnosis**, **prognosis**, **agnostic**.

Your turn

- *Contrast:* **jāṇā** to go, then **jāṇnā** to know, holding the long *n*
- *Run all six: hoṇā, jāṇā, āuṇā, khāṇā, vekhṇā, jāṇnā*, stripping each stem
- *Say it:* the two sources — *jāṇā*'s *j* from *yā-*, *jāṇnā*'s from *jñā-*
- *Say it:* not one of the six carries a tone — every stem is flat
- *Connect: jñā-* → English **know**, **notice**, **diagnosis**

Before you move on

What single written mark separates *jāṇā* from *jāṇnā*? (A second *n*, the dental ਨ, held long in speech.) Where did each verb's *j* come from? (*Jāṇā*'s from a Sanskrit *y-*; *jāṇnā*'s from *jñā-*.) And which English verb is the very same word as *jāṇnā*? (**Know**.)

Chapter 8

The Mind, the Page, and the Falling Tone

Modes: 👁 **eyes** (4) ✎ **pen** (2) 🚗 **Hands-free start:** the first of 6 lessons.

> ***By the end of this chapter:*** I can say that I think, understand, read and write in Punjabi, hear and produce the falling tone that ਸਮਝਣਾ and ਪੜ੍ਹਨਾ carry where a breathy consonant used to be, read a subjoined ਹ tucked under its neighbour, and name what each of the four roots meant before it named an act of the mind — burning, waking, reciting aloud and scratching.
>
> *Say* ਮੈਂ ਪੰਜਾਬੀ ਪੜ੍ਹਦਾ ਹਾਂ *and* ਮੈਂ ਪੰਜਾਬੀ ਲਿਖਦਾ ਹਾਂ *in your own gender, then run the chapter's four verbs back to the physical acts their roots named — sochṇā from a root meaning to burn and then to grieve, samajhṇā from one meaning to wake, paṛhnā from one meaning to recite aloud, likhṇā from one meaning to scratch — and pick out the two that are said with a falling pitch and the one that writes its* ਹ *underneath the letter.*

8.1 ਸੋਚਣਾ — "to think," and it once meant "to burn"

Āuṇā handed English **come** outright, and *jāṇnā* — the one with the doubled *n*, one letter away from *jāṇā* "to go" — simply **is** English **know**. This verb hands over nothing, and its history is the oddest so far.

You’ll want to know first — one word

ਸੋਚਣਾ — *sochṇā* — **to think**

Take off the familiar **-ਣਾ** and the stem is **soch-**. That stem stands alone as a noun too: **ਸੋਚ** *soch*, “**a thought**” — and, just as ordinarily, “**a worry**.” Hold on to that double meaning; the history is about to explain it.

The letters in this word

ਸ *s*, carrying the ◌ੋ sign for *o* — the *horā*, a small hook above the letter. Then **ਚ** *ch*, a plain *ch* with no puff of breath. Then the ending **ਣਾ**. It reads *so-ch-ṇā*.

The word, taken apart — its roots and family

sochṇā comes through Prakrit *soccaï* from Sanskrit *śocyate*, and behind that stands the root **śuc-**, whose first meaning is **“to burn, to glow.”** Its second meaning is **“to grieve.”**

The sense cooled by stages: *burn* → *be eaten up by something* → *brood on it* → plain *think*. Punjabi’s ordinary word for thinking is an old word for being on fire, which is exactly why **soch** is a thought and a worry at once.

The same root gives Sanskrit *śoka*, “sorrow” — and *a-śoka*, “**without** sorrow,” which is the name the emperor **Aśoka** carried. A word for grief sits inside both a Punjabi verb and one of the most famous names in Indian history.

State the limit plainly: *śuc-* has **no secure English cousin**. Other verbs gave you one; this one does not, and inventing one would be worse than saying so.

Your turn

- *Say it:* **sochṇā** — to think — then strip it to the stem **soch-**
- *Say it:* both senses of the noun **soch** — a thought, and a worry
- *Say it:* the chain — *burn* → *grieve* → *brood* → *think*
- *Run through:* *āuṇā*, *jāṇnā*, *sochṇā* — come, know, think

Before you move on

What did the root under *sochṇā* mean first? (**To burn**, then **to grieve**.) What famous name is built on it? (**Aśoka** — “sorrowless.”) Does it have an English cousin? (**No**.) And which of your earlier verbs *is* English **know**? (*Jāṇnā*, not *jāṇā*.)

8.2 ਖ · ਝ · ◌੍ — three pieces met inside a word you already say

One new mark today is not a sound at all. It is an instruction about the letter beside it.

First, say the last things you learned once more, out loud and from memory:

- *Say it: kivēṁ — tusī̃ kivēṁ ho — maiṁ ṭhīk hāṁ — koī gall nahīṁ · jāṇnā · sochṇā*

Script you’ll notice: ਖ · ਝ · ◌੍

ਖ

khakkhā — *kha.* A consonant, *k* with a clear puff of breath after it — the *k* of English *kin.*

ਝ

jhajjā — *jha.* Another letter whose breath became **pitch**: written breathy, said today with a falling tone.

◌੍

pairī̃ — *(no vowel).* Not a letter and not a vowel sign. It is the mark that says **no vowel here** — the consonant before it runs straight into the next one, and in print the second letter is often tucked **underneath** the first.

Now put them where you have already heard them:

ਖ is ਕ with breath after it. Set them side by side: ਕ ਖ

ੜ + ◌੍ + ਹ → ੜ੍ਹ

ੜ੍ਹ — *ṛh* — **a ṛa with a shrunken *ha* tucked underneath it**

You are not being asked to write any of this. You are being asked to **recognise** it the next time it goes past.

Writing: copy what you can see

Keep ਖ · ਝ · ◌੍ in front of you and do not cover any of them. Follow each shape once with a finger, then copy it once with a pencil, larger than it is printed. Say its sound as your hand stops.

> This is **observe-and-trace with the model visible**.
> Nothing in these chapters asks you to write a Punjabi word from memory; that ladder starts later, and it starts from these same shapes.

Your turn

- *Look:* at ੜ੍ਹ and point to each of today's pieces in turn
- *Say it: kha*, *jha*, *(no vowel)*, then the whole word — *ṛh*
- *Look:* back at the headword at the top of any earlier lesson in this chapter and find one shape you now know

Before you move on

Name today's pieces: *khakkhā*, *jhajjā*, *pairī̃*. Which of them is a **mātrā** or a mark rather than a letter, and what does ੜ੍ਹ say? (*ṛh*, "a ṛa with a shrunken *ha* tucked underneath it".)
Source: Unicode Gurmukhi chart.

8.3 ਸਮਝਣਾ — "to understand," and the tone you can hear in it

Say *sochṇā* and name what its root meant first. (**To burn**, then **to grieve**.) Now the pair from *khāṇā*'s lesson — *kòṛā* the horse, *koṛā* the whip. That dip is about to turn up inside a word.

You'll want to know first — one word

ਸਮਝਣਾ — *samajhṇā* — **to understand**

Strip the **-ਣਾ** and the stem is **samajh-**. Like *soch*, it is also a noun: **ਸਮਝ** *samajh*, "**understanding, sense**."

The letters in this word

ਸ *s*, ਮ *m*, then ਝ, then ਣਾ — *sa-majh-ṇā*. ਝ is new, and it is what this lesson is about.

The letters in this word

ਝ is the fourth letter of the *ch*-row, once *jha* — a *j* said with a breathy voice, the kind Punjabi gave up. In ਘੋੜਾ *kòṛā* it stood **first**, and the pitch it left was **low and rising**. Here it sits after the first vowel, and the rule mirrors: the breath goes, and the pitch on the vowel **before** it goes **high and falls**.

So ਸਮਝਣਾ is written with a *jh* and said without one. An acute marks that falling pitch, the twin of the grave on *kòṛā*:

written	**said**
ਸਮਝਣਾ *samajhṇā*	*samájṇā*, high then dropping
ਖਾਣਾ *khāṇā*	*khāṇā*, level — ਖ had no voice to lose

Punjabi has been shedding breathy sounds for a long time. Your first verb shows an older round: Sanskrit *bhū-* had a breathy *bh*, and ਹੋਣਾ *hoṇā* comes out with a plain ਹ.

The word, taken apart — its roots and family

samajhṇā continues Sanskrit *sambudhyate* — *sam-*, "together," on **budh-**, "**to wake, to become aware**." To understand is to wake up to something. That root named a person: *buddha* means "**awakened**," the title the **Buddha** carries.

And *budh-*'s breathy *dh* is the very sound that became this word's ਝ: *budhyate* went to Prakrit *bujjhaï* and on into *samajh-*. The falling pitch is the last trace of that root's old breath.

The root is Indo-European, *$b^h ewd^h$-, which English keeps in **bode** — as in "this bodes well" — and in **forebode** and **forbid**.

Your turn

Say these aloud:

- **samajhṇā** as it is said — *samájṇā*, high then falling
- **khāṇā** straight after it, level, so the difference is audible
- the rule — first in the word the pitch rises; later, it falls
- *budh-* → **Buddha**, “the awakened”

Before you move on

Where does the pitch fall in *samajhṇā*, and why? (On the vowel **before** ਝ, where that letter’s old breath went; in *kòṛā* the letter stood first and the pitch **rose** instead.) What did *budh-* mean, and who is named from it? (**To wake**; the **Buddha**.)

8.4 ਪੜ੍ਹਨਾ — “to read,” which used to mean “to say out loud”

Say *samajhṇā* as it is actually said, pitch going high and dropping, and name the root behind it. (*Budh-*, “to wake.”) This verb carries the same fall — and the letter that puts it there sits somewhere new.

You’ll want to know first — one word

ਪੜ੍ਹਨਾ — *paṛhnā* — **to read**, and also **to study**

The stem is **paṛh-**, and its *h* is not breath. It is the falling pitch again: *páṛnā*, high on the vowel and dropping. Punjabi writes this verb both ਪੜ੍ਹਨਾ and ਪੜ੍ਹਣਾ; this book uses the first.

The letters in this word

ਪ *p*, then ੜ *ṛ* — a flapped *r* made with the tongue tip curled back and struck forward. Then the new thing, then ਨ *n* with the long-*ā* stroke.

Every Gurmukhi letter so far has hung from the top line that runs across a word. ◌੍ਹ breaks that habit: it is ਹ shrunk and tucked **underneath** its neighbour, so ੜ plus a subjoined ਹ is written ੜ੍ਹ. Gurmukhi has a small set of these subjoined forms, and this is the commonest.

The word, taken apart — its roots and family

paṛhnā comes through Prakrit *paḍhaï* from Sanskrit **paṭhati**, and *paṭhati* has nothing to do with the eye. It means “**recites, reads aloud, rehearses, declaims**.” Reading was named as something the mouth does.

Set that against your verb for seeing: ਵੇਖਣਾ *vekhṇā*, whose twin is *dekhṇā*, is built on the **eye** itself. Only one of the two is an eye-word, and it is not the reading one.

No dead metaphor: the same root gives ਪਾਠ *pāṭh*, a **recitation of scripture** read aloud end to end — and Gurmukhi is the script the Sikh Gurus shaped to carry exactly that.

Where *paṭh-* itself came from is **not settled**, so this lesson claims no English cousin for it.

Your turn

- *Say it:* **paṛhnā** as it is said — *páṛnā*, high then falling
- *Say it:* where the ਹ sits in ੜ੍ਹ — underneath, not on the line
- *Say it:* what *paṭhati* meant — **to recite aloud**
- *Contrast:* *vekhṇā*, built on the **eye**; *paṛhnā*, built on the **voice**

Before you move on

What did *paṭhati* mean? (**To recite aloud.**) So which organ names Punjabi’s reading verb, the eye or the mouth? (**The mouth.**) And what is unusual about the ਹ in ੜ੍ਹ? (It is **subjoined** — tucked below, not hung from the top line — and it is heard as a falling pitch, not as breath.)

8.5 ਲਿਖਣਾ — “to write,” which is scratching

Say *paṛhnā* with its falling pitch, and say what *paṭhati* meant. (**To recite aloud.**) You can read now. The fourth verb is the other half of that, and then the chapter closes with a sentence you can actually use.

You'll want to know first — one word

ਲਿਖਣਾ — *likhṇā* — **to write**

The stem is **likh-**. The ਖ here is a plain aspirated *kh*, a real puff of breath — no falling pitch anywhere in this word. Two verbs in a row carried a tone; this one does not.

The letters in this word

ਲ *l*, then ਖ *kh*, then ਣਾ. The short *i* has a quirk worth knowing: its sign ਿ is written **before** the letter it is pronounced after, so *li* comes out as ਲਿ — sign first, consonant second. It still hangs from the same top line as everything else.

The word, taken apart — its roots and family

likhṇā is Sanskrit **likhati**, whose plain meaning is "**scratches, scrapes**." Writing was named after what a sharp point does to a surface.

Two other languages reached that picture without help from this one. Latin *scrībere* also meant "to scratch," and English borrowed it wholesale as **scribe**, **script**, **describe**, **inscription**. And English's own **write** is Old English *wrītan*, "to scratch, to carve" — what you did to a piece of wood with a knife to make a rune. Three languages, three separate decisions, one idea: writing is cutting a mark into something.

Beyond Indo-Aryan, *likh-*'s relatives are **disputed**, so this lesson names none.

Your turn

Chapter 5 gave you the frame **ਮੈਂ ... -ਦਾ/-ਦੀ ਹਾਂ**. Drop the new stems into it:

- *Say it (m.): maiṁ panjābī paṛhdā hāṁ* · (f.): *maiṁ panjābī paṛhdī hāṁ*
- *Say it (m.): maiṁ panjābī likhdā hāṁ* · (f.): *maiṁ panjābī likhdī hāṁ*
- *Say it:* which verb the ਹਾਂ in those sentences belongs to (*hoṇā*), and which of its two braided roots that present tense comes from (*as-*, not *bhū-*)

Before you move on

Say “I write Punjabi” in your own gender. Now run the chapter’s four verbs back to what their roots meant before they meant anything mental: *sochṇā* (**to burn**, then **to grieve**), *samajhṇā* (**to wake**), *paṛhnā* (**to recite aloud**), *likhṇā* (**to scratch**). Which two of the four are said with a falling pitch? (*Samajhṇā* and *paṛhnā*.) And which of them writes its *h* underneath the letter? (*Paṛhnā*.)

8.6 ਪ — one piece met inside a word you already say

One letter today, and it finishes a word this chapter is built on.

First, say the last things you learned once more, out loud and from memory:

- *Say it: sochṇā · samajhṇā*

Script you’ll notice: ਪ

ਪ

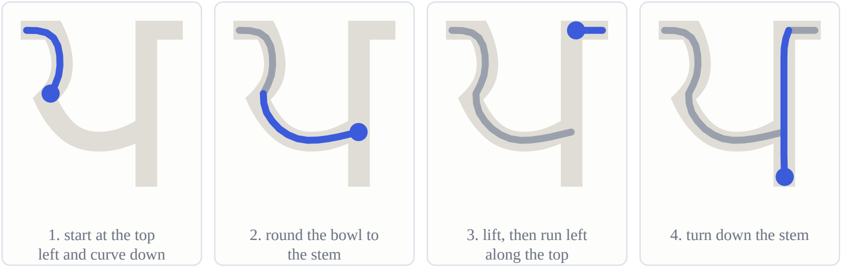
pappā — *pa*. A consonant, the plain *p* of *spin* — no puff of breath. Now put them where you have already heard them:

ਪ + ◌ਾ + ਠ → ਪਾਠ (*pāṭh*)

ਪਾਠ — *pāṭh* — **a reading, a recitation, a lesson**

You are not being asked to write any of this. You are being asked to **recognise** it the next time it goes past.

Writing: copy what you can see



How it is written — 2 strokes · 1 pen lift · 4 movements

1. start at the top left and curve down
2. round the bowl to the stem
3. lift, then run left along the top
4. turn down the stem

Stroke order after GNPS, Gurmukhi Sikho (GNPS Learning Hub), Alphabet Tracing lesson, ਪ (pappaa) checkpoints, strokes 1–2 (lib/data/lessons/lesson_tracing.dart line 826, commit de1e560; Apache-2.0)
This order is attested, not standardised; the source records where it varies.

How ਪ *is written, stroke by stroke*

Keep ਪ in front of you and do not cover it. Follow each shape once with a finger, then copy it once with a pencil, larger than it is printed. Say its sound as your hand stops.

> This is **observe-and-trace with the model visible**. Nothing in these chapters asks you to write a Punjabi word from memory; that ladder starts later, and it starts from these same shapes.

Your turn

- *Look:* at ਪਾਠ and point to each of today's piece in turn
- *Say it:* *pa*, then the whole word — *pāṭh*
- *Look:* back at the headword at the top of any earlier lesson in this chapter and find one shape you now know

Before you move on

Name today's piece: *pappā*. Which of them is a **mātrā** or a mark rather than a letter, and what does ਪਾਠ say? (*pāṭh*, "a reading, a recitation, a lesson".)

Chapter 9

Taking, Asking, Helping, and What Pleases You

Modes: 👁 **eyes** (4) ✎ **pen** (2) 🚗 **Hands-free start:** the first 2 of 6 lessons.

> ***By the end of this chapter:*** I can take, ask, help and say what I like in Punjabi, build a fresh verb by putting a noun in front of ਕਰਨਾ, tell an inherited word from a borrowed one by its line of descent rather than by how it looks, and say why ਮੈਨੂੰ ਪੰਜਾਬੀ ਪਸੰਦ ਹੈ has no room for me as its subject.
>
> *Say* ਮੈਨੂੰ ਪੰਜਾਬੀ ਪਸੰਦ ਹੈ *and hear that you are not its subject, swap any infinitive into the middle slot, and run the chapter's four verbs back to where each came from — laiṇā worn down from Sanskrit labhate, puchhṇā from pṛcchati and cousin to Persian porsīdan without either being a loan, madad genuinely borrowed from Arabic through Persian, and pasand a Persian noun whose* pati- 'toward' does the same job as the ā- of ਆਉਣਾ.

9.1 ਲੈਣਾ — "to take," worn down to almost nothing

Last chapter's four verbs were all about the mind and the page. Say *likhṇā* and name what its root meant. (**To scratch**.) Say *paṛhnā* with its falling pitch. These next four are about hands and other people.

You'll want to know first — one word

ਲੈਣਾ — *laiṇā* — **to take**

The shortest stem you have met: **lai-**, one syllable and no consonant after the vowel at all.

The letters in this word

ਲ *l*, carrying the ੈ sign for *ai* — two short strokes above the letter, the *dulaṅkaṛ*. It is the same sign that sits on ਮੈਂ *maiṁ*, “I.” Then the ending ਣਾ. Two shapes and a vowel mark: *lai-ṇā*.

The word, taken apart — its roots and family

laiṇā comes through Prakrit *lahaï* from Sanskrit **labhate**, “takes, obtains, gets.” Watch the middle of the word disappear: *la-bh-ate* → *la-h-aï* → *lai*. The breathy *bh* thinned to a plain *h*, the *h* fell away, and the two vowels left standing next to each other ran together into **ai**.
That is a third road for an old consonant, and you have the other two. In ਜਾਣਾ *jāṇā* a Sanskrit *y-* **hardened** into *j*. In *samajhṇā* a breathy *dh* **turned into pitch**. Here a breathy *bh* simply **left**.
The root is Indo-European, *leb^h-, “to gain, to profit.” Greek took it as *láphura*, “spoils of war,” and Lithuanian as *lõbis*, “treasure.” English inherited nothing usable from it, so no cousin is claimed here — the prize in this word is watching it wear away.

Your turn

Say these aloud:

- **laiṇā** — to take — then the stem **lai-**
- the wearing-down, slowly — *labhate* · *lahaï* · *lai*
- the three roads a consonant took — *jāṇā*’s *y* **hardened**, *samajhṇā*’s *dh* **became pitch**, *laiṇā*’s *bh* **left**

Before you move on

What happened to the *bh* of *labhate*? (It thinned to *h* and then **disappeared**, and the vowels ran together.) Name the other Punjabi verb whose first consonant changed identity, and say what it was before. (*Jāṇā* — its *j* was a Sanskrit *y*.) Does *laiṇā* have an English cousin? (**No**.)

9.2 ਪੁੱਛਣਾ — “to ask,” and a Persian cousin that is not a loan

Say *laiṇā* and say what wore away inside it. (A breathy *bh*, gone through *h* to nothing.) This next verb kept everything, and then doubled it.

You’ll want to know first — one word

ਪੁੱਛਣਾ — *puchhṇā* — **to ask**

The stem is **puchh-**, and the consonant in the middle is **held**: say *puchchhṇā*, leaning on it, the way English leans on the middle of *bookkeeper*.

The letters in this word

ਪ *p* with ੁ for *u* tucked under it; then ੱ, the *addak* from Chapter 6 — the little mark that says “**double the next consonant**”; then ਛ *chh*, a *ch* with a puff of breath; then ਣਾ. The *addak* is doing all the work in this word: without it you would say *puchhṇā* light and quick, and with it the middle is long.

The word, taken apart — its roots and family

puchhṇā comes through Prakrit *pucchaï* from Sanskrit **pṛcchati**, “asks.” The root behind it is Indo-European **preḱ-*, and it is one of the widest in the family.

Latin took it twice. *Precārī*, “to beg, to pray,” gave English **pray**, **prayer**, **precarious** (held only by asking) and **deprecate**. *Poscere*, “to demand,” gave English **postulate**. German still asks with it every day: *fragen*. Old English had *frignan* for “ask,” and English simply lost it.

Why it’s said this way

Persian asks with the same root: *porsīdan*, “to ask.” Set it beside *puchhṇā* and nothing matches — no shared consonant you could point at — yet they are relatives, because both come down from **preḱ-* along separate lines.

Chapter 6 made the opposite point with the same two languages. There, Punjabi *panj* and Persian *panj* matched **exactly**, and the answer was still that neither borrowed from the other; each voiced its own ancestor's sound. So looking alike proved nothing there, and looking different proves nothing here. Only the line of descent settles it.

Your turn

- *Say it:* **puchhṇā** with the middle held long, then the stem **puchh-**
- *Say it:* what the *addak* does (doubles the consonant after it)
- *Say it:* the English words off this root — **pray**, **precarious**, **postulate**
- *Run through: laiṇā*, *puchhṇā* — take, ask

Before you move on

Which mark makes the middle of *puchhṇā* long? (The **addak**.) Name two English words from the same root as *puchhṇā*. (Any of **pray**, **prayer**, **precarious**, **postulate**.) Is Persian *porsīdan* a loan into Punjabi or a cousin of *puchhṇā*? (**A cousin** — same root, separate lines.)

9.3 ੁ · ਁ — two pieces met inside a word you already say

The first mātrā that lives **below** the line, and the nasal mark's other half.

First, say the last things you learned once more, out loud and from memory:

- *Say it: paṛhnā · likhṇā · laiṇā*

Script you'll notice: ੁ · ਁ

ੁ

auṅkaṛ — -*u*. A mātrā for short *u*, and the first one you have met that is written **below** the letter.

ੰ

ṭippī — *(nasal).* A nasal mark that sits on the head-line. It is the sister of the *bindi* you already know: same job, different company.

Now put them where you have already heard them:

ਪ + ੰ + ਜ → ਪੰਜ (*panj*)

ਪੰਜ — *panj* — **five**

You are not being asked to write any of this. You are being asked to **recognise** it the next time it goes past.

Writing: copy what you can see

Keep ੁ · ੰ in front of you and do not cover any of them. Follow each shape once with a finger, then copy it once with a pencil, larger than it is printed. Say its sound as your hand stops.

> This is **observe-and-trace with the model visible**. Nothing in these chapters asks you to write a Punjabi word from memory; that ladder starts later, and it starts from these same shapes.

Your turn

- *Look:* at ਪੰਜ and point to the one of today's pieces it holds
- *Say it:* *-u*, *(nasal)*, then the whole word — *panj*
- *Look:* back at the headword at the top of any earlier lesson in this chapter and find one shape you now know

Before you move on

Name today's pieces: *auṅkaṛ*, *ṭippī.* Which of them is a **mātrā** or a mark rather than a letter, and what does ਪੰਜ say? (*panj*, “five”.) Source: Unicode Gurmukhi chart.

9.4 ਮਦਦ ਕਰਨਾ — “to help,” which is two words

> Say *puchhṇā* with its long middle, and say whether Persian *porsīdan* borrowed from it. (**Neither** — cousins.) This verb *is* a borrowing, openly, and it is not even one word.

You'll want to know first — two words

ਮਦਦ ਕਰਨਾ — *madad karnā* — **to help**

ਮਦਦ *madad* is a noun, "**help**." ਕਰਨਾ *karnā* is "**to do**," the verb already inside Chapter 5's ਕੰਮ ਕਰਨਾ *kamm karnā*, "to work." Punjabi helps by **doing help**.

Note the ending: *karnā* takes plain **-ਨਾ**, not **-ਣਾ**, because its stem already closes on ਰ.

The letters in this word

ਮ *m*, ਦ *d*, ਦ *d* — the whole of *madad*, and **no dot beneath anything**. Chapter 1's *shukrīā* needed a dotted letter for a borrowed sound — a dot you meet for yourself later on. This borrowing needed no new letter at all.

Grammar Lens: noun plus ਕਰਨਾ

This is a pattern, not a one-off. Put almost any noun in front of ਕਰਨਾ and you have a verb; ਕਰਨਾ carries the endings and the noun never changes.

- ਕੰਮ ਕਰਨਾ *kamm karnā* — "work-do" — **to work**
- *gall karnā* — "talk-do" — **to have a chat**

That is Punjabi's second way of building a verb from more than one piece. ਹੋਣਾ *hoṇā* is one word braided from **two ancient roots**, *as-* and *bhū-*, and its seam is invisible. Here the seam is the point: two whole words side by side, one of them borrowed.

The word, taken apart — its roots and family

ਮਦਦ is **Arabic** — *madad*, on the three-consonant root **m-d-d**, "**to stretch out, to extend**." Help is named as reaching something out. It travelled through **Persian**, the road that carried *shukrīā*.

Chapter 6 asked whether a Punjabi word resembling a Persian one had been borrowed, and the answer was **no**: *panj* is inherited from Sanskrit *pañca*, and *panjāh* against Hindi *pacās* proved it. Ask that here and the answer is **yes** — there is no Sanskrit path to *madad* at all. Same test, opposite answers.

Your turn

- *Say it:* **madad karnā** — help-do — to help
- *Run through the pattern: kamm karnā, madad karnā, gall karnā*
- *Say it:* which half is Arabic and which is Sanskrit (*madad · karnā*)
- *Run through: laiṇā, puchhṇā, madad karnā* — take, ask, help

Before you move on

What does *madad karnā* say literally? ("**Help-do**.") What did the Arabic root mean? (**To stretch out, extend**.) Was *panj* borrowed from Persian, and is *madad*? (**No**, and **yes**.)

9.5 ◌ੂ · ਊ — two pieces met inside a word you already say

The word that opens every sentence about what you like is five pieces — and you already have three.

First, say the last things you learned once more, out loud and from memory:

- *Say it: laiṇā · puchhṇā*

Script you'll notice: ◌ੂ · ਊ

◌ੂ

dulaiṅkaṛ — -*ū*. A mātrā for long *ū*, written below the letter as **two** strokes — the double *auṅkaṛ*.

ਊ

ūṛā — *u*. An **independent** vowel: the letter used when a word *starts* with the vowel and there is no consonant to hang a mātrā on.

Now put them where you have already heard them:

ਤ + ◌ੂ + ◌ੰ → ਤੂੰ (*tū̃*)

ਤੂੰ — *tū̃* — **you** (familiar)

You are not being asked to write any of this. You are being asked to **recognise** it the next time it goes past.

Writing: copy what you can see

Keep ◌ੂ · ਉ in front of you and do not cover any of them. Follow each shape once with a finger, then copy it once with a pencil, larger than it is printed. Say its sound as your hand stops.

> This is **observe-and-trace with the model visible**.
> Nothing in these chapters asks you to write a Punjabi word from memory; that ladder starts later, and it starts from these same shapes.

Your turn

- *Look:* at ਤੂੰ and point to the one of today's pieces it holds
- *Say it:* -*ū*, *u*, then the whole word — *tū̃*
- *Look:* back at the headword at the top of any earlier lesson in this chapter and find one shape you now know

Before you move on

Name today's pieces: *dulaiṅkaṛ*, *ūṛā*. Which of them is a **mātrā** or a mark rather than a letter, and what does ਤੂੰ say? (*tū̃*, "you", familiar.)

9.6 ਪਸੰਦ — Punjabi does not like things; things please Punjabi

> *Laiṇā*, *puchhṇā*, *madad karnā* — say them, and say which is built on the noun-plus-*karnā* pattern. In all three you are the one acting. The fourth takes that away.

You'll want to know first — ਮੈਨੂੰ, the shape of "to me"

> ਮੈਨੂੰ — *mainū̃* — **to me**

This is what ਮੈਂ *maiṁ*, "I," becomes when a sentence refuses to let you be its subject. It is not "I."

The letters in this word

ਪ *p*, ਸ *s* carrying the ◌ੰ *ṭippī*, then ਦ *d* — the same nasal mark that sits inside ਪੰਜ *panj*, and again on the ਨੂੰ of ਮੈਨੂੰ. As with *madad*, no new letter and no dot beneath.

Grammar Lens: the thing you like is the subject

> ਮੈਨੂੰ ਪੰਜਾਬੀ ਪਸੰਦ ਹੈ। — *mainū̃ panjābī pasand hai.* — **I like Punjabi.**

Word for word: **to me** · **Punjabi** · **pleasing** · **is**. The thing liked is the subject, and ਹੈ agrees with it. No Punjabi sentence puts *I* in front of *like*. Any **-ਣਾ** infinitive drops into that middle slot, because a Punjabi infinitive doubles as a noun:

> ਮੈਨੂੰ ਪੜ੍ਹਨਾ ਪਸੰਦ ਹੈ। — *mainū̃ paṛhnā pasand hai.* — **I like reading.**

Unrelated languages keep Punjabi company: Spanish *me gusta*, Italian *mi piace*, Tamil *enakku piḍikkum*. Different families, borrowing nothing from one another, each deciding that liking happens **to** you.

The word, taken apart — its roots and family

ਪਸੰਦ is **Persian** and it is not a verb. It is ***pati-**, "**towards**," on ***sand**, "**to look good**." A word that cannot be conjugated cannot carry the liker, so the grammar moved that person out to ਮੈਨੂੰ.
You own a verb built the same way: ਆਉਣਾ *āuṇā*, "to come," is **ā-**, "toward," glued to a root meaning "go."
Where ***sand** goes next is **proposed, not settled**: one line ties it to the root behind Latin *candēre*, "to glow" — English **candle**, **candid** — and Sanskrit *candra*, "moon." Lovely, and not secure.
Chapter 6's rule had no work to do here. It voiced a stop after a nasal and carried *pañca* to *panj*; ਪਸੰਦ arrived from Persian with its **-nd-** already in place. Like *madad*, a loan rather than an inheritance.

Your turn

- *Say it: mainū̃ panjābī pasand hai*, then its word-for-word sense
- *Swap the middle: paṛhnā · likhṇā · sochṇā*

- *Sort: laiṇā*, *puchhṇā* **inherited**; *madad*, *pasand* **borrowed**

Before you move on

In *mainū̃ panjābī pasand hai*, what is the subject, what part of speech is *pasand*, and which prefix in it means “toward”? (**ਪੰਜਾਬੀ**; a **noun**, from Persian; ***pati-**, doing the job **ā-** does in **ਆਉਣਾ**.) Now the chapter’s four sources — *laiṇā* (Sanskrit *labhate*), *puchhṇā* (Sanskrit *pṛcchati*), *madad* (**Arabic**, through Persian), *pasand* (**Persian**).

Chapter 10

Water, Tea, Milk, and Bread

Modes: **voice** (1) **eyes** (3) **pen** (2) **Hands-free start:** the first 2 of 6 lessons.

> ***By the end of this chapter:*** I can politely ask for water, tea, milk, or bread in Punjabi, name which of the four is a loanword and which is inherited with an unknown root, and hear the difference between a tone that stays level and one that never formed at all.
>
> *The chapter closes on ਰੋਟੀ, the request that breaks the drink pattern: the reader produces all four requests with ਕਿਰਪਾ ਕਰਕੇ, sorts ਪਾਣੀ and ਦੁੱਧ (inherited, known root) against ਚਾਹ (loaned from Chinese by the overland route, carrying Punjabi's first noun-level tone) against ਰੋਟੀ (inherited, root unknown), and names the first Punjabi chapter to realize polite requesting at all.*

10.1 ਪਾਣੀ — the first thing you'll actually ask for

> *Pasand* let you say what pleases you; *madad karnā* let you ask for help. This chapter asks for something smaller and far more frequent: a drink.

You'll want to know first — one word

> ਪਾਣੀ — *pāṇī* — **water**

The letters in this word

ਪ *p*, ◌ਾ long *ā*, then ਣ — the curled-back *ṇ* you already read in ਜਾਣਨਾ — and ◌ੀ long *ī*. Nothing here is new; every letter is doing work you have already made it do.

Grammar Lens: asking politely

ਪਾਣੀ, ਕਿਰਪਾ ਕਰਕੇ। — *pāṇī, kirpā karke.* — **Water, please.**

ਕਿਰਪਾ ਕਰਕੇ *kirpā karke* is built from **ਕਿਰਪਾ**, "kindness, grace," plus **ਕਰਕੇ**, "having done" — the same **ਕਰ-** you already own from **ਮਦਦ ਕਰਨਾ**, "to do a favour of help," now in a "having done" shape instead of the infinitive **-ਣਾ** one. Literally: "having done a kindness." Name the item, add this, and the request is complete — no separate verb for "give" needed.

The word, taken apart — its roots and family

pāṇī comes from Sanskrit **pānīya**, "that which is to be drunk," built on **pā-**, "to drink." That root is Indo-European $*$*peh*$_3$*(i)-*, and English holds two disguised pieces of it: **potion** and **poison**, both through Latin *potare*, "to drink" — a poison is, etymologically, just a drink gone wrong. Greek made the same root into *sympotēs*, "one who drinks together," which English keeps as **symposium**.

Pāṇī is a noun, and it has no room for a liker or a drinker built into it — the same shape of gap **ਪਸੰਦ** left for you to fill with **ਮੈਨੂੰ**. Ask **ਮੈਨੂੰ ਪਾਣੀ ਪਸੰਦ ਹੈ**, "I like water," and you are running last chapter's grammar on this chapter's first noun.

Your turn

- *Say it:* **pāṇī** — water
- *Say it:* **pāṇī, kirpā karke.** — water, please
- *Match:* **karke** against **madad karnā**'s own **kar-** root
- *Trace it:* *pā-* "to drink" → **pāṇī**, and → **potion**, **poison**, **symposium**
- *Run through:* **mainū̃ pāṇī pasand hai**, then **pāṇī, kirpā karke** — liking and requesting, side by side

Before you move on

Ask for water politely. (*Pāṇī, kirpā karke.*) What does *karke* share with *madad karnā*? (The same **kar-** root, "to do.") Which two English words for a drink, and one for a whole gathering of them,

share *pāṇī*’s root? (**Potion**, **poison**, **symposium**.)

10.2 ਚਾਹ — the ਹ that is not a consonant

Pāṇī, kirpā karke — water, please. The next drink uses the exact same pattern, and its spelling hides a tone you have not met in a noun yet.

You’ll want to know first — one word

ਚਾਹ — *cāh* — **tea**

ਚਾਹ, ਕਿਰਪਾ ਕਰਕੇ। — *cāh, kirpā karke.* — **Tea, please.**

The letters in this word

ਚਾਹ is spelled with a final ਹ, but that ਹ is not said as a consonant. Chapter 8 showed a *jh* losing its breath and leaving a **high, falling** pitch on the vowel before it — falling, because more of the word still followed. Here nothing follows: ਚਾਹ is one syllable, so the pitch has nowhere to fall *to*. It simply stays **high**: *cā́h*, level and high from the vowel to the end of the word.
Gurmukhi has no separate tone mark. A trailing ਹ that is not pronounced is, in practice, how the script writes this tone — the same way the dot under a borrowed letter writes a borrowed sound. Say ਖਾਣਾ *khāṇā* again, flat, then ਚਾਹ *cā́h*, high: two words that both end their vowel clean, one levelled and one not.

The word, taken apart — its roots and family

ਚਾਹ is a loanword — unlike **pāṇī**, which Punjabi has owned since Sanskrit. It came through Classical Persian **čā**, from Mandarin Chinese **chá**: the **overland** route, out through Central Asia and Persia, the same road that gave Hindi-Urdu *chāy*, Russian *chai*, and Turkish *çay*. Chinese merchants on the coast spoke a different dialect, Hokkien, where the same word is *tê* — carried by sea into Dutch and then English **tea**, French *thé*, German *Tee*. One Chinese word, two pronunciations, sorted by whether a language met it on a caravan route or a ship’s deck.

Your turn

- *Say it:* **cāh** — tea — high and level, not falling
- *Run through:* both requests — **pāṇī, kirpā karke**; **cāh, kirpā karke**
- *Contrast:* **khāṇā**, flat; **cāh**, high
- *Trace it:* Chinese *chá* → Persian *čā* → ਚਾਹ, the overland road
- *Recall:* what **ਮੈਨੂੰ ... ਪਸੰਦ ਹੈ** does to the thing you like

Before you move on

Did *cāh* come by land or by sea? (**Land** — through Persian, from Mandarin.) Why is *cāh*'s tone level instead of falling, unlike *samajhṇā*'s? (**Nothing follows the vowel** — the word ends right there.) What does *cāh*'s final ਹ actually mark, if not the sound *h*? (**The tone itself.**)

10.3 ਚ — one piece met inside a word you already say

One consonant, and it opens the word you are about to order.

First, say the last things you learned once more, out loud and from memory:

- *Say it: madad karnā · pasand · pāṇī*

Script you'll notice: ਚ

ਚ

chachchā — *ca.* A consonant, the *ch* of *church* but with no puff of breath after it.

Now put them where you have already heard them:

ਚ + ਾ + ਹ → ਚਾਹ (*cāh*)

ਚਾਹ — *cāh* — **tea**

You are not being asked to write any of this. You are being asked to **recognise** it the next time it goes past.

Writing: copy what you can see

How ਚ *is written, stroke by stroke*

Keep ਚ in front of you and do not cover it. Follow each shape once with a finger, then copy it once with a pencil, larger than it is printed. Say its sound as your hand stops.

> This is **observe-and-trace with the model visible**. Nothing in these chapters asks you to write a Punjabi word from memory; that ladder starts later, and it starts from these same shapes.

Your turn

- *Look:* at ਚਾਹ and point to each of today's piece in turn
- *Say it:* *ca*, then the whole word — *cāh*
- *Look:* back at the headword at the top of any earlier lesson in this chapter and find one shape you now know

Before you move on

Name today's piece: *chachchā*. Which of them is a **mātrā** or a mark rather than a letter, and what does ਚਾਹ say? (*cāh*, "tea".)
Source: Unicode Gurmukhi chart.

10.4 ਦੁੱਧ — a third request, and a tone that stays away

ਪਾਣੀ carried no tone; ਚਾਹ carried a level high one. This word settles which is the ordinary case.

You’ll want to know first — one word

ਦੁੱਧ — *dudh* — **milk**

ਦੁੱਧ, ਕਿਰਪਾ ਕਰਕੇ। — *dudh, kirpā karke.* — **Milk, please.**

The letters in this word

ਦ *d*, ◌ੁ short *u*, then the ◌ੱ *addak* doubling the consonant that follows — the same mark you already read in ਰੱਬ — and ਧ *dh*, the breathy *d* from ਧੰਨਵਾਦ. ਦੁੱਧ is said exactly as spelled: *dudh*, flat, no tone. Its breathy ਧ never lost its breath — it is still a full consonant, the way ਖ stayed a full consonant in *khāṇā*.

The word, taken apart — its roots and family

dudh is inherited from Sanskrit **dugdha**, “that which has been milked” — grammatically a passive participle, built on the verb **duh-**, “to milk.” Its Proto-Indo-European root meant something close to “to produce, to be of use,” but the trail to any secure English word breaks there; this lesson claims none.

That gives you the chapter’s first honest sort: **pāṇī** and **dudh** are both inherited straight from Sanskrit, with a known root behind each; **cāh** is a loan from Chinese. Three requests, two different kinds of history.

Your turn

- *Say it:* **dudh, kirpā karke** — milk, please
- *Run through:* all three requests so far — **pāṇī**, **cāh**, **dudh**, each with *kirpā karke*
- *Sort:* inherited (**pāṇī**, **dudh**) against loaned (**cāh**)
- *Name:* the mark that doubles a consonant, and one earlier word that used it

Before you move on

Ask for milk politely. (*Dudh, kirpā karke.*) What does *dugdha* mean, literally? (**“That which has been milked.”**) Does *dudh* carry a tone? (**No** — its breathy ਧ is still fully pronounced.)
Sources: Wiktionary: ਦੁੱਧ; Wiktionary: Sanskrit dugdha.

10.5 ਰੋਟੀ — a request pattern, run four times

Three drinks, one pattern: **pāṇī**, **cāh**, **dudh**, each followed by *kirpā karke*. The fourth request is food, not drink, and it closes the chapter on a letter this book has never properly taught.

You’ll want to know first — one word

ਰੋਟੀ — *roṭī* — **bread**

ਰੋਟੀ, ਕਿਰਪਾ ਕਰਕੇ। — *roṭī, kirpā karke.* — **Bread, please.**

The letters in this word

ਰ *r*, ੋ the *o* sign, then ਟ — a retroflex *ṭ*, tongue curled back and stopping the air rather than letting it through. Chapter 3 named the whole ਟ-ਠ-ਡ series in passing, while teaching ਠੀਕ’s ਠ; this is the first time ਟ itself has carried a word. Then ੀ long *ī*.

The word, taken apart — its roots and family

roṭī is inherited from Sanskrit **roṭikā**, “a kind of bread.” That much is certain. What *roṭikā* itself comes from is not: the standard comparative dictionaries weigh an unattested root meaning “to strike against” against another meaning “to crush,” and neither wins.
That gives this chapter its own three-way sort: **pāṇī** and **dudh** are inherited straight from Sanskrit with a known root behind each; **cāh** is a loan, traceable to Mandarin by a known road; **roṭī** is inherited too, but its own root is where recorded history simply stops.

Your turn

- *Say it:* **roṭī, kirpā karke** — bread, please

- *Run through:* all four requests — **pāṇī**, **cāh**, **dudh**, **roṭī**, each with *kirpā karke*
- *Sort:* inherited with a known root (**pāṇī**, **dudh**), loaned (**cāh**), inherited with an unknown root (**roṭī**)
- *Name:* which earlier chapter first mentioned the **ਟ-ਠ-ਡ** series

Before you move on

Does *roṭikā*'s own root have a settled answer? (**No** — the dictionaries disagree and leave it open.) Run all four requests from this chapter. (*Pāṇī*, *cāh*, *dudh*, *roṭī*, each with *kirpā karke*.) Which one carries a tone, and what kind? (**Cāh** — high and level.) Sources: Wiktionary: ਰੋਟੀ; Wiktionary: Sanskrit roṭikā.

10.6 ◌ੱ · ਧ — two pieces met inside a word you already say

A mark that makes no sound of its own, and still changes what a word means.

First, say the last things you learned once more, out loud and from memory:

- *Say it: pāṇī · cāh*

Script you'll notice: ◌ੱ · ਧ

◌ੱ

aḍḍak — *(doubled).* Not a sound of its own. It sits above the line and says **double the consonant that follows** — and doubling changes meaning in Punjabi, so this small mark is load-bearing.

ਧ

dhaddā — *dha.* A third letter whose breath became **pitch**: written breathy-*d*, said today with a falling tone.

Now put them where you have already heard them:

ਦ + ◌ੁ + ◌ੱ + ਧ → ਦੁੱਧ (*dudh*)

ਦੁੱਧ — *dudh* — **milk**

You are not being asked to write any of this. You are being asked to **recognise** it the next time it goes past.

Writing: copy what you can see

Keep ◌ੱ · ਧ in front of you and do not cover any of them. Follow each shape once with a finger, then copy it once with a pencil, larger than it is printed. Say its sound as your hand stops.

> This is **observe-and-trace with the model visible**.
> Nothing in these chapters asks you to write a Punjabi word from memory; that ladder starts later, and it starts from these same shapes.

Your turn

- *Look:* at ਦੁੱਧ and point to each of today's pieces in turn
- *Say it: (doubled)*, *dha*, then the whole word — *dudh*
- *Look:* back at the headword at the top of any earlier lesson in this chapter and find one shape you now know

Before you move on

Name today's pieces: *aḍḍak*, *dhaddā*. Which of them is a **mātrā** or a mark rather than a letter, and what does ਦੁੱਧ say? (*dudh*, "milk".) Source: Unicode Gurmukhi chart.

Chapter 11

Friend, Family, Brother, and Sister

Modes: 👁 **eyes** (4) ✎ **pen** (1) 🚘 **Hands-free start:** the first 4 of 5 lessons.

> ***By the end of this chapter:*** I can name a friend, a family, a brother, and a sister in Punjabi, split ਪਰਿਵਾਰ into its two Sanskrit pieces, and hear the same low tone open both ਭਰਾ and ਭੈਣ even though only one of the two is truly a cousin of its English counterpart.
>
> *The chapter closes on ਭੈਣ, said pàiṇ with the same initial-bh-to-low-tone shift as ਭਰਾ: the reader produces ਦੋਸਤ, ਪਰਿਵਾਰ, ਭਰਾ and ਭੈਣ, states that ਭਰਾ is the unbroken PIE cousin of brother while ਭੈਣ descends from bhaginī and is NOT a cousin of sister, and names the tone rule's low-tone, word-initial case for the first time on a noun rather than a verb.*

11.1 ਦੋਸਤ — the one you chose

Four things you can ask for — **pāṇī**, **cāh**, **dudh**, **roṭī**. This chapter turns from things to people, starting with the one Chapter 2's ਤੂੰ was really for.

You'll want to know first — one word

ਦੋਸਤ — *dost* — **friend**

The letters in this word

ਦ *d*, ੋ the *o* sign, ਸ *s*, ਤ *t*. Every letter already yours, from ਦੋ, "two," and ਸਤਿ, "truth."

The word, taken apart — its roots and family

ਦੋਸਤ is **Persian**, not Sanskrit — borrowed from Classical Persian **dōst**, from Old Persian **dauštā**. Its root is Proto-Indo-European, meaning roughly "**to taste, to choose**." Latin took the taste sense and left English **gusto** and **disgust**, both through *gustare*. Germanic took the choosing sense and left Old English *cēosan*, modern English **choose**. Persian took a third path: the "chosen" one became the word for a friend.

So **dost** sits beside **roṭī** as this book's second honest gap: **roṭī**'s own root is lost to time; **dost**'s is not lost, but it belongs to Persian, not to the Sanskrit line most of your nouns so far have followed.

Your turn

- *Say it:* **dost** — friend
- *Trace it:* PIE "taste, choose" → Persian **dost**, and → English **choose**, **gusto**, **disgust**
- *Sort:* **dost** Persian, **pāṇī** and **dudh** and **roṭī** Sanskrit-line
- *Run through:* all four requests from last chapter, once more, for speed

Before you move on

Give the word for "friend." (*Dost.*) What did its Persian root originally mean? (**To taste, to choose.**) Name two English words, from two different routes, that share that root. (**Choose**; **gusto** or **disgust**.)

Sources: Wiktionary: ਦੋਸਤ; Etymonline: gusto.

11.2 ਪਰਿਵਾਰ — what surrounds you

ਦੋਸਤ (*dost*) named one person, chosen. This word names the group you never chose at all.

You'll want to know first — one word

ਪਰਿਵਾਰ — *parivār* — **family**

The letters in this word

ਪ *p*, ਰ *r*, ਿ short *i*, ਵ *v* — the same ਵ you read in ਵੇਖਣਾ — ਾ long *ā*, ਰ *r* again. *Pa-ri-vā-r*, four syllables, no new letter in any of them.

The word, taken apart — its roots and family

ਪਰਿਵਾਰ comes straight from Sanskrit **parivāra**, and unlike **dost** or **roṭī**, this one splits cleanly into two working pieces: **pari-**, "**around**," plus **vṛ-**, "**to cover, to surround**." A *parivāra* is, word for word, what encloses you — the same **pari-** that opens *parikramā*, a walk made *around* something sacred, and a **vṛ-** that also sits inside *varṇa*, "covering" — the word Sanskrit used for both colour and social class. Unlike **dost**, this is Sanskrit through and through. Unlike **roṭī**, its root is not a mystery — you can point at both halves and say what each one meant on its own.

Your turn

- *Say it:* **parivār** — family
- *Split:* **pari-** "around" + **vṛ-** "to cover" → **parivār**
- *Sort:* **dost** Persian, **roṭī** Sanskrit-but-unknown-root, **parivār** Sanskrit-and-transparent
- *Name:* one other Sanskrit word built on **pari-** or **vṛ-**

Before you move on

Give the word for "family." (*Parivār.*) Split it into its two Sanskrit pieces and say what each meant. (**Pari-**, "around"; **vṛ-**, "to cover.") Which of this chapter's two words so far has a root you can point at, and which does not? (*Parivār* does; *dost* is Persian, a different question entirely.)
Sources: Wiktionary: Sanskrit/Hindi parivār.

11.3 ਭਰਾ — a breathy letter you have not met yet

Kòṛā the horse dipped and rose because its old ਘ lost its breath at the **start** of the word. This chapter's word does the same thing, with a different consonant, and it is not a verb this time — it is somebody you know.

You’ll want to know first — one word

ਭਰਾ — *bharā* — **brother**

The letters in this word

ਭ — new: the fourth letter of the *p*-row, once *bha*, a *b* said with a breathy voice. Then ਰ *r*, ◌ਾ long *ā*.

The letters in this word

Chapter 7 showed word-**initial** ਘ losing its breath and leaving a low, rising pitch — *kòṛā*. ਭ is the same story with a different letter: said at the front of a word, its breath is gone too, and what is left is a plain, voiceless **p**, plus a **low** tone on the vowel after it.
ਭਰਾ is therefore not said *bharā*. It is said **prā̃** — *p*, not *bh*, and low on the first vowel. Spelling keeps the old consonant; speech keeps only its pitch.

position in the word	**old sound**	**what survives**
initial (*bh*-, *gh*- ...)	breathy voice	**low** tone, consonant plain
medial (-*jh*-, -*ḍh*- ...)	breathy voice	**high, falling** tone
final, nothing after	any lost breath	**high, level** tone

Three positions, three outcomes, and you have now met a word for each.

The word, taken apart — its roots and family

bharā is inherited from Sanskrit **bhrātṛ**, root Indo-European **b*^{h}*réh*$_2$*tēr*. This is one of the cleanest cognate sets in the family: Sanskrit *bhrātṛ*, English **brother**, Latin *frāter*, Greek *phrātēr*, Russian *brat* — every one of them the same word, by ordinary sound change, in every branch, no borrowing anywhere. Where **parivār** kept both its Sanskrit halves intact, **bharā** shows what centuries of everyday wear does instead: the whole cluster *bhr*- thinned down to a single consonant and a tone.

Your turn

- *Say it:* **bharā** as it is said — *prā̀*, low on the first vowel
- *Trace it:* PIE *b*^{h}*réh*$_2$*tēr* → Sanskrit *bhrātṛ* → ਭਰਾ, and → English **brother**
- *Contrast: bharā*, worn down to a tone, against *parivār*, kept whole
- *Run through:* the three-position tone table, one word for each row

Before you move on

How is ਭਰਾ actually said? (***Prā̀*** — *p*, not *bh*, low tone.) Which English word is the very same word, by unbroken descent? (**Brother**.) Name the three positions this book's tone rule now covers, and one word for each. (Initial — *bharā*, low; medial — *samajhṇā*, falling; final — *cāh*, level high.)
Sources: Wiktionary: ਭਰਾ; Wiktionary: b$^{\text{h}}$réh$_2$tēr.

11.4 ਭੈਣ — the same tone, a different family tree

Say ਭਰਾ the way it is actually said — *prā̀*, low. This chapter's last word starts with the same letter and the same tone. Whether it shares brother's family tree is a separate question.

You'll want to know first — one word

ਭੈਣ — *bhaiṇ* — **sister**

Said **pàiṇ** — the same ਭ → **p + low tone** shift as ਭਰਾ, now on a different vowel, closed by the curled-back ਣ you already read in ਜਾਣਨਾ.

The letters in this word

ਭ *bh*, already yours from *bharā* — the second word in this book to use it. ◌ੈ the *ai*-sign, from ਹੈ. ਣ retroflex *n*. Three letters, none of them new, and the tone is the same rule as last lesson, run again.

The word, taken apart — its roots and family

ਭੈਣ is inherited from Sanskrit **bhaginī**, built on **bhaga-**, "a share, a portion" — a sister, etymologically, as one who holds a share. That root is Indo-Aryan, not a straight PIE kinship term: the old Proto-Indo-European word for "sister," **swésōr*, is exactly what gives English **sister** — and Sanskrit simply stopped using it, replacing it with this one instead.

So ਭਰਾ and ਭੈਣ are not a matched pair the way English *brother* and *sister* feel like one. *Bharā* is the unbroken PIE cousin of *brother*. *Bhaiṇ* is a homegrown Indo-Aryan replacement, unrelated in root to *sister* — even though both now open with the identical *bh-become-p-plus-low-tone* sound, purely by coincidence of which consonant each word once started with.

Your turn

- *Say it:* **bhaiṇ** as it is said — *pàiṇ*, low tone
- *Contrast: bharā* — true PIE cousin of *brother*; *bhaiṇ* — unrelated to *sister*, despite the matching tone
- *Run through:* all four people-words — **dost**, **parivār**, **bharā**, **bhaiṇ**
- *Sort:* Persian (**dost**), Sanskrit-transparent (**parivār**), Sanskrit-cognate (**bharā**), Sanskrit-but-not-cognate (**bhaiṇ**)

Before you move on

Give the word for "sister," and how it is actually said. (*Bhaiṇ*; *pàiṇ*, low tone.) Is *bhaiṇ* the same word as English *sister*, the way *bharā* is the same word as *brother*? (**No** — Sanskrit replaced the old PIE sister-word with *bhaginī*, "a share-holder.") Run this chapter's four people-words and what each one's history is. (*Dost* Persian; *parivār* Sanskrit and transparent; *bharā* Sanskrit and an unbroken cousin; *bhaiṇ* Sanskrit but not a cousin of *sister*.)

Chapter 12

Eye, Ear, Mouth, and Nose

Modes: 👁 **eyes** (4) ✎ **pen** (1) 🚗 **Hands-free start:** the first 4 of 5 lessons.

> ***By the end of this chapter:*** I can name the eye, ear, mouth, and nose in Punjabi, tell a doubled consonant that survived from one that vanished into tone, and clear up the false friend ਕੰਨ shares in spelling, but not in root, with ਕਰਨਾ.
>
> *The chapter closes on ਨੱਕ, completing the face: the reader produces ਅੱਖ, ਕੰਨ, ਮੂੰਹ and ਨੱਕ, names ਅੱਖ and ਨੱਕ as unbroken PIE cousins of eye and nose that kept their doubled consonants and so never traded a sound for a tone, and states that ਮੂੰਹ alone among the four carries a level high tone, the same one first heard in ਚਾਹ.*

12.1 ਅੱਖ — the eye that kept both its consonants

> ਭੈਣ closed a chapter about people. This chapter checks on how someone *is* — starting with the parts of the body a friend might actually ask about.

You'll want to know first — one word

> ਅੱਖ — *akkh* — **eye**

The letters in this word

ਅ, the bare vowel-carrier for *a*, then the ◌ੱ *addak* — the same doubling mark from ਰੱਬ and ਦੁੱਧ — over ਖ *kh*. Read together: *a-kkh*, the *k* held and released with real force, not a tone standing in for it.

The word, taken apart — its roots and family

akkh is inherited from Prakrit **akkhi**, from Sanskrit **akṣi**, “eye,” from Proto-Indo-Iranian **Hákši*, from Proto-Indo-European $*h_3\acute{o}k^{w}s$ — unbroken all the way to English **eye** itself.

Every tone you have met so far came from a consonant that **lost** something — its breathy voice, or the whole of itself. ਖ here loses nothing: Sanskrit *akṣi*’s consonant cluster became a **doubled** *kkh* in Middle Indo-Aryan, and Punjabi still says both halves in full. That is exactly why *akkh* is flat — the addak mark you are reading is the opposite move from a tone mark: it doubles a sound that survives, where a lost sound is what leaves a tone behind. Hindi took a different road with the same word, smoothing the cluster down into a nasal vowel, *āṅkh* — no doubling, no tone, a third outcome entirely.

Your turn

- *Say it:* **akkh** — eye — the *kkh* held, not a tone
- *Trace it:* PIE $h_3\acute{o}k^{w}s$ → Sanskrit *akṣi* → **ਅੱਖ**, and → English **eye**
- *Contrast:* a doubled consonant that survives (*akkh*) against one that vanished into tone (*bharā*’s *bh*)
- *Name:* two other words that used the addak mark

Before you move on

Give the word for “eye.” (*Akkh.*) Which English word is the same word by unbroken descent? (**Eye**.) Does *akkh* carry a tone? (**No** — its doubled *kkh* survived in full, unlike a consonant that lost its breath.)

Sources: Wiktionary: **ਅੱਖ**; Wiktionary: Sanskrit akṣi.

12.2 ਕੰਨ — a false friend hiding in plain sight

Say *madad karnā*, “to do a favour of help,” and pull its stem apart: **kar-**. Watch that same string of sounds turn up again, meaning something it has nothing to do with.

You’ll want to know first — one word

ਕੰਨ — *kann* — **ear**

The letters in this word

ਕ *k*, ◌ੰ the *ṭippī* nasal, ਨ *n* — and the vowel is nasalized where ਅੱਖ doubled a consonant instead. *Ka-nn*, with the doubling this time carried by the nasal mark rather than the addak.

The word, taken apart — its roots and family

ਕੰਨ is inherited from Sanskrit **karṇa**, “ear.” Its own root beyond Sanskrit has never been securely traced — one guess ties it to a word for “twisting” or “winding,” another to a word for “point,” and no source picks a winner.

Here is the trap: **karṇa** looks exactly like it is hiding ਕਰਨਾ *karnā*, “to do,” the very verb inside ਮਦਦ ਕਰਨਾ. It is not. *Karnā*, “to do,” traces to a completely different Proto-Indo-European root, *k^wer-. *Karṇa*, “ear,” does not connect to it at all — the resemblance is a coincidence of sound, the kind every language accumulates, and Punjabi keeps both words close enough in spelling that a learner has to be told, not left to guess.

Your turn

- *Say it:* **kann** — ear
- *State:* is *kann* related to *karnā*, “to do”? (No — a coincidence of sound.)
- *Run through:* **akkh**, **kann** — eye, ear
- *Recall:* *madad karnā*’s own **kar-**, and how it differs from *kann*’s

Before you move on

Give the word for “ear.” (*Kann.*) Does it share a root with *karnā*, “to do”? (**No** — different Proto-Indo-European roots entirely.)
Name the two body words so far. (*Akkh*, *kann.*)
Sources: Wiktionary: ਕੰਨ; Wiktionary: Sanskrit karṇa.

12.3 ਮੂੰਹ — a consonant that wore all the way down to a tone

ਚਾਹ’s final ਹ was not really a consonant — it marked a level high tone, because the word ended right there. This word ends the same way, from a consonant that used to be something else entirely. And unlike ਕੰਨ, which only *looks* like it hides ਕਰਨਾ inside it, this word hides no false friend at all.

You’ll want to know first — one word

ਮੂੰਹ — *mūnh* — **mouth**, also **face**

The letters in this word

ਮ *m*, ◌ੂ long *ū*, ◌ੰ the nasal *ṭippī*, ਹ — again not spoken as *h*, marking the same level high tone you first read in ਚਾਹ: *mū́h̆*.

The word, taken apart — its roots and family

mūnh is inherited from Sanskrit **mukha**, “face, mouth” — Punjabi also kept the same word a second time, whole, as the learned borrowing ਮੁਖ *mukh*, the way it kept both ਪਸੰਦ and its own inherited relatives side by side before.

On the inherited path, *mukha*’s middle **kh** did not simply vanish. Middle Indo-Aryan first softened intervocalic *kh* down to a plain **h** — a regular, well-worn move, nothing to do with the breathy-voiced letters that gave you *bharā*’s low tone or *samajhṇā*’s falling one. Punjabi then lost **that** *h* too, the same way it lost *cāh*’s Persian-final one, and let its pitch land on the vowel before it: level and high, because — exactly as in *cāh* — nothing follows it in the word.

So *mūnh* and *cāh* reach a level high tone from different histories — one from a worn-down *kh*, one from a borrowed word’s own *h* — and arrive at the identical sound.

Your turn

- *Say it:* **mūnh** — mouth, face — level and high
- *Match:* *mūnh*’s tone against *cāh*’s
- *Trace it:* Sanskrit *mukha* → *kh* softens to *h* → *h* is lost → ਮੂੰਹ

- *Name:* the learned twin of *mūnh* that kept the whole word intact

Before you move on

What tone does *mūnh* carry, and which earlier word — not a body word, but the same pattern — first showed it? (**Level high**; **cāh**, tea, from Chapter 10.) What softened before Punjabi lost it entirely in *mukha* → *mūnh*? (**Kh**, first to plain **h**.)
Sources: Wiktionary: ਮੂੰਹ; Wiktionary: Sanskrit mukha.

12.4 ਨੱਕ — the whole face, run back

ਅੱਖ, ਕੰਨ, ਮੂੰਹ — eye, ear, mouth. One more completes the face, and it closes the chapter on the cleanest English cousin this book has found yet.

You'll want to know first — one word

ਨੱਕ — *nakk* — **nose**

The letters in this word

ਨ *n*, ◌ੱ the addak, ਕ *k* — the same doubling mark as ਅੱਖ, and for the same reason: nothing here was ever breathy, so nothing here traded itself for a tone.

The word, taken apart — its roots and family

nakk is inherited from Old Punjabi **naku**, and its root is Proto-Indo-European *neh_2s- — unbroken, all the way to English **nose** itself, Latin *nāsus*, and Lithuanian *nósis*. Like *akkh*, *nakk* needed no ship and no loanword to reach you, only the ordinary work of sound change and a doubled consonant that held its ground.
Run the whole face and its tone table: **akkh** flat, doubled; **kann** flat, nasal, no relation at all to *karnā*; **mūnh** level and high, a worn-down *kh*; **nakk** flat, doubled, the clean cousin of *nose*. Two of the four carry no tone because their old consonants survived whole; one carries a level high tone because its consonant vanished entirely; none of the four carries the low or falling tones you met on verbs and on *bharā* — those belong to words that opened or closed with a breathy voice, and

nothing here ever did.

Your turn

- *Say it:* all four face words — **akkh**, **kann**, **mūnh**, **nakk**
- *Trace it:* PIE *neh$_2$s-* → ਨੱਕ, and → English **nose**
- *Sort:* which of the four carry a tone, and which do not
- *Name:* the doubled-consonant pair, **akkh** and **nakk**

Before you move on

Give the word for “nose.” (*Nakk.*) Which English word is the same word by unbroken descent? (**Nose**.) Name the four face words and which one carries a tone. (*Akkh*, *kann*, *mūnh*, *nakk*; only *mūnh*, level and high.)
Sources: Wiktionary: ਨੱਕ.

12.5 ਈ — one piece met inside a word you already say

A vowel that needs no consonant to lean on, because it starts the word itself.

First, say the last things you learned once more, out loud and from memory:

- *Say it: bharā · bhaiṇ*

Script you’ll notice: ਈ

ਈ

īṛī — *ī*. The **independent** long *ī*, for when a word starts on that vowel. Now put them where you have already heard them:

ਕ + ◌ੋ + ਈ → ਕੋਈ (*koī*)

ਕੋਈ — *koī* — **any, some**

You are not being asked to write any of this. You are being asked to **recognise** it the next time it goes past.

Writing: copy what you can see

Keep ਈ in front of you and do not cover it. Follow each shape once with a finger, then copy it once with a pencil, larger than it is printed. Say its sound as your hand stops.

> This is **observe-and-trace with the model visible**.
> Nothing in these chapters asks you to write a Punjabi word from memory; that ladder starts later, and it starts from these same shapes.

Your turn

- *Look:* at ਕੋਈ and point to each of today's piece in turn
- *Say it:* *ī*, then the whole word — *koī*
- *Look:* back at the headword at the top of any earlier lesson in this chapter and find one shape you now know

Before you move on

Name today's piece: *īṛī*. Which of them is a **mātrā** or a mark rather than a letter, and what does ਕੋਈ say? (*koī*, "any, some".)

Chapter 13

Heart and Head

Modes: 👁 **eyes** (2) ✎ **pen** (1) 🚗 **Hands-free start:** none of the 3 lessons.

> ***By the end of this chapter:*** I can name the heart and the head in Punjabi, tell that ਦਿਲ is Punjabi's one borrowed body word against four inherited ones, and trace ਸਿਰ to the same root as English horn rather than English head.
>
> *The tranche closes on ਸਿਰ: the reader produces all six body words from this tranche, states that ਸਿਰ's real English cousin is horn, not head, and that its resemblance to Persian sar is convergence from a shared Proto-Indo-Iranian ancestor rather than a loan — the opposite case from ਦਿਲ, which genuinely was borrowed from Persian despite sharing the same deep Indo-European root as English heart.*

13.1 ◌਼ · ਸ਼ — two pieces met inside a word you already say

One dot, and a whole layer of Punjabi's borrowed vocabulary becomes readable.

First, say the last things you learned once more, out loud and from memory:

- *Say it: kann · mūnh · nakk*

Script you'll notice: ◌਼ · ਸ਼

◌਼

pairī̃ bindī — *(borrowed).* A single dot placed **under** a letter to mark a sound Punjabi borrowed — mostly from Persian and Arabic. The dot is the passport stamp.

ਸ਼

sassā + pairī̃ bindī — *sha.* The dotted *sassā.* Punjabi prints it as one character, and it is the *sh* of English *ship.*

Now put them where you have already heard them:

ਸ + ◌਼ → ਸ਼ (*sha*); ਗ + ◌਼ → ਗ਼ (*gha*, a Persian sound)

ਸ਼ — *sha* — **the borrowed *sh***

You are not being asked to write any of this. You are being asked to **recognise** it the next time it goes past.

Writing: copy what you can see

Keep ◌਼ · ਸ਼ in front of you and do not cover any of them. Follow each shape once with a finger, then copy it once with a pencil, larger than it is printed. Say its sound as your hand stops.

> This is **observe-and-trace with the model visible**. Nothing in these chapters asks you to write a Punjabi word from memory; that ladder starts later, and it starts from these same shapes.

Your turn

- *Look:* at ਸ਼ and point to each of today's pieces in turn
- *Say it: (borrowed)*, *sha*, then the whole word — *sha*
- *Look:* back at the headword at the top of any earlier lesson in this chapter and find one shape you now know

Before you move on

Name today's pieces: *pairī̃ bindī, sassā + pairī̃ bindī.* Which of them is a **mātrā** or a mark rather than a letter, and what does ਸ਼ say? (*sha*, "the borrowed *sh*".)

13.2 ਦਿਲ — the one body word that is not Sanskrit

ਅੱਖ, ਕੰਨ, ਮੂੰਹ, ਨੱਕ — four body words, all inherited from Sanskrit.
This one breaks the pattern the same way ਦੋਸਤ once did.

You'll want to know first — one word

ਦਿਲ — *dil* — **heart**

The letters in this word

ਦ *d*, ਿ short *i*, ਲ *l*. Every letter already yours, from ਦੁੱਧ and ਲੈਣਾ.

The word, taken apart — its roots and family

ਦਿਲ is **Persian**, borrowed the way ਦੋਸਤ was — Punjabi's everyday word for "heart" is not the word Sanskrit handed down. Sanskrit's own word, **hṛdaya**, exists in Punjabi too, but only as a formal, literary borrowing; ordinary speech reaches for *dil*.

And yet *dil* is not a stranger to Sanskrit's word. Both descend from the same Proto-Indo-European root, **kerd-*, "heart" — Persian's branch carried it to *dil*, Sanskrit's branch carried it to *hṛdaya*, and a third branch carried it, unbroken, to English **heart** itself. Three languages, three shapes, one ancestor. What makes *dil* worth flagging is not the deep root — that root is shared honestly — but the fact that Punjabi took its *everyday* word for heart by borrowing sideways from Persian, rather than by inheriting straight down from Sanskrit the way *akkh* and *nakk* did.

Your turn

- *Say it:* **dil** — heart
- *Trace it:* PIE *kerd-* → Persian *dil* / Sanskrit *hṛdaya* / English **heart**, three branches
- *Contrast: dil*, borrowed, against *akkh* and *nakk*, inherited

- *Recall:* the other Persian loan this book has taught for a person you know (**dost**)

Before you move on

Is *dil* inherited from Sanskrit or borrowed from Persian? (**Borrowed**, from Persian — Sanskrit's own word, *hṛdaya*, stays formal.) What single Proto-Indo-European root sits behind *dil*, Sanskrit *hṛdaya*, and English *heart*, all three? (*Kerd-.)
Sources: Wiktionary: ਦਿਲ; Wiktionary: Persian dil.

13.3 ਸਿਰ — a cousin of "horn," and a twin nobody borrowed

ਦਿਲ broke the pattern — borrowed, where every other body word was inherited. This last word restores the pattern, and closes the tranche on its most surprising cousin yet. On the way, say ਭਰਾ and ਭੈਣ once more, low-toned, the way this book's other loan-versus-inheritance pair opened it.

You'll want to know first — one word

ਸਿਰ — *sir* — **head**

The letters in this word

ਸ *s*, ਿ◌ short *i*, ਰ *r*. Every letter already familiar, from ਸਤਿ and ਮੇਰਾ.

The word, taken apart — its roots and family

ਸਿਰ is inherited, back to Proto-Indo-European *$kerh_2$-, "head, horn." That is genuinely surprising: English **head** comes from an entirely different, unrelated root, *kaput-. *Sir*'s real English cousin is **horn** — the same *$kerh_2$- that gave Latin *cornū* and the Greek word for "head," *karēnon*. A head, on this root's evidence, was once named for whatever stood up highest and hardest on it.
One more thing *sir* does, that no word in this book has done before: it looks identical to Persian **sar**, "head" — and unlike *dil*, that is **not** a loan. Persian and Sanskrit are sister branches of Proto-Indo-Iranian, and each inherited *$kerh_2$- on its own, straight down its own line. *Dil* is

Punjabi reaching sideways into Persian for a word it did not otherwise have. *Sir* only looks like the same kind of borrowing; it is a twin by shared birth, not by loan — closing this tranche the same way Chapter 6 closed on *panj*, two branches independently arriving at one shape. Running the whole face and the two words beyond it: **akkh**, **kann**, **mūnh**, **nakk** are all inherited and tone-marked only where a consonant was lost outright; **dil** is the one loanword; **sir** is inherited, and its resemblance to Persian is convergence, exactly like *panj*'s.

Your turn

- *Say it:* **sir** — head
- *State:* *sir*'s real English cousin (**horn**, not **head**)
- *Contrast:* *sir* and Persian *sar* — look-alikes by shared ancestry, not by loan; *dil* — a genuine loan
- *Run through:* all six body words from this tranche — **akkh**, **kann**, **mūnh**, **nakk**, **dil**, **sir**

Before you move on

Give the word for "head." (*Sir*.) Which English word is its real cousin — *head*, or *horn*? (**Horn**.) Is *sir*'s resemblance to Persian *sar* a loan, the way *dil* is? (**No** — both inherited the same root separately, the way *panj* and Persian *panj* once did.) Name all six body words from this tranche. (*Akkh*, *kann*, *mūnh*, *nakk*, *dil*, *sir*.) Chapter 14

From the Mouth of the Guru, One Piece at a Time

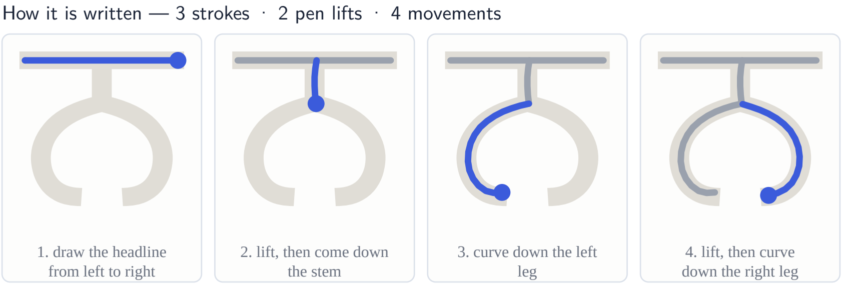
Modes: **pen** (7) **Hands-free start:** none of the 7 lessons.

> ***By the end of this chapter:*** I can add six Gurmukhi pieces to the three learned with ਹਾਂ, then read ਨਹੀਂ and ਨਮਸਤੇ by assembling only known pieces.
>
> *The greeting assembled from five pieces the reader can each write from memory, introducing nothing new, and naming plainly the one piece of machinery still to come.*

14.1 ਨ — the consonant na

Write the piece from the previous lesson before adding another.

Script



How it is written — 3 strokes · 2 pen lifts · 4 movements

1. draw the headline from left to right

2. lift, then come down the stem

3. curve down the left leg

4. lift, then curve down the right leg

Stroke order after GNPS, Gurmukhi Sikho (GNPS Learning Hub), Alphabet Tracing lesson, ਨ (nannaa) checkpoints, strokes 1–4 (lib/data/lessons/lesson_tracing.dart line 785, commit de1e560; Apache-2.0)
This order is attested, not standardised; the source records where it varies.

How ਠ is written, stroke by stroke

ਠ

na — the *n* of English *net*, with the inherent **a** riding along.

No new machinery. Every rule you already hold applies to it unchanged, and that is the point of learning the system rather than the words: **new shapes are coming; new rules are not.**

Your turn

- *Write it:* ਠ
- *Read it:* every piece this chapter has given you so far, in order

Before you move on

What vowel is inside ਠ when nothing is attached? (**a**.) How many new rules did this lesson add? (**None**.)
Source: Unicode Gurmukhi chart.

14.2 ◌ਿ — a second mātrā

Write the piece from the previous lesson before adding another.

Script

◌ੀ

ī, the long *ee* of English *see*. Like the first mātrā it stands to the right, but it carries a curve that rises and **hooks back over the head-line**.

Now build with everything you have:

ਨ + ਹ + ◌ੀ + ◌ਂ → ਨਹੀਂ

na-hīṁ — **no**. Two consonants, one mātrā, one nasal dot.

Both answers to a yes-or-no question are now readable:

ਹਾਂ ਨਹੀਂ

That is the arithmetic of an abugida: consonants and mātrās **multiply**, so a handful of pieces reaches a large number of syllables very quickly.

Your turn

- *Write it:* ◌ੀ
- *Read it:* every piece this chapter has given you so far, in order

Before you move on

What is ਨਹੀਂ? (**No**.) How many pieces is it built from? (**Four**.) And what is the dot doing at the end? (**Nasalising** the vowel.)

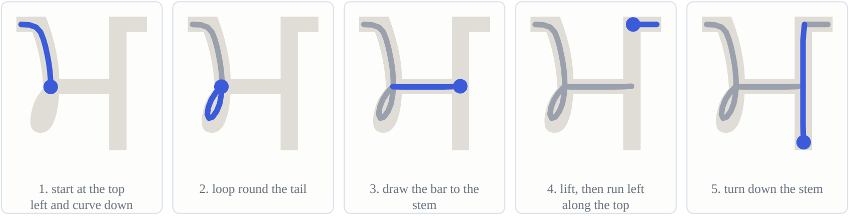
14.3 ਮ — the consonant ma

Write the piece from the previous lesson before adding another.

Script

How it is written — 2 strokes · 1 pen lift · 5 movements



1. start at the top left and curve down
2. loop round the tail
3. draw the bar to the stem
4. lift, then run left along the top
5. turn down the stem

Stroke order after GNPS, Gurmukhi Sikho (GNPS Learning Hub), Alphabet Tracing lesson, ਮ (mammaa) checkpoints, strokes 1–2 (lib/data/lessons/lesson_tracing.dart line 952, commit de1e560; Apache-2.0)
This order is attested, not standardised; the source records where it varies.

How ਮ *is written, stroke by stroke*

ਮ

ma — the *m* of English *met*, plus the inherent vowel.

Three consonants. Say them in the order you met them, each with the vowel nobody wrote:

ਹ ਨ ਮ

ha, na, ma.

Your turn

- *Write it:* ਮ
- *Read it:* every piece this chapter has given you so far, in order

Before you move on

Say the three consonants you hold, each with its inherent vowel.
(***ha, na, ma***.)

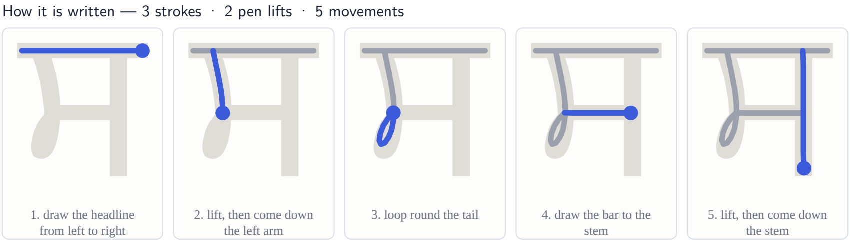
14.4 ਸ — the consonant sa

Write the piece from the previous lesson before adding another.

Script



How it is written — 3 strokes · 2 pen lifts · 5 movements
1. draw the headline from left to right
2. lift, then come down the left arm
3. loop round the tail
4. draw the bar to the stem
5. lift, then come down the stem

Stroke order after GNPS, Gurmukhi Sikho (GNPS Learning Hub), Alphabet Tracing lesson, ਸ (sassaa) checkpoints, strokes 1–3 (lib/data/lessons/lesson_tracing.dart line 127, commit de1e560; Apache-2.0)
This order is attested, not standardised; the source records where it varies.

How ਸ is written, stroke by stroke

ਸ

sa — the *s* of English *sit*, plus the inherent vowel.

Four consonants, two mātrās and a nasal dot. One shape and one mātrā left before the greeting is readable.

Your turn

- *Write it:* ਸ
- *Read it:* every piece this chapter has given you so far, in order

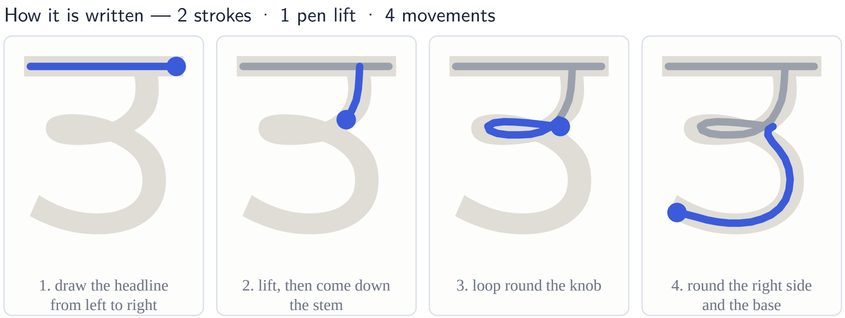
Before you move on

What is the inherent vowel in ਸ? (**a** — *sa*.)
Source: Unicode Gurmukhi chart.

14.5 ਤ — the consonant ta

Write the piece from the previous lesson before adding another.

Script



How it is written — 2 strokes · 1 pen lift · 4 movements
1. draw the headline from left to right
2. lift, then come down the stem
3. loop round the knob
4. round the right side and the base

Stroke order after GNPS, Gurmukhi Sikho (GNPS Learning Hub), Alphabet Tracing lesson, ਤ (tattaa) checkpoints, strokes 1–2 (lib/data/lessons/lesson_tracing.dart line 665, commit de1e560; Apache-2.0)
This order is attested, not standardised; the source records where it varies.

How ਤ *is written, stroke by stroke*

ਤ

ta — and it is not quite the English consonant.

English *t* is made with the tongue on the **ridge behind** the teeth. This one is **dental**: the tongue touches the **back of the upper teeth themselves**, further forward. It sounds softer to an English ear, and getting it right is one of the quickest ways to stop sounding foreign.

The script has a **second** t made further back, and the two are different letters in different words. This is the forward one.

Your turn

- *Write it:* ਤ
- *Read it:* every piece this chapter has given you so far, in order

Before you move on

Where does the tongue go for ਤ? (Against the **back of the upper teeth** — dental.) Is there another t? (**Yes**, one made further back.) Source: Unicode Gurmukhi chart.

14.6 ◌ੇ — a mātrā that sits ABOVE the letter, not beside it

Write the piece from the previous lesson before adding another.

Script

◌ੇ

e, the vowel of English *they.* And unlike both mātrās you already hold, which stand to the right, this one sits **above** the letter, riding on the headline:

ਤ + ◌ੇ → ਤੇ

te. Still one beat.

Where a mātrā sits is part of its identity, not a style choice. In this family of scripts a vowel sign can go right, left, above, below, or on both sides at once, and a reader learns to look **around** a consonant rather than only after it.

Your turn

- *Write it:* ◌ੇ
- *Read it:* every piece this chapter has given you so far, in order

Before you move on

Where does this mātrā sit? (**Above** the consonant.) Does it add a beat? (**No**.)
Source: Unicode Gurmukhi chart.

14.7 ਠਮਸਤੇ — five pieces, all of them already yours

Write the piece from the previous lesson before adding another.

Script

Nothing new is introduced here. Every piece below is one you can write.

ਨ + ਮ + ਸ + ਤ + ੇ → ਨਮਸਤੇ

Read it the way you built it:

- ਨ — *na*, inherent vowel
- ਮ — *ma*, inherent vowel
- ਸ — *sa*, inherent vowel
- ਤੇ — *ta* with the mātrā above, making *te*

na-ma-ste. Four consonants in a row, three of them carrying the vowel nobody wrote, and one mark on the last. The greeting from your first lesson, decoded rather than recalled.

One piece of machinery is still missing, and it is worth naming rather than hiding. Some words press two consonants together with no vowel between them, and this script has a way to write that — a mark that deletes the inherent vowel and fuses the pair into one shape. You have not needed it yet. The longer Sikh greeting you already say contains one, and it is the next thing this book will teach you.

So: **four consonants, three mātrās and a nasal dot**, and with them you can read *yes*, *no* and the greeting.

Your turn

- *Write it:* ਨਮਸਤੇ
- *Read it:* every piece this chapter has given you so far, in order

Before you move on

How many new pieces were in this lesson? (**None**.) What carries the vowel in ਨ, ਮ and ਸ? (**Nothing** — it is the inherent vowel.) And what is the one piece of machinery still to come? (The mark that **deletes** the inherent vowel and **joins** two consonants.) Source: Unicode Gurmukhi chart.

Chapter 15

The First Form Line: Name

Modes: ✎ **pen** (8) 🚗 **Hands-free start:** none of the 8 lessons.

> ***By the end of this chapter:*** I can recognise the Gurmukhi name label, select between two separately practised values, and fill one requested name line from a nonverbal cue with no model.
>
> *The learner fills one name field from a nonverbal identity cue after the label, both values, selection, supported entry, delayed entry, spelling, spacing, and repair have each received a bounded pass.*

15.1 ਅ — a vowel that can stand first

> Point to the first known piece in ਨਮਸਤੇ: ਨ. A consonant can carry an unwritten *a*. Today a vowel stands by itself at the beginning of a word.

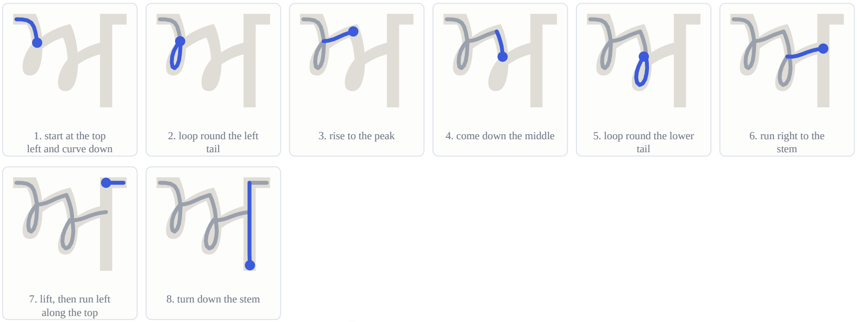
Script

> ਅ

Read it as short *a*. It is one complete letter, not a mark attached to a consonant. That is why it can begin the practice name in the next lesson.

Writing — observe and trace

How it is written — 2 strokes · 1 pen lift · 8 movements



1. start at the top left and curve down
2. loop round the left tail
3. rise to the peak
4. come down the middle
5. loop round the lower tail
6. run right to the stem
7. lift, then run left along the top
8. turn down the stem

This order is attested, not standardised; the source records where it varies.

How ਅ *is written, stroke by stroke*

Keep ਅ visible. Follow one printed model with your finger, then trace it once. Compare only three things: the top line, the upright, and the lower turn.

Before you move on

Cover the model for two seconds. Point to ਅ when it appears beside ਠ.

15.2 ਅਮਠ — one new piece, two old pieces

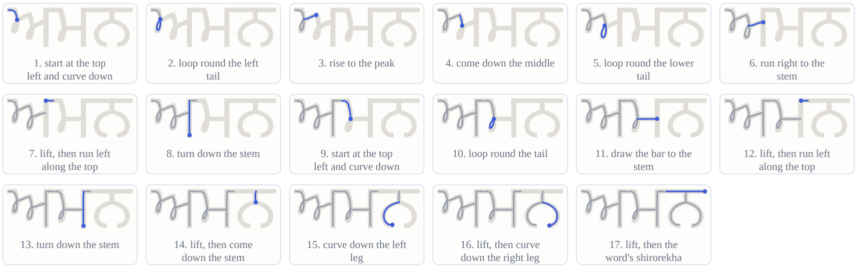
Read the three separate pieces: ਅ · ਮ · ਠ.

Script — assemble the practice name

ਅ + ਮ + ਠ → ਅਮਠ

This book uses ਅਮਠ as one closed-bank practice identity. It is not asking you to spell your own name yet.

Writing — guided copy



How it is written — 7 strokes · 6 pen lifts · 17 movements

This order is attested, not standardised; the source records where it varies.

How ਅਮਨ is written, letter by letter, then one headline, stroke by stroke

Keep ਅਮਨ visible. Copy it once, saying each piece as your hand reaches it. Compare left to right. Repair only the first differing piece.

Before you move on

Point to the only piece that was new today: ਅ.

15.3 ਮਨਨ — two familiar pieces, one repeated

Write ਮ once and ਨ once. No new letter appears today.

Script — assemble the second practice name

ਮ + ਨ + ਨ → ਮਨਨ

This is the second and final value in the first name-field bank. Notice the two adjacent ਨ letters; neither may disappear.

Writing — guided copy

This order is attested, not standardised; the source records where it varies.

How ਮਨਨ *is written, letter by letter, then one headline, stroke by stroke*

Keep ਮਨਨ visible. Copy it once. Tap three positions after writing: ਮ | ਨ | ਨ. If there are only two positions, restore the final ਨ.

> Before you move on
>
> Contrast once: ਅਮਨ begins with ਅ; ਮਨਨ begins with ਮ.

15.4 ਨਾਂ — the first form label

Build the known pieces aloud: ਨ + ◌ਾ + ◌ਂ.

Script — read the label

ਨਾਂ: ________________

On a form, ਨਾਂ asks for a name. The colon belongs to the form; it is not a Gurmukhi letter. Point to the label, then point to the empty answer line.

Writing — one label

Copy ਨਾਂ once. Check the base ਨ, then the long-vowel mark, then the nasal dot. Do not add a name value yet.

> Before you move on
>
> Find ਨਾਂ among ਹਾਂ · ਨਾਂ · ਨਹੀਂ without writing the other two words.

15.5 Two people, two already-known values

Read both names. Point to the first differing letter:

ਅਮਨ · ਮਨਨ

Script — attach one nonverbal cue to each person

For this closed practice bank only:

- **A** → ਅਮਨ
- **B** → ਮਨਨ

Look for five seconds. Cover the Gurmukhi names. Point to A and recall its name; point to B and recall its name. Uncover and compare.

Your turn — value selection

With the bank visible, choose but do not copy: which value belongs to **B**? Which belongs to **A**? The skill today is selecting the requested known value.

Before you move on

Stop after the two-way contrast. No third name enters this field bank.

15.6 Fill one field with the bank visible

Read the label ਨਾਂ. Recall the visible bank: **A** ਅਮਨ · **B** ਮਨਨ.

Your turn — supported entry

Keep the bank visible. Card A requests its known value:

A — **ਨਾਂ:** ________________

Select ਅਮਨ and copy it on the line. Read the completed field from label to value. This is supported entry, not independent writing evidence.

Writing — separate spelling check

Check only spelling: ਅ | ਮ | ਠ. Do not check spacing or selection in this pass. If one piece differs, repair that one piece.

> Before you move on
>
> Stop after one supported field.

15.7 Hide the bank, then fill one line

> Look once: **A** ਅਮਠ · **B** ਮਠਠ. Cover the complete bank and wait ten seconds.

Writing — delayed requested entry

Keep the bank hidden. Complete only this field:

B — ਠਾਂ: ________________

The requested value is chosen from memory; there is no copyable answer beside the line. Reveal the bank only after writing.

Your turn — separate repair passes

Compare in order: (1) selected person, (2) three written positions, (3) any extra space inside the name. Repair the first differing dimension and stop.

> Before you move on
>
> This is one delayed choice, not a six-field form.

15.8 One no-model name field

> Close the previous lesson. Keep only the two learned identity symbols in memory. There is no value bank, support-language name, or romanized answer below.

Writing — independent controlled choice

Complete the requested field:

A — ਠਾਂ: ________________

Choose the known value attached to A and write it from memory. Do not open an earlier lesson until the attempt is complete.

Your turn — separate repair passes

After writing, compare in four bounded passes: requested person, spelling, spacing, then label/value placement. Repair only the first differing dimension.

Before you move on

You have completed one field pattern. Five more field families remain before the published six-field form can be attempted.

Chapter 16

Build the Language Label and Values

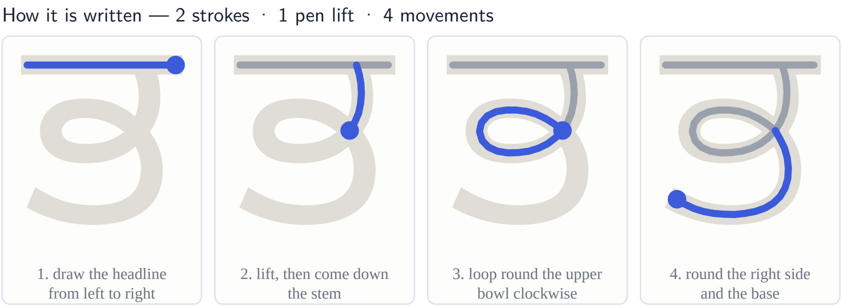
Modes: **pen** (11) **Hands-free start:** none of the 11 lessons.

> ***By the end of this chapter:*** I can build the Gurmukhi language label and guided-copy two separately practised language values after learning every new script piece one at a time.
>
> *The learner builds* ਭਾਸ਼ਾ, ਪੰਜਾਬੀ, *and* ਹਿੰਦੀ *only after each new Gurmukhi piece has received its own tiny introduction.*

16.1 ਭ — one new base for the next label

Keep only the familiar long-vowel mark ◌ਾ in view. Today adds one base letter.

Script — one tiny step



How it is written — 2 strokes · 1 pen lift · 4 movements
1. draw the headline from left to right
2. lift, then come down the stem
3. loop round the upper bowl clockwise
4. round the right side and the base

Stroke order after GNPS, Gurmukhi Sikho (GNPS Learning Hub), Alphabet Tracing lesson, ਭ (bhabbaa) checkpoints, strokes 1–2 (lib/data/lessons/lesson_tracing.dart line 920, commit de1e560; Apache-2.0)
This order is attested, not standardised; the source records where it varies.

How ਭ *is written, stroke by stroke*

Trace ਭ slowly once, then once more. Say *bha*. Do not attach a vowel mark yet.

Your turn

Complete one careful attempt. Compare only the new shape or word, repair one difference, and stop.

Before you move on

No later answer in this lesson adds a new spelling.

16.2 ਸ਼ — one dotted sound

Point once to ਭ, then put it away. This session adds only ਸ਼.

Script — one tiny step

Trace ਸ਼ once. Its dot belongs to the letter. Compare it with familiar ਸ, then cover the comparison.

Your turn

Complete one careful attempt. Compare only the new shape or word, repair one difference, and stop.

Before you move on

No later answer in this lesson adds a new spelling.

16.3 ਭਾਸ਼ਾ — assemble the language label

Touch the two new bases in order: ਭ, then ਸ਼. The long-vowel mark is already familiar.

Script — one tiny step

Build ਭਾ + ਸ਼ਾ = ਭਾਸ਼ਾ. On a form, ਭਾਸ਼ਾ asks which language belongs on the line. Copy the label once, then leave the answer line empty.

Your turn

Complete one careful attempt. Compare only the new shape or word, repair one difference, and stop.

Before you move on

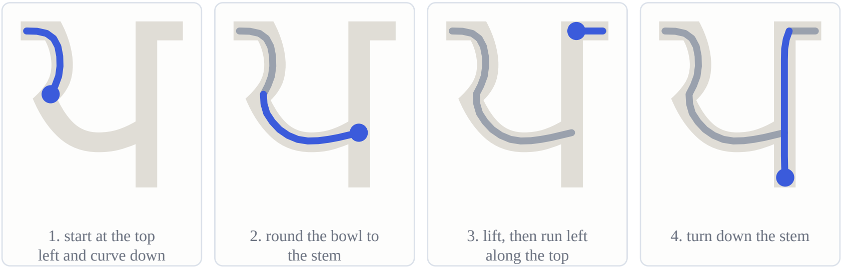
No later answer in this lesson adds a new spelling.

16.4 ਪ — first piece of ਪੰਜਾਬੀ

Read ਭਾਸ਼ਾ as language. Now hide it; this session adds one value-letter.

Script — one tiny step

How it is written — 2 strokes · 1 pen lift · 4 movements



1. start at the top left and curve down
2. round the bowl to the stem
3. lift, then run left along the top
4. turn down the stem

Stroke order after GNPS, Gurmukhi Sikho (GNPS Learning Hub), Alphabet Tracing lesson, ਪ (pappaa) checkpoints, strokes 1–2 (lib/data/lessons/lesson_tracing.dart line 826, commit de1e560; Apache-2.0)
This order is attested, not standardised; the source records where it varies.

How ਪ *is written, stroke by stroke*

Trace ਪ once, say *pa*, and stop. The complete language name comes later.

Your turn

Complete one careful attempt. Compare only the new shape or word, repair one difference, and stop.

Before you move on

No later answer in this lesson adds a new spelling.

16.5 ◌ੰ — the nasal mark inside ਪੰਜਾਬੀ

Write ਪ once. Today adds only the nasal mark that sits above it.

Script — one tiny step

Place ◌ੰ above ਪ to make ਪੰ. This is *ṭippī*, not the final-position bindi from ਹਾਂ.

Your turn

Complete one careful attempt. Compare only the new shape or word, repair one difference, and stop.

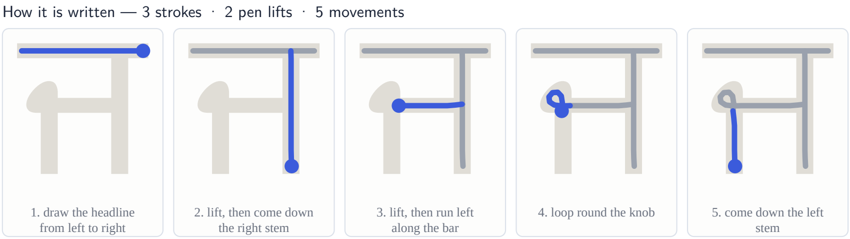
Before you move on

No later answer in this lesson adds a new spelling.

16.6 ਜ — the middle base

Read ਪੰ once, then cover it.

Script — one tiny step



How it is written — 3 strokes · 2 pen lifts · 5 movements
1. draw the headline from left to right
2. lift, then come down the right stem
3. lift, then run left along the bar
4. loop round the knob
5. come down the left stem

Stroke order after GNPS, Gurmukhi Sikho (GNPS Learning Hub), Alphabet Tracing lesson, ਜ (jajjaa) checkpoints, strokes 1–3 (lib/data/lessons/lesson_tracing.dart line 408, commit de1e560; Apache-2.0)
This order is attested, not standardised; the source records where it varies.

How ਜ *is written, stroke by stroke*

Trace ਜ once and say *ja*. Do not assemble the whole word yet.

Your turn

Complete one careful attempt. Compare only the new shape or word, repair one difference, and stop.

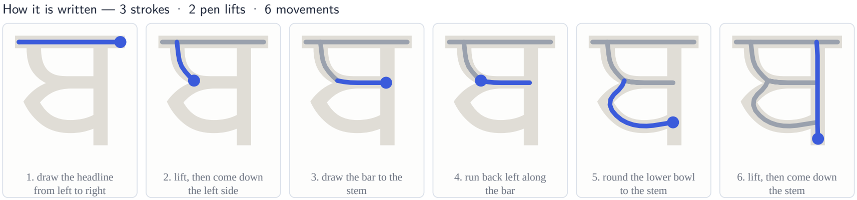
Before you move on

No later answer in this lesson adds a new spelling.

16.7 ਬ — the last new base in ਪੰਜਾਬੀ

Point to ਜ. Today adds one final base.

Script — one tiny step



How it is written — 3 strokes · 2 pen lifts · 6 movements
1. draw the headline from left to right
2. lift, then come down the left side
3. draw the bar to the stem
4. run back left along the bar
5. round the lower bowl to the stem
6. lift, then come down the stem

Stroke order after GNPS, Gurmukhi Sikho (GNPS Learning Hub), Alphabet Tracing lesson, ਬ (babbaa) checkpoints, strokes 1–4 (lib/data/lessons/lesson_tracing.dart line 885, commit de1e560; Apache-2.0)
This order is attested, not standardised; the source records where it varies.

How ਬ *is written, stroke by stroke*

Trace ਬ once and say *ba*. The familiar ੀ will attach to it in the next session.

Your turn

Complete one careful attempt. Compare only the new shape or word, repair one difference, and stop.

Before you move on

No later answer in this lesson adds a new spelling.

16.8 ਪੰਜਾਬੀ — the Punjabi value

Touch the pieces without writing: ਪੰ · ਜਾ · ਬੀ.

Script — one tiny step

Assemble ਪੰਜਾਬੀ and copy it once with the model visible. This supported copy teaches the value; it is not independent writing evidence.

Your turn

Complete one careful attempt. Compare only the new shape or word, repair one difference, and stop.

Before you move on

No later answer in this lesson adds a new spelling.

16.9 ◌ਿ — a mark written before, read after

Write familiar ਹ once.

Script — one tiny step

Add ◌ਿ to make ਹਿ. Sihari is drawn to the left of its base but read after it: *hi*.

Your turn

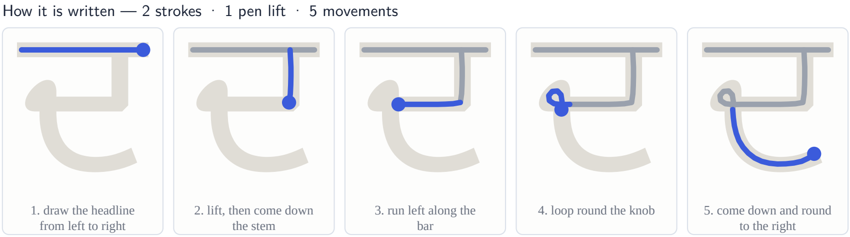
Complete one careful attempt. Compare only the new shape or word, repair one difference, and stop.

> **Before you move on**
>
> No later answer in this lesson adds a new spelling.

16.10 ਦ — one dental base

Read ਹਿ once, then cover it.

Script — one tiny step



How it is written — 2 strokes · 1 pen lift · 5 movements
1. draw the headline from left to right
2. lift, then come down the stem
3. run left along the bar
4. loop round the knob
5. come down and round to the right

Stroke order after GNPS, Gurmukhi Sikho (GNPS Learning Hub), Alphabet Tracing lesson, ਦ (daddaa) checkpoints, strokes 1–2 (lib/data/lessons/lesson_tracing.dart line 730, commit de1e560; Apache-2.0)
This order is attested, not standardised; the source records where it varies.

How ਦ is written, stroke by stroke

Trace ਦ once and say dental *da*. Do not add ◌ਾ until the next session.

Your turn

Complete one careful attempt. Compare only the new shape or word, repair one difference, and stop.

Before you move on

No later answer in this lesson adds a new spelling.

16.11 ਹਿੰਦੀ — the Hindi value

Point once to ਭਾਸ਼ਾ and say language. Point once to ਪੰਜਾਬੀ and say Punjabi. Touch ਭ, ਸ਼, then the pieces of the Hindi value: ਹਿ · ੰ · ਦੀ.

Script — one tiny step

Assemble ਹਿੰਦੀ and copy it once with the model visible. Keep the tippi above the first unit and the long ੀ on ਦ.

Your turn

Complete one careful attempt. Compare only the new shape or word, repair one difference, and stop.

Before you move on

No later answer in this lesson adds a new spelling.

Chapter 17

The Second Form Line: Language

Modes: ✎ **pen** (4) 🚗 **Hands-free start:** none of the 4 lessons.

> ***By the end of this chapter:*** I can select between two separately practised values and fill one requested Gurmukhi language line from a nonverbal cue with no model.
>
> *The learner fills one language field from a nonverbal cue after selection, supported entry, delayed entry, spelling, spacing, and repair have each received a bounded pass.*

17.1 Select one known language value

Read the closed bank once:

A — ਪੰਜਾਬੀ

B — ਹਿੰਦੀ

Script — attach one cue to each value

Point to A, then ਪੰਜਾਬੀ. Point to B, then ਹਿੰਦੀ. Cover the bank and say which value B requests. Selection is separate from spelling.

Your turn

Reveal, point, cover, and select once more. Do not write the form line yet.

Before you move on

This cue belongs only to this two-item practice bank.

17.2 Fill one supported language field

Keep this bank visible:

A — ਪੰਜਾਬੀ

B — ਹਿੰਦੀ

Writing — model visible

Complete **ਭਾਸ਼ਾ:** ________________ for A. Read the label, select the A value, and copy it. This is supported entry, not independent writing evidence.

Your turn

Compare selection, spelling, spacing, and placement in separate passes.

Before you move on

Stop after one supported line.

17.3 Hide, wait, then fill the language field

Read A — ਪੰਜਾਬੀ, B — ਹਿੰਦੀ once. Hide the bank and count slowly to ten.

Writing — short delayed entry

With the bank hidden, complete **ਭਾਸ਼ਾ:** ________________ for B. Finish the attempt before revealing the bank.

Your turn

Reveal and compare selection, spelling, spacing, then placement. Repair one dimension only.

Before you move on

One delayed line is enough today.

17.4 One no-model language field

Close the previous lesson. There is no value bank, support-language label, or romanized answer below.

Writing — independent controlled choice

Complete the requested field:

A — **ਭਾਸ਼ਾ:** ________________

Choose the known value attached to A and write it from memory. Do not reopen an earlier lesson until the attempt is complete.

Your turn — separate repair passes

After writing, compare selection, spelling, spacing, and placement. Repair only the first differing dimension.

Before you move on

This closes only the language-field ladder. The remaining form fields are still separate backlog work.

Chapter 18

Build the Residence Label and Values

Modes: **voice** (1) **pen** (6) **Hands-free start:** none of the 7 lessons.

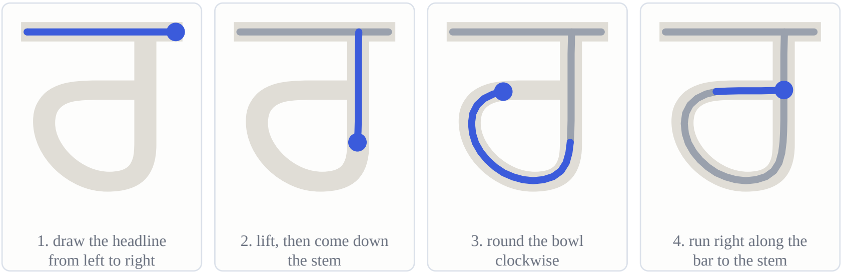
> ***By the end of this chapter:*** I can recognise and copy the Gurmukhi residence label and two separately practised neutral values.
>
> *The learner assembles the residence label and copies two neutral values after each new Gurmukhi piece has received its own bounded pass.*

18.1 ਰ — one new base for the residence label

Find the familiar short-vowel mark ਿ◌. Today adds only one base letter.

Script — one tiny step

How it is written — 2 strokes · 1 pen lift · 4 movements



1. draw the headline from left to right
2. lift, then come down the stem
3. round the bowl clockwise
4. run right along the bar to the stem

Stroke order after GNPS, Gurmukhi Sikho (GNPS Learning Hub), Alphabet Tracing lesson, ਰ (raaraa) checkpoints, strokes 1–2 (lib/data/lessons/lesson_tracing.dart line 1014, commit de1e560; Apache-2.0)
This order is attested, not standardised; the source records where it varies.

How ਰ *is written, stroke by stroke*

Trace ਰ slowly twice. Say *ra*. Then place ਿ◌ before it once: ਰਿ.

Your turn

Write ਰ once without the model. Compare only the base shape and repair one difference.

Before you move on

Stop after this one new base.

18.2 ਇ — one independent vowel

Write the new base ਰ once. Leave a finger-width of space beside it.

Script — one tiny step

Trace ਇ slowly twice. It stands on its own; it is not the attached mark ਿ◌.

Your turn

Point to ਇ, cover it, and write it once. Repair only the new shape.

Before you move on

No word is scored yet.

18.3 ਰਿਹਾਇਸ਼ — assemble the residence label

Touch the pieces in order: ਰਿ, ਹਾ, ਇ, ਸ਼.

Script — one label

Join ਰਿ + ਹਾ + ਇ + ਸ਼ = ਰਿਹਾਇਸ਼. On a form, ਰਿਹਾਇਸ਼ labels the residence line. Copy the label once and leave its answer blank.

Your turn

Point to the label and say what information belongs there. Do not add a value yet.

Before you move on

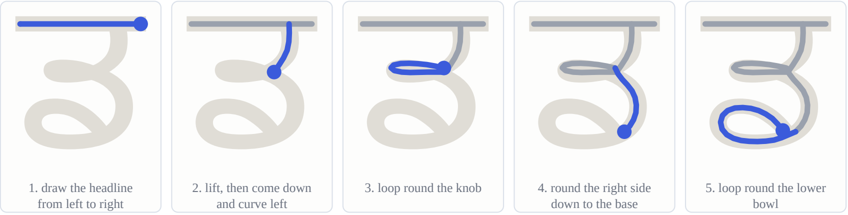
The familiar spoken word ਰਹਿਣਾ can remind you of living somewhere; only the form label is scored here.

18.4 ਡ — one new base for a residence value

Find the familiar nasal mark ◌ਁ. Today adds one base letter beneath the line.

Script — one tiny step

How it is written — 2 strokes · 1 pen lift · 5 movements



1. draw the headline from left to right
2. lift, then come down and curve left
3. loop round the knob
4. round the right side down to the base
5. loop round the lower bowl

Stroke order after GNPS, Gurmukhi Sikho (GNPS Learning Hub), Alphabet Tracing lesson, ਡ (daddaa) checkpoints, strokes 1–2 (lib/data/lessons/lesson_tracing.dart line 564, commit de1e560; Apache-2.0)
This order is attested, not standardised; the source records where it varies.

How ਡ is written, stroke by stroke

Trace ਡ slowly twice. Say *ḍa*. Do not build the whole word yet.

Your turn

Cover the model and write ਡ once. Repair only the base shape.

Before you move on

One new base is enough.

18.5 ਪਿੰਡ — assemble one residence value

Touch ਪ, then the pre-base ਿ, then ੰ, then ਡ.

Script — one value

Build ਪਿ + ੰ + ਡ = ਪਿੰਡ. It means “village.” Copy ਪਿੰਡ once.

Your turn

Cover the model, say the meaning, and write the value once. Reveal it and repair one piece.

Before you move on

Only this value is scored today.

18.6 ਸ਼ਹਿਰ — assemble the other residence value

Touch the known pieces ਸ਼, ਹਿ, ਰ in order.

Script — one value

Join ਸ਼ + ਹਿ + ਰ = ਸ਼ਹਿਰ. It means “city.” Copy ਸ਼ਹਿਰ once.

Your turn

Cover the model, say the meaning, and write the value once. Repair only the first differing piece.

Before you move on

The two values remain separate until the next lesson.

18.7 The wellbeing exchange returns at R4

> No new language. Keep this oral: listen, then speak. *Write it:* then only a typed record of what you already said

The exchange

Ask, answer, and close once. Romanization records prior speech only; it earns no Gurmukhi reading or writing credit.

Before you move on

Say the three-turn exchange once more from meaning alone.

Chapter 19

The Third Form Line: Residence

Modes: ✎ **pen** (6) 🚗 **Hands-free start:** none of the 6 lessons.

> ***By the end of this chapter:*** I can select between two separately practised values and fill one requested Gurmukhi residence line from a nonverbal cue with no model.
>
> *The learner fills one residence field from a nonverbal cue after selection, supported entry, spacing, delayed entry, and repair have each received a bounded pass.*

19.1 Select one known residence value

Read the closed bank once:

A — ਪਿੰਡ

B — ਸ਼ਹਿਰ

Script — attach one cue to each value

Point to A, then ਪਿੰਡ. Point to B, then ਸ਼ਹਿਰ. Cover the bank and say which value B requests. Selection is separate from spelling.

Your turn

Reveal, point, cover, and select once more. Do not write the form line yet.

Before you move on

These cues belong only to this two-item bank.

19.2 Fill one supported residence field

Keep this bank visible:

A — ਪਿੰਡ

B — ਸ਼ਹਿਰ

Writing — model visible

Complete **ਰਿਹਾਇਸ਼:** __________________ for A. Read the label, select the A value, and copy it. This is supported entry, not independent writing evidence.

Your turn

Compare selection, spelling, spacing, and placement in separate passes.

Before you move on

Stop after one supported line.

19.3 Give the residence value its own space

Read **ਰਿਹਾਇਸ਼: ਪਿੰਡ**. Point once to the label and once to the value.

Writing — one spacing pass

Copy **ਰਿਹਾਇਸ਼:**, leave a clear space, then copy **ਪਿੰਡ**. Judge only the boundary after the colon.

Your turn

Cover the model and repeat once. If the boundary is unclear, repair only the space.

Before you move on

Selection and memory are not scored in this spacing pass.

19.4 Hide, wait, then fill the residence field

> Read A — ਪਿੰਡ, B — ਸ਼ਹਿਰ once. Hide the bank and count slowly to ten.

Writing — short delayed entry

With the bank hidden, complete ਰਿਹਾਇਸ਼: ________________ for B. Finish the attempt before revealing the bank.

Your turn

Reveal and compare selection, spelling, spacing, then placement. Do not repair yet.

Before you move on

One delayed line is enough.

19.5 Repair one residence-field difference

> Compare ਰਿਹਾਇਸ਼:ਸ਼ਹਿਰ with ਰਿਹਾਇਸ਼: ਸ਼ਹਿਰ. The letters match; one boundary differs.

Writing — one repair pass

Rewrite the first line with a clear space after the colon. Leave every letter unchanged.

Your turn

Name the repaired dimension: selection, spelling, spacing, or placement. Stop after one repair.

Before you move on

The next lesson asks for a fresh line rather than a repair.

19.6 One no-model residence field

Close the previous lesson. There is no value bank, support-language label, or romanized answer below.

Writing — independent controlled choice

Complete the requested field:

A — **ਰਿਹਾਇਸ਼:** ________________

Choose the known value attached to A and write it from memory. Do not reopen an earlier lesson until the attempt is complete.

Your turn — separate repair passes

After writing, compare selection, spelling, spacing, and placement. Repair only the first differing dimension.

Before you move on

This closes only the residence-field ladder. The remaining form fields are separate backlog work.

Chapter 20

Build the Work Label and Values

Modes: 🚗 **voice** (1) ↙ **pen** (6) 🚗 **Hands-free start:** none of the 7 lessons.

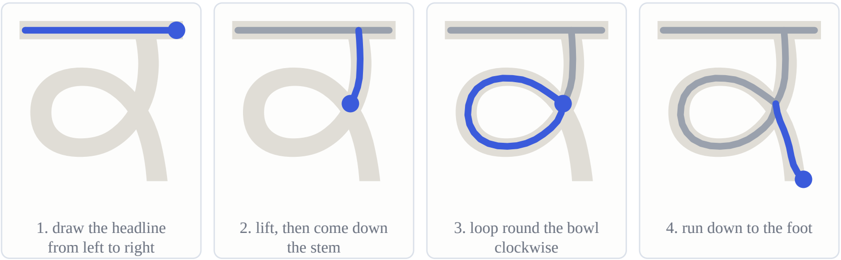
> ***By the end of this chapter:*** I can recognise and copy the Gurmukhi work label and two separately practised neutral values.
>
> *The learner assembles the work label and copies two neutral values after each new Gurmukhi piece has received its own bounded pass.*

20.1 ਕ — one new base for the work label

Write the familiar ਮ once and place the familiar nasal mark ◌ੰ above it once. Today adds only one base letter.

Script — one tiny step

How it is written — 2 strokes · 1 pen lift · 4 movements



1. draw the headline from left to right

2. lift, then come down the stem

3. loop round the bowl clockwise

4. run down to the foot

Stroke order after GNPS, Gurmukhi Sikho (GNPS Learning Hub), Alphabet Tracing lesson, ਕ (kakkaa) checkpoints, strokes 1–2 (lib/data/lessons/lesson_tracing.dart line 190, commit de1e560; Apache-2.0)
This order is attested, not standardised; the source records where it varies.

How ਕ is written, stroke by stroke

Trace ਕ slowly twice. Say *ka*. Do not build the whole label yet.

Your turn

Cover the model and write ਕ once. Compare only the base shape and repair one difference.

Before you move on

Stop after this one new base.

20.2 ਕੰਮ — assemble the work label

Touch the pieces in order: ਕ, ੰ, ਮ, ਮ.

Script — one label

Join ਕ + ੰ + ਮ + ਮ = ਕੰਮ. On this beginner form, ਕੰਮ labels the work line. Copy the label once and leave its answer blank.

Your turn

Point to the label and say what information belongs there. Do not add a value yet.

Before you move on

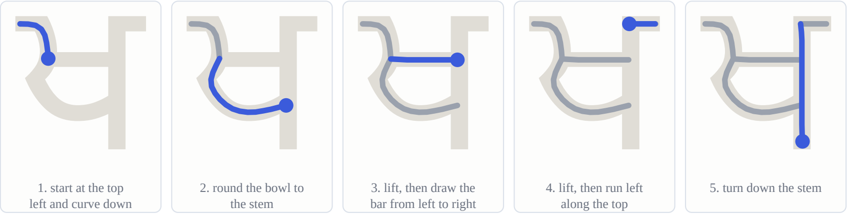
This is a closed practice form, not a request for real personal information.

20.3 ਖ — one new base for a work value

Write ਕ once. Today adds a different base; compare the two without naming a whole word.

Script — one tiny step

How it is written — 3 strokes · 2 pen lifts · 5 movements



1. start at the top left and curve down
2. round the bowl to the stem
3. lift, then draw the bar from left to right
4. lift, then run left along the top
5. turn down the stem

Stroke order after GNPS, Gurmukhi Sikho (GNPS Learning Hub), Alphabet Tracing lesson, ਖ (khakhaa) checkpoints, strokes 1–3 (lib/data/lessons/lesson_tracing.dart line 218, commit de1e560; Apache-2.0)
This order is attested, not standardised; the source records where it varies.

How ਖ *is written, stroke by stroke*

Trace ਖ slowly twice. Say *kha*. Keep its shape separate from ਕ.

Your turn

Cover the model and write ਖ once. Repair only the base shape.

Before you move on

One new base is enough.

20.4 ਖੇਤੀ — assemble one work value

Touch ਖ, then ◌ੇ, then ਤ, then ◌ੀ.

Script — one value

Build ਖੇ + ਤੀ = ਖੇਤੀ. It means “farming.” Copy ਖੇਤੀ once.

Your turn

Cover the model, say the meaning, and write the value once. Reveal it and repair one piece.

Before you move on

Only this value is scored today.

20.5 ਮੌਸਮ (mausam) — the weather

Before the new word: say the last thing you learned, once, out loud.

You'll want to know: ਮੌਸਮ

ਮੌਸਮ — *mausam* — "the weather".

Say it: *mausam*. *Look:* at its shape as you say it. The lessons that follow take pieces of it, ◌ੌ, and write each one on its own.

The word, taken apart — its roots and family

ਮੌਸਮ (*mausam*) is a loan from Arabic *mawsim*, "a season, a time of assembly", which reached Punjabi through Persian. Its Arabic root is *w-s-m* (Lane).

Your turn

Say these aloud:

- *mausam*
- *mausam*, and what it means

Before you move on

What is "the weather"? (ਮੌਸਮ, *mausam*.)

20.6 ◌ੌ — one new vowel sign

Write the familiar base ਠ once. Keep the top line clear.

Script — one tiny step

Trace the vowel sign ◌ੌ twice. Attach it to ਠ once: ਠੌ. The mark belongs above the base.

Your turn

Cover the model and write ਠੌ once. Repair only the new sign or its placement.

Before you move on

Do not build the whole value yet.

20.7 ਨੌਕਰੀ — assemble the other work value

Touch the known pieces ਨੌ, ਕ, ਰੀ in order.

Script — one value

Join ਨੌ + ਕ + ਰੀ = ਨੌਕਰੀ. It means "job." Copy ਨੌਕਰੀ once.

Your turn

Cover the model, say the meaning, and write the value once. Repair only the first differing piece.

Before you move on

Which word from earlier in this chapter carries the same ੌ? (ਮੌਸਮ, *mausam*, the weather.)
The two values remain separate until the next lesson.

Chapter 21

The Fourth Form Line: Work

Modes: ✎ **pen** (8) 🚗 **Hands-free start:** none of the 8 lessons.

> ***By the end of this chapter:*** I can select between two separately practised values and fill one requested Gurmukhi work line from a nonverbal cue with no model.
>
> *The learner fills one work field from a nonverbal cue after selection, supported entry, spelling, spacing, field-value agreement, delayed entry, and repair have each received a bounded pass.*

21.1 Select one known work value

Read the closed practice bank once:

A — ਖੇਤੀ

B — ਨੌਕਰੀ

Script — attach one cue to each value

Point to A, then ਖੇਤੀ. Point to B, then ਨੌਕਰੀ. Cover the bank and say which value B requests. Selection is separate from spelling.

Your turn

Reveal, point, cover, and select once more. Do not write the form line yet.

Before you move on

These cues belong only to this invented two-item bank.

21.2 Fill one supported work field

Keep this invented bank visible:

A — ਖੇਤੀ

B — ਨੌਕਰੀ

Writing — model visible

Complete **ਕੰਮ:** ________________ for A. Read the label, select the A value, and copy it. This is supported entry, not independent writing evidence.

Your turn

Compare selection, spelling, spacing, field-value agreement, and placement in separate passes.

Before you move on

Stop after one supported line.

21.3 Check only the work-value spelling

Read ਖੇਤੀ and ਨੌਕਰੀ once. Touch each script piece without writing a form line.

Writing — one spelling pass

Cover both models and write ਨੌਕਰੀ once. Reveal it and compare ਨੌ, then ਕ, then ਰੀ. Ignore the field label and spacing today.

Your turn

If a piece differs, rewrite only that piece before copying the whole value once more.

Before you move on

Selection and spacing are not scored in this pass.

21.4 Give the work value its own space

Read ਕੰਮ: ਖੇਤੀ. Point once to the label and once to the value.

Writing — one spacing pass

Copy ਕੰਮ:, leave a clear space, then copy ਖੇਤੀ. Judge only the boundary after the colon.

Your turn

Cover the model and repeat once. If the boundary is unclear, repair only the space.

Before you move on

Selection, spelling, and agreement are not scored in this spacing pass.

21.5 Keep the field and value together

Read ਕੰਮ, then ਖੇਤੀ and ਨੌਕਰੀ. Both values answer the work label in this closed bank.

Writing — one agreement pass

Choose the line whose value agrees with the work label: ਕੰਮ: ਨੌਕਰੀ or ਕੰਮ: ਸ਼ਹਿਰ. Copy only the agreeing line. This checks field-value meaning, not grammatical gender.

Your turn

Point to the label, say “work,” then point to the chosen value and say its meaning. Ignore handwriting neatness.

Before you move on

This pass separates field-value meaning from spelling and spacing.

21.6 Hide, wait, then fill the work field

Read A — ਖੇਤੀ, B — ਨੌਕਰੀ once. Hide the bank and count slowly to ten.

Writing — short delayed entry

With the bank hidden, complete **ਕੰਮ:** ________________ for B. Finish the attempt before revealing the bank.

Your turn

Reveal and compare selection, spelling, spacing, agreement, then placement. Do not repair yet.

Before you move on

One delayed line is enough.

21.7 Repair one work-field difference

Compare ਕੰਮ:ਨੌਕਰੀ with ਕੰਮ: ਨੌਕਰੀ. The selection, letters, and field-value meaning match; one boundary differs.

Writing — one repair pass

Rewrite the first line with a clear space after the colon. Leave every letter unchanged.

Your turn

Name the repaired dimension: selection, spelling, spacing, agreement, or placement. Stop after one repair.

Before you move on

The next lesson asks for a fresh line rather than a repair.

21.8 One no-model work field

> Close the previous lesson. There is no value bank,
> support-language label, or romanized answer below.

Writing — independent controlled choice

Complete the requested field:

A — **ਕੰਮ:** ________________

Choose the known value attached to A and write it from memory. Do not reopen an earlier lesson until the attempt is complete.

Your turn — separate repair passes

After writing, compare selection, spelling, spacing, agreement, and placement. Repair only the first differing dimension.

Before you move on

This closes only the work-field ladder. The remaining form fields are separate backlog work.

Chapter 22

Three Known Lines, One Small Form

Modes: ✎ **pen** (4) 🚗 **Hands-free start:** none of the 4 lessons.

> ***By the end of this chapter:*** I can bring the known language, residence, and work fields together with their closed banks still visible.
>
> *The learner assembles three supported lines only after label placement, cue selection, and a two-line bridge have each received a bounded pass; this supported work is not independent-writing evidence.*

22.1 Put three known labels on one small form

> Read the three labels once: ਭਾਸ਼ਾ, ਰਿਹਾਇਸ਼, ਕੰਮ. Each label is old; only seeing all three together is new.

Script — one placement pass

Point from the first blank line to the third. Place ਭਾਸ਼ਾ first, ਰਿਹਾਇਸ਼ second, and ਕੰਮ third. Do not choose or write any value.

Your turn

Cover the labels. Say which known label belongs on the middle line, then reveal and check only its placement.

Before you move on

Stop after the labels are in place. Values arrive in the next lesson.

22.2 Select three values before writing

Read each closed practice bank once:

ਭਾਸ਼ਾ: A — ਪੰਜਾਬੀ · B — ਹਿੰਦੀ

ਰਿਹਾਇਸ਼: A — ਪਿੰਡ · B — ਸ਼ਹਿਰ

ਕੰਮ: A — ਖੇਤੀ · B — ਨੌਕਰੀ

Script — one cue per field

For the cue row **A · B · A**, point to the selected language, residence, and work values in that order. Do not copy them.

Your turn

Cover all three banks and name the selections once. Reveal and check only selection; spelling and form placement wait.

Before you move on

Selection is now ready for a two-line writing bridge.

22.3 Join two supported lines first

Keep the language and residence banks visible. Read the cue pair **A · B** and point to ਪੰਜਾਬੀ, then ਸ਼ਹਿਰ.

Writing — two models remain visible

Complete only these two lines:

A — **ਭਾਸ਼ਾ:** ________________

B — **ਰਿਹਾਇਸ਼:** ________________

Copy the selected values while their banks remain visible. This is supported entry, not independent writing evidence.

Your turn

Check the first line, then the second. Stop before adding a work line.

Before you move on

The third line joins only after two lines feel small.

22.4 Add the third supported line

> Keep all three old banks visible. Select the cue row **A** · **B** · **A** without writing.

Writing — all models remain visible

Complete one language line, one residence line, and one work line. Copy from the visible banks. This is supported entry, not independent writing evidence.

Your turn — one pass at a time

Check selection on all three lines. Then check spelling. Then check spacing and placement. Do not mix the passes.

Before you move on

Close the banks before beginning the separate repair lessons.

Chapter 23

Three-Field No-Model Checkpoint

Modes: ✎ **pen** (7) 🚗 **Hands-free start:** none of the 7 lessons.

> ***By the end of this chapter:*** I can use three remembered closed-bank cues to fill the known language, residence, and work fields without romanization or a copyable answer.
>
> *The learner fills three requested fields with no model, then repeats the completed task once inside R1 before changing topic.*

23.1 Repair only selection

> The language bank still uses A — ਪੰਜਾਬੀ, B — ਹਿੰਦੀ. Read it once, then cover it.

Writing — one selection repair

The cue is B, but the line says ਭਾਸ਼ਾ: ਪੰਜਾਬੀ. Replace only the selected value. The label, colon, space, and placement remain unchanged.

Your turn

Name the repaired dimension: selection. Do not judge letter shape or spacing in this pass.

Before you move on

The next pass keeps selection fixed and inspects spelling only.

23.2 Repair only spelling

Read ਸ਼ਹਿਰ once. Touch ਸ਼, then ਹਿ, then ਰ. Cover the model.

Writing — one spelling repair

The selected residence value is correct, but ਰਿਹਾਇਸ਼: ਸ਼ਹਰ is missing one spelling piece. Repair only the value. Keep its selection, line, label, colon, and space.

Your turn

Reveal ਸ਼ਹਿਰ and compare one piece at a time. Do not change another line.

Before you move on

The next pass ignores spelling and repairs one boundary.

23.3 Repair only spacing

Compare ਕੰਮ:ਖੇਤੀ with ਕੰਮ: ਖੇਤੀ. Every letter and the selected value match.

Writing — one boundary repair

Rewrite ਕੰਮ:ਖੇਤੀ with one clear space after the colon. Change nothing else.

Your turn

Point to the repaired boundary. Ignore selection, spelling, and line order.

Before you move on

The next pass keeps every value intact and repairs its line placement.

23.4 Repair only placement

Both values are correctly selected and spelled, but these lines are crossed:

ਭਾਸ਼ਾ: ਖੇਤੀ

ਕੰਮ: ਪੰਜਾਬੀ

Writing — move, do not respell

Rewrite the two values on their matching fields. Preserve every letter and both spaces.

Your turn

Say “placement” after the repair. Selection and spelling were already correct.

Before you move on

All four dimensions have now received their own repair pass.

23.5 Repair one dimension, then stop

> Name the four passes in order: selection, spelling, spacing, placement.

Writing — one mixed repair

Inspect these otherwise correct lines:

ਭਾਸ਼ਾ: ਪੰਜਾਬੀ

ਰਿਹਾਇਸ਼:ਸ਼ਹਿਰ

ਕੰਮ: ਖੇਤੀ

The cue selections, spellings, and placements are correct. Repair the first differing dimension, then stop.

Your turn

Say which pass found the difference. Do not recopy the two unchanged lines.

Before you move on

The next lesson asks for fresh writing, not correction of a visible answer.

23.6 Three-field no-model checkpoint

Close every field lesson. There is no value bank, support-language label, romanization, or copyable answer below.

Writing — independent controlled choice

Complete the three requested fields:

A — **ਭਾਸ਼ਾ:** ________________

B — **ਰਿਹਾਇਸ਼:** ________________

A — **ਕੰਮ:** ________________

Use the three remembered closed banks. Finish all three attempts before reopening any earlier lesson.

Your turn — separate repair passes

After writing, compare selection, spelling, spacing, then placement. Repair only the first differing dimension and stop.

Before you move on

This checkpoint integrates only language, residence, and work. It does not claim the later six-field form is complete.

23.7 One immediate three-field recall

Keep the value banks closed. Say the field order once: language, residence, work.

Writing — one independent controlled recall

For cues A · B · A, complete these three fields without romanization or a copyable answer:

ਭਾਸ਼ਾ: ________________

ਰਿਹਾਇਸ਼: ________________

ਕੰਮ: ________________

Before you move on

One clean recall is enough. The next chapter changes topic instead of adding another form demand.

Chapter 24

Old Action Families at R4

Modes: 🚗 **voice** (4) 🚗 **Hands-free start:** all 4 lessons.

> ***By the end of this chapter:*** I can retrieve the already-taught Punjabi action families at long distance without confusing speech or reading with independent writing.
>
> *The learner completes the action-family R4 bridge through four bounded no-new-language retrieval steps, ending with the distinct help and liking frames.*

24.1 Know and think return at R4

No new language. Hear **jāṇnā**, “to know,” and **sochṇā**, “to think.” Say each meaning before reading on.

Your turn

Read it: ਜਾਣਨਾ · ਸੋਚਣਾ once, then give the meanings aloud

This is recognition and speech retrieval. It awards no independent Gurmukhi writing evidence.

Before you move on

Without looking, say “to know; to think” in Punjabi.

24.2 Understand and read return at R4

Say **samajhṇā** and **paṛhnā** with the already-taught falling pitch. Give their meanings aloud.

Your turn

Script recognition only.

Recognizing ੜ here is reading evidence only. Do not copy it, and do not count this lesson as independent writing.

Before you move on

Say “understand; read” once more from meaning.

24.3 Write, take, and ask return at R4

Hear **likhṇā** · **laiṇā** · **puchhṇā**. Give the three meanings aloud before looking at the answer.

Your turn

Three remembered histories.

Read it: ਲਿਖਣਾ · ਲੈਣਾ · ਪੁੱਛਣਾ once

The visible words support recognition; this lesson does not ask for or award independent Gurmukhi writing.

Before you move on

From meaning alone, say “write; take; ask.”

24.4 Help and like return at R4

Say **madad karnā**, “to help.” Then say the already-known line **mainū̃ panjābī pasand hai**, “I like Punjabi.”

Your turn

Liking keeps the liker in the dative.

Read it: ਮਦਦ ਕਰਨਾ · ਮੈਨੂੰ ਪੰਜਾਬੀ ਪਸੰਦ ਹੈ once

Romanization records speech retrieval only and earns no Gurmukhi writing credit.

Before you move on

Say “to help” and “I like Punjabi” once more without looking.

Chapter 25

Requests, People, and Body Words at R4

Modes: 🚗 **voice** (4) 🚗 **Hands-free start:** all 4 lessons.

> ***By the end of this chapter:*** I can retrieve old request, food, people, kin, and body-word families at long distance in small spoken and reading passes.
>
> *The learner closes the moving R4 boundary with a bounded contrast among two low-tone kin words and one doubled-consonant body word, without claiming writing evidence.*

25.1 Water and tea requests return at R4

> Ask for water, then tea, using the same known polite close each time.

Your turn

Two remembered routes.
Read it: ਪਾਣੀ · ਚਾਹ once
This is recognition and spoken retrieval, not a writing checkpoint.

Before you move on

Make the two polite requests once more from meaning.

25.2 Milk and bread return at R4

Hear **dudh · roṭī** and say “milk · bread” aloud.

Your turn

Read it: ਦੁੱਧ · ਰੋਟੀ once

No copying is requested, and no independent writing evidence is awarded.

> Before you move on
>
> Ask for either one using the already-known **kirpā karke**.

25.3 Friend and family return at R4

Say **dost**, “friend,” and **parivār**, “family.”

Your turn

Read it: ਦੋਸਤ · ਪਰਿਵਾਰ once

The models support reading only; do not count them as independent writing.

> Before you move on
>
> Say “friend; family” from meaning alone.

25.4 Brother, sister, and eye return at R4

Say **bharā**, **bhaiṇ**, and **akkh** from memory: brother, sister, eye. Keep the first two low; hold the doubled consonant in the third.

Your turn

Family trees.

Read it: ਭਰਾ · ਭੈਣ · ਅੱਖ once

This lesson deliberately stops at reading and speech; it does not award independent Gurmukhi writing evidence.

Before you move on

Say the three meanings once more, then stop. No new item follows.

Chapter 26

Form Retrieval at R2 and R3

Modes: ✎ **pen** (3) 🚗 **Hands-free start:** none of the 3 lessons.

> ***By the end of this chapter:*** I can retrieve the known three-field and work-field writing tasks at R2 and R3 without adding a new field, value, or script shape.
>
> *The learner selects a known work value, hides the bank, writes one row after a short delay, and checks spelling, spacing, and field agreement.*

26.1 Three fields return at R2

> No new labels or values appear. Keep every bank closed and recall the order language, residence, work.

Writing — one no-model form

Complete the three fields for cues B · A · B. Finish the whole attempt before checking anything.

Your turn — one bounded repair pass

Compare selection, spelling, spacing, then placement. Repair only the first differing dimension. If the work row differs, repair that row only.

Before you move on

Stop after one form. This is retrieval, not a longer writing test.

26.2 Rebuild one work row at R3

Read the three labels in order: ਭਾਸ਼ਾ · ਰਿਹਾਇਸ਼ · ਕੰਮ. Point to the work label and stop.

Script and value recall

Trace ੌ once above ਨ, making ਨੌ. Then read the known value ਨੌਕਰੀ once.

Writing — one supported work row

Use the old bank once: **A** — ਖੇਤੀ and **B** — ਨੌਕਰੀ.

Choose B. Complete **ਕੰਮ:** ________________. Keep the bank visible for this one attempt.

Before you move on

One supported row is enough. The next lesson removes the bank after a short delay.

26.3 Hide, write, and check one work row at R3

Read the old work bank A — ਖੇਤੀ, B — ਨੌਕਰੀ. Select B, hide the bank, and count slowly to ten.

Writing — one delayed row

With the bank hidden, complete **ਕੰਮ:** ________________ for B.

Your turn — four checks, no rewrite

Reveal the model. Check the value piece by piece, the one space after the colon, and that the job value stayed on the work field. Repair only the first difference.

Before you move on

Stop after one delayed row. This closes the bounded R3 retrieval pass without adding a new form field.

Chapter 27

Ear, Mouth, Nose, and Heart at R4

Modes: **voice** (2) **Hands-free start:** both lessons.

> ***By the end of this chapter:*** I can retrieve four already-taught Punjabi body words and keep their sound and source histories distinct at long distance.
>
> *The learner retrieves nose and heart and distinguishes an inherited English cognate from a Persian loan with a deeper shared ancestor, without claiming writing evidence.*

27.1 Ear and mouth return at R4

Say **kann** and **mūnh** from memory: ear, mouth. Keep the two meanings separate before looking at the script.

Your turn

Read it: ਕੰਨ · ਮੂੰਹ once, then stop

This lesson measures listening, speech, and recognition. It does not award independent Gurmukhi writing evidence.

Before you move on

Say both meanings and one history for each, then stop. No new body word follows.

27.2 Nose and heart return at R4

> Say **nakk** and **dil** from memory: nose, heart. Hold the doubled consonant in the first word.

Your turn

Read it: ਨੱਕ · ਦਿਲ once, then stop

This lesson measures listening, speech, and recognition. It does not award independent Gurmukhi writing evidence.

Before you move on

Say both meanings and contrast their routes once: inherited **nakk**, borrowed **dil**. Then stop.

Chapter 28

Supported Forms, Then Head and Na at Distance

Modes: 🚗 **voice** (1) ✎ **pen** (1) 🚗 **Hands-free start:** neither of the 2 lessons.

> ***By the end of this chapter:*** I can rebuild two old supported form shapes and separately retrieve head, its horn history, and the na shape at long distance.
>
> *The learner retrieves head and its inherited horn connection, then recognizes the already-taught na shape without claiming independent writing evidence.*

28.1 Two supported lines, then three, at R3

Keep these old banks visible:

ਭਾਸ਼ਾ: ਪੰਜਾਬੀ · ਹਿੰਦੀ

ਰਿਹਾਇਸ਼: ਪਿੰਡ · ਸ਼ਹਿਰ

ਕੰਮ: ਖੇਤੀ · ਨੌਕਰੀ

Point to ਪੰਜਾਬੀ, ਸ਼ਹਿਰ, and ਖੇਤੀ. Nothing here is new.

Your turn — two supported lines

Copy only the two requested lines. Check the labels before adding anything.

Your turn — add the third supported line

Check selection, spelling, and placement one pass at a time.

Before you move on

The models and answers stayed visible, so this is supported guided-copy practice. It does not award independent Punjabi writing evidence.

28.2 Head and na return separately at R4

Say the Punjabi word for **head** from memory. *Read it:* ਸਿਰ once

Your turn — meaning and history

Keep the two claims together: **sir** means head, and **horn** is its surprising English cousin. No new etymology follows.

Your turn — recognize na

Read it: ਨ once, then say **na**
Do not copy it in this lesson.

Before you move on

Say **sir** — **head** — **horn**. *Point to:* ਨ
This lesson measures listening, speech, and recognition. It does not award independent Gurmukhi writing evidence.

Chapter 29

Build One Fictional Age Field

Modes: **pen** (14) **Hands-free start:** none of the 14 lessons.

> ***By the end of this chapter:*** I can recognise the Gurmukhi age label and independently select and write one of two taught fictional age values from a nonverbal cue.
>
> *The learner fills one fictional age line from a remembered cue with no romanization or copyable answer, then checks selection, digit order, spacing, and placement separately.*

29.1 ਉ — one new shape for the age label

> Write the familiar ਮ and ਰ once each. The age label needs only one new letter before those known pieces can return.

Script — one tiny step

Trace ਉ slowly twice. It is the independent vowel *u*. Do not assemble a word yet.

Your turn

Cover the model, write ਉ once, and repair only the first shape difference.

Before you move on

Stop after one new letter.

29.2 ਉਮਰ — assemble the age label

Touch the pieces in order: ਉ, ਮ, ਰ.

Script — one label

Join ਉ + ਮ + ਰ = ਉਮਰ. On this fictional beginner form, ਉਮਰ labels the age line. Copy the label once and leave the value blank.

Your turn

Point to ਉਮਰ and say what information belongs there. Do not add a number.

Before you move on

No real personal information is requested.

29.3 ੧ — the first Gurmukhi digit

Say the already-known Punjabi word for one: ਇੱਕ (*ikk*).

Script — one digit

Trace ੧ twice. This is the Gurmukhi digit for 1. The spoken word was known; only the digit shape is new.

Your turn

Cover the model and write ੧ once.

Before you move on

One digit is enough.

29.4 ੨ — add the digit two

Write ੧ and say the already-known Punjabi word for two: ਦੋ (*do*).

Script — one digit

Trace ੨ twice. It is the Gurmukhi digit for 2.

Your turn

Cover the model and write ੨ once.

> Before you move on
>
> Stop after this second digit.

29.5 ੫ — add the digit five

> Write ੧, ੨. Say the already-known Punjabi word for five: ਪੰਜ (*panj*).

Script — one digit

Trace ੫ twice. It is the Gurmukhi digit for 5.

Your turn

Cover the model and write ੫ once.

> Before you move on
>
> The three needed digit shapes are now separate and known.

29.6 ੧੫ — one fictional age value

> Write ੧, then ੫, with a small gap.

Script — keep the digit order

Close the gap: ੧ + ੫ = ੧੫, the digit entry 15. Left-to-right order matters. Copy this fictional age value once.

Your turn

Cover the model, write 15 in Gurmukhi digits, then compare only digit order.

> **Before you move on**
>
> This is invented practice data.

29.7 ੨੫ — a second fictional age value

Write ੨, then ੫, separately.

Script — reuse the same order rule

Join them: ੨ + ੫ = ੨੫, the digit entry 25. Copy this fictional value once.

Your turn

Cover the model, write 25 in Gurmukhi digits, and check digit order.

> **Before you move on**
>
> The closed two-value bank is now fully taught.

29.8 Select one known age value

Read the fictional bank once:

A — ੧੫

B — ੨੫

Script — attach one cue to each value

Point A to ੧੫ and B to ੨੫. Cover the bank and select the value requested by B. Selection is separate from digit writing.

Your turn

Reveal, point, cover, and select A once more. Do not fill the form yet.

Before you move on

These cues belong only to this invented bank.

29.9 Fill one supported age field

Keep the fictional bank visible: A — ੧੫, B — ੨੫.

Writing — model visible

Complete **ਉਮਰ:** ________________ for A. Read the label, select A, and copy ੧੫. This is supported entry, not independent writing evidence.

Your turn

Compare selection, digit order, spacing, and placement in separate passes.

Before you move on

Stop after one supported line.

29.10 One clear boundary

Read ਉਮਰ:੧੫. The label and value are both correct, but crowded.

Writing — repair only spacing

Rewrite it as **ਉਮਰ:** ੧੫. Keep one visible space after the colon. Change no digit and no letter.

Your turn

Point once to the label, the boundary, and the value.

Before you move on

One spacing repair is enough.

29.11 Hide, wait, then fill the age field

> Read A — ੧੫, B — ੨੫ once. Hide the bank and count slowly to ten.

Writing — short delayed entry

With the bank hidden, complete ਉਮਰ: ________________ for B. Finish before revealing the bank.

Your turn

Reveal and compare selection, digit order, spacing, then placement. Do not repair yet.

Before you move on

One delayed line is enough.

29.12 Hear a number, write its Gurmukhi digits

> Hide every written value. This task checks digit transcription, not new Punjabi number words.

Writing — one support-language dictation cue

Have a partner or screen reader say the support-language number **fifteen** once. Write only its Gurmukhi digits. No model is visible during the attempt.

Your turn

Reveal ੧੫ and compare the first digit, then the second digit. Repair only after the comparison.

Before you move on

Punjabi spoken forms beyond one to five remain future instruction.

29.13 Repair one dimension, then stop

For B, inspect **ਉਮਰ:** ੫੨. The label and spacing are correct; digit order is not.

Writing — repair one named dimension

Repair only digit order: **ਉਮਰ:** ੨੫. Do not rewrite a correct label or boundary.

Your turn

Name the four checks in order: selection, digit order, spacing, placement. Stop at the first mismatch.

Before you move on

One bounded repair is enough.

29.14 One no-model age field

Close the previous lessons. There is no value bank, support-language label, or copyable digit answer below.

Writing — independent controlled choice

Complete the requested fictional field:

A — **ਉਮਰ:** ________________

Choose the known value attached to A and write it from memory. Do not reopen an earlier lesson until the attempt is complete.

Your turn — separate repair passes

After writing, compare selection, digit order, spacing, and placement. Repair only the first differing dimension.

Before you move on

This closes only the untimed age-field ladder. Phone, date, integration, and A1 readiness remain separate dependency-linked work.

Chapter 30

Build One Fictional Phone Field

Modes: **pen** (15) **Hands-free start:** none of the 15 lessons.

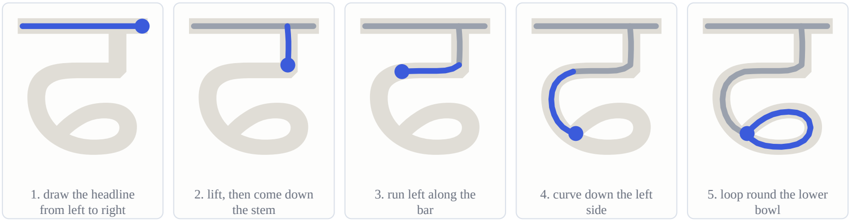
> ***By the end of this chapter:*** I can recognise the Gurmukhi phone label and independently select and write one of two taught fictional phone values digit by digit from a nonverbal cue.
>
> *The learner fills one fictional phone line from a remembered nonverbal cue with no romanization, Latin digits, or copyable Gurmukhi answer, then checks selection, six digit positions, grouping, and placement separately.*

30.1 ਫ — one new base shape

Write the familiar ਪ once. The new base begins similarly but is not the same letter.

Script — one letter

How it is written — 2 strokes · 1 pen lift · 5 movements



1. draw the headline from left to right
2. lift, then come down the stem
3. run left along the bar
4. curve down the left side
5. loop round the lower bowl

Stroke order after GNPS, Gurmukhi Sikho (GNPS Learning Hub), Alphabet Tracing lesson, ਫ (phaphaa) checkpoints, strokes 1–2 (lib/data/lessons/lesson_tracing.dart line 854, commit de1e560; Apache-2.0)
This order is attested, not standardised; the source records where it varies.

How ਫ is written, stroke by stroke

Trace ਫ slowly twice. This is *pha*. Stop before adding any dot or vowel mark.

Your turn

Cover the model, write ਫ once, then compare only its shape.

> **Before you move on**
>
> One new base is enough.

30.2 ਫ਼ — place one dot below

Write ਫ once and leave room directly below it.

Script — one mark

Add the small dot below: ਫ + ◌਼ = ਫ਼. This below-letter dot is *pairin bindi*; here it changes *pha* to the borrowed sound *fa*. It is not the above-letter bindi already used in ਹਾਂ.

Your turn

Copy ਫ਼ once. Point to the dot below before you stop.

> **Before you move on**
>
> Only the base and its below-letter dot are scored here.

30.3 ◌ੋ — add the long-o mark

Write ਫ਼ once.

Script — one vowel mark

The vowel mark ◌ੋ, called *hora*, sits above and to the right of its base. Add it to the known base: ਫ਼ + ◌ੋ = ਫ਼ੋ.

Your turn

Copy ਫ਼ੋ once. Check that the dot stays below and hora stays above-right.

Before you move on

Stop after this one vowel mark.

30.4 ਫ਼ੋਨ — assemble the phone label

Touch the pieces in order: ਫ, the dot below, ◌ੋ, ਨ.

Script — one label

Join the pieces as ਫ਼ੋਨ. On this fictional beginner form, ਫ਼ੋਨ labels the phone-number line. Copy the label once and leave its value blank.

Your turn

Point to ਫ਼ੋਨ and say what information belongs there. Do not add digits.

Before you move on

No real contact information is requested.

30.5 ੦ — add the digit zero

Write the three known Gurmukhi digits: ੧, ੨, ੫.

Script — one digit

Trace ੦ twice. It is the Gurmukhi digit zero. Phone values are identifiers, so a leading zero stays visible.

Your turn

Cover the model and write ੦ once.

Before you move on

All four digit shapes needed by this chapter are now known.

30.6 ૦૧૨૨૫૧ — build fictional value A

Point to the digits as they are named: zero, one, two, five.

Script — six places

Fictional practice value A is ૦૧૨૨૫૧. Touch and say each place from left to right: ૦ · ૧ · ૨ · ૨ · ૫ · ૧. This short value is only curriculum data; it is not a real or callable number.

Your turn

Copy A once, pausing after the third digit. Do not add grouping yet.

Before you move on

Only one six-place value is active.

30.7 ૦૨૫૧૨૫ — build fictional value B

Touch value A, ૦૧૨૨૫૧, from left to right once.

Script — a second six-place value

Fictional practice value B is ૦૨૫૧૨૫. Touch each place: ૦ · ૨ · ૫ · ૧ · ૨ · ૫. It uses only the four introduced digit shapes.

Your turn

Copy B once, pausing after the third digit. Do not add grouping yet.

Before you move on

The bounded bank now contains exactly A and B.

30.8 Read one place at a time

Shuffle four cards marked ੦, ੧, ੨, ੫. Name each card before writing.

You’ll want to know — locate, do not guess

In A, circle the second digit. In B, circle the fifth digit. Read the complete values only after locating those positions.

Your turn

Cover A. Hear: **zero, one, two, two, five, one**. Write one digit after each word, then uncover A and compare.

Before you move on

No unintroduced numeral is scored.

30.9 Choose A or B before writing

Read the closed bank once: A ੦੧੨੨੫੧; B ੦੨੫੧੨੫.

You’ll want to know — two fixed selectors

For this fictional practice only, ਕ means A and ਖ means B. Point to the matching value before your pen moves. The selector is not part of the phone field.

Your turn

For ਖ, select B. For ਕ, select A. Selection and digit writing are separate checks.

Before you move on

The selectors carry no special meaning outside this exercise.

30.10 One supported phone field

Point to ਫ਼ੋਨ. Read the visible bank: A ੦੧੨੨੫੧; B ੦੨੫੧੨੫.

Writing — bank visible

The selector is ਵ. Complete ਫ਼ੋਨ: ________________ with A while the bank remains visible. Write one digit per place.

Your turn

Point under each copied digit and compare all six places left to right.

> **Before you move on**
>
> This supported copy does not earn independent-writing credit.

30.11 Three digits, one space, three digits

Touch A in six places: ੦ · ੧ · ੨ · ੨ · ੫ · ੧.

Script — one grouping boundary

Insert one clear space after the third digit: ੦੧੨ ੨੫੧. The space helps the eye track the practice value; it does not remove or reorder a digit. B groups as ੦੨੫ ੧੨੫.

Your turn

Copy grouped B once. Count three digits, make one space, then count three more.

> **Before you move on**
>
> This book keeps one grouping inside the bounded practice bank; it is not a claim about every real-world phone format.

30.12 Hide the bank, then write B

Study ਫ਼ੋਨ: ੦੨੫ ੧੨੫ for five seconds. Say each digit while pointing.

Writing — short delay

Hide the bank. Wait five seconds. For ਖ, complete one blank ਫ਼ੋਨ field from memory.

Your turn

Uncover the model only after writing. Compare digit selection, order, and the single group space separately.

Before you move on

The model is hidden during the attempt.

30.13 Hear six digits and write them

> Without a number model, write the four introduced digits when you hear: zero, one, two, five.

Writing — digit by digit

Listen twice: **zero — one — two | two — five — one**. The pause marks the one group space. Write Gurmukhi digits; do not write English numerals or words.

Your turn

Read your six digits back left to right. Check the space only after checking all six positions.

Before you move on

Romanization and Latin digits do not earn the Gurmukhi writing score.

30.14 Repair only one dimension

> Name four separate checks: cue selection, six digit positions, middle group space, and placement on the ਫ਼ੋਨ line.

Your turn — bounded repair

For ਕ, inspect **ਫ਼ੋਨ: ੦੧੨੨ ੫੧**. The selected value and digit order are right; only the group boundary is wrong. Repair it as **੦੧੨ ੨੫੧** without rewriting correct digits.

Your turn

Run the checks in order. Stop after the first differing dimension is repaired.

> **Before you move on**
>
> Do not replace the whole answer when one dimension differs.

30.15 One no-model phone field

> Close the previous lessons. There is no value bank, support-language label, Latin-digit version, or copyable Gurmukhi answer below.

Writing — independent controlled choice

Complete the requested fictional field:

ਖ — **ਫ਼ੋਨ:** ________________

Choose the known value attached to the circle and write it from memory in Gurmukhi digits. Do not reopen an earlier lesson until the attempt is complete.

Your turn — separate repair passes

After writing, compare cue selection, six digit positions, grouping, and field placement. Repair only the first differing dimension.

> **Before you move on**
>
> This closes only the untimed phone-field ladder. Date, integration, and A1 readiness remain separate dependency-linked work.

Chapter 31

Yes, No, and I See

Modes: 👁 **eyes** (2) ✎ **pen** (2) 🚗 **Hands-free start:** the first of 4 lessons.

> ***By the end of this chapter:*** I can answer someone respectfully with ji, receive news with achchha, refuse with the bare na that hides inside nahin, and write achchha in Gurmukhi from its four pieces.
>
> *The reader gives the plain no, separates it from the strengthened nahin it lives inside, runs all four replies of the chapter by ear, names three English words descended from the same Proto-Indo-European particle, and assembles achchha in Gurmukhi now that its missing letter has been traced.*

31.1 ਜੀ — the smallest respectful yes

You can already answer ਹਾਂ and ਨਹੀਂ by ear, and you can already choose between the familiar and the respectful *you.* This chapter adds the answers that sit between a bare yes and a bare no — and it opens with the one Punjabi speakers reach for most.

You'll want to know first — one word

ਜੀ — *jī* — **yes** (respectful)

The letters in this word

ਜ *j*, and the long *ī* sign ◌ੀ standing after it: ਜੀ. Both shapes came out of ਪੰਜਾਬੀ and ਹਿੰਦੀ, so this word is writable the moment you meet it.

The word, taken apart — its roots and family

Jī is usually traced back to Sanskrit *jīva*, “living, a living being, life.” That word climbs to a Proto-Indo-European root meaning “alive,” *$g^{w}ih_{3}w\acute{o}s$ — the same root standing behind Latin *vīvus*, the *vit-* in *vitamin*, and English **quick** in its older sense, the one preserved in the phrase *the quick and the dead.*

How a word meaning “life” became a mark of respect is not settled, and this book reports the derivation as the usual one rather than as a proved one.

What *jī* does in speech is easier to be certain about, because a learner can hear it. It answers: someone calls your name, and *jī* alone is a complete, courteous reply. It attaches: put it after a name and the name becomes respectful. It softens: added to a yes or a no, it takes the edge off both.

Compare it with ਹਾਂ, which you already have. *Hāṁ* states agreement. *Jī* adds the person you are agreeing with.

Your turn

- *Say it:* **jī** — yes, respectfully
- *Answer:* someone calls your name; reply with **jī** alone
- *Contrast:* **hāṁ** (plain agreement) and **jī** (agreement with respect)
- *State:* the Sanskrit word *jī* is usually traced to (*jīva*, “life”)

Before you move on

Give the respectful yes. (*Jī.*) What can it do besides answer? (Attach to a name; soften a yes or a no.) Which Sanskrit word is it usually traced to? (*Jīva*, “life.”)

Sources: Wiktionary: ji; Wiktionary: jiva.

31.2 achchhā — the word that used to mean “clear water”

Say ਜੀ once. Then say *hāṁ* and *nahīṁ*. Those three cover yes, no, and respect. What they do not cover is the reply that accepts something without agreeing or refusing — the sound an English speaker makes as *okay* or *right*.

You’ll want to know first — one word

achchhā — **okay, all right, I see**

Say it slowly: *ach-chhā*. The middle is one *ch* held twice as long, and the second half of that hold carries a puff of breath.

The word, taken apart — its roots and family

The usual account takes *achchhā* back to Sanskrit *accha*, which meant **clear, transparent** — said of water you could see the bottom through. Clear became unclouded, unclouded became good, and good, in the mouth of someone listening to you, became *fine, I follow you.*

Some dictionaries stop short of that and mark the origin unknown. Both accounts are on the record, and a reader who wants the honest version should hold this one loosely.

The held middle consonant does the same work here as the small mark ◌ੱ you met over ਰੱਬ: it doubles the sound that follows it. On the page this word will need a letter you have not met, so it stays in sound for now.

Compare the three replies you now have by ear. *Hāṁ* agrees. *Jī* agrees respectfully. *Achchhā* receives — it says the message landed, and leaves agreement for later.

Your turn

- *Say it: achchhā*, holding the doubled middle
- *Contrast: hāṁ* (agree), *jī* (agree respectfully), *achchhā* (receive)
- *State:* what Sanskrit *accha* described (clear, see-through water)
- *Combine: achchhā jī* — the two together, in that order

Before you move on

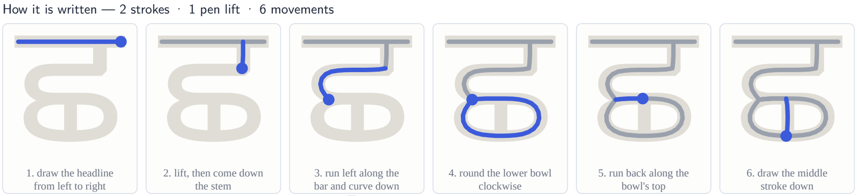
Give the reply that receives without agreeing. (*Achchhā.*) What did its Sanskrit ancestor describe? (Clear water.) Which of your three replies adds respect? (*Jī.*)

Sources: Wiktionary: achchha; Wiktionary: accha.

31.3 ਛ — the letter the last word was waiting for

Say *achchhā* aloud once. You have met the word by ear and you have met two of its four pieces on the page already: the standalone ਅ, and the little doubling mark ◌ੱ that sat over ਰੱਬ.

Script — one letter



How it is written — 2 strokes · 1 pen lift · 6 movements

1. draw the headline from left to right
2. lift, then come down the stem
3. run left along the bar and curve down
4. round the lower bowl clockwise
5. run back along the bowl's top
6. draw the middle stroke down

Stroke order after GNPS, Gurmukhi Sikho (GNPS Learning Hub), Alphabet Tracing lesson, ਛ (chhachhaa) checkpoints, strokes 1–3 (lib/data/lessons/lesson_tracing.dart line 373, commit de1e560; Apache-2.0)
This order is attested, not standardised; the source records where it varies.

How ਛ *is written, stroke by stroke*

Trace ਛ slowly, twice. Say *chha* as you finish each one. Hang it from the top line the way every base letter hangs. Add nothing above and nothing below.

Your turn

Cover the model. Write ਛ once. Compare its shape alone, repair one difference, and stop there.

Before you move on

One base shape is enough for this session. The word it belongs to comes back two sessions from now.

31.4 ਨਾ — a negative you have been saying all along

Say ਨਹੀਂ once, then say *koī gall nahīṁ*. Now cut the word in half and keep only its opening: *na*. That piece is a word in its own right.

You’ll want to know first — one word

ਨਾ — *nā* — **no; don’t**

The letters in this word

ਨ *n* and the upright ◌ਾ that lengthens it: ਨਾ. Two shapes from the first writing run, and nothing new.

The word, taken apart — its roots and family

ਨਾ comes down from Sanskrit *na*, and *na* comes down from Proto-Indo-European **ne*. That particle has stayed recognisable for as long as anything in this book: English **no**, **not** and the *un-* of *unhappy*, Latin *ne-* and *nōn*, Greek *a-* in *atypical.* The wellbeing chapter met the same root inside *nahīṁ*; here it stands on its own.
ਨਹੀਂ is this word with an old emphatic *hi* welded on — a strengthened no, the one that refuses a statement. ਨਾ is the plain one: it tells someone not to do a thing, and it can end a sentence as a soft question, the way English tacks on *right?*
The difference to carry away is one of force, not of meaning. Both refuse; one insists.

Writing: assemble ਅੱਛਾ

Two sessions ago *achchhā* was sound only, because one of its letters had not been taught. It has been taught now, so the word can be built.

Four pieces, left to right: ਅ, then the doubling mark ◌ੱ above it, then ਛ, then the upright ◌ਾ. Written out: ਅੱਛਾ.

Copy it once with the model visible, say *achchhā* as you finish, then cover the model and write it once more. Compare only whether the doubling mark sits above the first letter.

Your turn

- *Say it:* **nā** — the plain no
- *Contrast:* **nā** (plain) and ਨਹੀਂ (the same word, strengthened)
- *Run through:* the four replies of this chapter — *jī*, *achchhā*, *hāṁ*, *nā*

- *State:* three English words that share this root (*no*, *not*, *un-*)

Before you move on

Give the plain no. (*Nā.*) Which word is it hiding inside? (*Nahīṁ.*)
Write it: achchhā once more from memory

Chapter 32

Good and So-So

Modes: 🚗 **voice** (2) ↙ **pen** (2) 🚗 **Hands-free start:** the first of 4 lessons.

> ***By the end of this chapter:*** I can answer how are you with changa or thik-thak, say why changa's origin is disputed rather than settled, name echo reduplication as the habit that made thak, and write both Gurmukhi consonants of changa.
>
> *The reader produces the middling answer, states that its second half carries no meaning outside the pair, names echo reduplication as the machine that made it, and runs all three wellbeing answers against each other.*

32.1 changā — good, and a trail that stops

> Ask *tusī̃ kivēṁ ho?* aloud, then answer it the way you first learned to: *ṭhīk*. That answer reports a state — nothing is wrong. This chapter adds the answer that reports a judgement — things are good.

You'll want to know first — one word

> *changā* — **good**

The middle carries a hum through the nose, the sound the small mark ◌ੰ writes in ਪੰਜਾਬੀ. Say it as *chan-gā*, letting the nose take the *n*.

The word, taken apart — its roots and family

Every word taken apart so far has ended somewhere: *bhrātṛ* for brother, *kṛp-* for what is coming two chapters from now, *$kerh_2$- for the head. *Changā* goes back one step to a Middle Indo-Aryan **caṅga**, “fine, handsome,” and then the trail stops.

Scholars have proposed two continuations and settled on neither. One reads *caṅga* as inherited Indo-Aryan; the other reads it as an early borrowing from a Dravidian language of the south. Both are argued in print. Neither is proved.

That is worth meeting head-on rather than papering over, because the two-source story this book keeps telling — Sanskrit on one side, Persian and Arabic on the other — has a third possibility underneath it. India’s oldest language family was neither, and words moved between them long before anything was written down. *Changā* may be one of those.

Two answers are now available for the same question. *Ṭhīk* says nothing is wrong. *Changā* says things are good. Add जी to either and the answer becomes respectful.

On the page, *changā* needs two letters this book has not taught. They arrive in this chapter, one at a time.

Your turn

- *Say it: changā*, with the hum through the nose
- *Answer: tusī̃ kivēṁ ho?* with *changā jī*
- *Contrast: ṭhīk* (nothing wrong) and *changā* (good)
- *State:* where the trail behind *changā* stops, and the two proposals for what lies beyond

Before you move on

Give the word for good. (*Changā*.) Answer the wellbeing question with it, respectfully. (*Changā jī*.) How far back can it be traced with confidence? (To *caṅga*, and no further.)

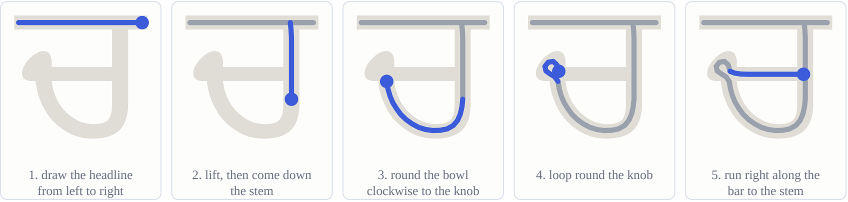
Sources: Wiktionary: changa; Wiktionary: changa (Hindi).

32.2 ਚ — the quiet twin of ਛ

Write ਛ once from memory and say *chha*, with the puff of breath. Then say *changā* aloud. The first sound of *changā* is the same mouth-shape with the puff taken away.

Script — one letter

How it is written — 2 strokes · 1 pen lift · 5 movements



1. draw the headline from left to right
2. lift, then come down the stem
3. round the bowl clockwise to the knob
4. loop round the knob
5. run right along the bar to the stem

Stroke order after GNPS, Gurmukhi Sikho (GNPS Learning Hub), Alphabet Tracing lesson, ਚ (chachaa) checkpoints, strokes 1–2 (lib/data/lessons/lesson_tracing.dart line 346, commit de1e560; Apache-2.0)
This order is attested, not standardised; the source records where it varies.

How ਚ *is written, stroke by stroke*

Trace ਚ twice and say *cha*. Set it beside ਛ once and look at what separates them: Gurmukhi writes the breath as an extra stroke, so a heavier shape means a heavier puff of air.

Your turn

Cover both models. Write ਚ, then ਛ. Compare only which one carries the extra stroke.

Before you move on

Two letters, one difference. Nothing else changes.

32.3 ṭhīk-ṭhāk — half a word, and it is the important half

Two answers to *how are you* are already yours: *ṭhīk*, nothing wrong; *changā*, good. *Write it:* ਚ once while you say them, so the letter from the last session stays warm

You’ll want to know first — one word

ṭhīk-ṭhāk — **so-so, getting by**

Both halves start with the tongue curled back against the roof of the mouth, then release with a puff. The vowel is the only thing that changes: *ṭhīk*, *ṭhāk*.

The word, taken apart — its roots and family

Look for *ṭhāk* in a dictionary and it will not be there on its own. It exists to answer *ṭhīk*, and nowhere else.

This is **echo reduplication**, and it runs through the whole subcontinent. A speaker takes a word, repeats it with one sound changed, and the pair means something the single word did not: a loosened, approximate, and-things-of-that-sort version of itself. *Ṭhīk* is a firm fine. *Ṭhīk-ṭhāk* is a fine with a shrug in it — well enough, nothing to report.

English keeps a handful of these frozen — *okey-dokey*, *helter-skelter*, *hocus-pocus* — but an English speaker cannot make a fresh one and expect to be understood. A Punjabi speaker can, on the spot, from almost any noun.

So this entry teaches two things at once: an answer you can give, and a machine for making more.

Three answers now sit side by side. *Changā*: good. *Ṭhīk*: nothing wrong. *Ṭhīk-ṭhāk*: getting by.

On the page this word needs one letter still to come, which arrives in the next chapter. Until then it stays in the ear.

Your turn

- *Say it:* *ṭhīk-ṭhāk*, both halves curled back
- *State:* what *ṭhāk* means on its own (nothing — it exists to echo)
- *Run through:* the three wellbeing answers — *changā*, *ṭhīk*, *ṭhīk-ṭhāk*
- *Name:* one English pair built the same way (*okey-dokey*, *helter-skelter*)
- *Recall:* what Sanskrit *accha* described (clear water), and the particle behind *nā* (**ne*)

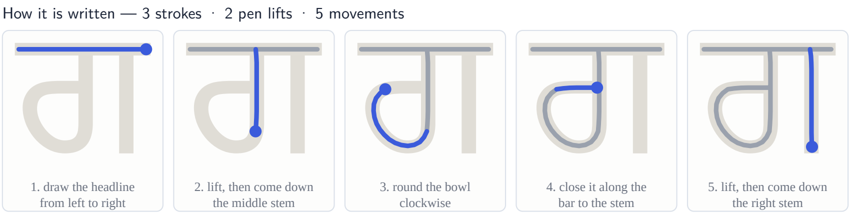
Before you move on

Give the middling answer. (*Ṭhīk-ṭhāk.*) Which half is a real word? (The first.) Name the habit that made the second. (Echo reduplication.)
Sources: Wiktionary: thik; Wiktionary: echo word.

32.4 ਗ — third in the throat row

Write ਕ and ਖ once each. Both are made at the back of the mouth: *ka* dry, *kha* with breath. Then write ਚ once, from the session before this one.

Script — one letter



How it is written — 3 strokes · 2 pen lifts · 5 movements
1. draw the headline from left to right
2. lift, then come down the middle stem
3. round the bowl clockwise
4. close it along the bar to the stem
5. lift, then come down the right stem

This order is attested, not standardised; the source records where it varies.

How ਗ *is written, stroke by stroke*

Trace ਗ twice and say *ga*. It is made in the same place as ਕ, with the voice switched on — put a finger on your throat and feel it hum on *ga* and go quiet on *ka*.

Your turn

Cover the models. Write ਕ, then ਗ. Compare only the new shape.

Before you move on

You can now write both consonants of *changā*. The word itself is assembled in the next chapter.

Chapter 33

Please and Sorry

Modes: ✎ **pen** (3) 🚗 **Hands-free start:** the first of 3 lessons.

> ***By the end of this chapter:*** I can ask politely with miharbani karke and apologise with maaf karo, translate both word for word, say which noun in each came from Persian and which from Arabic, and write changa and thik-thak in Gurmukhi.
>
> *The reader produces the apology, translates it as make pardoned, names Arabic as the source of its noun against the Persian source of the previous session's, runs both courtesies against the single verb they share, and writes thik-thak from its now-complete letter set.*

33.1 ਮਿਹਰਬਾਨੀ ਕਰਕੇ — a god's name inside the word for "please"

Ask for water the way the drinks chapter taught, with *kirpā karke* in front of it. That courtesy is Sanskritic. Punjabi has a second one, heard at least as often, and it comes down the other road.

You'll want to know first — one word

ਮਿਹਰਬਾਨੀ — *miharbānī* — **kindness, a favour**

The letters in this word

ਮ, ਿ, ਹ, ਰ, ਬ, ਾ, ਨ, ੀ: ਮਿਹਰਬਾਨੀ. Then ਕਰਕੇ. Every shape is already yours, so this phrase is writable on sight.

The word, taken apart — its roots and family

ਮਿਹਰਬਾਨੀ is Persian *mihrbānī*, and it comes apart in three.

-*ī* is the quality-making ending, the one on *khushī*, met when you were pleased to meet someone. -*bān* means **keeper**, the piece that turns *bāġ*, "garden," into *bāġbān*, "gardener." And *mihr* means **love, affection**.

Mihr is the piece worth stopping on. It descends from Avestan *Mithra*, an Indo-Iranian divinity who guaranteed covenants, whose name in the other branch of the family is Sanskrit *mitra*, "friend" — the figure Roman soldiers carried west as **Mithras**. Punjabi's commonest please carries, three layers down, the name of the god who made promises binding.

You have met ਦੋਸਤ, a Persian word for friend. *Mitra* is what Sanskrit called a friend, and both continue that same ancient name.

ਕਰਕੇ is "having done," from ਕਰਨਾ. So the phrase means **having done a kindness** — exactly what the courtesy in front of *pāṇī* meant, with a Persian noun where that one had a Sanskrit one.

Writing: assemble ਚੰਗਾ

Both letters that *changā* was waiting for have now been traced. Build it in four moves: ਚ, the tippi ◌ੰ above it, ਗ, and the upright ◌ਾ. Written out: ਚੰਗਾ.

Copy it once with the model visible. Cover the model, write it again, and compare only whether the tippi sits above the first letter and not the second.

Then write ਅੱਛਾ once beside it, and look at what the two words share: a first letter that hangs a mark above the line.

Your turn

- *Say it:* **miharbānī karke** — please
- *Request:* water, then tea, using this courtesy instead of the other
- *Split:* ਮਿਹਰਬਾਨੀ into its three pieces (*mihr*, -*bān*, -*ī*)
- *Connect:* *mihr* to Sanskrit *mitra*, "friend," and to ਦੋਸਤ

Before you move on

Ask for something politely, the Persian way. (*Miharbānī karke.*) What are the three pieces of the noun? (*Mihr*, *-bān*, *-ī*.) Which Sanskrit word is *mihr*'s twin? (*Mitra.*) *Write it:* ਚੰਗਾ once from memory

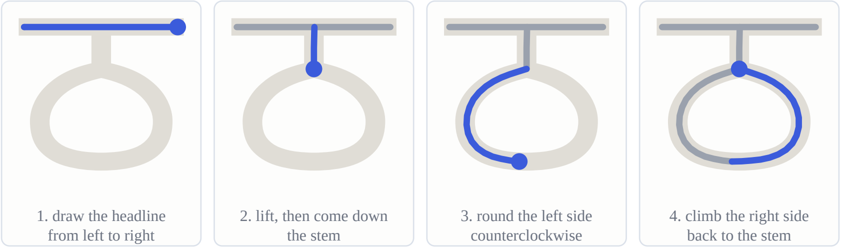
Sources: Wiktionary: miharbani; Wiktionary: mihr.

33.2 ਠ — the tongue curled back

Write ਤ once — the *t* made with the tongue against the teeth. Then write ਟ, whose sound is made with the tongue curled back against the roof. Say *ṭhīk-ṭhāk* aloud and notice that its *ṭh* belongs to the curled-back family, not the teeth family.

Script — one letter

How it is written — 2 strokes · 1 pen lift · 4 movements



1. draw the headline from left to right

2. lift, then come down the stem

3. round the left side counterclockwise

4. climb the right side back to the stem

Stroke order after GNPS, Gurmukhi Sikho (GNPS Learning Hub), Alphabet Tracing lesson, ਠ (thathaa) checkpoints, strokes 1–2 (lib/data/lessons/lesson_tracing.dart line 535, commit de1e560; Apache-2.0)
This order is attested, not standardised; the source records where it varies.

How ਠ *is written, stroke by stroke*

Trace ਠ twice and say *ṭha*: tongue curled back, then a puff of breath. Two small circles hanging from the top line, one above the other.

Your turn

Cover the models. Write ਤ, then ਠ. Compare only where your tongue goes for each one.

Before you move on

One letter. The word that needs it twice comes back in the next session.

33.3 ਮਾਫ਼ ਕਰੋ — an Arabic word with a Punjabi verb behind it

Say *miharbānī karke*, then say *shukrīā*. One is Sanskritic, one is Perso-Arabic, and both are ordinary Punjabi. Recall ਮਦਦ from the helping verb, which came the same road.

You’ll want to know first — one word

ਮਾਫ਼ — *māf* — **pardoned, excused**

The letters in this word

ਮ, ਾ, then ਫ carrying its dot underneath: ਮਾਫ਼. Then ਕਰੋ. That dot is the pair bindi you placed for ਫ਼ੋਨ.

The word, taken apart — its roots and family

ਮਾਫ਼ is Arabic *mu*^{c}*āf*, “pardoned, excused.” It is a passive participle: the shape Arabic gives a word to mean *having had this done to it*. Its three-consonant root is ^{c}-f-w, “to pardon, to efface, to wipe away.”

It travelled the road this book keeps returning to: Arabic into Persian, Persian into Punjab, arriving with the dot that marks its foreign consonant. ਮਦਦ, the noun in “to help,” came the same way.

ਕਰੋ is “do” as a command, from the same ਕਰਨਾ behind *karke* and *madad karnā*. The whole phrase reads **make pardoned**: not a feeling reported, but an act requested.

Set the two courtesies of this chapter beside each other and the pattern is plain. *Miharbānī karke* asks for a kindness to be done. *Māf karo* asks for a pardon to be done. Punjabi builds its politeness out of the same verb both times, and takes the noun from a different tradition each time — one from Sanskrit, one from Arabic.

Writing: assemble ਠੀਕ-ਠਾਕ

The curled-back letter has been traced, so the middling answer can be written. First half: ਠ, the long *ī* sign ◌ੀ, ਕ — that is ਠੀਕ. Second half: ਠ, the upright ◌ਾ, ਕ — ਠਾਕ. Joined with a hyphen: ਠੀਕ-ਠਾਕ.

Copy it once with the model visible. Then cover it, write it again, and compare only the two vowel signs, since everything else repeats. The repetition is the point: an echo half is written out in full even though it carries no meaning.

Your turn

- *Say it:* **māf karo** — sorry, excuse me
- *Translate:* the phrase word for word (make pardoned)
- *State:* which half of the phrase is borrowed and which is inherited
- *Run through:* both courtesies — **miharbānī karke**, **māf karo** — and name the source of each noun
- *Recall:* the divinity hiding inside *mihr* (*Mithra*, Sanskrit *mitra*)

Before you move on

Give the Punjabi for sorry. (*Māf karo.*) What does it mean word for word? (Make pardoned.) Which verb do both of this chapter's courtesies share? (ਕਰਨਾ.) *Write it:* ਠੀਕ-ਠਾਕ once from memory

Chapter 34

Peace and Welcome

Modes: **voice** (1) **pen** (3) **Hands-free start:** the first of 4 lessons.

> ***By the end of this chapter:*** I can greet with salam and welcome someone with ji aaian nu, name the three-consonant Arabic root that salam shares with islam and muslim, say where the postposition nu stands, and write salam in Gurmukhi.
>
> *The reader welcomes an arrival, translates the phrase piece by piece into life, those who have come, and to, states that nu follows the word it marks rather than preceding it, and writes salam now that its looped letter has been traced.*

34.1 salām — the third hello, and the one that means peace

Two greetings opened this book: *sat srī akāl*, the Sikh one, and *namaste*, the shared one. Two words for thanks followed: *dhannavād* and *shukrīā*, one from each tradition. The greetings have been waiting for their third.

You'll want to know first — one word

salām — **peace**, said as a greeting

Two even syllables, the second longer: *sa-lām*.

The word, taken apart — its roots and family

Salām is Arabic *salām*, "peace, safety, wholeness." Arabic builds words on skeletons of three consonants, and this one is **s-l-m**. Pour different vowels into that skeleton and you get:

- *salām*, peace;
- *islām*, submission, the act of giving oneself over;
- *muslim*, the one who does it;
- and, across the family line in Hebrew, *shalom*, the same three consonants with a sound shift and the same meaning.

The **ਮਦਦ** of "to help" and the previous session's **ਮਾਫ਼** came into Punjabi by the same road. This one arrived on the same road and became a greeting rather than a noun.

Punjab is split between two states and two scripts, and *salām* is the everyday hello across its western half, where *sat srī akāl* is the everyday hello in the east. A learner who can say all three can greet anyone in the region without guessing at their tradition first — which is what this book has been building toward since its opening page.

On the page *salām* needs one letter still to come. It arrives next session.

Your turn

- *Say it: salām* — peace
- *Run through:* all three greetings — *sat srī akāl*, *namaste*, *salām*
- *State:* the three consonants of the Arabic root (*s-l-m*)
- *Name:* two other words built on that root (*islām*, *muslim*)

Before you move on

Give the greeting that means peace. (*Salām.*) Which three greetings can you now choose between? (*Sat srī akāl*, *namaste*, *salām.*) What does the root mean? (Peace, wholeness.)

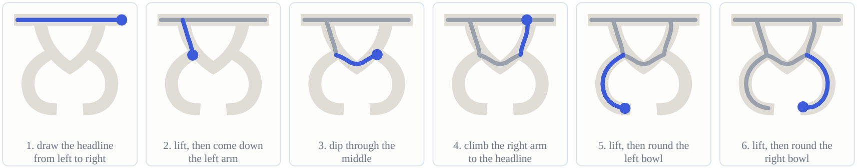
34.2 ਲ — the last piece of a four-letter greeting

Write ਸ and ਮ once each. Say *salām* aloud. Of its four letters you can already write three; one is missing.

Script — one letter

How it is written — 4 strokes · 3 pen lifts · 6 movements



1. draw the headline from left to right
2. lift, then come down the left arm
3. dip through the middle
4. climb the right arm to the headline
5. lift, then round the left bowl
6. lift, then round the right bowl

This order is attested, not standardised; the source records where it varies.

How ਲ is written, stroke by stroke

Trace ਲ twice and say *la*. A loop that starts at the top line, drops, and comes back up to meet it.

Your turn

Cover the model. Write ਲ once. Compare only whether the loop closes back on the top line.

Before you move on

Four letters, four shapes you can now form. The word is assembled one session after next.

34.3 jī āiāṁ nū̃ — a welcome built from three things you own

Say ਜੀ once. Say *āuṇā*, “to come,” from the six core verbs. Say *mainū̃ panjābī pasand hai* from the liking lesson. Every piece of this session’s phrase is already in your mouth; nothing here is new except the joining.

You’ll want to know first — one phrase

jī āiāṁ nū̃ — **welcome**

The word, taken apart — its roots and family

Three pieces, and you have met all three.

ਜੀ is the word from the start of this chapter run, the one usually traced to Sanskrit *jīva*, “life” — the same *jīva* whose Indo-European root also stands behind Latin *vīvus*. It sits here beside *salām*, whose own root **s-l-m** the last session opened; two greetings, two traditions, one page.

Āiāṁ is a past form of *āuṇā*, “to come,” the verb built earlier out of Sanskrit *āgacchati* — “go” with *ā-* “toward” glued on the front. The ending here means *those who have come*, more than one of them, and respectful.

Nū̃ is a small word placed **after** the thing it marks, not before it. It points at the person something is aimed at. It was used inside *mainū̃* without stopping to name it; here it gets its name. English would put *to* in front; Punjabi puts *nū̃* behind.

Read in Punjabi order the phrase says: **to those who have come — life**. The host wishes life on the arrivals. English *welcome* is built from an old *wil-*, “pleasure,” and *-cuma*, “guest,” and names the guest instead.

On the page two of these pieces still wait for letters. ਜੀ you can already write, and the rest arrives shortly.

Writing: assemble ਸਲਾਮ

The looped letter has been traced, so the greeting from two sessions back can be built. Four moves: ਸ, ਲ, the upright ◌ਾ, ਮ. Written out: ਸਲਾਮ.

Copy it once with the model visible, saying *salām* as you finish. Cover the model, write it once more, and compare only whether the upright falls after the second letter rather than the first.

Your turn

- *Say it: jī āiāṁ nū̃* — welcome
- *Translate:* the phrase piece by piece (life; those who have come; to)
- *State:* where *nū̃* stands relative to the word it marks (after it)
- *Greet:* someone with *salām*, then welcome them in

Before you move on

Welcome someone. (*Jī āiāṁ nū̃.*) Which verb is *āiāṁ* a form of? (*Āuṇā.*) Where does *nū̃* stand? (After.) *Write it:* ਸਲਾਮ once from memory
Sources: Wiktionary: auna; Wiktionary: nu.

34.4 ਆ — a letter you can already build

Write the standalone ਅ once. Then write the upright stroke ਾ that lengthens a vowel — the one that turned ਹ into ਹਾ.

Script — one letter

Put the two together and you have ਆ, the standalone long *ā*. Trace it twice. This is the shape a word starting with *ā*- opens on, where ਅ opens a word starting with short *a*-.

Nothing new has to be memorised here: two shapes you already own, standing side by side and read as one letter.

Your turn

Cover the models. Write ਅ, then ਆ. Compare only the added upright.

Before you move on

A letter built from two you had already climbed.

Chapter 35

Me, and Two Ways to Part

Modes: 🚗 **voice** (1) ↙ **pen** (4) 🚗 **Hands-free start:** the first of 5 lessons.

By the end of this chapter: I can say to me with mainu and take my leave with changa ji or jaldi milaange, split mainu into the pronoun and the postposition fused inside it, hear the Persian ending shared by jaldi and khushi, and write mainu and the welcome from the previous chapter.

The reader parts with a promise of soon, separates the borrowed adverb from the inherited verb, connects the Persian ending on jaldi to the one already met on khushi, runs three partings against each other, and writes mainu from memory using both marks traced in this chapter.

35.1 mainū̃ — the pronoun that changed shape

Say *maiṁ*, “I,” the pronoun you answer with. Say *jī āiāṁ nū̃* from the last session, and listen for the small *nū̃* on the end of it. Those two are about to meet.

You’ll want to know first — one word

mainū̃ — **me, to me**

The word, taken apart — its roots and family

Maiṁ plus *nū̃* does not come out as two words standing side by side. The pronoun bends first — *maiṁ* becomes *mai-* — and then the postposition fuses onto it: *mainū̃*. Punjabi writes the result as one word.

English does something comparable and stops noticing it: *I* becomes *me* before a preposition, so nobody says *to I*. Punjabi lets the seam show, because *nū̃* is still recognisable inside the finished form.

The liking lesson handed you *mainū̃ panjābī pasand hai* whole. It had to: the pieces had not been named. Now they have, and the same sentence can be rebuilt from parts — *mainū̃* for the person who likes, *panjābī* for the thing liked, *pasand hai* for the liking.

That is why *mainū̃* is a word and not merely a form. It is the shape *maiṁ* takes whenever something is directed at the speaker, and it will return every time this book says something happens **to** someone.

On the page it needs two marks not yet traced — one below a letter, one above. Both are taught in this chapter.

Maiṁ goes back to the Sanskrit first-person base *ma-* (CDIAL 9691). Where *nūṁ* comes from is not settled: CDIAL has no entry for it.

Your turn

- *Say it: mainū̃* — to me
- *Contrast: maiṁ* (I) and *mainū̃* (to me)
- *Rebuild: mainū̃ panjābī pasand hai*, naming each piece as you place it
- *State:* what happens to the pronoun before a postposition (it bends)

Before you move on

Say “to me.” (*Mainū̃.*) Which two pieces are inside it? (*Maiṁ* and *nū̃.*) Rebuild that liking sentence out of its parts.

35.2 ◌ੂ — a mark that hangs underneath

Write ਠ once. Then put the small tippi ◌ੰ above it, the way you did for ਪੰਜਾਬੀ. Every vowel mark so far has sat on the line or above it.

Script — one mark

The **dulaiṅkaṛ** goes the other way. Trace ਨੂ twice: write ਨ, then hook the mark on underneath it, and say *nū*. The vowel is a long *ū*, the sound in English *food*.

This is the second mark in this book to hang below a letter rather than above it. The ੍ਹ tucked under its neighbour in *paṛhnā* was the first.

Your turn

Cover the model. Write ਨੂੰ once — letter, mark below, tippi above — then compare only whether the mark sits under the letter and not beside it.

Before you move on

One mark, one direction: downward.

35.3 ◌ੈ — one stroke becomes two

> Write ਤੇ once: the single slanting stroke above the line is the *e* sign you met in ਨਮਸਤੇ. Then write ਨੂ from the session before, with its mark hanging below.

Script — one mark

Double that slanting stroke and the vowel changes: ◌ੈ, the **dulāvāṁ**, sounds *ai*. Trace ਮੈ twice and say *mai*.

Gurmukhi keeps a pattern here that is worth noticing on the page rather than being told about: one stroke above for *e*, two for *ai*; one hook below for *u*, two for *ū*. Counting strokes, not memorising shapes.

Your turn

Cover the models. Write ਤੇ, then ਮੈ. Compare only the number of strokes above the line.

Before you move on

Two marks, counted rather than memorised.

35.4 ਚੰਗਾ ਜੀ — a goodbye made of nothing new

> Say *changā*. Say ਜੀ. Say *mainū̃*. Three words from the last few sessions, none of them a farewell.

You'll want to know first — one phrase

ਚੰਗਾ ਜੀ — *changā jī* — **right then; bye**

The letters in this word

ਚੰਗਾ was assembled two chapters ago; ਜੀ has been writable since this run of chapters opened. Nothing here is a new shape: ਚੰਗਾ ਜੀ.

The word, taken apart — its roots and family

This phrase adds no vocabulary. Its whole content is what happens when two known words are set in that order at the end of a conversation.

Changā says good — the word whose trail stops at *caṅga* and is argued no further. ਜੀ adds the person. Together, at the door, they mean *right then* — the exchange is agreed, so it can end.

The two farewells you learned first both promise. *Phir milāṁge* promises another meeting; *rabb rākhā* asks God to keep the other person. *Changā jī* promises nothing. It closes by agreeing, which is why it fits a shopkeeper, a neighbour and a phone call, and why it is the parting a learner will hear most.

English does the same with *all right then* and *right you are*. A word for agreement, spoken at the end, becomes a way out.

CDIAL lists *caṅgā* under Sanskrit *caṅga*, "of good understanding" (CDIAL 4564).

Writing: assemble ਜੀ ਆਇਆਂ ਨੂੰ

The standalone long *ā* and the hook that hangs below a letter have both been traced, so the welcome from the last chapter can be written out.

Three words. ਜੀ. Then ਆਇਆਂ: the standalone ਆ, the standalone ਇ, ਆ again, and the dot ਂ above. Then ਨੂੰ: ਨ, the hook below, the tippi above.

Copy the whole line once with the model visible. Cover it, write it again, and compare only the second word. Then add ਸਲਾਮ and ਠੀਕ-ਠਾਕ underneath from memory, so neither goes cold.

Your turn

- *Say it:* **changā jī** — right then, bye
- *Contrast: phir milāṁge* (a promise) and **changā jī** (an agreement)
- *Run through:* a tiny exchange — welcome someone in, then close with **changā jī**
- *State:* how many new words this phrase taught (none)

Before you move on

Close a conversation. (ਚੰਗਾ ਜੀ.) What does each word mean on its own? (Good; respect.) *Write it:* the welcome from the last chapter once more
Sources: Wiktionary: changa; Wiktionary: ji.

35.5 ਜਲਦੀ ਮਿਲਾਂਗੇ — soon, borrowed; meet, inherited

Close a conversation with ਚੰਗਾ ਜੀ. Then recall *khushī* from the introduction chapter, a Persian word wearing a Persian ending. Another one arrives now.

You'll want to know first — one word

ਜਲਦੀ — *jaldī* — **soon, quickly**

The letters in this word

ਜ, ਲ, ਦ, and the long *ī* sign: ਜਲਦੀ. The second word came from the farewell chapter and needed the looped letter and the throat letter this run has since taught: ਮਿਲਾਂਗੇ. Both words are now writable in full: ਜਲਦੀ ਮਿਲਾਂਗੇ.

The word, taken apart — its roots and family

ਜਲਦੀ rests on Persian *jald*, "quick, hurried" — a word Persian itself took from Arabic. On the end sits the Persian -*ī*, which turns a quality into a noun or an adverb of that quality.

That ending is not new here. *Khushī*, “pleasure,” was *khush*, “happy,” carrying the same *-ī*. Two words, one ending, the same job. A learner who notices the ending once can hear it inside dozens of Punjabi words, which is the kind of return an etymology has to pay to earn its place.
ਮਿਲਾਂਗੇ is already yours from the farewells: “we will meet.” Set the borrowed adverb in front of the inherited verb and the parting is complete — *soon, we will meet.*
Note the order. Punjabi puts the verb at the end, as the introduction established with *merā nāṁ … hai.* English says *see you soon* and finishes on the adverb; Punjabi opens on it.

Writing: assemble ਮੈਨੂੰ

Both marks *mainū̃* was waiting for have been traced. Build it: ਮ, the two-stroke sign above it, ਠ, the hook below, the tippi above. Written out: ਮੈਨੂੰ.

Look at the model for a moment, then cover it and write the word from memory. Uncover, compare, and repair one thing only — whichever mark sits on the wrong side of the line. Then write ਜੀ ਆਇਆਂ ਨੂੰ underneath: its last word ends in the same two marks you have placed.

Your turn

- *Say it:* **jaldī milāṁge** — see you soon
- *State:* which half is borrowed and which is inherited
- *Connect:* the ending on ਜਲਦੀ to the ending on *khushī*
- *Run through:* three ways to part — *phir milāṁge*, **changā jī**, **jaldī milāṁge**

Before you move on

Part with a promise of soon. (ਜਲਦੀ ਮਿਲਾਂਗੇ.) Which word is borrowed? (ਜਲਦੀ.) *Write it:* ਮੈਨੂੰ once from memory

Chapter 36

Tomorrow, and Good Night

Modes: 🚗 **voice** (1) ✎ **pen** (2) 🚗 **Hands-free start:** the first of 3 lessons.

> ***By the end of this chapter:*** I can promise to meet tomorrow with kall milaange, explain why kall also means yesterday and what settles the direction, say good night formally with shubh raat while knowing it is not the commonest parting, and write shubh raat in Gurmukhi.
>
> *The reader gives the formal good night, states that it belongs to the formal register rather than to ordinary doorstep speech, traces raat to Sanskrit ratri, runs every parting the book has taught, and writes both words from memory after the short hook has been traced.*

36.1 kall milāṁge — one word for both sides of today

Part twice: ਜਲਦੀ ਮਿਲਾਂਗੇ, then ਚੰਗਾ ਜੀ. One names a time, one does not. This session names a time exactly — and then takes half of that back.

You'll want to know first — one word

kall — **tomorrow; yesterday**

Both. One word, one day away from today, and no direction built in.

The word, taken apart — its roots and family

Kall comes down from Sanskrit *kalya*, "daybreak, the morrow." Along the way it stopped choosing a side. A Punjabi speaker who says *kall* has named the day adjacent to this one, and the listener works out which one from the verb.

Say *kall milāṁge*, with *milāṁge* pointing forward — we **will** meet — and *kall* is tomorrow. Say it with a past verb and the same *kall* is yesterday. The word supplies the distance; the verb supplies the direction.

Hindi keeps the identical arrangement, and it strikes speakers of English as strange until they notice English doing something close with *next*: *next Friday* can mean two different Fridays, and only the surrounding sentence decides.

So this parting has to carry its verb. *Jaldī* — the borrowed word, Persian *jald* under a Persian ending — could stand nearly alone and still mean soon. *Kall*, inherited and older, would leave the listener a day out in either direction.

On the page *kall* needs one mark this book has not taught — a small hook that tucks a letter underneath another. It stays in sound here.

Your turn

- *Say it: kall milāṁge* — see you tomorrow
- *State:* the second meaning of *kall* (yesterday)
- *Explain:* what tells a listener which one is meant (the verb)
- *Run through:* four partings — *phir milāṁge*, *changā jī*, *jaldī milāṁge*, *kall milāṁge*

Before you move on

Promise to meet tomorrow. (*Kall milāṁge.*) What else can *kall* mean? (Yesterday.) What decides? (The verb.)

Sources: Wiktionary: kall; Wiktionary: kalya.

36.2 ◌ੁ — the shorter of the two hooks

Write ਨੂ once, with the long hook underneath. Then write ਸ਼, the *sh* letter carrying its dot below.

Script — one mark

Take one stroke off the hook and the vowel shortens: ◌ੁ, the **auṅkaṛ**, sounds a short *u*. Trace ਸ਼ੁ twice and say *shu*.

Hold the two below-the-line marks side by side once and say them: *shu* short, *nū* long. The page counts strokes; the ear counts length.

Your turn

Cover the models. Write ਸ਼ੁ, then ਨੂ. Compare only how far each mark reaches below the letter.

Before you move on

The last of the four below-and-above pairs this chapter needed.

36.3 ਸ਼ੁਭ ਰਾਤ — an auspicious night, and where it belongs

Part three ways: ਚੰਗਾ ਜੀ, ਜਲਦੀ ਮਿਲਾਂਗੇ, *kall milāṁge.* All three can be said at any hour. One parting is left, and it can be said at only one.

You'll want to know first — one phrase

ਸ਼ੁਭ ਰਾਤ — *shubh rāt* — **good night**

The letters in this word

ਸ਼ with the short hook under it, then ਭ: ਸ਼ੁਭ. Then ਰ, the upright ◌ਾ, ਤ: ਰਾਤ. Every shape has been traced, the last of them in the session before this one.

The word, taken apart — its roots and family

ਸ਼ੁਭ is Sanskrit *śubha*, “auspicious, splendid, good.” It is the word that opens a wedding invitation and a festival greeting, and it carries a sense English *good* does not: not merely pleasant, but well-omened.
ਰਾਤ comes down from Sanskrit *rātri*, “night,” worn smooth on the way — the long middle collapsed, and the word ends on the *t*.
Both halves are inherited, which makes this parting unusual in a book whose farewells have kept crossing traditions. The blessing farewell *rabb rākhā* pairs an Arabic word for God with an inherited verb; the two words for thanks come in a Sanskritic and a Perso-Arabic version side by side. Here both pieces come down the same line.
One thing must be said plainly, because a phrasebook would leave it out. ਸ਼ੁਭ ਰਾਤ belongs to the formal register — writing, broadcast, a careful goodbye to someone you address respectfully. At a Punjabi door at night you are more likely to hear *rabb rākhā*, or the English *good night* borrowed whole. Knowing the formal phrase is worth having; mistaking it for the common one is not.

Writing: assemble ਸ਼ੁਭ ਰਾਤ

Look at ਸ਼ੁਭ ਰਾਤ for a moment, then cover it and write both words from memory. Uncover and compare two things only: whether the dot sits under the first letter, and whether the hook sits under it as well. Then write ਮੈਨੂੰ once more underneath — the only other word in this run that carries marks both above and below.

Your turn

- *Say it:* **shubh rāt** — good night
- *State:* which register it belongs to, and what is said more often instead
- *Trace it:* ਰਾਤ back to its Sanskrit ancestor (*rātri*)
- *Run through:* all four partings from this run, and the two learned earlier
- *Recall:* the Sanskrit word behind *kall* (*kalya*, “daybreak”) beside *rātri*

Before you move on

Say good night formally. (ਸ਼ੁਭ ਰਾਤ.) What does ਸ਼ੁਭ add beyond "good"? (Auspicious, well-omened.) Which Sanskrit word is ਰਾਤ? (*Rātri.*) *Write it:* both words once from memory

Chapter 37

The Sentence That Says No

Modes: 🚗 **voice** (4) ↙ **pen** (1) 🚗 **Hands-free start:** the first 2 of 5 lessons.

> ***By the end of this chapter:*** I can put nahin inside a sentence, contradict a statement, say I did not follow, and say I do not know.
>
> *nahin has been in this book since chapter 1 and could only ever be a whole answer: both negative words were taught and no negated CLAUSE pattern was, so nothing in the corpus could be contradicted. The rule is one position – nahin directly before the verb, nothing else moving – and the two sentences built on it use the dative frame the track already owns from mainu … pasand hai, so the repair language is new grammar for nobody.*

37.1 ਨਹੀਂ inside a sentence

From the first chapter of this book: the two words that answer a question. And from the third: the word for **I**.

- *Recall: hā̃, nahī̃* — then *maiṁ*

You have been able to say **no** since page one. You have never been able to say that something **is not so**.

The word, taken apart — its roots and family

ਨਹੀਂ goes **directly before the verb**, and nothing else in the sentence moves:

> ਮੈਂ *(…)* ਨਹੀਂ *(verb)* — “I do **not** *(verb)*”

That is the whole rule. Punjabi does not add a helper the way English adds *do* — it drops one word in front of the verb and leaves the rest alone.

Because the position is fixed, every sentence you already own has a negative twin, and you can make it without learning anything else.

Nahīṁ is inherited: it matches Hindi *nahīṁ*, which CDIAL lists under Sanskrit *nahi*, "surely not" (CDIAL 7035).

Your turn

- *Say it: nahī̃* alone, as the answer you already had.
- *Build:* a sentence you can already say, then the same sentence with *nahī̃* in front of its verb.
- *Contrast:* the positive and the negative, back to back.

Before you move on

Where does **ਨਹੀਂ** stand in a sentence? (Directly before the verb.)
What else has to change? (Nothing.)

37.2 ਮੈਨੂੰ ਸਮਝ ਨਹੀਂ ਆਈ — I did not understand

One lesson back, where **ਨਹੀਂ** stands. From the verb chapter, the verb **to understand**. And two chapters back, the word for **to me**.

- *Recall: nahī̃* before the verb, *samajhṇā*, *mainū̃*

The word, taken apart — its roots and family

- **ਮੈਨੂੰ ਸਮਝ ਨਹੀਂ ਆਈ** — *mainū̃ samajh nahī̃ āī* — "understanding did not come to me"

Punjabi does not make you the subject of understanding. It makes understanding something that **arrives**, and you are the one it arrives at — which is exactly the shape you already met in **ਮੈਨੂੰ ... ਪਸੰਦ ਹੈ**, "X is pleasing to me".

So this is not a new grammar. It is the dative frame you own, with a different noun in it and ਨਹੀਂ in the slot the last lesson gave you. *Samajh* is the stem of *samajhṇā*, “to understand”, which CDIAL lists under Sanskrit *saṁbudhyate*, “wakes up, understands” (CDIAL 12959), and *āī* is a form of *āuṇā*, “to come”, from *āpayati* (CDIAL 1200).

Why it’s said this way

This is the sentence that buys you a second attempt. Without it a learner whose conversation has run away has only silence or an English apology, and the conversation ends there. It is worth more than any noun in this book, and it should arrive fast enough to be said without assembling it.

Your turn

- *Say it: mainū̃ samajh nahī̃ āī*, slowly, then at speed.
- *Contrast: mainū̃ … pasand hai* and *mainū̃ samajh nahī̃ āī* — one frame.
- *Run through:* somebody says something too fast; reply with it.

Before you move on

Say that you did not understand. Which earlier frame is it built on, and who is the subject of the sentence? (**ਮੈਨੂੰ … ਪਸੰਦ ਹੈ**; the understanding is, not you.)

37.3 ਨਹੀਂ reaches the page

Say where ਨਹੀਂ stands in a sentence before anything is uncovered.

Script — four pieces, none new

Uncover ਨਹੀਂ and name it in order:

ਨ — *na* · ਹ — *ha* · the ◌ੀ stroke · the ◌ਂ above

The last of those is the bindi, and it is doing real work: it puts the vowel through the nose. A ਨਹੀ without it is not this word.

This is the first of seven chapters, and it is worth saying now what holds for almost all of them: the words this book most needed were already writable. Every sign here was taught long ago.

Writing — guided copy, model in view

Keep the model in view and copy ਨਹੀਂ once. Check the bindi is there.

Before you move on

Write ਨਹੀਂ from memory, then uncover and compare. Which mark would change the word if you left it off? (The ◌ਂ above.)

37.4 ਮੈਨੂੰ ਨਹੀਂ ਪਤਾ — I don’t know

Two lessons back, the sentence that says you did not follow.
And one lesson back, that word on the page.

- *Recall: mainū̃ samajh nahī̃ āī*, and ਨਹੀਂ written

The word, taken apart — its roots and family

ਮੈਨੂੰ ਨਹੀਂ ਪਤਾ — *mainū̃ nahī̃ patā* — “I don’t know”

ਪਤਾ is the new word, and it is a **noun** — the knowledge itself, not an act of knowing. So the sentence says, word for word, *to me not knowledge*. The same dative frame again: the third sentence in three lessons to put ਮੈਨੂੰ at the front and leave you out of the subject slot. Punjabi keeps these two admissions apart, and so should you:

- ਮੈਨੂੰ ਸਮਝ ਨਹੀਂ ਆਈ — I did not **follow** you
- ਮੈਨੂੰ ਨਹੀਂ ਪਤਾ — I do not **have the fact**

Where *patā* comes from is not settled. CDIAL has no entry for it, though it lists Punjabi *patīj̣ṇā*, “to trust”, under Sanskrit *pratyaya*, “belief” (CDIAL 8640).

Your turn

- *Say it: mainū̃ nahī̃ patā*, flat, as a whole reply.
- *Contrast:* the two admissions, back to back.
- *Run through:* asked a question you cannot answer, give the right one of the two.

Before you move on

Say you do not know. Then say you did not follow. What kind of word is ਪਤਾ? (A noun — the knowledge itself.)

37.5 Saying no to a sentence, all together

No new words. One run through what this chapter added.

What you've built

- ਨਹੀਂ directly before the verb, and nothing else moving.
- ਮੈਨੂੰ ਸਮਝ ਨਹੀਂ ਆਈ — I did not follow you.
- ਮੈਨੂੰ ਨਹੀਂ ਪਤਾ — I do not have the fact.
- ਨਹੀਂ on the page, bindi and all.

ਨਹੀਂ has been in this book since its first chapter and could only ever be a whole answer. It can now be put inside a sentence, which means every statement you meet can be contradicted and every statement you make can be denied.

Your turn

- *Say it:* someone states something you disagree with. Contradict it.
- *Say it:* the two admissions, in the order you would really need them.
- *Write it:* ਨਹੀਂ from memory, then check the bindi.
- *Run through:* refuse a yes-or-no question, then say why you cannot answer it.

Before you move on

Contradict a statement, then admit you do not know. Next chapter: the word for **and**, which this book has never had either.

Chapter 38

And, Or, and Neither

Modes: **voice** (4) **pen** (1) **Hands-free start:** the first 2 of 5 lessons.

> ***By the end of this chapter:*** I can join two things or two whole sentences with ate, offer a choice with jaan, and refuse both halves at once with na ... na.
>
> *The coordinators, and the first two-clause sentence this book can make – until now the longest structure the track taught was a single clause of four slots. ate has a shorter twin, te, which is also a syllable the script lessons drill, which is exactly why a search of the corpus for and kept finding the drill and never the conjunction. na ... na is the first joining pattern in the book that stands in FRONT of both halves rather than between them.*

38.1 ਅਤੇ (ate) — and

From the chapter behind you, the two admissions. And from the food chapter far back, the word for **milk**.

- *Recall: mainū̃ samajh nahī̃ āī, mainū̃ nahī̃ patā* — then *dudh*

Milk and bread were taught together, and read back together at a distant window. Until this lesson there has been no way to name them in one breath.

The word, taken apart — its roots and family

ਦੁੱਧ ਅਤੇ ਰੋਟੀ — *dudh ate roṭī* — **milk and bread**

ਅਤੇ stands between the two things it joins, exactly where English puts *and*.
It has a shorter twin. In ordinary speech Punjabi very often says just ਤੇ, and the two are the same word — ਅਤੇ is the fuller, more written form. That matters here for an odd reason: the short ਤੇ is also a syllable this book drills in its script lessons, so a search of the corpus for *and* kept finding the drill and never the conjunction. The word looked present and was absent.
CDIAL lists the short *te*, "and", under Sanskrit *tathāpi*, "even so, nevertheless" (CDIAL 5647); it has no entry for the fuller *ate*.

Your turn

- *Say it: dudh ate roṭī.*
- *Say it: dudh* alone, then the pair. Hear what the middle word buys.
- *Build:* any two things you can name, joined.

Before you move on

Join two foods. What is the shorter everyday form of ਅਤੇ, and why did it make the word hard to find in this book? (ਤੇ — it is also a script drill syllable.)

38.2 ਅਤੇ, joining two sentences

One lesson back, the joining word. Four lessons back, at the head of the last chapter, where ਨਹੀਂ stands.

- *Recall: ate*, and *nahī̃* before the verb

The word, taken apart — its roots and family

The same ਅਤੇ joins two whole sentences, and changes nothing about either:

(first sentence) ਅਤੇ *(second sentence)*

No ending appears, no word moves. That is why *and* is the joining word to learn first: it is the only one that costs the sentences on either side of it nothing at all.
And it composes with the chapter behind you — the second half is free to be a negative:

… ਅਤੇ … ਨਹੀਂ …

That is a two-clause sentence, and it is the first one this book has been able to make. Until now the longest thing the track taught was a single clause of four slots.
Ate goes with its short twin *te*, which CDIAL lists under Sanskrit *tathāpi*, "even so, nevertheless" (CDIAL 5647); it has no entry for *ate* itself.

Your turn

- *Build:* two short sentences you own, joined with *ate*.
- *Build:* the same again, the second half negative.
- *Contrast:* the two said separately, then joined. Same words.

Before you move on

What changes about a sentence when ਅਤੇ joins it to another? (Nothing.) Make one whose second half is negative.

38.3 ਅਤੇ reaches the page

One chapter back you wrote ਨਹੀਂ. Write it once from memory, bindi and all, before anything is uncovered.

Script — three pieces, none new

ਅ — the vowel carrier · ਤ — *ta* · ◌ੇ — the laav stroke above

All three were taught long before this chapter. Say it plainly: the word this book most needed was never a writing problem. Nobody had written it down.

Writing — guided copy, model in view

Keep the model in view and copy ਅਤੇ once. Check the laav sits above ਤ, not above ਅ.

Before you move on

Write ਅਤੇ from memory. How many of its three signs were new today? (None.)

38.4 ਜਾਂ (jāṁ) — or

One lesson back you wrote the joining word. Say it. *Write it:* the same word in the air

- *Recall:* ਅਤੇ

The word, taken apart — its roots and family

ਅਤੇ offers you both. ਜਾਂ offers you one of two:

ਦੁੱਧ ਜਾਂ ਰੋਟੀ — *dudh jāṁ roṭī* — **milk or bread**

Same position, different job: it stands between the two things and asks the listener to choose. The bindi on it is not decoration — the vowel goes through the nose, and this book has been marking that since its earliest script lessons.
This is the word a shopkeeper uses on you, and the one you need to answer with.
Where *jāṁ* comes from is not settled: CDIAL has no entry for it in this sense.

Your turn

- *Say it: dudh jāṁ roṭī*, then *dudh ate roṭī.* One asks, one gives.
- *Contrast:* the two joining words back to back, twice.

- *Build:* offer someone a choice of two things you can name.

Before you move on

Offer a choice, then offer both. Which word did each need? (*jāṁ* to choose, *ate* to give both.)

38.5 ਨਾ ... ਨਾ ... (nā ... nā ...) — neither ... nor

The two joining words of this chapter, and the rule from the chapter before it.

- *Recall: ate*, *jāṁ* — and *nahī̃* before the verb

The word, taken apart — its roots and family

English uses two different words — *neither* and *nor*. Punjabi repeats **one**:

ਨਾ *(first thing)* ਨਾ *(second thing)* — “neither ... nor ...”

ਨਾ is the short bare negative you have already met beside ਨਹੀਂ. Here it does the joining and the negating at once, standing in front of **each** item rather than between them.
That is worth noticing against ਅਤੇ and ਜਾਂ, which stand **between**. This is the first joining pattern in the book that goes in front of both halves.
Nā is inherited: CDIAL lists Punjabi *na*, “not”, under Sanskrit *na* (CDIAL 6906).

Your turn

- *Say it:* refuse two things at once with *nā* ... *nā* ....
- *Contrast: ate* between, then *nā* ... *nā* in front of each.
- *Run through:* offered a choice with *jāṁ*, refuse both.

Before you move on

Refuse two things in one sentence. Where does ਨਾ stand, and how is that different from ਅਤੇ? (In front of each item; *ate* stands between them.) Next chapter: **but** — and Punjabi has two words for it, one from each side of the language's history.

Chapter 39

But, Twice Over

Modes: 🚗 **voice** (4) ✎ **pen** (1) 🚗 **Hands-free start:** the first 2 of 5 lessons.

> ***By the end of this chapter:*** I can set one thing against another with either word for but, and choose between a Sanskritic word and a Perso-Arabic one knowing what the choice tells my listener.
>
> *Punjabi has two words for but, one inherited and one Arabic by way of Persian, and that pair is the same shape as the dhanvaad / shukriya pair this book taught in chapter 1 and never explained. The doublet lesson closes a point the inventory said one lesson would close. The writing lesson carries the caution the inventory needed: par is also the first two letters of parivar, which is why the corpus search returned hits and no occurrences.*

39.1 ਪਰ (par) — but

From the chapter behind you: the word that joins two sentences, and the pattern that refuses two things at once.

- *Recall: ate*, and *nā … nā …*

The word, taken apart — its roots and family

ਪਰ joins two clauses the way ਅਤੇ does, and warns that the second will pull against the first:

> *(first sentence)* ਪਰ *(second sentence)* — "… **but** …"

It works best with the chapter before it, because the sharpest contrast

a beginner can draw is between something that is and something that ਨਹੀਂ.
ਪਰ is the **inherited** word — it came down with the language rather than being borrowed into it. That matters more than it usually would, because the next lesson is a second word for *but* that arrived from somewhere else entirely, and this book already teaches one such pair without saying so.

Your turn

- *Build:* two clauses joined with *par*, the second negative.
- *Contrast:* the same two clauses with *ate*, then with *par*.
- *Say it:* *par* alone, and hear how short it is.

Before you move on

Set one thing against another. What does ਪਰ warn you about the second clause? (It will pull against the first.)

39.2 ਲੇਕਿਨ (lekin) — but, again

One lesson back, the word that sets one clause against another.

- *Recall: par*
- *Recall: mainū̃ samajh nahī̃ āī* — from two chapters back

The word, taken apart — its roots and family

ਲੇਕਿਨ — *lekin* — **but**

The same job, the same position, and a completely different history.
ਲੇਕਿਨ is Arabic **lākin**, carried into Punjabi through Persian — the road that also brought this book several of its greetings and farewells.
So Punjabi has two words for *but*: one that grew here and one that arrived. You can use either. They are not in competition and neither is more correct.
What they are is a **pair**, and this book has been quietly teaching you another one since its first chapter without ever pointing at it. The next lesson but one is about that.

Your turn

- *Say it: par*, then *lekin*. Same sentence, either word.
- *Build:* a contrast, said twice, once with each.
- *Contrast:* their lengths — one syllable against three.

Before you move on

Give a contrast twice, once with each word. Which of the two came into Punjabi from outside, and by what route? (ਲੇਕਿਨ — Arabic, through Persian.)

39.3 ਪਰ reaches the page

One chapter back you wrote ਅਤੇ. Write it once from memory.

Script — two signs, and a caution worth more than the signs

ਪ — *pa* · ਰ — *ra*

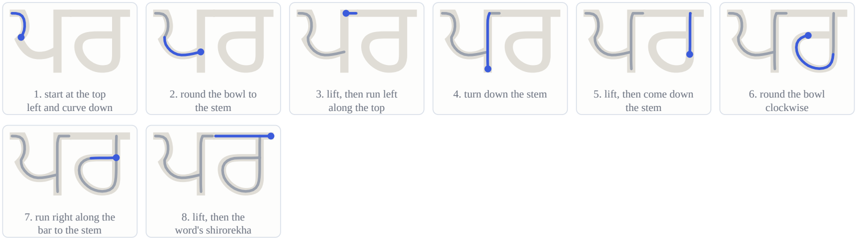
Both old, and the word is two letters long. The caution is the real lesson.

ਪਰ are also the first two letters of ਪਰਿਵਾਰ, *family*, which this book taught many chapters ago. So when you meet these two signs on a page, check that they stand **alone** — inside a longer word they are not this word at all.

That is not a hypothetical. It is the reason a search of this corpus for *but* came back with hits and no actual occurrences.

Writing — guided copy, model in view

How it is written — 4 strokes · 3 pen lifts · 8 movements



1. start at the top left and curve down
2. round the bowl to the stem
3. lift, then run left along the top
4. turn down the stem
5. lift, then come down the stem
6. round the bowl clockwise
7. run right along the bar to the stem
8. lift, then the word's shirorekha

Stroke order after letter 1: GNPS, Gurmukhi Sikho (GNPS Learning Hub), Alphabet Tracing lesson, ਪ (pappaa) checkpoints, strokes 1–2 (lib/data/lessons/lesson_tracing.dart line 826, commit de1e560; Apache-2.0); letter 2: GNPS, Gurmukhi Sikho (GNPS Learning Hub), Alphabet Tracing lesson, ਰ (raaraa) checkpoints, strokes 1–2 (lib/data/lessons/lesson_tracing.dart line 1014, commit de1e560; Apache-2.0); the shared headline, drawn last: by this book's convention for words, not from a Gurmukhi recording: the order fluent writers are described as using, and the one this book draws Devanagari words in, after HP Labs India's Lipi Toolkit 4.0 Devanagari pen data (headline last in 82% of 2,706 consonant prototypes); GNPS's own letters draw the headline first

This order is attested, not standardised; the source records where it varies.

How ਪਰ is written, letter by letter, then one headline, stroke by stroke

Copy ਪਰ once with the model in view. Then write it again with a space on either side, standing between two clauses, which is where it belongs.

Before you move on

How do you tell the *but* ਪਰ from the same two signs inside a longer word? (It stands alone, between two clauses.)

- *Recall:* ਨਹੀਂ written — from two chapters back

39.4 The pair rule — ਧੰਨਵਾਦ and ਸ਼ੁਕਰੀਆ

From the very first chapter of this book, the two ways to say **thank you**. And from two lessons back, the two ways to say **but**.

- *Recall: dhannavād, shukrīā* — then *par*, *lekin*
- *Recall: mainū̃ nahī̃ patā* — from two chapters back

You have owned that first pair since page one and have never been told which to choose.

The word, taken apart — its roots and family

Both pairs are the same shape, and it runs through the whole language:

- ਧੰਨਵਾਦ · ਪਰ — the **inherited and Sanskritic** side
- ਸ਼ੁਕਰੀਆ · ਲੇਕਿਨ — the **Perso-Arabic** side

Punjabi has drawn on both streams for centuries, so a great many everyday ideas have two perfectly good words. What the choice carries:

- The Sanskritic word leans **formal and written**, and is the one you will most often see in print and hear in institutional or Sikh religious settings.
- The Perso-Arabic word leans **everyday and spoken**, and is more usual in Pakistani Punjabi and in Muslim communities.
- **Both are understood everywhere by everyone.** Choosing the other one is never an error, and it is never taken as one.

So this is not a rule about correctness. It is a rule about **what your choice tells the listener** — which is the same thing ਤੂੰ against ਤੁਸੀਂ told them, and the same thing the book's three greetings told them.

Your turn

- *Say it:* thank a stranger at a counter, then a friend. Choose each time.
- *Contrast: par* and *lekin* — which side of the pair is each on?
- *Say it:* both members of both pairs, in two columns, aloud.

Before you move on

Name both pairs and say which side each word is on. Is one member of a pair more correct than the other? (No — the choice tells the listener something; it does not make you right or wrong.)

39.5 Contrast, and the pair rule

No new words. One run through the chapter.

What you've built

- ਪਰ — *but*, the inherited word, and how to tell it from the start of ਪਰਿਵਾਰ.
- ਲੇਕਿਨ — *but*, the borrowed word, Arabic by way of Persian.
- ਪਰ on the page.
- **The pair rule** — the Sanskritic word and the Perso-Arabic one, and what choosing between them tells your listener.

The last of those has been owed since the courtesy lesson, where ਧੰਨਵਾਦ and ਸ਼ੁਕਰੀਆ were taught side by side with no way to choose.

Your turn

- *Build:* one contrast with *par*, the same one again with *lekin*.

- *Say it:* thank two different people, choosing differently, and say why.
- *Build:* a sentence with *ate* and one with *jāṁ*, from the chapter before.
- *Write it:* ਪਰ from memory, standing alone.

Before you move on

Say a contrast both ways, then thank someone and say which word you chose and why. Next chapter: the word that hands a whole sentence to a verb, and the question this book has never been able to ask — **why**.

- *Recall:* the repair kit — from two chapters back

Chapter 40

That, and Why

Modes: 🚗 **voice** (4) ↙ **pen** (1) 🚗 **Hands-free start:** the first 2 of 5 lessons.

> ***By the end of this chapter:*** I can hand a whole sentence to a verb with ki, give an opinion, ask why, and answer it with because.
>
> *The complementiser and the reason. ki and ki differ by one stroke – sihari against bihari, that against what – and the book has taught the second since chapter 2 and never the first, so sochna had nothing to think. kyon is the one member of the k- question family the chapter-3 mnemonic left out, which is why cause could be neither asked for nor given; kyunki is those two words joined, so the answer is built entirely from what this chapter already gave.*

40.1 ਕਿ (ki) — that

From the chapter behind you, the two words for *but*. And from the naming lesson, the word for **what**.

- *Recall: par*, *lekin* — then ਕੀ
- *Recall: ate* — from two chapters back

The word, taken apart — its roots and family

Tell these two apart very carefully, because they are not the same word:

- ਕੀ — *kī* — **what**, with the long bihari
- ਕਿ — *ki* — **that**, with the short sihari

One stroke apart, and completely different jobs. You have had ਕੀ since

you first asked someone's name. ਕਿ is new.
ਅਤੇ and ਪਰ put two sentences **side by side**. ਕਿ does something different: it lets one sentence be **swallowed** by another, as the thing a verb is about.

(verb of thinking, knowing or saying) ਕਿ *(whole sentence)*

English does the same with *that*, and like English, Punjabi often drops it in speech. Learn it in place first.
Ki is usually traced to Persian *ki*, "that", the word Hindi and Urdu use in the same place.

Your turn

- *Contrast: kī* and *ki* — long, then short. Say them until they separate.
- *Say it: ki*, then any sentence you own, after it.
- *Contrast:* two sentences joined by *ate*, then one swallowed by *ki.*

Before you move on

What separates ਕਿ from ਕੀ, in writing and in meaning? (One stroke — sihari against bihari; *that* against *what.*)

40.2 ਮੈਂ ਸੋਚਦਾ ਹਾਂ ਕਿ — I think that...

One lesson back, the swallowing word. And from the lesson that gave you ਮੈਂ, the word for **I** and the copula that follows it.

- *Recall: ki*, and *maiṁ ... hāṁ*
- *Recall: ate* joining two sentences — from two chapters back

The word, taken apart — its roots and family

ਮੈਂ ਸੋਚਦਾ ਹਾਂ ਕਿ ... — *maiṁ sochdā hāṁ ki ...* — "I think that ..."

Three of the four pieces are old: ਮੈਂ, the habitual ending you met with *bolda*, and ਹਾਂ. Only ਕਿ is new, and it opens the space your opinion goes into.

A woman says ਸੋਚਦੀ — *sochdī* — with the feminine ending, exactly as with every habitual verb this book has taught. The sentence you use is the one that matches you.

Everything you can already say can now be said **as an opinion** rather than as a fact. That is a large change for one small word, and it is the difference between reporting the world and having a view about it.

The frame mixes two sources: *soch-* comes from *socṇā*, "to think", which CDIAL lists under Sanskrit *śocyate*, "is made to feel pain" (CDIAL 12621), while *ki* is usually traced to Persian *ki*, "that".

Your turn

- *Say it:* the frame, in the form that matches you, and finish it.
- *Contrast:* a bare sentence, then the same one inside the frame.
- *Build:* an opinion whose inside half is negative.

Before you move on

Give an opinion about anything you can name. Which piece of the frame was new today? (Only ਕਿ.)

40.3 ਕਿ reaches the page

One chapter back you wrote ਪਰ, standing alone. Write it once from memory.

Script — one stroke is the whole lesson

Uncover both and put them side by side:

- ਕਿ — the short ਿ sihari, written **before** the letter
- ਕੀ — the long ੀ bihari, written **after** it

Same consonant. The vowel stroke sits on a different side, and that alone is the difference between *that* and *what*. Both signs have been yours for many chapters; what is new is that the pair now matters.

Writing — guided copy, model in view

Copy ਵਿ once with the model in view, then ਵੀ beneath it. Check which side each stroke fell on before you go on.

Before you move on

Write both. Which one is *that*, and how does its stroke sit? (ਵਿ — the sihari, before the letter.)

- *Recall:* ਅਤੇ written — from two chapters back

40.4 ਕਿਉਂ (kyoṁ) — why

One lesson back you wrote ਵਿ. And from the wellbeing lesson, the question word that taught you the family they all belong to.

- *Recall:* ਵਿ, and *kivēṁ* — every question word opens with ਕ
- *Recall:* *jāṁ* — from two chapters back

The word, taken apart — its roots and family

ਕਿਉਂ — *kyoṁ* — **why**

The same ਕ as every question word in the family. This one has been missing: the book named the family when it taught *kivēṁ*, listed its members, and ਕਿਉਂ was the one it left out — so a reader could ask several things and never **why**.

That is not a small omission. *Why* is the question that asks for a reason, and the next lesson is the word that answers it.

Like every word in the family, it is built on the old question stem *ka-*, which CDIAL lists under Sanskrit *kim*, “what, why” (CDIAL 3164); it has no entry for *kyoṁ* itself.

Your turn

- *Say it: kyoṁ?* — flat, as a whole question.
- *Contrast: kivēṁ?* and *kyoṁ?* — how, and why.
- *Say it:* the family’s shared opening ਕ, then *kyoṁ*.

Before you move on

Ask *why.* What do every question word in this family share, and where were you first told so? (The opening ਕ; the *kivēṁ* lesson.)

40.5 ਕਿਉਂਕਿ (kyoṁki) — because

The two words this chapter has already given you.

- *Recall: kyoṁ*, and *ki*
- *Recall: nā ... nā ...* — from two chapters back

The word, taken apart — its roots and family

The answer is the question with the swallowing word stuck to the end of it:

ਕਿਉਂ (*why*) + ਕਿ (*that*) = ਕਿਉਂਕਿ — **because**

Both halves are already yours from earlier in this chapter; the join is the only new thing. Punjabi answers *why* by saying, in effect, "why-that", and the reason then follows as a whole sentence.

(what happened) ਕਿਉਂਕਿ *(the reason)*

Note the ਕਿ at the end is the short sihari one — the *that* you learned, not the *what.* Reading the word slowly is its own revision of the pair. Its two halves come from two sources: *kyoṁ* is built on the inherited question stem *ka-*, while *ki* is usually traced to Persian *ki*, "that".

Your turn

- *Say it: kyoṁ* — then *kyoṁki.* The question, then the answer's opening.
- *Build:* any sentence, *kyoṁki*, and a reason.
- *Run through:* ask *kyoṁ?* and answer yourself.

Before you move on

Ask why, then answer it. What two words is ਕਿਉਂਕਿ built from, and which ਕਿ is on the end? (ਕਿਉਂ and ਕਿ; the short sihari *that*.) Next chapter: **if**, and **when**.

Chapter 41

If, and When

Modes: 🚗 **voice** (3) 👁 **eyes** (1) ✎ **pen** (1) 🚗 **Hands-free start:** the first 2 of 5 lessons.

> ***By the end of this chapter:*** I can suppose something with a two-part condition, time one event against another, and say what something is for.
>
> *The first joining words that open their clause rather than following it, and the j- family they belong to. Punjabi marks BOTH ends of a condition where English marks only the first. lai is the counterweight: it looks forward to a purpose where kyunki looks back at a cause, and unlike the j- words it FOLLOWS what it applies to, so position alone tells the reader which habit a small word belongs to.*

41.1 ਜੇ (je) — if

From the chapter behind you, the word that answers *why*. Two chapters back, the word that sets one clause against another.

- *Recall: kyoṁki*, then *par*

Every joining word so far has taken two things that are **true**. This one takes something that **might not be**.

The word, taken apart — its roots and family

ਜੇ *(something that might be so)* ...

ਜੇ stands at the **front** of the condition, where English also puts *if*.

That is worth noticing: most of the small words in this book — the postpositions, ਮੈਨੂੰ's ending — come **after** what they apply to. ਜੇ comes first, and that alone tells the ear a condition is starting.
Je is inherited from Sanskrit *yadi*, "if", which CDIAL lists with Punjabi *je* (CDIAL 10410).

Your turn

- *Say it:* *je*, then any sentence you own.
- *Contrast:* the sentence flat, then with *je* in front.
- *Build:* suppose something that might not be true.

Before you move on

Where does ਜੇ stand, and why is that worth noticing? (At the front — most small words in this book come after what they apply to.)

41.2 ਜੇ ... ਤਾਂ ... (je ... tāṁ ...) — if ... then ...

One lesson back, the word that opens a condition. Four chapters back, where ਨਹੀਂ stands.

- *Recall:* *je*, and *nahī̃* before the verb
- *Recall:* *lekin* — from two chapters back

The word, taken apart — its roots and family

Punjabi usually marks **both** ends:

ਜੇ *(condition)*, ਤਾਂ *(result)*

English says *if it is late, I will go* and marks only the front. Punjabi puts ਤਾਂ at the head of the result as well, so the sentence announces its two halves. Beginners often leave it out; it is understood, and the full pair is what you will hear.
The result half is free to be negative, which is where this meets the chapter that opened this run.
Both ends are old. *Je* comes from Sanskrit *yadi*, "if" (CDIAL 10410). For *tāṁ*, CDIAL gives no Punjabi form, but lists Lahnda *tāṁ*, "so,

indeed, then”, under Sanskrit *tathā*, “so, in that way” (CDIAL 5646).

Your turn

- *Build:* *je* + a condition, *tāṁ* + a result.
- *Build:* the same, with the result negative.
- *Contrast:* the pair with *tāṁ*, then without it.

Before you move on

Make a two-part condition. Which half does English leave unmarked that Punjabi marks? (The result — ਤਾਂ.)

41.3 ਜੇ reaches the page

> One chapter back you wrote ਕਿ and ਕੀ and checked which side each stroke fell on. Write ਕਿ once from memory.

Script — two signs, neither new

ਜ — *ja* · ◌ੇ — the laav stroke above

Set ਅਤੇ, ਜੇ side by side and look only at the top. It is the same laav in both, sitting on different letters. One stroke has now spelled several of this book’s most useful words.

Writing — guided copy, model in view

Copy ਜੇ once with the model in view, then write it at the front of a line, which is where it belongs.

Before you move on

Write ਜੇ from memory. Which stroke does it share with ਅਤੇ? (The laav above.)

- *Recall:* ਪਰ written — from two chapters back

41.4 ਜਦੋਂ (jadoṁ) — when

One lesson back you wrote ਜੇ. And before that, the two-part condition.

- *Recall:* ਜੇ, and *je … tāṁ …*
- *Recall:* the pair rule — from two chapters back

The word, taken apart — its roots and family

ਜਦੋਂ *(one event), (the other)*

ਜਦੋਂ sets two events against each other in time. Like ਜੇ, it opens its clause rather than following it — and look at the front of both words. The same ਜ.
That is not a coincidence. Punjabi builds a family of clause-openers on that one letter, the way it builds its questions on ਕ. You now own two members of it, and the pattern is worth more than either word alone.
Jadoṁ is usually linked to Sanskrit *yadā*, "when", on the relative stem *ya-*. CDIAL lists Lahnda *jāṁ*, "when", under *yadā* (CDIAL 10409), but no Punjabi form.

Your turn

- *Build: jadoṁ* + an event, then a second event.
- *Contrast: je* and *jadoṁ* on the same two clauses — one supposes, one times.
- *Say it:* the shared ਜ at the front of both.

Before you move on

Say a *when* sentence. What do ਜੇ and ਜਦੋਂ share, and what does it mark? (The opening ਜ — a family of clause-openers.)

41.5 ਲਈ (laī) — for, in order to

One lesson back, the word that times one event against another. One chapter back, the word that answers *why*.

- *Recall: jadoṁ*, and *kyoṁki*
- *Recall:* the contrast kit — from two chapters back

The word, taken apart — its roots and family

ਕਿਉਂਕਿ looks **backwards** — it names the cause of something that already happened. ਲਈ looks **forwards** — it names what something is **for**:

> *(a thing)* ਲਈ — “for …”

And notice where it stands. ਜੇ and ਜਦੋਂ open their clauses; ਲਈ **follows** what it applies to, like the postpositions this book taught long ago. Two habits, and the word tells you which one it belongs to by where it sits.

Cause and purpose are different answers to the same *why*, and a language that used one word for both would make its learners guess. Punjabi does not.

Laī is usually explained as a form of *laiṇā*, “to take”, which goes back to Sanskrit *labhate*, “catches, takes” (CDIAL 10948).

Your turn

- *Say it:* something you can name, then *laī*.
- *Contrast:* a *kyoṁki* answer and a *laī* answer to the same question.
- *Contrast: je* at the front, *laī* at the back.

Before you move on

Which of ਕਿਉਂਕਿ and ਲਈ looks back at a cause, and which forward to a purpose? Where does each stand? Next chapter: **he**, **we**, and the word for *the one who*.

Chapter 42

He, We, and the One Who

Modes: 🚗 **voice** (4) ✎ **pen** (1) 🚗 **Hands-free start:** the first 2 of 5 lessons.

> ***By the end of this chapter:*** I can talk about somebody who is not present, say we, and describe a person instead of naming them.
>
> *The absent third person, the missing we, and the relative. asi is the oddest gap in the inventory: the corpus teaches the first-person PLURAL future ending four separate times – milaange, phir milaange, jaldi milaange, kall milaange – so a reader has been saying we will meet for chapters without ever owning the word for we. jo completes the j- family and pairs with oh in the same two-ended shape as je ... taan.*

42.1 ਉਹ (oh) — he, she, it

From the chapter behind you, the word that names a purpose. And from chapters 2 and 3, the words for **I** and for **you**, both of them.

- *Recall: laī* — then *maiṁ*, and *tū̃ / tusī̃*
- *Recall: ki* — from two chapters back
- *Recall: nahī̃* before the verb — from five chapters back, cold

You have been able to talk about yourself and about the person in front of you since you first said ਮੈਂ. You have never been able to talk about anybody **absent**.

The word, taken apart — its roots and family

ਉਹ — *oh* — **he**, **she**, or **it**

One word, three English ones. Punjabi's third person does not make you choose a gender before you speak.
ਉਹ also means *that*, pointing at something away from both of you. The pronoun and the pointing word are one word — which is the same doubling you have already seen, where ਤਾਂ at the head of a result was a demonstrative doing a joining job.
With this the pronoun set is complete: ਮੈਂ, ਤੂੰ / ਤੁਸੀਂ, ਉਹ.
Oh is inherited. CDIAL lists Punjabi *o*, "that", under Sanskrit *asau*, "that", whose other forms, on a stem *amu-*, gave the later words for "that" (CDIAL 972).

Your turn

- *Say it: maiṁ*, *tusī̃*, *oh* — the three in a row.
- *Build:* a sentence about someone who is not in the room.
- *Say it: oh* as *that*, picturing something across the room.

Before you move on

How many English pronouns does ਉਹ cover? (Three.) What else does the same word do? (Points: *that*.)

42.2 ਅਸੀਂ (asīṁ) — we

One lesson back, the pronoun for someone absent. And from the farewell chapters: say *we will meet soon*, and *we will meet tomorrow*.

- *Recall: oh* — then *jaldī milāṁge*, *kall milāṁge*
- *Recall: maiṁ sochdā hāṁ ki* — from two chapters back
- *Recall: mainū̃ samajh nahī̃ āī* — from five chapters back, cold

The word, taken apart — its roots and family

ਅਸੀਂ — *asīṁ* — **we**

Here is the odd thing, and it is worth stopping on. You have been saying **we** for chapters. The **-◌ੰਗੇ** ending on *milāṁge* is the first-person **plural** future — *we will meet* — and this book has taught it four separate times.

The ending was there. The pronoun was not. So a reader has been saying *we will meet* over and over without ever owning the word for *we*.

Punjabi often leaves the pronoun out when the ending already carries it, which is why nothing sounded wrong. But you cannot say **we** on its own, or put it in front of anything else, until you have the word.

Asīṁ is inherited. CDIAL lists it under *asmad*, the base of the Sanskrit plural forms of “we, us” (CDIAL 986).

Your turn

- *Say it: asīṁ*, alone.
- *Say it: asīṁ … milāṁge* — the pronoun and the ending together.
- *Contrast: maiṁ* and *asīṁ* — one, then more than one.

Before you move on

Say *we*. Which ending have you been using for chapters that already meant it? (The **-◌ੰਗੇ** of *milāṁge*.)

42.3 ਉਹ reaches the page

One chapter back you wrote **ਜੇ**. Write it once from memory, then say the word for *we*.

Script — two signs, neither new

ਉ — the *u* carrier · **ਹ** — *ha*

Both taught long ago. **ਉ** is the carrier you met when the book first showed a vowel standing on its own, and **ਹ** you have written since **ਨਹੀਂ** at the top of this run.

Writing — guided copy, model in view

Copy ਉਹ once with the model in view. Compare its first letter against the ਅ of ਅਤੇ — two different carriers, and the difference matters.

Before you move on

Write ਉਹ from memory. How many of its signs were new? (None.)

- *Recall:* ਕਿ written — from two chapters back
- *Recall:* ਨਹੀਂ written — from five chapters back, cold

42.4 ਜੋ (jo) — the one who

One lesson back you wrote ਉਹ. One chapter back, the two words that open a clause with ਜ.

- *Recall:* ਉਹ, then *je*, *jadoṁ*
- *Recall:* *kyoṁ* — from two chapters back
- *Recall:* *mainū̃ nahī̃ patā* — from five chapters back, cold

The word, taken apart — its roots and family

ਜੋ — *jo* — **the one who**, **the thing that**

The third member of the family. ਜੇ supposes, ਜਦੋਂ times, and ਜੋ describes — and all three open their clause with the same letter.

ਜੋ *(what they do)* ... — “the one who ...”

Punjabi marks a describing clause at its front, the way it marked a condition with ਜੇ. Once you hear the ਜ, you know a clause is starting and that something will come back to be pointed at.
Jo is inherited: CDIAL lists it under the Sanskrit relative pronoun *ya-* (CDIAL 10391).

Your turn

- *Say it:* *jo*, then something a person might do.

- *Run through:* the three ਜ words in a row — *je*, *jadoṁ*, *jo*.
- *Build:* describe someone instead of naming them.

Before you move on

Describe a person rather than naming them. What do the three ਜ words have in common? (Each opens its own clause.)

42.5 ਜੋ ... ਉਹ ... (jo ... oh ...) — the one who ... that one ...

This chapter's three words, and the two-part condition from the chapter before.

- *Recall:* *oh*, *asīṁ*, *jo* — and *je* ... *tāṁ* ...
- *Recall:* *kyoṁki* — from two chapters back
- *Recall:* the repair kit — from five chapters back, cold

The word, taken apart — its roots and family

ਜੋ *(description)*, ਉਹ *(the one meant)*

This is the same shape as **ਜੇ ... ਤਾਂ ...**, and seeing that is most of the work. Punjabi marks **both** ends: the clause that describes, and the thing described. English collapses them — *the one who came is my friend* — and Punjabi keeps them visibly paired.
Now the whole system is visible:

ਜ- opens the clause · **ਉ-** / **ਤ-** points at what it refers to

ਜੇ ... ਤਾਂ, **ਜੋ ... ਉਹ**. One habit, and you have met it twice.
Both halves are inherited: *jo* from the Sanskrit relative *ya-* (CDIAL 10391), and *oh* from *asau*, "that" (CDIAL 972).

Your turn

- *Build:* *jo* + a description, *oh* + who is meant.
- *Contrast:* the same idea with a plain name, then with the pair.

- *Say it: je … tāṁ …* then *jo … oh …* — hear that they are one shape.

Before you move on

Describe someone with the pair. Which earlier pattern is this the same shape as? (**ਜੇ … ਤਾਂ …**.) Next chapter: the question words, all of them built on one letter.

Chapter 43

Who, When, Where, How Many

Modes: 🚗 **voice** (4) ✎ **pen** (1) 🚗 **Hands-free start:** the first 2 of 5 lessons.

> ***By the end of this chapter:*** I can ask who, when, where and how many, and hear that the question family, the clause that answers it and the word that points at the answer are three parallel series.
>
> *The question family completed, and the pattern under it: ka- asks, ja- opens the clause that answers, o- points at what it means. kadon and jadon differ by exactly one letter, so the answer taught two chapters earlier turns out to have been half of a pair. kaun had been NAMED once, in a romanised aside, and never written in Gurmukhi – a different kind of gap from the merely absent. kitthe is the only word in seven chapters that needed a new letter, and the writing lesson that buys it says so.*

43.1 ਕੌਣ (kauṇ) — who

From the chapter behind you, the describing pair. From the *kivēṁ* lesson, the question word that named the family. And from three chapters back, *why*.

- *Recall: jo … oh …, kivēṁ, kyoṁ*
- *Recall: je* — from two chapters back
- *Recall: ate* — from five chapters back, cold

The word, taken apart — its roots and family

ਕੌਣ — *kauṇ* — **who**

The same ਕ as every question word. This one has an odd history in this book: it was **named once**, in a romanised aside about the family, in Latin letters — never written in Gurmukhi, never practised, never a word you owned.

That is a different kind of gap from the missing ones. The book told you it existed and never handed it over.

Now hold the two families side by side, because they answer each other:

ਕ- asks · ਜ- opens the clause that answers · ਉ- points at it

Kauṇ is a tadbhava, inherited and worn down by sound change: CDIAL lists it under Sanskrit *kaḥ punar*, “who, then”, glossed “who” (CDIAL 2575).

Your turn

- *Say it: kauṇ?* — flat, as a whole question.
- *Contrast: kauṇ?* and *kyoṁ?* — a person, a reason.
- *Run through:* ask *kauṇ?* and answer with a ਜੋ clause.

Before you move on

Ask *who*. What do ਕ-, ਜ- and ਉ- each do? (Ask, open the answering clause, point at what it means.)

43.2 ਕਦੋਂ (kadoṁ) — when

One lesson back, *who*. Two chapters back, the word that places one event against another.

- *Recall: kauṇ*, and *jadoṁ*
- *Recall: je … tāṁ …* — from two chapters back
- *Recall: ate* joining two sentences — from five chapters back, cold

The word, taken apart — its roots and family

Put them side by side. This is the neatest pattern in the chapter:

ਕਦੋਂ — *when?* · ਜਦੋਂ — *when ...*

One letter apart. The ਕ asks; the ਜ answers. You learned the answer two chapters ago without knowing it was half of a pair, and the question costs you almost nothing now.
That pairing runs through the whole language, and you have now seen it three times: **ਜੇ ... ਤਾਂ**, **ਜੋ ... ਉਹ**, and now **ਕਦੋਂ** against **ਜਦੋਂ**.
Kadoṁ is built on the old question stem *ka-*, as *jadoṁ* is built on the relative *ya-*. CDIAL has no entry for it.

Your turn

- *Contrast: kadoṁ?* and *jadoṁ* — question, then answer.
- *Run through:* ask *kadoṁ?*, then answer with a *jadoṁ* clause.
- *Say it:* the three fronts in a row — *ka-*, *ja-*, *o-*.

Before you move on

Ask *when*, then answer it. What single letter separates the two words? (The first — ਕ asks, ਜ answers.)

43.3 ਥ — the consonant tha

One chapter back you wrote ਉਹ. Write it once from memory.

Script — one new form, and why it is here

Keep ਥ visible beside ਤ, which you have had for a long time:

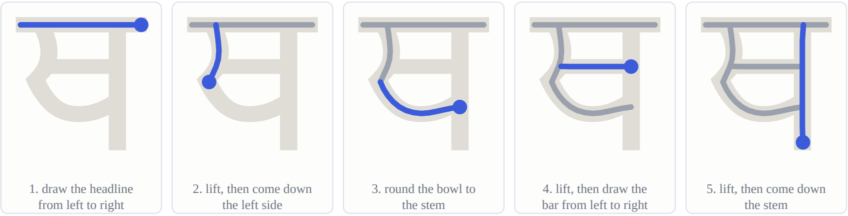
- ਤ — *ta*, the plain dental
- ਥ — *tha*, the same place with a push of breath behind it

The tongue is in the same spot for both; the difference is the breath. Say *ta* with your hand in front of your mouth, then *tha*, and feel it.

Worth saying plainly, because it is the point of this whole run of chapters: **this is the only new letter in seven chapters.** Every joining word — *ate*, *jāṁ*, *par*, *lekin*, *ki*, *kyoṁki*, *je*, *jadoṁ*, *jo*, *laī* — was already writable with signs this book taught long ago. The words were missing; the script was not. One question needed one letter, and here it is.

Writing — notice and trace

How it is written — 4 strokes · 3 pen lifts · 5 movements



1. draw the headline from left to right

2. lift, then come down the left side

3. round the bowl to the stem

4. lift, then draw the bar from left to right

5. lift, then come down the stem

Stroke order after GNPS, Gurmukhi Sikho (GNPS Learning Hub), Alphabet Tracing lesson, ਥ (thathaa) checkpoints, strokes 1–4 (lib/data/lessons/lesson_tracing.dart line 696, commit de1e560; Apache-2.0)
This order is attested, not standardised; the source records where it varies.

How ਥ *is written, stroke by stroke*

Finger-trace ਥ once, then trace it once in the air. Say *tha* with the breath audible as your finger finishes.

Writing — guided copy, model in view

Keep the model in view and copy ਥ once, then ਤ beside it. Repair only the stroke that separates them.

Before you move on

Which of ਤ and ਥ carries the breath? (ਥ.) How many new letters have these seven chapters spent? (This one.)

- *Recall:* ਜੇ written — from two chapters back
- *Recall:* ਅਤੇ written — from five chapters back, cold

43.4 ਕਿੱਥੇ (kitthe) — where

One lesson back, the new letter. And the two questions this chapter has already given you.

- *Read it:* ਥ
- *Recall: kauṇ, kadoṁ*
- *Recall: jadoṁ* — from two chapters back
- *Recall: jāṁ* — from five chapters back, cold

The word, taken apart — its roots and family

ਕਿੱਥੇ — *kitthe* — **where**

In pieces: ਕ, the ਿ sihari before it, the ੱ addak that doubles the next sound, then ਥ — new one lesson ago — and the ੇ laav. *Read it:* the word in pieces

The addak is doing real work. It doubles the ਥ, which is why the word is *kit-the* and not *ki-the*. Leave it off and the word loses its middle.

This is the question that asks where somebody lives, and asking that is most of what a spoken interview at this level is for. The book has taught house, city and village for many chapters and could not ask where any of them was.

CDIAL has no entry for *kitthe* itself, but it lists its partners *itthe*, "here", and *utthe*, "there", under Sanskrit *ittham*, "thus" (CDIAL 1564); *kitthe* is the same shape with the question *k-*.

Your turn

- *Say it: kitthe?* with the doubled *th* audible.
- *Build:* ask where somebody lives.
- *Write it:* ਕਿੱਥੇ, model in view, and check the addak.

Before you move on

Ask where someone lives. What does the ੱ do, and what happens if you leave it out? (Doubles the ਥ; the word loses its middle.)

43.5 ਕਿੰਨੇ (kinne) — how many

The three questions this chapter has given you so far. Say them in order.

- *Recall: kauṇ, kadoṁ, kitthe*
- *Recall: laī* — from two chapters back
- *Recall: nā ... nā ...* — from five chapters back, cold

The word, taken apart — its roots and family

ਕਿੰਨੇ — *kinne* — **how many**, **how much**

The same ਕ one last time, now asking about quantity. With it the family this book named when it taught *kivēṁ* is finally complete on the page:

- ਕੀ what · ਕਿਵੇਂ how · ਕਿਉਂ why · ਕੌਣ who · ਕਦੋਂ when ·
- ਕਿੱਥੇ where · ਕਿੰਨੇ how many

Two of those you had before this run. Five arrived in the last four chapters, and only one of the five cost a new letter.
CDIAL lists the fuller Punjabi *kitnā*, "how great", under a reconstructed **kiyatta*, "how great" (CDIAL 3167); it does not list *kinnā*.

Your turn

- *Say it: kinne?* — flat, as a whole question.
- *Run through:* the whole family in a row, one breath each.
- *Build:* ask how many of something you can name.

Before you move on

Ask all the questions you know, in one run. What do they share, and where were you first told so? (The opening ਕ; the *kivēṁ* lesson.)

Chapter 44

Which One in the Line

Modes: 🚗 **voice** (4) 👁 **eyes** (2) 🚗 **Hands-free start:** the first 5 of 6 lessons.

> ***By the end of this chapter:*** I can say first to fifth in Punjabi, agree an ordinal with a masculine or feminine thing, and say which of the five endings is the only one that still works on a new number.
>
> *Complete PA-R44-first-to-fifth and run pahilaa to panjvaan, then name the one ending that still works on a number the book has not taught.*

44.1 ਦੂਜਾ (dūjā) — second

A second kind of number word starts here, so the recalls come first, at the four growing distances this book measures.

- *Recall:* ask *kinne?* — **R1**, one lesson back
- *Recall:* ask *kauṇ?* — **R2**, five lessons back
- *Recall:* join two halves with *ki* — **R3**, twenty lessons back
- *Recall:* name the cue that says where the age goes on a form — **R4**, eighty lessons back

The word, taken apart — its roots and family

ਦੂਜਾ — *dūjā* — **second**

Say ਦੋ (*do*), then ਦੂਜਾ (*dūjā*). The number has not gone anywhere: the ਦ is still at the front and the vowel has only lengthened.
CDIAL lists it under **dutīya*, beside Sanskrit *dvitīya*, “second”

(CDIAL 6402).

Script — one tiny step

Punjabi keeps **two sets of number words**, and they answer two different questions:

the question	**the set**	**example**
ਕਿੰਨੇ? — how many?	**ਇੱਕ ਦੋ ਤਿੰਨ ਚਾਰ ਪੰਜ**	**ਦੋ ਰੋਟੀ** — two rotis
which one in the line?	**ਦੂਜਾ** and its fellows	**ਦੂਜੀ ਰੋਟੀ** — the second roti

ਕਿੰਨੇ, taught one lesson ago, is exactly the question the first set answers. This chapter teaches the other set.

An ordinal is an ordinary **-ਾ** adjective, so it agrees with what it counts: **ਦੂਜਾ ਦੋਸਤ** (the second friend), **ਦੂਜੀ ਰੋਟੀ** (the second roti).

Your turn

Say these aloud:

- *do*, then *dūjā*
- *dūjī roṭī* — the second roti
- which of the two sets *panj* belongs to — **the ਕਿੰਨੇ set**

Before you move on

How many sets of number words does Punjabi keep? (**Two.**) Which number can you still see inside **ਦੂਜਾ**? (**ਦੋ**.)
Sources: Wiktionary: **ਦੂਜਾ**.

44.2 ਤੀਜਾ (tījā) — third

Four recalls, at four distances.

- *Recall:* say *dūjā* — **R1**, one lesson back
- *Recall:* ask *kadoṁ?* — **R2**, five lessons back
- *Recall:* say *maiṁ sochdā hāṁ ki …* — **R3**, twenty lessons back

- *Recall:* name the cue that says where the age goes on a form — **R4**, eighty-one lessons back

The word, taken apart — its roots and family

ਤੀਜਾ — *tījā* — **third**

Put the two you now have beside the numbers under them:

how many	**which one in the line**
ਦੋ (*do*)	ਦੂਜਾ (*dūjā*)
ਤਿੰਨ (*tinn*)	ਤੀਜਾ (*tījā*)

The first letter survives in both, and the same **-ਜਾ** sits on the end of each.

What you've built

That shared **-ਜਾ** is not a Punjabi invention and it is not a rule you can use. Wiktionary traces ਦੂਜਾ to Sanskrit *dvitīya* and ਤੀਜਾ to Sanskrit *tṛtīya* — one Sanskrit ending, **-tīya**, worn down to **-ਜਾ** in two words that travelled together.

Two words is a resemblance, not a pattern, and this book will not call it one. Watch what the next number does with it.

Your turn

Say these aloud:

- *dūjā*, then *tījā*
- the number inside each — *do*, *tinn*
- *tījī roṭī* — the third roti

Before you move on

What do ਦੂਜਾ and ਤੀਜਾ share? (**The ending -ਜਾ.**) Is that an ending you can put on any number? (**Not yet shown — two words is a resemblance.**)

Sources: Wiktionary: ਤੀਜਾ; Wiktionary: ਦੂਜਾ.

44.3 ਚੌਥਾ (chauthā) — fourth

Four recalls, at four distances.

- *Recall:* say *tījā* — **R1**, one lesson back
- *Write it:* ਥ from memory — **R2**, five lessons back
- *Write it:* ਕਿ from memory — **R3**, twenty lessons back
- *Recall:* say how much space a written answer needs on a form — **R4**, eighty lessons back

The word, taken apart — its roots and family

ਚੌਥਾ — *chauthā* — **fourth**

ਚਾਰ (*chār*) gives **ਚੌ-** (*chau-*), and then the word ends in **-ਥਾ**.
The ਥ in it is the letter you wrote five lessons ago for ਕਿੱਥੇ. It is doing the same shape here in a word that has nothing to do with *where*.

What you've built

Three ordinals now, and two endings:

how many	which one in the line	ending
ਦੋ	ਦੂਜਾ	-ਜਾ
ਤਿੰਨ	ਤੀਜਾ	-ਜਾ
ਚਾਰ	ਚੌਥਾ	-ਥਾ

So **-ਜਾ** was a resemblance and not a rule, exactly as the last lesson refused to promise. Wiktionary says why: ਦੂਜਾ and ਤੀਜਾ come from Sanskrit *dvitīya* and *tṛtīya*, and ਚੌਥਾ comes from Sanskrit *caturtha* — a different Sanskrit ending, worn down its own way.
These are not built words. They are **inherited** ones, each worn separately, which is why no rule joins them.

Your turn

Say these aloud:

- *dūjā tījā chauthā*
- which two share an ending — ***dūjā*** and ***tījā***

- *chauthā dost* — the fourth friend

Before you move on

How many endings do the three ordinals use? (**Two**.) Are they built from the numbers, or inherited? (**Inherited — each worn down its own way**.)
Sources: Wiktionary: ਚੌਥਾ.

44.4 ਪਹਿਲਾ (pahilā) — first

Four recalls, at four distances.

- *Recall:* say *chauthā* — **R1**, one lesson back
- *Write it: kitthe?* from memory, saying the question aloud as you write it — **R2**, five lessons back
- *Recall:* ask *kyoṁ?* — **R3**, twenty lessons back
- *Recall:* say how much space a written answer needs on a form — **R4**, eighty-one lessons back

The word, taken apart — its roots and family

ਪਹਿਲਾ — *pahilā* — **first**

Now go looking for the number. ਦੂਜਾ kept its ਦ. ਤੀਜਾ kept its ਤ. ਚੌਥਾ kept its ਚ. This word keeps nothing of ਇੱਕ — not a letter.

What you've built

Four ordinals, three endings, and one of the four with no number in it at all:

how many	**which one in the line**	**the number, still visible?**
ਇੱਕ	ਪਹਿਲਾ	**no**
ਦੋ	ਦੂਜਾ	yes
ਤਿੰਨ	ਤੀਜਾ	yes
ਚਾਰ	ਚੌਥਾ	yes

That is why *first* arrives fourth in this chapter rather than opening it. A word can only be seen to BREAK a shape after the shape has been

seen holding, and it had to hold three times before this one could be read as a surprise.
Wiktionary explains the surprise: ਪਹਿਲਾ goes back through Prakrit to Sanskrit *prathama*, which is ***pra-*** "forward" plus a superlative ending. It never meant *one-th*. It meant **foremost** — and English *first* is the superlative of *fore*, which is the identical idea reached on a different road.

Your turn

Say these aloud:

- *pahilā dūjā tījā chauthā* — the four, in order
- which one has no number inside it — ***pahilā***
- *pahilī roṭī* — the first roti

Before you move on

Which number is inside ਪਹਿਲਾ? (**None** — ਇੱਕ is not in it.) Why did the chapter not begin with it? (**Nothing had been seen for it to break yet.**)
Sources: Wiktionary: ਪਹਿਲਾ.

44.5 ਪੰਜਵਾਂ (panjvāṁ) — fifth

Four recalls, at four distances.

- *Recall:* say *pahilā* — **R1**, one lesson back
- *Recall:* ask *kinne?* — **R2**, five lessons back
- *Recall:* answer a *kyoṁ* with *kyoṁki* — **R3**, twenty lessons back
- *Recall:* say how much space a written answer needs on a form — **R4**, eighty-two lessons back

The word, taken apart — its roots and family

ਪੰਜਵਾਂ — *panjvāṁ* — **fifth**

Say the four you have, then this one, and listen to the end of each:

pahilā · *dūjā* · *tījā* · *chauthā* … *panjvāṁ*

The first four end in a plain **-◌ਾ**. This one ends in **-ਵਾਂ** — the ◌ਾਂ carries a nasal, and you can hear it. The seam in this set is audible before it is explained.

What you've built: an inherited word that turned into a rule

Wiktionary says two things about this word, and it is worth reading both, because they look like they contradict each other and do not.

1. **ਪੰਜਵਾਂ** is **inherited** — from Prakrit *paṃcama*, from Sanskrit *pañcama*. Like the other four, it came down whole.
2. **"By surface analysis"**, it is **ਪੰਜ** + **-ਵਾਂ**.

Both are true, and the second is what happened AFTER the first. The word arrived in one piece; then speakers looked at it, saw their own word for five sitting at the front, took the rest to be an ending, and started using that ending on other numbers.
So the seam in this chapter is not where Punjabi stopped inheriting. **Every one of these five words was inherited.** The seam is where the inheriting stopped being visible — where a whole word came to look like a sum, and the language believed it.
That is why **-ਵਾਂ** goes on numbers this book has not taught you yet, and **-ਜਾ** and **-ਥਾ** go on nothing at all.

Your turn

Say these aloud:

- *panj*, then *panjvāṁ*
- the five in order, and listen for where the ending changes
- which of the five endings can be put on a new number — ***-vāṁ***

Before you move on

What can you hear at the end of *panjvāṁ* that the other four do not have? (**A nasal.**) Were the four before it built or inherited? (**Inherited — and so was this one.**)
Sources: Wiktionary: ਪੰਜਵਾਂ.

44.6 First to fifth, and the word that turned into a rule

Four recalls, at four distances, before the run.

- *Recall:* say *panjvāṁ* — **R1**, one lesson back
- *Recall:* say how many sets of number words Punjabi keeps — **R2**, five lessons back
- *Recall:* open a condition with *je* — **R3**, twenty lessons back
- *Recall:* say what to do when a written form goes wrong — **R4**, eighty lessons back

Your turn

Say these aloud:

- the run — *pahilā dūjā tījā chauthā panjvāṁ*
- each number with its ordinal — *ikk pahilā*, *do dūjā*, and on
- which one of the five ends in a nasal — ***panjvāṁ***
- *dūjī roṭī*, then *dūjā dost* — the same ordinal on a feminine and a masculine thing

What you've built

Four endings across five words:

ordinal	**ending**	**comes from**
ਪਹਿਲਾ	-ਲਾ	Sanskrit *prathama*, “foremost”
ਦੂਜਾ	-ਜਾ	Sanskrit *dvitīya*
ਤੀਜਾ	-ਜਾ	Sanskrit *tṛtīya*
ਚੌਥਾ	-ਥਾ	Sanskrit *caturtha*
ਪੰਜਵਾਂ	-ਵਾਂ	Sanskrit *pañcama*

Every row of that last column is a whole word handed down, not a sum. So the useful question about this set is not *which ones were built* — none of them were. It is **which ending got a second life**, and the answer is the one at the bottom: **-ਵਾਂ** is the only one a Punjabi speaker can put on a number they have never made an ordinal of before.

Before you move on

How many of the five were built out of their numbers? (**None — all five were inherited**.) Which ending can still be used on a new number? (**-ਵਾਂ**.)

Chapter 45

Reading — Labels, a Form, and the Same Facts as Sentences

Modes: 👁 **eyes** (3) 🚗 **Hands-free start:** none of the 3 lessons.

> ***By the end of this chapter:*** I can read a Punjabi form label cold, read a form somebody else filled in, and follow a short paragraph without translating word by word.
>
> *The six facts of a form said again as sentences, so the colon the form leans on is replaced by the ਹੈ Punjabi puts last.*

45.1 (reading) — six labels, no blank after them

You have written every one of these into a form. Not one is new.

What is new is that there is no blank after it, and nothing telling you which is coming.

Read this

ਨਾਂ ਉਮਰ ਕੰਮ ਰਿਹਾਇਸ਼ ਭਾਸ਼ਾ ਫ਼ੋਨ

Read down the list once. Do not assemble each one letter by letter — look at the whole word and let it arrive.
Again, and notice which came at once and which you had to build.
Both are fine. The difference is what practice removes.

What you've built

Filling a form, the label is the part you can ignore. It sits there, you know what goes next to it, and your attention is on the blank.
Reading one, the label is the whole message. ਰਿਹਾਇਸ਼ on its own tells you what a stranger is about to be asked.
That is why six is enough for one sitting: the same six signs, doing the opposite job.

Your turn

- *Say it:* the six labels down the list, once, without stopping

Twice through:

Before you move on

How many of the six were new? (**None.**)
What was new? (**There was no blank**, and nobody said them first.)

45.2 (reading) — a form somebody else filled in

The last lesson gave you the labels alone. Here each one has an answer beside it.

Every value below is one you have written yourself.

Read this

ਨਾਂ: ਅਮਨ ਉਮਰ: ੨੫ ਕੰਮ: ਨੌਕਰੀ ਰਿਹਾਇਸ਼: ਸ਼ਹਿਰ ਭਾਸ਼ਾ: ਪੰਜਾਬੀ ਫ਼ੋਨ: ੦੧੨ ੨੫੧

Read it: the form through once, without stopping
Now answer without looking back: what does this person do?

What you've built

A form is the first real thing a beginner can read end to end, because it is built to be read fast and gives you the label before the value every time.
Notice the colon does the work a verb would do in a sentence. There is

no ਹੈ anywhere on this page, and nothing is missing.
Six lines, and you now know six things about somebody you have never met.

Your turn

- *Say it:* the six lines, once, in order, without stopping

Twice through:

Before you move on

Whose form is this? (**ਅਮਨ.**)
Which word does the colon replace? (ਹੈ — and nothing is missing without it.)

45.3 (reading) — the same six facts, as sentences

Six labels, then six lines of a form. Now the same person, in sentences.

Seventy-two words, and not one of them is new.

Read this

ਮੇਰਾ ਨਾਂ ਅਮਨ ਹੈ। ਮੇਰਾ ਕੰਮ ਨੌਕਰੀ ਹੈ। ਮੈਂ ਪੰਜਾਬੀ ਬੋਲਦਾ ਹਾਂ। ਮੈਂ ਸੋਚਦਾ ਹਾਂ ਕਿ ਪੰਜਾਬੀ ਚੰਗਾ ਹੈ। ਮਨਨ ਮੇਰਾ ਦੋਸਤ ਹੈ। ਮਨਨ ਦਾ ਕੰਮ ਖੇਤੀ ਹੈ। ਮਨਨ ਠੀਕ-ਠਾਕ ਹੈ। ਉਹ ਪੰਜਾਬੀ ਬੋਲਦਾ ਹੈ। ਉਹ ਸੋਚਦਾ ਹੈ ਕਿ ਪੰਜਾਬੀ ਚੰਗਾ ਹੈ। ਉਹ ਮੇਰਾ ਦੋਸਤ ਹੈ। ਮੈਂ ਠੀਕ-ਠਾਕ ਹਾਂ। ਮੈਂ ਪੰਜਾਬੀ ਬੋਲਦਾ ਹਾਂ। ਮੈਂ ਸੋਚਦਾ ਹਾਂ ਕਿ ਪੰਜਾਬੀ ਚੰਗਾ ਹੈ। ਪਰ ਮੈਨੂੰ ਨਹੀਂ ਪਤਾ ਕਿ ਉਹ ਕਿੱਥੇ ਹੈ। ਅਸੀਂ ਜਲਦੀ ਮਿਲਾਂਗੇ। ਧੰਨਵਾਦ।

Read it: the passage once without stopping; do not translate as you go — let the sentences arrive
Read it: the passage again, and notice how little work it took

What you've built

The form said the same things in six lines with no verb anywhere.
Here ਹੈ has to be said out loud, and it comes last every time.
ਕਿ hangs a whole sentence off another one. ਪਰ turns the paragraph.

And after ਮਨਨ is named twice, he becomes ਉਹ — you followed that without being asked to.

This is the first whole paragraph the book has asked you to hold at once, and it works because every piece was paid for.

Your turn

- *Say it:* the paragraph aloud, once, without stopping

Twice through:

Before you move on

How many words in that paragraph were new? (**None.**)

What does the form leave out that the paragraph has to say? (**ਹੈ.**)

Chapter 46

Writing — With A Clock

Modes: ✎ **pen** (1) 🚗 **Hands-free start:** none (1 lesson).

> ***By the end of this chapter:*** I can complete the A1 writing paper's two tasks inside its published twenty minutes, filling every form field and keeping the message between thirty and forty words.
>
> *Complete PA-W10-a1-con-reloj: seven minutes for the form and thirteen for the message, then count the words and check the form for blanks before mistakes.*

46.1 See the A1 writing clock

You have filled some familiar fields with as long as you liked.

Read the later paper's conditions now. This short lesson only explains them; it does not attempt or score either task under a clock.

Writing — the published paper envelope

What the contract publishes. This track's A1 writing paper runs **20 minutes** and holds **two** tasks:

- a practical form asking for **six to eight** completed fields, worth 40 of the paper's 100 points;
- a message for a named reader and a stated purpose, **30 to 40 words**, worth the other 60.

Those numbers are read out of `task-shapes/a1.json`, the same file the assessment contract points at. They are not invented here.

Notice what the split says before you write a word: the **message is worth more than the form**, and it is the shorter of the two. Time spent perfecting a field is time taken from the part that scores.

One possible whole-paper plan gives the form about seven minutes, but that is a planning example, not a timer starting in this lesson. First, learn every field and practise all six together without a model.

The phone field is the one to watch under a clock. You have practised grouping its digits; grouping is what makes a number readable back, and it is the first thing a hurried hand drops.

The remaining thirteen minutes would be for the 30–40-word message to one named reader. That message also needs its own untimed runway first.

Later short timed checkpoints will train each task separately. Two complete mocks will test the full twenty-minute paper after that.

Before you move on

Recall the message's word band: **30–40 words**. You are not writing that message yet.

Recall the form's size: **six to eight fields**. Those fields must be taught before they can be scored.

This orientation awards no timed-writing credit. Timed production comes only after independent form and named-reader message writing are both secure without a visible answer model.

Chapter 47

Writing — Four Lines That Hold Together

Modes: ✎ **pen** (1) 🚗 **Hands-free start:** none (1 lesson).

> ***By the end of this chapter:*** I can write four connected lines to a named reader, joining with ate and setting against with par, so that one line depends on the one before it.
>
> *Complete PA-W11-jodi-hoiyan-lineaan: four lines to one named reader, at least one joined with ate and one with par, then cover line one and check line two still needs it.*

47.1 Four lines to one person — where the second needs the first

The last lesson asked for writing that was **finished on time**. This one asks for writing that **holds together**, which is a different thing.

Pick one person who will read this. A real one.

What to know first

Connected writing is not **longer** writing. Four short lines can be connected, and one long line can fail to be.

What makes writing connected is that a sentence stops standing on its own — line two is about line one, and a reader who skipped line one would not follow it.

You already hold the two words that do this, and they do opposite jobs. ਅਤੇ adds one thing to another. ਪਰ sets one thing *against* another.

That is the difference between a list and a paragraph. A list can be read in any order. A paragraph cannot.

Writing — connected composition

Write **four lines** to the person you picked. Greet them, tell them two things, and close.

At least one line must use ਅਤੇ, and at least one must use ਪਰ.

Use only words you already write. This lesson adds no vocabulary — the whole exercise is the joining, not the reaching.

Before you move on

Cover your first line and read the second on its own. Does it still make sense without the first?

If it does, you wrote a **list**. That is not a failure — it is the stage you were at one lesson ago — but go back and make one line depend on another before you stop.

And read it as the person you named would. Writing for a reader you can picture is what makes this a task rather than an exercise, and it is what every level above this one keeps asking for.

Chapter 48

Second Pass — What Was Met Once

Modes: **voice** (4) **eyes** (2) **Hands-free start:** the first 3 of 6 lessons.

> ***By the end of this chapter:*** I can fill every A1 form field at each level of support, read every Gurmukhi piece this book taught once, and place each courtesy and parting word in its register.
>
> *From cold: say please, sorry and welcome, name the verb or case ending inside each, and place the three partings in their registers.*

48.1 ਨਾਂ and ਭਾਸ਼ਾ — the same two fields, three times over

The practice name this book gave you to write. Say it, then say what label stands to the left of it on a form.

Why it's said this way

Each field in this book was taught three times, and the three are not repetition. They are three different amounts of help:

stage	**what is on the page**	**what it proves**
supported	a visible bank of values to copy from	you can place a value in a field
delayed	the bank is shown, then covered	you can hold it while you write
no model	a label, a blank, and nothing else	you can produce it

Only the third is evidence that you can write the thing. The first two are evidence that you can *copy* and *remember* — which are real skills, and different ones. A form you can only fill with the answer visible is a form you cannot fill.

Your turn

Cold, with nothing in front of you.

- *Write it:* the name label, then a name you know
- *Write it:* the language label, then the language this book is in
- *Say it:* the three field labels the book asks you to join in one pass

Before you move on

Which of the three stages is the only one that proves you can write a field? (**The one with no model.**) What is on the page at that stage? (**A label and a blank.**)

48.2 ਰਿਹਾਇਸ਼ and ਕੰਮ — and the move for when a field is already wrong

Two more labels. Say the one that asks where you live, then the one that asks what you do.

Your turn: the same ladder, two more fields

Write these out:

- the residence label and a value, with nothing to copy
- the work label and a value, with nothing to copy

Both fields climbed the same three rungs the name and language fields did. What changes between fields is the vocabulary, not the ladder.

Why it's said this way

Repair is its own skill, and only the residence field teaches it. The move is not *fill the field* — it is *one dimension of a completed field is wrong, change that dimension and leave the rest standing.*
That is a harder thing than it sounds, and it is the thing a real form actually demands: a clerk points at one line, you correct one line. A learner who can only write a field from scratch will rewrite the whole row and introduce two new errors doing it.

Before you move on

When you repair a field, how much of it do you rewrite? (**Only the dimension that is wrong.**) Which field in this book taught repair? (**Residence.**)

48.3 Nine moves, sorted by how much the page is helping

Two fields, no model, nothing on the page but a label and a blank. *Write it:* both fields before reading on

Your turn: across the three fields, one rung at a time

The book taught these field by field. Take them rung by rung instead.

Write these out:

- all three fields with a bank in front of you — the **supported** rung
- all three after the bank is covered — the **delayed** rung
- all three from a label alone — the **no-model** rung

What you've built

Take it across rather than down and the ladder stops being about forms at all. It is about **what is in the room when you produce something**: a page that shows you the answer, a page that showed you and stopped, and a page that never did.

Three fields multiplied by three rungs is nine separate things you can now do, and the only three that count as writing evidence are the bottom row. The other six are the scaffolding that got you there, and scaffolding is worth naming rather than mistaking for the building.

Before you move on

Of the nine moves, how many are writing evidence? (**Three** — the no-model row.) What is the difference between the supported and delayed rungs? (**The bank is visible, then covered.**)

48.4 ਈ ਇ ਉ ਠ — the pieces that were met once

Two standing vowels. Read ਇ, then ਉ, and say which vowel each one carries when nothing precedes it.

Script: four standing shapes and one mark

shape	name	what it is
ਈ	īṛī	a standing long **ī**
ਇ	iṛī	a standing short **i**
ਉ	ūṛā	a standing **u**
ਠ	ṭhaṭṭhā	a consonant — the curled retroflex
◌ੋ	horā	a **mark**, not a letter: long **o**, written above

The first three are the ones that sit at the front of a word with no consonant to lean on. The last is the opposite kind of thing entirely — it cannot stand anywhere, and it goes above the letter it belongs to.

Your turn: read them where you met them

Whole words this time, each read cold.

Read these aloud:

- **ਨਮਸਤੇ** — the greeting, five pieces, all of them yours
- **ਚੰਗਾ** — the everyday sign-off word
- **ਠੀਕ-ਠਾਕ** — and find the **ਠ** twice
- **ਜੀ ਆਇਆਂ ਨੂੰ** — the welcome
- **ਸ਼ੁਭ ਰਾਤ** — the formal good night

Before you move on

Which of the five shapes above cannot stand on its own? (ੋ, the horā — it is a mark.) Which word in the practice carries **ਠ** twice? (**ਠੀਕ-ਠਾਕ**.)

48.5 ਆ ੈ ੁ — one that stands, two that ride

The standing long **ā**. Read it, and say which plain letter it is built on before the mark was added.

Script: where a mark sits is what it means

shape	name	where it sits
ਆ	āṛā	nowhere — it **is** the letter
ੈ	dulāvāṁ	**above**, two strokes: *ai*
ੁ	auṅkaṛ	**below**, a hook: short *u*

Gurmukhi puts vowel marks above, below, before and after the consonant they attach to, and the position is not decoration — it is how you tell one mark from another at a glance. Two strokes above is *ai*; a hook below is *u*. Change the position and you have changed the vowel.

ਆ is the counter-example that makes the rule visible: it is a full letter wearing a mark that has fused into it, so it stands where a consonant would rather than hanging off one.

Your turn

- *Read it:* ਮੈਨੂੰ — and find the two strokes above
- *Read it:* ਜੀ ਆਇਆਂ ਨੂੰ — the welcome, opening on the standing ਆ
- *Say it:* the formal good night, and say which parting it stands beside

ਸ਼ੁਭ ਰਾਤ is the Sanskritic one. It is not the everyday sign-off; reaching for it among friends sounds like reading from a card.

Before you move on

Which mark sits above, and which below? (**Dulāvāṁ** above, *ai*; **auṅkaṛ** below, short *u*.) Is ਸ਼ੁਭ ਰਾਤ the formal parting or the everyday one? (**Formal.**)

48.6 ਮਿਹਰਬਾਨੀ ਕਰਕੇ — the politeness words, and what is inside them

> Say *please*. Then say *sorry*. Both are longer than the English and both have a verb inside — say which verb.

Why it's said this way

Punjabi's two commonest courtesies are not words for *please* and *sorry* at all. They are **things done**:

what you say	what it is built from
ਮਿਹਰਬਾਨੀ ਕਰਕੇ	*having done a kindness*
ਮਾਫ਼ ਕਰੋ	*make pardoned*
ਜੀ ਆਇਆਂ ਨੂੰ	*to those who have come — life*

All three run on the same verb of doing or a case ending, and none of them is a fixed politeness particle you could swap for another. The ਨੂੰ on the third is the same dative ending the book uses elsewhere: the welcome is grammatically *addressed* to the arrivals rather than describing them.

Your turn: leaving, and the registers

Say these aloud:

- we will meet — and say what the **-ਂਗੇ** ending is doing
- the parting that hands someone to God’s keeping — *rabb rākhā*
- the formal, Sanskritic good night — *shubh rāt*
- the bare negative — *nā*

Three partings, three registers. *Rabb rākhā* carries a blessing and belongs to people who know each other; *shubh rāt* is the formal one; and the everyday sign-off is neither.

Before you move on

What is literally inside the word for *please*? (**Having done a kindness.**) What does the echo in ਠੀਕ-ਠਾਕ add — a new meaning, or a shade of one? (**A shade** — the echo softens it toward *getting by.*) And which body part is a cousin of English *horn* rather than *head*? (ਸਿਰ.)

Chapter 49

Hand, Foot, Hair, Tooth, Throat

50.1 ਉਂਗਲ (uṅgal) — a finger

> Before the new one: say the Punjabi for a tooth, then the Punjabi for the throat.

You'll want to know: ਉਂਗਲ

ਉਂਗਲ — *uṅgal* — "a finger".

The word, taken apart — its roots and family

ਉਂਗਲ (*uṅgal*) is a tadbhava, a word inherited from Sanskrit and reshaped by sound change. It comes from *aṅguli*, "finger, toe" (CDIAL 135).

What you've built

One more word for this chapter.

Your turn

- *Say it: uṅgal*
- *Say it: uṅgal*, once more
- *Say it:* say *uṅgal*
- *Recall:* say the Punjabi for a tooth, then the Punjabi for the throat, then say *uṅgal* again

Before you move on

What does ਉਂਗਲ mean? (“A finger”.) Say it once more.

50.2 ਬੁੱਲ੍ਹ (bullh) — a lip

Before the new one: say the Punjabi for the throat, then the Punjabi for a finger.

You’ll want to know: ਬੁੱਲ੍ਹ

ਬੁੱਲ੍ਹ — *bullh* — “a lip”.

The word, taken apart — its roots and family

Where ਬੁੱਲ੍ਹ (*bullh*) comes from is not settled: neither CDIAL nor DEDR has an entry for it. Hindi says *hoṇṭh*, which is a different word.

What you’ve built

One more word for this chapter.

Your turn

- *Say it: bullh*
- *Say it: bullh*, once more
- *Say it:* say *bullh*
- *Recall:* say the Punjabi for the throat, then the Punjabi for a finger, then say *bullh* again

52.1 ਦਰਦ (darad) — pain

> Before the new one: say the Punjabi for a hospital, then the Punjabi for ill.

You'll want to know: ਦਰਦ

ਦਰਦ — *darad* — “pain”.

The word, taken apart — its roots and family

ਦਰਦ (*darad*) is a loan, usually traced to Persian *dard*, “pain”. Punjabi breaks up the -*rd* with a vowel.

What you've built

One more word for this chapter.

Your turn

- *Say it: darad*

52.3 ਪਿਆਸ (piās) — thirst

Before the new one: say the Punjabi for pain, then the Punjabi for medicine.

You’ll want to know: ਪਿਆਸ

ਪਿਆਸ — *piās* — “thirst”.

The word, taken apart — its roots and family

ਪਿਆਸ (*piās*) goes back to Sanskrit *pipāsā*, “thirst”. CDIAL lists no Punjabi form, but gives the matching Hindi *piyās* under it (CDIAL 8199), and it marks the Punjabi adjective *peāsā*, “thirsty”, as taken from Hindi (CDIAL 8200).

What you’ve built

One more word for this chapter.

Your turn

- *Say it: piās*
- *Say it: piās*, once more

53.2 ਪਿਤਾ (pitā) — a father

Before the new one: say the Punjabi for happy, then the Punjabi for sad.

You’ll want to know: ਪਿਤਾ

ਪਿਤਾ — *pitā* — “a father”.

The word, taken apart — its roots and family

ਪਿਤਾ (*pitā*) is Sanskrit *pitā*, the nominative of *pitṛ*, “father”, taken over whole, a tatsama. The inherited line survives in Punjabi *piu*, “father”, and *mā-pe*, “mother and father”, which CDIAL lists under *pitṛ* (CDIAL 8179).

What you’ve built

One more word for this chapter.

Your turn

- *Say it: pitā*

Before you move on

What does ਮਾਤਾ mean? (“A mother”.) Say it once more.

53.4 ਪੁੱਤਰ (puttar) — a son

Before the new one: say the Punjabi for a father, then the Punjabi for a mother.

You'll want to know: ਪੁੱਤਰ

ਪੁੱਤਰ — *puttar* — "a son".

The word, taken apart — its roots and family

ਪੁੱਤਰ (*puttar*) goes back to Sanskrit *putra*, "son". Its doubled *tt* is an inherited sound change, and it keeps the *r*, as Lahnda *puttar* does. CDIAL lists the shorter Punjabi form *putt* beside Lahnda *puttar* (CDIAL 8265).

What you've built

One more word for this chapter.

Your turn

- *Say it: puttar*
- *Say it: puttar*, once more
- *Say it:* say *puttar*

> Before the new one: say the Punjabi for rain, then the Punjabi for wind.

You'll want to know: ਕੁੱਤਾ

ਕੁੱਤਾ — *kuttā* — "a dog".

The word, taken apart — its roots and family

ਕੁੱਤਾ (*kuttā*) is a tadbhava, a word inherited and reshaped by sound change. It comes from **kutta*, "dog", a form CDIAL reconstructs from its descendants (CDIAL 3275). CDIAL calls it imitative, comparing Santali *kutu kutu*, the call to a puppy.

What you've built

One more word for this chapter.

Your turn

- *Say it: kuttā*
- *Say it: kuttā*, once more
- *Say it:* say *kuttā*
- *Recall:* say the Punjabi for rain, then the Punjabi for wind, then say *kuttā* again

Chapter 117

Rubbish, Basket, Box, Clay water pot, Candle

Modes: **voice** (5) **Hands-free start:** all 5 lessons.

> ***By the end of this chapter:*** I can say rubbish, a basket, a box, a clay water pot and a candle.
>
> *Complete the last lesson of chapter 117: I can say rubbish, a basket, a box, a clay water pot and a candle.*

117.1 ਕੂੜਾ (kūṛā) — rubbish

> Before the new one: say the Punjabi for a bucket, then the Punjabi for a broom.

You'll want to know: ਕੂੜਾ

ਕੂੜਾ — *kūṛā* — "rubbish".

The word, taken apart — its roots and family

ਕੂੜਾ (*kūṛā*) is a tadbhava, a word inherited from Sanskrit and reshaped by sound change. It comes from *kūṭa*, "heap, multitude" (CDIAL 3392). CDIAL takes the Sanskrit word, probably, from Dravidian; Punjabi *kūṛā* is "sweepings, dirt".

What you've built

One more word for this chapter.

Your turn

- *Say it: kūṛā*
- *Say it: kūṛā*, once more
- *Say it:* say *kūṛā*
- *Recall:* say the Punjabi for a bucket, then the Punjabi for a broom, then say *kūṛā* again

Before you move on

What does ਕੂੜਾ mean? (“Rubbish”.) Say it once more.

117.2 ਟੋਕਰੀ (ṭokrī) — a basket

Before the new one: say the Punjabi for a broom, then the Punjabi for rubbish.

You’ll want to know: ਟੋਕਰੀ

ਟੋਕਰੀ — *ṭokrī* — “a basket”.

The word, taken apart — its roots and family

ਟੋਕਰੀ (*ṭokrī*) is a tadbhava, a word inherited and reshaped by sound change. It comes from **ṭokka*, “basket”, a form CDIAL reconstructs from its descendants (CDIAL 5477). CDIAL lists Punjabi *ṭokrā*, with an added *-r-*.

What you’ve built

One more word for this chapter.

Your turn

- *Say it: ṭokrī*
- *Say it: ṭokrī*, once more
- *Say it:* say *ṭokrī*

> Before the new one: say the Punjabi for a class, then the Punjabi for a teacher.

You’ll want to know: ਤਨਖ਼ਾਹ

ਤਨਖ਼ਾਹ — *tankhāh* — “a salary”.

The word, taken apart — its roots and family

ਤਨਖ਼ਾਹ (*tankhāh*) is a loan, usually traced to Persian *tankhwāh*, “salary”.

What you’ve built

One more word for this chapter.

Your turn

- *Say it: tankhāh*
- *Say it: tankhāh*, once more
- *Say it:* say *tankhāh*
- *Recall:* say the Punjabi for a class, then the Punjabi for a teacher, then say *tankhāh* again

Before you move on

What does ਤਨਖ਼ਾਹ mean? (“A salary”.) Say it once more.

139.2 ਦਰਜ਼ੀ (darzī) — a tailor

Before the new one: say the Punjabi for a teacher, then the Punjabi for a salary.

You’ll want to know: ਦਰਜ਼ੀ

ਦਰਜ਼ੀ — *darzī* — “a tailor”.

The word, taken apart — its roots and family

ਦਰਜ਼ੀ (*darzī*) is a loan, usually traced to Persian *darzī*, “tailor”.

What you’ve built

One more word for this chapter.

Your turn

- *Say it: darzī*
- *Say it: darzī*, once more
- *Say it:* say *darzī*
- *Recall:* say the Punjabi for a teacher, then the Punjabi for a salary, then say *darzī* again

Before you move on

What does ਦਰਜ਼ੀ mean? (“A tailor”.) Say it once more.

139.3 ਤਰਖਾਣ (tarkhāṇ) — a carpenter

Before the new one: say the Punjabi for a salary, then the Punjabi for a tailor.

You’ll want to know: ਤਰਖਾਣ

ਤਰਖਾਣ — *tarkhāṇ* — “a carpenter”.

The word, taken apart — its roots and family

ਤਰਖਾਣ (*tarkhāṇ*) is a tadbhava, a word inherited from Sanskrit and reshaped by sound change. It comes from *takṣan*, “carpenter” (CDIAL 5621). CDIAL notes its intrusive *r*.

What you’ve built

One more word for this chapter.

Your turn

- *Say it: tarkhāṇ*
- *Say it: tarkhāṇ*, once more
- *Say it:* say *tarkhāṇ*
- *Recall:* say the Punjabi for a salary, then the Punjabi for a tailor, then say *tarkhāṇ* again

Before you move on

What does ਤਰਖਾਣ mean? (“A carpenter”.) Say it once more.

139.4 ਲੁਹਾਰ (luhār) — a blacksmith

Before the new one: say the Punjabi for a tailor, then the Punjabi for a carpenter.

You'll want to know: ਲੁਹਾਰ

ਲੁਹਾਰ — *luhār* — "a blacksmith".

The word, taken apart — its roots and family

ਲੁਹਾਰ (*luhār*) is a tadbhava, a word inherited from Sanskrit and reshaped by sound change. It comes from *lohakāra*, "iron-worker" (CDIAL 11159).

What you've built

One more word for this chapter.

Your turn

- *Say it: luhār*
- *Say it: luhār*, once more

- *Say it:* say *siuṇā*
- *Recall:* say the Punjabi for to use, then the Punjabi for to make, then say *siuṇā* again

Before you move on

What does ਸਿਉਣਾ mean? ("To sew".) Say it once more.

150.2 ਭਰਨਾ (bharnā) — to fill

Before the new one: say the Punjabi for to make, then the Punjabi for to sew.

You'll want to know: ਭਰਨਾ

ਭਰਨਾ — *bharnā* — "to fill".

The word, taken apart — its roots and family

ਭਰਨਾ (*bharnā*) is inherited from Sanskrit *bharati*, "bears, brings; fills". CDIAL lists *bharnā*, "to bear", from the Punjabi of Ludhiana, and Lahnda *bharaṇ*, "to fill" (CDIAL 9397).

What you've built

One more word for this chapter.

Your turn

- *Say it: bharnā*
- *Say it: bharnā*, once more
- *Say it:* say *bharnā*
- *Recall:* say the Punjabi for to make, then the Punjabi for to sew, then say *bharnā* again

Before you move on

What does ਭਰਨਾ mean? (“To fill”.) Say it once more.

150.3 ਖਿੱਚਣਾ (khiccṇā) — to pull

Before the new one: say the Punjabi for to sew, then the Punjabi for to fill.

You’ll want to know: ਖਿੱਚਣਾ

ਖਿੱਚਣਾ — *khiccṇā* — “to pull”.

The word, taken apart — its roots and family

ਖਿੱਚਣਾ (*khiccṇā*) is a tadbhava, a word inherited and reshaped by sound change. It comes from **khiñc*, “drag, pull”, a form CDIAL reconstructs from its descendants (CDIAL 3881).

What you’ve built

One more word for this chapter.

Your turn

- *Say it: khiccṇā*
- *Say it: khiccṇā*, once more
- *Say it:* say *khiccṇā*
- *Recall:* say the Punjabi for to sew, then the Punjabi for to fill, then say *khiccṇā* again

Before you move on

What does ਖਿੱਚਣਾ mean? (“To pull”.) Say it once more.

150.4 ਜਾਗਣਾ (jāgṇā) — to wake up

Before the new one: say the Punjabi for to fill, then the Punjabi for to pull.

You’ll want to know: ਜਾਗਣਾ

ਜਾਗਣਾ — *jāgṇā* — “to wake up”.

The word, taken apart — its roots and family

ਜਾਗਣਾ (*jāgṇā*) is a tadbhava, a word inherited from Sanskrit and reshaped by sound change. It comes from *jāgrati*, “are awake” (CDIAL 5175).

What you’ve built

One more word for this chapter.

Your turn

- *Say it: jāgṇā*
- *Say it: jāgṇā*, once more
- *Say it:* say *jāgṇā*
- *Recall:* say the Punjabi for to fill, then the Punjabi for to pull, then say *jāgṇā* again

Before you move on

What does ਜਾਗਣਾ mean? (“To wake up”.) Say it once more.

150.5 ਚਲਾਉਣਾ (calāuṇā) — to drive, to run (a machine)

Before the new one: say the Punjabi for to pull, then the Punjabi for to wake up.

You’ll want to know: ਚਲਾਉਣਾ

ਚਲਾਉਣਾ — *calāuṇā* — “to drive, to run (a machine)”.

The word, taken apart — its roots and family

ਚਲਾਉਣਾ (*calāuṇā*) is the causing form of *calṇā*, “to move, to go”: to drive is “to make go”. CDIAL lists the verb under Sanskrit *calati*, "goes away; shakes, trembles" (CDIAL 4715).

What you've built

One more word for this chapter.

Your turn

- *Say it: calāuṇā*
- *Say it: calāuṇā*, once more
- *Say it:* say *calāuṇā*
- *Recall:* say the Punjabi for to pull, then the Punjabi for to wake up, then say *calāuṇā* again

Before you move on

What does **ਚਲਾਉਣਾ** mean? ("To drive, to run (a machine)".) Say it once more.

Chapter 151

To say, To live, To spend, To save, To sow

Modes: 🚗 **voice** (5) 🚗 **Hands-free start:** all 5 lessons.

>
> *Complete the last lesson of chapter 151: I can say to say, to live, to spend, to save and to sow.*

151.1 ਕਹਿਣਾ (kahiṇā) — to say

> Before the new one: say the Punjabi for to wake up, then the Punjabi for to drive.

You'll want to know: ਕਹਿਣਾ

ਕਹਿਣਾ — *kahiṇā* — "to say".

The word, taken apart — its roots and family

ਕਹਿਣਾ (*kahiṇā*) is a tadbhava, a word inherited from Sanskrit and reshaped by sound change. It comes from *kathayati*, "converses with, describes" (CDIAL 2703).

What you've built

One more word for this chapter.

Your turn

- *Say it: kahiṇā*
- *Say it: kahiṇā*, once more
- *Say it:* say *kahiṇā*
- *Recall:* say the Punjabi for to wake up, then the Punjabi for to drive, then say *kahiṇā* again

Before you move on

What does ਕਹਿਣਾ mean? ("To say".) Say it once more.

151.2 ਜੀਉਣਾ (jīuṇā) — to live

Before the new one: say the Punjabi for to drive, then the Punjabi for to say.

You'll want to know: ਜੀਉਣਾ

ਜੀਉਣਾ — *jīuṇā* — "to live".

The word, taken apart — its roots and family

ਜੀਉਣਾ (*jīuṇā*) is a tadbhava, a word inherited from Sanskrit and reshaped by sound change. It comes from *jīvati*, "is alive" (CDIAL 5241).

What you've built

One more word for this chapter.

Your turn

- *Say it: jīuṇā*
- *Say it: jīuṇā*, once more
- *Say it:* say *jīuṇā*

Before you move on

What does ਜੀਉਣਾ mean? (“To live”.) Say it once more.

151.3 ਖ਼ਰਚਣਾ (kharcṇā) — to spend

Before the new one: say the Punjabi for to say, then the Punjabi for to live.

You’ll want to know: ਖ਼ਰਚਣਾ

ਖ਼ਰਚਣਾ — *kharcṇā* — “to spend”.

The word, taken apart — its roots and family

ਖ਼ਰਚਣਾ (*kharcṇā*) is built on *kharc*, “expense”, usually traced through Persian *kharch* to Arabic *kharj*, “expenditure”; its Arabic root is *kh-r-j* (Lane).

What you’ve built

One more word for this chapter.

Your turn

- *Say it: kharcṇā*
- *Say it: kharcṇā*, once more
- *Say it:* say *kharcṇā*
- *Recall:* say the Punjabi for to say, then the Punjabi for to live, then say *kharcṇā* again

Before you move on

What does ਖ਼ਰਚਣਾ mean? (“To spend”.) Say it once more.

151.4 ਬਚਾਉਣਾ (bacāuṇā) — to save

Before the new one: say the Punjabi for to live, then the Punjabi for to spend.

You'll want to know: ਬਚਾਉਣਾ

ਬਚਾਉਣਾ — *bacāuṇā* — "to save".

The word, taken apart — its roots and family

ਬਚਾਉਣਾ (*bacāuṇā*) goes back to Sanskrit *vañcati*, "moves; escapes from": CDIAL lists *bacāuṇā* under it and marks the Punjabi word as taken from Hindi. In the same entry it lists the form *vacāuṇā*, "to save", under the second headword, *vacyate*, "flies, is poured forth" (CDIAL 11208).

What you've built

One more word for this chapter.

Your turn

- *Say it:* *bacāuṇā*
- *Say it:* *bacāuṇā*, once more
- *Say it:* say *bacāuṇā*

Before you move on

What does ਬਚਾਉਣਾ mean? ("To save".) Say it once more.

151.5 ਬੀਜਣਾ (bījṇā) — to sow

Before the new one: say the Punjabi for to spend, then the Punjabi for to save.

You'll want to know: ਬੀਜਣਾ

ਬੀਜਣਾ — *bījṇā* — "to sow".

The word, taken apart — its roots and family

ਬੀਜਣਾ (*bījṇā*) is built on *bīj*, “seed”, from Sanskrit *bīja*, “seed” (CDIAL 9250). CDIAL does not list the verb itself.

What you’ve built

One more word for this chapter.

Your turn

- *Say it: bījṇā*
- *Say it: bījṇā*, once more
- *Say it:* say *bījṇā*
- *Recall:* say the Punjabi for to spend, then the Punjabi for to save, then say *bījṇā* again

Before you move on

What does **ਬੀਜਣਾ** mean? (“To sow”.) Say it once more.

Chapter 152

To run, To wander, To stop, To believe, To change

Modes: 🚗 **voice** (7) 🚗 **Hands-free start:** all 7 lessons.

> ***By the end of this chapter:*** I can say to run, to wander, to stop, to believe and to change.
>
> *Complete the last lesson of chapter 152: I can say to run, to wander, to stop, to believe and to change.*

152.1 ਭੱਜਣਾ (bhajjṇā) — to run

> Before the new one: say the Punjabi for to save, then the Punjabi for to sow.

You'll want to know: ਭੱਜਣਾ

ਭੱਜਣਾ — *bhajjṇā* — "to run".

The word, taken apart — its roots and family

ਭੱਜਣਾ (*bhajjṇā*) is a tadbhava, a word inherited from Sanskrit and reshaped by sound change. It comes from *bhajyate*, "is broken" (CDIAL 9361). CDIAL lists Punjabi *bhajjṇā*, "to flee", and rejects Bloch's separate root for "flee".

What you've built

One more word for this chapter.

Your turn

- *Say it: bhajjṇā*
- *Say it: bhajjṇā*, once more
- *Say it:* say *bhajjṇā*
- *Recall:* say the Punjabi for to save, then the Punjabi for to sow, then say *bhajjṇā* again

Before you move on

What does ਭੱਜਣਾ mean? (“To run”.) Say it once more.

152.2 ਘੁੰਮਣਾ (ghummṇā) — to wander, to go around

Before the new one: say the Punjabi for to sow, then the Punjabi for to run.

You’ll want to know: ਘੁੰਮਣਾ

ਘੁੰਮਣਾ — *ghummṇā* — “to wander, to go around”.

The word, taken apart — its roots and family

ਘੁੰਮਣਾ (*ghummṇā*) is a tadbhava, a word inherited and reshaped by sound change. It comes from **ghummati*, “revolves”, a form CDIAL reconstructs from its descendants (CDIAL 4485).

What you’ve built

One more word for this chapter.

Your turn

- *Say it: ghummṇā*
- *Say it: ghummṇā*, once more
- *Say it:* say *ghummṇā*

- *Recall:* say the Punjabi for to sow, then the Punjabi for to run, then say *ghummṇā* again

Before you move on

What does ਘੁੰਮਣਾ mean? (“To wander, to go around”.) Say it once more.

152.3 ਰੁਕਣਾ (rukṇā) — to stop

Before the new one: say the Punjabi for to run, then the Punjabi for to wander.

You’ll want to know: ਰੁਕਣਾ

ਰੁਕਣਾ — *rukṇā* — “to stop”.

The word, taken apart — its roots and family

ਰੁਕਣਾ (*rukṇā*) is the partner of *rokṇā*, “to stop (something)”, which CDIAL lists under a reconstructed **rokk*, “stop”, noting Hindi *ruknā*, “to be stopped”, beside *roknā* (CDIAL 10827).

What you’ve built

One more word for this chapter.

Your turn

- *Say it: rukṇā*
- *Say it: rukṇā*, once more
- *Say it:* say *rukṇā*
- *Recall:* say the Punjabi for to run, then the Punjabi for to wander, then say *rukṇā* again

Before you move on

What does ਰੁਕਣਾ mean? (“To stop”.) Say it once more.

152.4 ਮੰਨਣਾ (mannṇā) — to believe, to agree

> Before the new one: say the Punjabi for to wander, then the Punjabi for to stop.

You'll want to know: ਮੰਨਣਾ

ਮੰਨਣਾ — *mannṇā* — "to believe, to agree".

The word, taken apart — its roots and family

ਮੰਨਣਾ (*mannṇā*) is a tadbhava, a word inherited from Sanskrit and reshaped by sound change. It comes from *manyate*, "thinks, honours; agrees" (CDIAL 9857).

What you've built

One more word for this chapter.

Your turn

- *Say it: mannṇā*
- *Say it: mannṇā*, once more
- *Say it:* say *mannṇā*
- *Recall:* say the Punjabi for to wander, then the Punjabi for to stop, then say *mannṇā* again

Before you move on

What does ਮੰਨਣਾ mean? ("To believe, to agree".) Say it once more.

152.5 ਬਦਲਣਾ (badalṇā) — to change

> Before the new one: say the Punjabi for to stop, then the Punjabi for to believe.

You'll want to know: ਬਦਲਣਾ

ਬਦਲਣਾ — *badalṇā* — "to change".

The word, taken apart — its roots and family

ਬਦਲਣਾ (*badalṇā*) is built on *badal*, a loan from Arabic *badal*, “a substitute, an exchange”, which reached Punjabi through Persian; its Arabic root is *b-d-l* (Lane).

What you’ve built

One more word for this chapter.

Your turn

- *Say it: badalṇā*
- *Say it: badalṇā*, once more
- *Say it:* say *badalṇā*
- *Recall:* say the Punjabi for to stop, then the Punjabi for to believe, then say *badalṇā* again

Before you move on

What does ਬਦਲਣਾ mean? (“To change”.) Say it once more.

152.6 Describing words — a first pass

Say the words for to believe and to change.

Your turn

Say these aloud:

- soft, hard, difficult, clever, lazy
- brave, calm, hungry, thirsty, fresh
- stale, ripe, raw, true, false
- rich, poor, young, strong, weak

Before you move on

Soft? (ਨਰਮ, *naram.*) Hard? (ਸਖ਼ਤ, *sakht.*) Difficult? (ਮੁਸ਼ਕਲ, *mushkal.*) Clever? (ਹੁਸ਼ਿਆਰ, *hushiār.*) Lazy? (ਆਲਸੀ, *ālsī.*) Brave? (ਬਹਾਦਰ, *bahādar.*) Calm? (ਸ਼ਾਂਤ, *shā̃t.*) Hungry? (ਭੁੱਖਾ, *bhukkhā.*) Thirsty? (ਪਿਆਸਾ, *piāsā.*) Fresh? (ਤਾਜ਼ਾ, *tāzā.*) Stale? (ਬੇਹਾ, *behā.*) Ripe? (ਪੱਕਾ, *pakkā.*) Raw? (ਕੱਚਾ, *kaccā.*) True? (ਸੱਚਾ, *saccā.*) False? (ਝੂਠਾ, *jhūṭhā.*) Rich? (ਅਮੀਰ, *amīr.*) Poor? (ਗ਼ਰੀਬ, *garīb.*) Young? (ਜਵਾਨ, *javān.*) Strong? (ਤਕੜਾ, *takṛā.*) Weak? (ਕਮਜ਼ੋਰ, *kamzor.*)

152.7 Verbs — a second pass

Say the words for to hide and to fall.

Your turn

Say these aloud:

- to hide, to fall, to teach, to lift, to jump
- to swim, to climb, to call, to use, to make
- to sew, to fill, to pull, to wake up, to drive
- to say, to live, to spend, to save, to sow
- to run, to wander, to stop, to believe, to change

Before you move on

To hide? (ਲੁਕਣਾ, *lukṇā.*) To fall? (ਡਿੱਗਣਾ, *ḍiggṇā.*) To teach? (ਸਿਖਾਉਣਾ, *sikhāuṇā.*) To lift? (ਚੁੱਕਣਾ, *cukkṇā.*) To jump? (ਟੱਪਣਾ, *ṭappṇā.*) To swim? (ਤਰਨਾ, *tarnā.*) To climb? (ਚੜ੍ਹਨਾ, *caṛhnā.*) To call? (ਬੁਲਾਉਣਾ, *bulāuṇā.*) To use? (ਵਰਤਣਾ, *vartṇā.*) To make? (ਬਣਾਉਣਾ, *baṇāuṇā.*) To sew? (ਸਿਉਣਾ, *siuṇā.*) To fill? (ਭਰਨਾ, *bharnā.*) To pull? (ਖਿੱਚਣਾ, *khiccṇā.*) To wake up? (ਜਾਗਣਾ, *jāgṇā.*) To drive? (ਚਲਾਉਣਾ, *calāuṇā.*) To say? (ਕਹਿਣਾ, *kahiṇā.*) To live? (ਜੀਉਣਾ, *jīuṇā.*) To spend? (ਖ਼ਰਚਣਾ, *kharcṇā.*) To save? (ਬਚਾਉਣਾ, *bacāuṇā.*) To sow? (ਬੀਜਣਾ, *bījṇā.*) To run? (ਭੱਜਣਾ, *bhajjṇā.*) To wander? (ਘੁੰਮਣਾ, *ghummṇā.*) To stop? (ਰੁਕਣਾ, *rukṇā.*) To believe? (ਮੰਨਣਾ, *mannṇā.*) To change? (ਬਦਲਣਾ, *badalṇā.*)

Chapter 153

Write One Fictional Date Field

Modes: ✎ **pen** (11) 🚗 **Hands-free start:** none of the 11 lessons.

> ***By the end of this chapter:*** I can recognise a Punjabi date label, connect two taught month names to their numeric positions, and independently write one of two fictional dates in day/month/year order from a nonverbal cue.
>
> *The learner fills one fictional date line from a remembered nonverbal cue without a value bank, romanization, Latin digits, or a copyable Gurmukhi answer, then checks cue selection, month, digit order, separators, and placement separately.*

153.1 ਤਾਰੀਖ਼ — find the date line

> You met ਤਾਰੀਖ਼ as “a date.” Read it aloud once. Its Persian source *tārīkh* also means a date or history; here the form asks for a date only.

Read this

On this fictional beginner form, **ਤਾਰੀਖ਼:** __________ labels the date line. Point to the label. The blank is where a date goes; it is not a phone or age line. No real personal information is requested.

Your turn — copy the label

Copy **ਤਾਰੀਖ਼:** once, including the colon. Leave its value blank.

Before you move on

Next, we will connect two month names already met to their small numeric positions. There is no full date to write yet.

153.2 Two known months, two short codes

Say the two month names already met: ਜਨਵਰੀ (January), then ਫ਼ਰਵਰੀ (February). Do not try to memorise a new list of months.

Grammar lens — month position

In a two-place month box, January is ੦੧ and February is ੦੨. The first place is the already-taught zero; the second is one or two. Point to each Gurmukhi digit while saying the month name. These are month *positions*, not new ways to pronounce the words.

Your turn — one place at a time

Copy ੦੧ under ਜਨਵਰੀ and ੦੨ under ਫ਼ਰਵਰੀ. Cover the words; when you hear "February," uncover and point to ੦੨. Repair only the differing digit.

Before you move on

Only these two month positions are in this closed practice bank.

153.3 Three small boxes, two slashes

Point to ੦੧ for January and ੦੨ for February. We will put one of these in the *middle* of a date, not at the beginning.

Grammar lens — the form's printed order

This fictional form explicitly prints **day** / **month** / **year**. It has two places for the day, two for the month, and four for the year: ____/____/________. Copy the two slash marks between the boxes. A slash is a separator, never a digit. Other forms may use another order; follow the printed order on this one.

Your turn — locate the month box

Fill only the middle box with ०१. Leave the day and year boxes empty: ____/०१/_______. Point to the two slash marks. Then cover this model and draw two empty slash-separated boxes again.

Before you move on

The next lessons build two complete fictional examples, one piece at a time.

153.4 Fictional date A — one box at a time

Trace the three empty boxes with a finger: day / month / year. The slash marks stay in place.

Read this

Practice card A says “the fifteenth of January, two thousand twenty-five.” It is fictional. The day is १५, January is ०१, and the four year digits are २०२५. Put the pieces together: १५/०१/२०२५. Touch and read only one piece at a time; no real birthday is requested.

Your turn — copy in three passes

Copy the day १५, add a slash, copy month ०१, add a slash, then copy the year २०२५. Check that the two slash marks divide two, two, and four digits.

Before you move on

Keep A visible for now. Independent recall comes later.

153.5 Fictional date B — change two small pieces

Point to A, १५/०१/२०२५. Its middle box means January.

Read this

Practice card B says “the twenty-fifth of February, two thousand twenty-five.” The day changes to २५; February changes the middle box to ०२; the year stays २०२५. The complete fictional date is

२५/०२/२०२५. Compare one box at a time with A.

Your turn — copy, then compare

Copy B once. Circle only the two boxes that differ from A. Say “day” for the first and “month” for the second; do not change the year or slash marks.

Before you move on

These two examples form a deliberately closed practice bank, not an invitation to write a real personal date.

153.6 Select the requested fictional date

Read the closed bank once: A १५/०१/२०२५; B २५/०२/२०२५.
Point to the middle box in each. A is January; B is February.

You’ll want to know — a symbol, not a copied answer

The fictional card marked ਕ requests A. The card marked ਖ requests B. These single-letter shapes are selectors, not month names or dates. The same two shapes were used in the earlier bounded form-field practice.

Your turn — decide before writing

Point to ਖ. Say “B” before you look at the date. Then point to B in the bank; only then copy it. Repeat with ਕ and A. Separate *selection* from digit writing.

Before you move on

The bank remains visible here. It will be hidden only after supported practice.

153.7 Fill one date line with help

Point to the ਤਾਰੀਖ਼ label and to both bank entries. Keep the closed bank in view: A १५/०१/२०२५, B २५/०२/२०२५.

Writing — supported entry

For the fictional card ਕ, select A. Copy its day into the first box, January's numeric month into the middle box, and its year into the final box: ਤਾਰੀਖ਼: ੧੫/੦੧/੨੦੨੫. Keep both slash marks.

Your turn — check one dimension

Read the line from left to right. Check cue, day, month, year, and separators one at a time. If a piece differs, change only that piece.

Before you move on

This is supported copying, not the independent checkpoint.

153.8 Hide the bank, then write

> Study B ੨੫/੦੨/੨੦੨੫ for five seconds. Touch day, month, and year, then cover this line and the earlier date lessons.

Writing — delayed entry

After the short delay, the fictional card shows ਖ. Fill its ਤਾਰੀਖ਼ line from memory. Do not uncover the bank before you finish. Write the day, the month, and the year in the printed order, with two slash marks.

Your turn — uncover and repair

Uncover B only after the attempt. Compare one box at a time. If the month is wrong, correct only the middle two digits; keep the other boxes unchanged.

Before you move on

This is delayed practice. The final no-model checkpoint still comes later.

153.9 Hear a date; fill three boxes

> Draw three empty boxes separated by slashes. Say "day, month, year" while pointing. Cover all written date examples.

You’ll want to know — one short fictional prompt

Ask a partner to read fictional date A from the earlier bank while you face away from the page. For solo practice, record yourself saying that date aloud, close the book, and play the recording back. Listen once; then listen again. Keep both the spoken cue’s written source and every digit model out of view.

Writing — transcription

Write only the three heard pieces in Gurmukhi digits. Put the heard day in the first box, the heard month in the middle, and the heard year last. Then check only the two slash positions.

Before you move on

No real birth date or other personal data is being collected.

153.10 Repair one dimension, not the whole line

> Read A and B once. A is January; B is February. Their year is the same.

Grammar lens — a short repair order

Check one dimension at a time: **selector** → **day** → **month** → **year** → **slash marks** → **label spelling and spacing**. On a printed date form, a correct set of digits in the wrong boxes is still wrong. The label is ਤਾਰੀਖ਼; keep the final dot beneath ਖ਼, and leave a readable space after the colon.

Your turn — two tiny repairs

For ਕ, ੧੫/੦੧੨੦੨੫ has the right digits but one missing slash. Add only that slash. Next, ਤਾਰੀਖ: ੧੫/੦੧/੨੦੨੫ has the right value but lacks the dot in the label; repair only ਤਾਰੀਖ਼. Keep the date digits untouched.

Before you move on

If the value is right but the label or spacing is wrong, repair that later as a separate pass. Do not erase a correct date to fix one mark.

153.11 One no-model fictional date field

> Close the earlier lessons. There is no value bank, support-language label, Latin-digit version, or copyable Gurmukhi date below.

Writing — independent controlled choice

Complete the requested fictional field:

ਖ — ਤਾਰੀਖ਼: ________________

Choose the known date attached to the selector. Write its day, month, and year from memory in Gurmukhi digits with the two printed separators. Do not reopen a lesson until the attempt is complete.

Your turn — separate repair passes

After writing, compare selector, day, month, year, separators, label spelling, and spacing separately. Repair only the first differing dimension.

Before you move on

This closes only the untimed date-field ladder. Integration with other form fields, timed writing, two full mocks, and human A1 validation remain separate dependency-linked work.

Chapter 154

Join Three Fictional Form Fields

Modes: ✎ **pen** (7) 🚗 **Hands-free start:** none of the 7 lessons.

> ***By the end of this chapter:*** I can choose taught fictional age, phone, and date values from one nonverbal cue, write the three Gurmukhi fields without a visible answer model, and check each error dimension separately.
>
> *The learner fills age, phone, and date lines from one remembered selector without romanization or copyable answers, then repairs selection, digit order, date format, spelling, spacing, and placement in separate passes.*

154.1 Three known labels, one gentle order

> Point to the three labels you have already written: **ਉਮਰ:**, **ਫ਼ੋਨ:**, **ਤਾਰੀਖ਼:**. No new field or value is added here.

Writing — first labels, then values

This little fictional form puts age on the first line, phone on the second, and date on the third. Copy only the three labels in that order, with one empty space after each colon. Leave the values blank for now.

ਉਮਰ: _________

ਫ਼ੋਨ: _________

ਤਾਰੀਖ਼: _________

Your turn — cover and point

Cover the form. Point to three empty lines and say which known field belongs on each. Uncover it to check only the line order, not any digits.

Before you move on

Today only the labels and their places matter. The next step reunites the small closed banks already learned one at a time.

154.2 One card chooses three already-known values

> The old closed banks are visible again. Age A is १५, B is २५. Phone A is ०१२ २५१, B is ०२५ १२५. Date A is १५/०१/२०२५, B is २५/०२/२०२५. These are fictional practice values, not personal data.

You’ll want to know — a single shared cue

On this practice card व chooses A from *each* bank; ध chooses B from *each* bank. You already met these shapes in phone and date. For age, the card now points to its old A or B bank too. The card mark is never copied into a form field.

Your turn — select before writing

Point to व. Point to the A value in each bank, top to bottom: age, phone, date. Do not write yet. Repeat for ध and its B values. Check selection before checking any digits.

Before you move on

The banks stay visible here. Selection is the only new step.

154.3 Fill the little form with the bank still open

> The card व asks for A in each old bank. The three A values are visible: age १५, phone ०१२ २५१, date १५/०१/२०२५.

Writing — one familiar line at a time

For ਕ, copy the selected value after each printed label. Finish one line before moving to the next. Keep the phone's single group space and the date's two slash marks.

ਉਮਰ: _________

ਫ਼ੋਨ: _________

ਤਾਰੀਖ਼: _________

Your turn — three small checks

Compare the selected bank letter first, the value on each line second, and line order third. Correct one difference at a time. This supported copy does not count as independent writing.

Before you move on

The bank remains visible throughout this gentle supported attempt.

154.4 Hide the bank for one short turn

> Read the familiar B set once: **ਉਮਰ: ੨੫**, **ਫ਼ੋਨ: ੦੨੫ ੧੨੫**, **ਤਾਰੀਖ਼: ੨੫/੦੨/੨੦੨੫**. Point to one line at a time.

Writing — brief delayed copy

Cover the model. Wait five seconds. The card is ਖ. Write the three lines in the known order, recalling one line at a time. Keep the model covered until all three lines are finished.

ਉਮਰ: _________

ਫ਼ੋਨ: _________

ਤਾਰੀਖ਼: _________

Your turn — uncover only to compare

Uncover the model. Compare age first, phone second, and date third. This is still delayed-copy practice, not an independent checkpoint.

Before you move on

If one line was hard, revisit only that old field before continuing.

154.5 Check the values in three little passes

The card ਖ still selects B for all three fictional fields. Before checking any digit, ask: did every line use B, not a mixture of A and B?

Grammar lens — selection, order, format

Make three separate passes. First check the selected bank letter for each line. Next check digits left to right, including the phone's group of three and three. Last check the date's day/month/year boxes and two slash marks. Do not erase a correct line to fix another one.

Your turn — one change at a time

For ਖ, suppose the age line says ੧੫. Change only its selected value to ੨੫. If the phone line says ੦੨੫ ੧੫੨, keep the first group and repair only the last two digit positions. If the date says ੨੫/੦੨੨੦੨੫, keep all digits and add only the missing slash.

Before you move on

Label spelling, spacing, and placement get their own pass next.

154.6 Check the labels and their places

Read the known labels once: ਉਮਰ:, ਫ਼ੋਨ:, ਤਾਰੀਖ਼:. The little dot marks in ਫ਼ and ਖ਼ belong to their spellings.

Writing — three different layout passes

First compare label spelling; restore a missing dot without touching digits. Then compare spacing: one readable space follows each colon, and the phone has one group space. Finally compare placement: age is line one, phone line two, date line three. Move a whole correct value to its proper line; do not rewrite its digits.

Your turn — a single spelling repair

In **ਤਾਰੀਖ:** ੨੫/੦੨/੨੦੨੫, fix only the label to **ਤਾਰੀਖ਼**. The date stays unchanged. In **ਫੋਨ:** ੦੨੫ ੧੨੫, fix only the label to **ਫ਼ੋਨ**.

Before you move on

You have now practised six distinct checks: choice, digit order, date format, label spelling, spacing, and placement. The final short attempt hides the value bank again.

154.7 One no-model fictional three-field form

> Close the earlier lessons. No value bank, support-language label, Latin-digit version, romanization, or copyable Gurmukhi value appears below.

Writing — independent controlled choice

Complete the fictional form for the one card mark. Use only the old known values. Write all three in Gurmukhi digits from memory. Do not reopen a lesson until all three lines are filled.

ਖ

ਉਮਰ: _________

ਫ਼ੋਨ: _________

ਤਾਰੀਖ਼: _________

Your turn — repair after the attempt

Only after writing, check six dimensions separately: selection, digit order, date format, label spelling, spacing, then field placement. Repair the first different dimension without erasing a correct one.

Before you move on

This closes only an untimed three-field checkpoint. The complete six-field form, timed writing, two full mocks, and human A1 validation remain separate dependency-linked work.

Chapter 155

Join Six Fictional Form Fields

Modes: ✎ **pen** (6) 🚗 **Hands-free start:** none of the 6 lessons.

> ***By the end of this chapter:*** I can select six already taught fictional values from familiar nonverbal cues, write a six-line Gurmukhi form without a visible answer model, and repair selection, spelling, spacing, digit order, and placement separately.
>
> *The learner fills name, language, residence, work, age, and phone lines from remembered cues without romanization or copyable answers, then repairs one error dimension at a time.*

155.1 Six old labels, one gentle order

Point to each familiar label. The first four were practised with names and words; the last two with Gurmukhi digits. Date is an already practised seventh field, but it is not part of this six-line rehearsal.

Writing — labels before values

Copy only the labels in this order. Leave every value blank. The order is name, language, residence, work, age, phone. Pause after line three.

Your turn — cover and point

Cover the labels. Point to six empty lines and recall only which label belongs on each. Uncover them and repair one misplaced label, if needed.

Before you move on

Today was an order lesson, not a new vocabulary or exam lesson.

155.2 Reuse the two old card marks

The old word cards use A and B. The old digit cards use ਕ and ਖ. No new name, word, digit, or field is introduced here.

You'll want to know — point before writing

Look once at the familiar banks. A chooses ਅਮਨ, ਪੰਜਾਬੀ, ਪਿੰਡ, ਖੇਤੀ; ਕ chooses ੧੫ and ੦੧੨ ੨੫੧. B chooses ਮਨਨ, ਹਿੰਦੀ, ਸ਼ਹਿਰ, ਨੌਕਰੀ; ਖ chooses ੨੫ and ੦੨੫ ੧੨੫. Point to the matching value in each bank, one line at a time. The paired marks A · ਕ or B · ਖ choose one fictional person's six old values; they are not a new sound or spelling rule.

Your turn — one card, six choices

Choose B · ਖ. Without writing a form, say which bank side belongs on the first four lines and which side on the final two. Check the mapping above.

Before you move on

The next lesson keeps these banks visible while the six lines are written.

155.3 Six lines with the old banks visible

Return to the six blank labels. Point to the first three lines, pause, then point to the last three. Today the old A and ਕ values stay visible.

Writing — supported entry

For A · ਕ, use the old visible word bank: ਅਮਨ · ਪੰਜਾਬੀ · ਪਿੰਡ · ਖੇਤੀ. Use the old visible digit bank: ੧੫ · ੦੧੨ ੨੫੧. Copy one selected value beside each familiar label in the fixed order. Stop after the first three lines and check only which value belongs to which label; then do the rest.

Your turn — one boundary at a time

Check each colon has one readable space after it. The phone number also keeps its old single group space. This is visible-bank practice, not independent writing evidence.

Before you move on

Next time the banks will be covered before writing.

155.4 Cover the six old values

Look once at the old B and ਖ values: ਮਨਨ · ਹਿੰਦੀ · ਸ਼ਹਿਰ · ਨੌਕਰੀ, then ੨੫ · ੦੨੫ ੧੨੫. With this bank visible, fill the six labelled lines once as a supported review. Then cover the bank and wait ten seconds.

Writing — delayed entry

With the bank still hidden, fill the six lines for B · ਖ. Recall one value at a time. Pause after the residence line. Do not uncover the bank until all six attempts are complete.

ਨਾਂ: _________

ਭਾਸ਼ਾ: _________

Your turn — compare after the attempt

Uncover the old bank. Compare only the first differing line. Check its selection, then spelling or digit order, then the space after the colon. Correct that line without erasing lines that were already right.

Before you move on

This is delayed practice. The later checkpoint will remove the bank entirely.

155.5 Repair one dimension at a time

> Read the six old labels in their new order. Cover the old B · ਖ bank for ten seconds, then fill the six lines from memory. Keep this draft for the repair passes. Today we repair old forms, not learn a seventh field or a new sentence pattern.

Writing — six small repair passes

Reopen the old B · ਖ bank. With the bank visible, rewrite the corrected six-line form as a supported pass. First check that each line has the selected B or ਖ value. Next check spelling in the four word lines; ਸ਼ਹਰ needs the old vowel mark to become ਸ਼ਹਿਰ. Next check one space after every colon. Then check the two Gurmukhi digit lines left to right and the phone's one group space. Last, check that each whole value sits beside its own label. Change only the first wrong dimension you find on each pass.

The work values here are the already taught nouns ਖੇਤੀ and ਨੌਕਰੀ; there is no agreement-bearing sentence to score in this form. Agreement remains a separate task when a sentence actually requires it.

Your turn — one visible error

For B · ਖ, repair only the last two digit positions in ਫ਼ੋਨ: ੦੨੫ ੧੫੨. Keep the label, colon, space, first digit group, and other form lines as they were.

> Before you move on
>
> The next lesson asks for an untimed six-line attempt without the bank.

155.6 One untimed six-field form

> Close the earlier lessons. No value bank, support-language value label, romanization, Latin-digit version, or copyable Gurmukhi answer appears below. Use only the old fictional card marks B · ਖ.

Writing — independent controlled choice

Write all six requested values from memory. Pause after the third line. Keep the last two values in Gurmukhi digits. Do not reopen an earlier lesson or use a dictionary, translator, or spell-checker until the attempt is complete.

Your turn — repair after the attempt

Only after all six lines are filled, reopen the old banks. Check selection, word spelling, colon spacing, digit order and phone grouping, then field placement in separate passes. Repair one differing dimension at a time.

Before you move on

This is an untimed minimum-size form rehearsal, not a timed A1 paper. Date remains a separately practised seventh field. A named-reader message, timed production, full mocks, and human A1 validation remain separate work.

Chapter 156

Write to One Named Reader

Modes: ✎ **pen** (19) 🚗 **Hands-free start:** none of the 19 lessons.

> ***By the end of this chapter:*** I can choose and order already practised Gurmukhi chunks into an untimed independent 30–40-word message for one named reader, then check tone, meaning, agreement, spacing, spelling, and punctuation separately.
>
> *The learner writes a no-model 30–40-word message to Manan for a stated purpose, independently selecting and ordering known chunks, then self-checks separate error dimensions without an exact-answer auto-grade.*

156.1 A greeting that fits the reader

Read the two greetings you already know. Today you choose only the opening; the body of a message comes later.

Why it's said this way

ਸਤਿ ਸ੍ਰੀ ਅਕਾਲ is specifically a Sikh greeting. ਨਮਸਤੇ is the broader greeting taught here. Do not guess a person's community from a Punjabi name. For a named reader whose Sikh context is not stated, choose ਨਮਸਤੇ.

Writing — choose before copying

Imagine a note to Manan. Point to the broader opening, then copy it once in Gurmukhi: ਨਮਸਤੇ. Keep the last vowel sign attached to its letter.

Before you move on

One context choice is enough. The next tiny step places the reader's name.

156.2 Greet one named reader

Close the old six-field form and its value bank. For fictional card B · ਖ, fill all six familiar labels from memory before opening the old page. Then compare one dimension at a time: selection, spelling, spaces, digits, and placement. Repair the first difference you find. This is a short recall of the form, not a new form lesson or a model for the message.

The name you retrieved is ਮਨਨ. Say the greeting selected for a reader whose community is not specified. Now add that already-read name.

Writing — a supported opening

Copy ਨਮਸਤੇ ਮਨਨ। once. Leave one space between greeting and name, then put the Gurmukhi sentence mark immediately after the name. Point to those two boundaries; do not add a body sentence yet.

Your turn — change only the boundary

Compare ਨਮਸਤੇਮਨਨ। with ਨਮਸਤੇ ਮਨਨ। The first has no word boundary. Repair only that space. The greeting and name themselves do not change.

Before you move on

This was a supported opening, not independent message writing.

156.3 End with the meeting you mean

The opening is already chosen. Now choose only an ending for a note whose purpose is to meet Manan again.

Why it's said this way

ਫਿਰ ਮਿਲਾਂਗੇ says “we will meet again.” It matches that purpose. The Sikh greeting ਸਤਿ ਸ੍ਰੀ ਅਕਾਲ can also serve as a goodbye in its own context, but the reader's community has not been specified here.

Writing — choose the ending

Copy the everyday ending once: ਫਿਰ ਮਿਲਾਂਗੇ। Notice the word space and the mark after the final word. You are not assembling a message yet.

Before you move on

Next you will place a courtesy word before this ending.

156.4 Two small units at the end

> Read the everyday ending once. Then recall the old courtesy word ਧੰਨਵਾਦ. They do different jobs: thanks first, parting second.

Writing — supported closing

Copy ਧੰਨਵਾਦ। ਫਿਰ ਮਿਲਾਂਗੇ। as two short units. Put one space after the first sentence mark and one between ਫਿਰ and ਮਿਲਾਂਗੇ. No space goes before either mark.

Your turn — read the order

Point to the word that thanks the reader. Point to the words that promise a later meeting. Keep this order; the next lesson will put an opening and this closing on separate lines.

Before you move on

This is supported copying, not independent composition.

156.5 Leave room for the message

Once more, close the old form bank and fill all six lines for fictional card B · ਖ from memory. Reopen the old page only after the attempt; compare one dimension at a time and repair one difference. The form holds facts; do not paste its six labelled lines into the message.

The opening names the reader from that card. The closing thanks that reader and promises another meeting. Say which comes first before you write either.

Writing — two ends, one empty middle

Copy the two already practised ends. Leave the middle line empty for now:

ਨਮਸਤੇ ਮਨਨ।

____

ਧੰਨਵਾਦ। ਫਿਰ ਮਿਲਾਂਗੇ।

Point to the blank. It is where facts for Manan will go, not another greeting.

Your turn — check the edges

Check only the opening and closing. Does the opening name Manan? Does the closing put thanks before parting? Stop before filling the blank.

Before you move on

A blank middle is a plan, not a finished message.

156.6 Name first, language second

The old connected reading gave you these two facts about Aman. This lesson changes only their order for a reader meeting Aman on the page.

Read this

ਮੈਂ ਪੰਜਾਬੀ ਬੋਲਦਾ ਹਾਂ।

ਮੇਰਾ ਨਾਂ ਅਮਨ ਹੈ।

Both sentences are already taught. Point to the name sentence, then to the language sentence. The reader needs to know who ਮੈਂ is.

Writing — order before composing

Copy ਮੇਰਾ ਨਾਂ ਅਮਨ ਹੈ। first and ਮੈਂ ਪੰਜਾਬੀ ਬੋਲਦਾ ਹਾਂ। second. Do not join them or change their words. One sentence boundary is the whole task.

Before you move on

You ordered two old chunks; no new grammar was needed.

156.7 Copy one small body block

> Read the name sentence and the language sentence in the order chosen last time. Their meanings are already familiar.

Writing — supported two-sentence block

Copy this block, not the whole message:

ਮੇਰਾ ਨਾਂ ਅਮਨ ਹੈ। ਮੈਂ ਪੰਜਾਬੀ ਬੋਲਦਾ ਹਾਂ।

Check ਹੈ at the end of the name sentence and ਹਾਂ at the end of the speaker sentence. Keep one space after the first sentence mark.

Your turn — one contrast

Point to ਹੈ, then ਹਾਂ. Aman is named in the first sentence; the speaker says “I” in the second. Do not repair a different dimension yet.

Before you move on

The model stays visible today. Delayed recall comes next.

156.8 Recall the same two sentences later

Close the page with the copied block. Take a short pause. The only cues here are “Aman’s name” and “the language Aman speaks.”

Writing — delayed two-sentence block

From memory, write the name sentence first and the speaker-language sentence second. Leave a clear space after the first sentence mark. Do not reopen the model until both sentences are on the page.

Your turn — compare after writing

Now reopen the supported lesson. Check the sentence order, then ਹੈ and ਹਾਂ, then the mark and following space. Repair one difference at a time.

Before you move on

This is delayed recall of two known sentences, not the final message.

156.9 Repair only the endings

Recall two old endings: the name sentence says ਹੈ; the speaker sentence with ਮੈਂ says ਹਾਂ. Today no word order or spelling changes.

Read this

ਮੇਰਾ ਨਾਂ ਅਮਨ ਹਾਂ। ਮੈਂ ਪੰਜਾਬੀ ਬੋਲਦਾ ਹੈ।

Both endings have traded places. The names, spaces, sentence marks, and other words are already right. Point only to the two endings.

Writing — repair the endings

Rewrite the two sentences, changing ਹਾਂ after ਅਮਨ to ਹੈ and ਹੈ after ਬੋਲਦਾ to ਹਾਂ. Leave every other part untouched.

Before you move on

The next pass checks spaces, not endings.

156.10 Give each word its space

The greeting and name were copied separately earlier. Today only the spaces are wrong; do not change a letter or sentence mark.

Read this

ਨਮਸਤੇਮਨਨ। ਮੇਰਾਨਾਂ ਅਮਨ ਹੈ।

Point after the greeting and after ਮੇਰਾ. Those are two word boundaries, not two spelling errors.

Writing — repair only spaces

Insert one space in each crowded place. Keep the sentence marks attached to the preceding words. Compare with the old supported greeting only afterward.

Before you move on

The next pass looks inside one word.

156.11 One missing mark inside a known word

Say the familiar word for Punjabi, then picture its Gurmukhi spelling. This is a one-word check, not a new sentence.

Read this

In ਮੈਂ ਪਜਾਬੀ ਬੋਲਦਾ ਹਾਂ।, the spaces, verb, and final mark are right. The word for the language has lost its nasal mark. Compare the taught ਪੰਜਾਬੀ with ਪਜਾਬੀ and point to the missing mark.

Writing — repair one spelling

Write only ਪੰਜਾਬੀ. Check the mark above ਪ. Do not copy the rest of the sentence or turn this into an agreement pass.

Before you move on

The next pass checks where sentences end.

156.12 Put the stops back

You have already checked endings, word spaces, and one spelling. Today those are all fixed. Look only for where each familiar sentence stops.

Read this

ਨਮਸਤੇ ਮਨਨ ਮੇਰਾ ਨਾਂ ਅਮਨ ਹੈ ਮੈਂ ਪੰਜਾਬੀ ਬੋਲਦਾ ਹਾਂ

The greeting ends after the reader's name. The name fact ends after ਹੈ. The language fact ends after ਹਾਂ. No word needs to move.

Writing — repair only punctuation

Insert । at those three stops. Keep every word and existing word space. Leave one space after each new mark that is followed by another sentence.

Before you move on

Four separate repair passes are complete; the message can now grow in supported blocks.

156.13 Ask the reader, then share one small answer

The opening already names Manan. The old respectful question asks how the reader is. The old ਮੈਂ sentence gives Aman's own wellbeing.

Read this

ਤੁਸੀਂ ਕਿਵੇਂ ਹੋ?

ਮੈਂ ਠੀਕ-ਠਾਕ ਹਾਂ।

The first line faces Manan; the second speaks for Aman. The question mark belongs to the first line, the Gurmukhi sentence mark to the second.

Writing — supported wellbeing block

Copy the two lines once. Keep ਹੋ with ਤੁਸੀਂ and ਹਾਂ with ਮੈਂ. No new reply or verb form is needed.

Before you move on

This is one supported pair, not a full message.

156.14 Two interests, one familiar frame

The old liking frame begins ਮੈਨੂੰ and ends ਪਸੰਦ ਹੈ. Name the two already taught things Aman likes: Punjabi and reading.

Read this

ਮੈਨੂੰ ਪੰਜਾਬੀ ਪਸੰਦ ਹੈ।

ਮੈਨੂੰ ਪੜ੍ਹਨਾ ਪਸੰਦ ਹੈ।

The frame does not change. The first middle is a language; the second is reading. ਪੜ੍ਹਨਾ was taught earlier, including its joined spelling.

Writing — supported interest block

Copy both short sentences. Point to ਮੈਨੂੰ and ਪਸੰਦ ਹੈ in each, then check the one word that changed. Do not invent a new interest for this pass.

Before you move on

The model remains visible today.

156.15 A plan before the goodbye

> The old reading said that Aman and Manan will meet soon. The closing says they will meet again. This lesson writes only the plan, not both sentences.

Writing — supported meeting line

Copy ਅਸੀਂ ਜਲਦੀ ਮਿਲਾਂਗੇ। once. Point to ਅਸੀਂ for the two people and ਜਲਦੀ for when. Keep the sentence mark after the plan.

Your turn — place the line

In a note to Manan, this line goes after Aman's facts and before ਧੰਨਵਾਦ। ਫਿਰ ਮਿਲਾਂਗੇ। Do not write the whole note yet; point to where the line belongs.

Before you move on

All body pieces are now visible separately. Delay comes before assembly.

156.16 Retrieve the body in small blocks

> Close the four supported pages. Take a short pause. Keep three English cues: who Aman is, how the two people are and what Aman likes, and when they meet.

Writing — delayed blocks, not a whole letter

Write the old name-and-language pair. Pause. Write the old reader question and Aman's wellbeing reply. Pause. Write the two old liking sentences and the one meeting plan. Leave the opening and closing for later. Do not reopen the supported pages until every block has an attempt.

Your turn — compare one block at a time

Reopen one earlier lesson for each block. Check order and meaning first, then endings, word spaces, spelling, and punctuation in separate passes. Repair only the first difference found on a pass.

Before you move on

This is delayed retrieval of old blocks. It does not yet score an independently assembled message.

156.17 One visible message from old blocks

Every line below has already been practised alone or in a short pair. Today the only new demand is assembly for Manan. Read the opening and closing first, then find the small body blocks between them.

Read this

ਨਮਸਤੇ ਮਨਨ। ਤੁਸੀਂ ਕਿਵੇਂ ਹੋ?

ਮੇਰਾ ਨਾਂ ਅਮਨ ਹੈ। ਮੈਂ ਪੰਜਾਬੀ ਬੋਲਦਾ ਹਾਂ। ਮੈਂ ਠੀਕ-ਠਾਕ ਹਾਂ।

ਮੈਨੂੰ ਪੰਜਾਬੀ ਪਸੰਦ ਹੈ। ਮੈਨੂੰ ਪੜ੍ਹਨਾ ਪਸੰਦ ਹੈ।

ਅਸੀਂ ਜਲਦੀ ਮਿਲਾਂਗੇ। ਧੰਨਵਾਦ। ਫਿਰ ਮਿਲਾਂਗੇ।

Count the space-separated words: **30**. The greeting and question face the reader; the middle shares familiar facts and interests; the meeting plan leads into thanks and goodbye.

Writing — supported assembly

Copy one line at a time, pausing after each line. Keep the reader's question mark distinct from the Gurmukhi sentence marks. Check meaning and order before spelling. This is a visible model, not independent composition.

Before you move on

The model disappears for the delayed attempt.

156.18 Recall the model only after a pause

Close the supported message. Wait briefly. Keep only the broad English memory cues: reader greeting, wellbeing

> question, name and language, interests, meeting plan, thanks and goodbye.

Writing — delayed assembly

Recall the earlier Gurmukhi message in those small blocks. Pause after the name-and-language block and again after the interests. Finish the whole attempt before reopening the model. Do not treat this recall of a model as independent choice of content.

Your turn — compare in passes

Now reopen the supported page. Check that the note addresses Manan and ends with the meeting plan, then check sentence order, endings, word spaces, spelling, and punctuation one at a time. Count the words last.

Before you move on

The next lesson changes the task: it gives a reader and purpose, not a message to reproduce.

156.19 Manan writes a new message to Aman

> Close all earlier pages. You already know the short pieces needed for a note. This time there is no sentence bank or sample to reproduce.

Writing — independent named-reader message

As Manan, write Aman a **30–40-word** Gurmukhi message. Greet Aman and ask how he is. Identify yourself as Manan. Include the already taught liking for water and at least one other familiar interest. Put your own wellbeing reply *after* the interest sentence or sentences. Suggest meeting again and close. Choose any additional familiar fact you need to reach the word band. Do not reopen a page or use a dictionary, translator, or spell-checker before finishing your draft.

There is no exam clock. Write one short block, pause, and continue. The earlier supported model went from Aman to Manan, did not include the water liking, and put the wellbeing reply earlier. Recalling it unchanged cannot meet this new task.

Your turn — self-check after the draft

Count space-separated words and keep the result between 30 and 40. Check one dimension at a time: the named reader and appropriate tone; meaning and sentence order; agreement; spacing; Gurmukhi spelling; then punctuation. Only after recording those checks may you reopen earlier pages to repair a word. A different well-formed message can be valid; no single exact string is the answer to free composition.

Before you move on

Record the word count and one repair you made. This untimed checkpoint does not award timed-paper credit or whole-A1 readiness; two complete mocks and human validation remain separate work.

Chapter 157

Try the A1 Writing Tasks with Short Clocks

Modes: ↙ **pen** (9) 🚗 **Hands-free start:** none of the 9 lessons.

> ***By the end of this chapter:*** I can complete a six-field Gurmukhi form and a 30–40-word named-reader message in separate short timed checkpoints, then repair content and script in bounded passes without mistaking these drills for a complete A1 mock.
>
> *After a timed six-field mixed-cue form and a short message pacing rehearsal, the learner independently writes a 30–40-word Gurmukhi message for a named reader under a short clock; the full twenty-minute paper remains for the mocks.*

157.1 Three lines from two old cards

The old fictional A · ਕ and B · ਖ cards are familiar. A form can choose a different old card for each line. The mark tells you which known value to retrieve; it is not a new word or a new person to memorise.

Writing — supported mixed selection

Reopen the two old value banks for this rehearsal only. Read one label and its mark, select the taught value, then cover that line before moving to the next. There is no clock and no independent writing credit in this supported step.

ਨਾਂ (A · ਕ): _________

ਭਾਸ਼ਾ (B · ਖ): _________

ਰਿਹਾਇਸ਼ (A · ਕ): _________

Your turn — one check

Check only card selection first. Then check spelling and the space after each colon in a separate pass. The next lesson will close the banks and use all six familiar labels.

> **Before you move on**
>
> Close both banks after the supported check.

157.2 A short clock for six known fields

> Close the old cards. Keep a blank page and a three-minute timer. The six marks below mix familiar values; no model is shown.

Writing — independent timed form

Start the three-minute timer. Retrieve each marked value and write all six fields in Gurmukhi, with Gurmukhi digits for age and phone. Stop on time and leave unfinished lines as evidence. Keep models and aids closed.

ਨਾਂ (A · ਕ): _________

ਭਾਸ਼ਾ (B · ਖ): _________

ਰਿਹਾਇਸ਼ (A · ਕ): _________

ਕੰਮ (B · ਖ): _________

ਉਮਰ (A · ਕ): _________

ਫ਼ੋਨ (B · ਖ): _________

Your turn — record, then check

Record completed lines and elapsed seconds. After the timer, check values, spelling, spacing, digit order, and phone grouping separately. Preserve the first attempt; repair is not timed evidence.

Before you move on

This short checkpoint is not the full A1 paper. Two complete mocks test the twenty-minute form-plus-message condition.

157.3 Pace the first two message chunks

The whole A1 writing paper lasts twenty minutes. Its message is 30–40 words for one named reader and purpose. Today you will time only a small opening, not pretend to fit that whole paper into a short lesson.

Writing — one small timed opening

Close the earlier message pages. Imagine Aman writing to Manan. In ninety seconds, make two familiar chunks: a greeting that names Manan, then one wellbeing question. You may choose the exact taught words and punctuation; no sample sentence is visible here. Stop at ninety seconds and record the number of words you produced.

Your turn — inspect one boundary

After the timer, check only whether Manan is clearly the reader. Next check the question mark and spacing. Repairing after the clock helps learning but does not change the recorded first attempt.

Before you move on

The next checkpoint uses a fresh purpose, a full 30–40-word message, and a short clock. The old supported message lacks the required water detail, so copying its old order would miss that purpose.

157.4 A new message under a short clock

Close all earlier message pages. Set a three-minute timer and keep a blank page. The task below uses known language, but the reader, speaker, and purpose combination is not the old independent note. No romanization, sentence bank, or copyable answer is available while the clock runs.

Writing — independent timed message

As Aman, write Manan a **30–40-word** Gurmukhi message. Greet Manan and ask about his wellbeing. Say that you like water and one other familiar thing. Then suggest meeting again and close in a fitting tone. You may add other already taught words to reach the band. Choose and order your own sentences; the old supported Aman-to-Manan model did not include the water purpose.

Start the timer. Stop at three minutes, even if unfinished. Record the word count and elapsed time on a separate line. Do not use a dictionary, translator, spell-checker, or earlier page during this first attempt.

Your turn — record before repair

Before reopening anything, note whether the named reader, water detail, meeting purpose, and 30–40-word band are present. Keep the first attempt unchanged. Repair comes in the next short lesson, not inside the timed score.

Before you move on

This short message checkpoint is timed writing evidence, not a complete twenty-minute A1 paper. The two full mocks and human validation remain separate gates to readiness.

157.5 Repair without rewriting the clock

> Keep the original timed form and message unchanged. Copy neither into a new scored answer. The clock showed what you could produce then; this short lesson shows what one careful repair can teach next.

Your turn — separate checks

First inspect task fulfilment: six requested form values, one named reader, the requested message details, and a 30–40-word message. Then inspect order: each value beside its own label, and greeting, content, invitation, and close in a readable sequence. Third, inspect Punjabi vocabulary and grammar, including agreement and tone. Last, inspect Gurmukhi spelling, word spaces, punctuation, digit order, and phone grouping. Do one pass at a time.

Choose one error dimension and write one corrected line on a separate page. Say what changed. Do not present this later line as the timed response.

Before you move on

Record one next practice target for the form and one for the message. A full paper still asks for both tasks in twenty minutes; only the complete timed mocks can test that combined condition.

157.6 Return to two familiar form lines

Close the old A · ਕ and B · ਖ value banks. Read each mark before recalling its value. Set a one-minute practice timer; it is not an A1 paper score.

Your turn

Start the practice timer. Write these two known lines in Gurmukhi. Stop when the minute ends, even if a line is unfinished.

ਨਾਂ (A · ਕ): _________

ਭਾਸ਼ਾ (B · ਖ): _________

Only after stopping, check the old values: **ਨਾਂ: ਅਮਨ** and **ਭਾਸ਼ਾ: ਹਿੰਦੀ**. On a separate page, repair one missed value or one Gurmukhi spelling. Leave both the first practice lines and the earlier six-field timed form untouched.

Before you move on

Cover the checks. Recall the order: read each card mark, write under the short practice clock, stop, then repair on another page. This return does not count as a complete form-and-message mock.

157.7 Check a second pair without changing the first attempt

Close the old card banks. Read the A · ਕ and B · ਖ marks aloud. Each mark chooses a familiar value, not a new person or word.

Your turn

Use a one-minute practice timer. Write these two lines without a model, then stop. This is a retrieval rehearsal, not another scored checkpoint.

ਰਿਹਾਇਸ਼ (A · ਕ): ________

ਕੰਮ (B · ਖ): ________

Check after the clock: **ਰਿਹਾਇਸ਼: ਪਿੰਡ** and **ਕੰਮ: ਨੌਕਰੀ**. If a value or letter slipped, write one corrected line on another page. Name the one thing you changed: card choice, Gurmukhi spelling, or spacing. Keep the clocked practice and the earlier timed form as they were.

Before you move on

Cover the answers. Recall the two marked values, then say why a later corrected line must not be counted as the first timed response. Full form-and-message mocks and human review still lie ahead.

157.8 Return to the named reader and opening

> Close earlier message pages. Recall the known reader, Manan, and the two opening jobs: greet him and ask about his wellbeing. Use known Punjabi only.

Your turn

Set a one-minute practice timer. As Aman, write a Gurmukhi greeting to Manan and one wellbeing question. Stop when the minute ends. On a separate line, record whether the reader was named and the question ended with a question mark. Do not change the clocked lines while checking them.

If one element slipped, write one corrected line on another page. A later repair helps you learn, but it cannot replace either original timed attempt.

Before you move on

Cover your practice lines. Say the two opening jobs in order and name the reader. The full message also needs its familiar purpose and close; the two complete A1 mocks have not been attempted here.

157.9 Return to the familiar message purpose

> On a blank page, recall the order: Manan as reader, a greeting and wellbeing question, the familiar water detail, a meeting invitation, then a close. Keep earlier models closed.

Your turn

Set a two-minute practice timer. As Aman, write a 30–40-word Gurmukhi message to Manan with those already taught details. Stop when the timer ends, even if the word band is unfinished. This is an unscored retrieval, not a full A1 paper or a replacement for the earlier independent checkpoint.

After stopping, record the word count. Check the named reader, water detail, meeting purpose, and close one at a time. Keep the clocked page unchanged; if needed, repair one line on another page and name what changed.

Before you move on

Cover both pages. Recall the opening and purpose in order. Later full twenty-minute form-and-message mocks, followed by human review, are still required before a durable A1 writing claim.

Chapter 158

Recall Familiar Quality Words at a Distance

Modes: 🚗 **voice** (2) 🚗 **Hands-free start:** both lessons.

> ***By the end of this chapter:*** I can retrieve five already-taught Punjabi quality words in familiar food and truth contexts without confusing this separate review with the scored A1 writing tasks.
>
> *At a long interval, identify stale, ripe, unripe, true, and false from short familiar cues without introducing new Punjabi or borrowing the timed writing checkpoints.*

158.1 Three old quality words at a food stall

> Say the old word for **stale**. (ਬੇਹਾ, *behā*.) *Cover:* the answer before the next cue

Your turn

Imagine familiar food at a stall. Say only the old Punjabi describing word; the English scenes do not add a Punjabi noun to learn.

- Food left too long is **stale**. ਬੇਹਾ (*behā*).
- Fruit ready to eat is **ripe**. ਪੱਕਾ (*pakkā*).
- Fruit not yet ripe is **unripe**. ਕੱਚਾ (*kaccā*).

The words already carried these meanings when first taught. *Pakkā* can also mean firm; *kaccā* can also mean raw. Do not add a new sense from this review.

Before you move on

Cover: the three answers
Say the Punjabi for **unripe**, **stale**, then **ripe**. Only after all three, hear the answers: ਕੱਚਾ, ਬੇਹਾ, ਪੱਕਾ. If one slipped, revisit that earlier quality word.

158.2 Is it true? Return to all five

> Say the word for **true**, then **false or lying**. Hear the answers: ਸੱਚਾ (*saccā*), then ਝੂਠਾ (*jhūṭhā*).

Your turn

An account that matches what happened is **true**: ਸੱਚਾ. An account that does not is **false**: ਝੂਠਾ. These English cues add no new Punjabi statement to memorise.

Before you move on

Cover: the earlier answers
Say one old Punjabi word for each: **false**, **ripe**, **stale**, **true**, **unripe**. Hear the answers in that same order: ਝੂਠਾ, ਪੱਕਾ, ਬੇਹਾ, ਸੱਚਾ, ਕੱਚਾ. Revisit only a missed earlier quality word. These five distant retrievals do not turn the earlier short writing drills into an A1 mock.

Chapter 159

Return to an Earlier Repair and Familiar Words

Modes: **voice** (3) **pen** (1) **Hands-free start:** none of the 4 lessons.

> ***By the end of this chapter:*** I can keep a later Gurmukhi repair separate from a timed first attempt and retrieve familiar words for rich, poor, young, strong, weak, and to hide without mistaking these reviews for an A1 mock.
>
> *From short familiar cues, recall the five earlier descriptions and the earlier verb for hiding without adding Punjabi language or borrowing scored writing credit.*

159.1 A later correction stays on another page

> Cover the earlier answer. Read the familiar label ਨਾਂ and remember the A · ਕ card value. No new card or person is being introduced.

Your turn

Set a 45-second *practice* clock. Write the one known line in Gurmukhi, then stop when the clock ends:

> ਨਾਂ (A · ਕ): _________

After stopping, check **ਨਾਂ: ਅਮਨ**. If the value or spelling slipped, write one corrected line on a second page. Keep the first practice line and the earlier timed form visible and unchanged. Say which is the later correction; it cannot replace either first attempt.

Before you move on

Cover the check. Recall the order: first attempt, stop, inspect, then repair separately. The repair helps learning but never raises the first attempt's score.

159.2 Three old words for describing people

Hear the cue **rich**. Say the old Punjabi word before the spoken model: ਅਮੀਰ (*amīr*).

Your turn

Say only the old describing word for each familiar meaning:

- **poor** — ਗ਼ਰੀਬ (*garīb*).
- **young** — ਜਵਾਨ (*javān*).
- **rich** — ਅਮੀਰ (*amīr*).

These are word meanings, not labels for a real person in the room.

Before you move on

Hear **young**, **rich**, then **poor**. Pause after each cue and say its Punjabi word before the model: ਜਵਾਨ, ਅਮੀਰ, ਗ਼ਰੀਬ.

159.3 Two old words for strength

Hear the cue **strong**. Say the old Punjabi word before the spoken model: ਤਕੜਾ (*takṛā*).

Your turn

Hear the contrast, then say the familiar word after a pause:

- **weak** — ਕਮਜ਼ੋਰ (*kamzor*).

- **strong** — ਤਕੜਾ (*takṛā*).

The cues ask for meanings already learned, not a new sentence pattern.

Before you move on

Hear **strong**, then **weak**. Pause after each cue and say its Punjabi word before the model: ਤਕੜਾ, ਕਮਜ਼ੋਰ.

159.4 Hide, then mix the familiar descriptions

Hear the cue **to hide**. Say the earlier verb before the spoken model: ਲੁਕਣਾ (*lukṇā*).

Your turn

Mix the old meanings. Pause after each cue before its spoken model:

- **young** — ਜਵਾਨ (*javān*).
- **to hide** — ਲੁਕਣਾ (*lukṇā*).
- **weak** — ਕਮਜ਼ੋਰ (*kamzor*).
- **rich** — ਅਮੀਰ (*amīr*).
- **strong** — ਤਕੜਾ (*takṛā*).
- **poor** — ਗ਼ਰੀਬ (*garīb*).

Every Punjabi word on this list was already taught. The order, not the language, is new.

Before you move on

Hear **poor**, **strong**, **to hide**, **rich**, **weak**, then **young**. Pause after each cue and recall its Punjabi word before the model: ਗ਼ਰੀਬ, ਤਕੜਾ, ਲੁਕਣਾ, ਅਮੀਰ, ਕਮਜ਼ੋਰ, ਜਵਾਨ. Revisit only a missed old word.

Chapter 160

Return to Four Familiar Action Words

Modes: **voice** (3) **eyes** (1) **Hands-free start:** the first 2 of 4 lessons.

> ***By the end of this chapter:*** I can retrieve the already-taught Punjabi verbs for falling, teaching, lifting, and jumping after a long gap, one at a time, without claiming a scored A1 mock.
>
> *Recall the four familiar Chapter 148 actions from short cues without introducing new Punjabi or claiming scored writing credit.*

160.1 An old word for falling

> Hear **to fall**. Say the Punjabi word before the model: ਡਿੱਗਣਾ (*ḍiggṇā*).

Your turn

Hear ਡਿੱਗਣਾ and say its familiar meaning. The meaning is **to fall**. Now hear **to fall** again, with the word out of sight, and say ਡਿੱਗਣਾ before the model. No sentence is needed yet.

Before you move on

Hear **to fall** once more. Recall ਡਿੱਗਣਾ. If it did not come back, listen to the model and retry once. This untimed word return is not part of a scored A1 mock.

160.2 An old word for teaching

Hear **to teach**. Say the earlier Punjabi word before the model: ਸਿਖਾਉਣਾ (*sikhāuṇā*).

Your turn

Hear the model ਸਿਖਾਉਣਾ. Recall its old meaning, **to teach**. Then hear **to teach** and say ਸਿਖਾਉਣਾ once more before the spoken model. There is no new grammar here.

Before you move on

One last cue: **to teach**. Recall ਸਿਖਾਉਣਾ before the model. Retry a missed old word once; do not count this as a timed or scored writing attempt.

160.3 An old word for lifting

Hear **to lift**. Recall ਚੁੱਕਣਾ (*cukkṇā*).

Your turn

Look at ਚੁੱਕਣਾ and remember **to lift**. Look away. Hear **to lift** and say ਚੁੱਕਣਾ before the spoken model. Stay with the old word; no new action is being taught.

Before you move on

Hear **to lift** one final time. Say ਚੁੱਕਣਾ. Listen and retry once if needed. This is an untimed vocabulary return, separate from the scored A1 writing tasks.

160.4 An old word for jumping

Hear **to jump**. Say the old Punjabi word before the model: ਟੱਪਣਾ (*ṭappṇā*).

Your turn

Pause after each familiar meaning, then listen to the old word:

- **to lift** — ਚੁੱਕਣਾ (*cukkṇā*).
- **to fall** — ਡਿੱਗਣਾ (*ḍiggṇā*).
- **to jump** — ਟੱਪਣਾ (*ṭappṇā*).
- **to teach** — ਸਿਖਾਉਣਾ (*sikhāuṇā*).

The shuffled order is the only new part of this practice.

Before you move on

Hear **to teach**, **to jump**, **to fall**, then **to lift**. Pause after each cue and recall its Punjabi word before the model: ਸਿਖਾਉਣਾ, ਟੱਪਣਾ, ਡਿੱਗਣਾ, ਚੁੱਕਣਾ. Revisit only the old word you missed.

Chapter 161

Return to Four More Familiar Actions

Modes: 🚘 **voice** (4)   🚘 **Hands-free start:** all 4 lessons.

> ***By the end of this chapter:*** I can retrieve the already-taught Punjabi verbs for swimming, climbing, calling, and using after a long gap, one at a time, without claiming scored A1 writing or mock credit.
>
> *Recall four familiar Chapter 149 actions from short spoken cues without introducing new Punjabi or claiming scored writing credit.*

161.1 An old word for swimming

> Hear **to swim**. Say the earlier Punjabi word before the model: ਤਰਨਾ (*tarnā*).

Your turn

Hear ਤਰਨਾ. Recall its old meaning, **to swim**. Now hear **to swim** and say ਤਰਨਾ before the spoken model. No sentence or new grammar is needed.

Before you move on

One last cue: **to swim**. Recall ਤਰਨਾ. Listen and retry once if it does not come back. This is untimed vocabulary retrieval, not scored A1 writing or mock evidence.

161.2 An old word for climbing

Hear **to climb**. Say the earlier Punjabi word before the model: ਚੜ੍ਹਨਾ (*caṛhnā*).

Your turn

Hear ਚੜ੍ਹਨਾ. Give its old meaning, **to climb**. Then hear **to climb** and say ਚੜ੍ਹਨਾ before the model. This is the same word you already learned, not a new form.

Before you move on

Hear **to climb** once more. Recall ਚੜ੍ਹਨਾ. If it slips away, hear the model and retry once. This untimed return is separate from scored A1 production.

161.3 An old word for calling

Hear **to call**. Say the Punjabi word before the model: ਬੁਲਾਉਣਾ (*bulāuṇā*).

Your turn

Hear ਬੁਲਾਉਣਾ. Recall **to call**. Then hear **to call** and say ਬੁਲਾਉਣਾ before the spoken model. Stay with this single old action.

Before you move on

One last cue: **to call**. Recall ਬੁਲਾਉਣਾ. Listen and retry once if needed. This is not a timed or scored mock.

161.4 An old word for using

Hear **to use**. Say the old word before the model: ਵਰਤਣਾ (*vartṇā*).

Your turn

Pause after each familiar meaning, then hear its model:

- **to call** — ਬੁਲਾਉਣਾ (*bulāuṇā*).
- **to swim** — ਤਰਨਾ (*tarnā*).
- **to use** — ਵਰਤਣਾ (*vartṇā*).
- **to climb** — ਚੜ੍ਹਨਾ (*caṛhnā*).

Only the order of these four old words has changed.

Before you move on

Hear **to climb**, **to use**, **to call**, then **to swim**. Pause after each cue and recall its Punjabi word before the model: ਚੜ੍ਹਨਾ, ਵਰਤਣਾ, ਬੁਲਾਉਣਾ, ਤਰਨਾ. Revisit only the old word you missed.

Chapter 162

Return to Three Familiar A1 Writing Moves

Modes: ✎ **pen** (3) 🚗 **Hands-free start:** none of the 3 lessons.

> ***By the end of this chapter:*** I can retrieve mixed-card form choices, preserve a six-field timed first attempt, and pace a named-reader message opening without treating these short returns as complete A1 mocks.
>
> *Inspect a preserved mixed-card timed form attempt, then write a fresh, short named-reader message opening without model or mock credit.*

162.1 Return to three old card choices

> The old A · ਕ and B · ਖ cards choose values you have already learned. For this supported return, reopen the old word banks: A has ਅਮਨ, ਪੰਜਾਬੀ, ਪਿੰਡ; B has ਮਨਨ, ਹਿੰਦੀ, ਸ਼ਹਿਰ. No new word or person is being introduced.

Writing — supported mixed selection

With the banks visible, write the old value chosen by each mark. Go one line at a time. There is no clock and no independent-writing credit here.

ਨਾਂ (B · ਖ): ________

ਭਾਸ਼ਾ (A · ਕ): ________

ਰਿਹਾਇਸ਼ (B · ਖ): ________

Your turn — check after writing

First check the three card choices: ਮਨਨ, ਪੰਜਾਬੀ, ਸ਼ਹਿਰ. On a separate pass, check spelling and the space after each colon. Close the banks again. This small supported return is not a complete A1 mock.

Before you move on

Say which card mark belonged to each of your three lines. The next return uses all six familiar fields without a visible bank.

162.2 Return to the six familiar fields

Close the value banks and earlier forms. Have a blank page and a three-minute timer ready. The marks below select only old values. Do not look at a model while the timer runs.

Writing — independent timed form

Start the timer. Write all six marked fields in Gurmukhi; use Gurmukhi digits for age and phone. Stop at three minutes, leaving unfinished lines as they are. Keep this first attempt unchanged.

ਨਾਂ (B · ਖ): _________

ਭਾਸ਼ਾ (A · ਕ): _________

ਰਿਹਾਇਸ਼ (B · ਖ): _________

ਕੰਮ (A · ਕ): _________

ਉਮਰ (B · ਖ): _________

ਫ਼ੋਨ (A · ਕ): _________

Your turn — repair separately

After stopping, reopen the old banks and check values, spelling, spacing, digit order, and phone grouping one at a time. Repair on another page; it does not replace the clocked evidence. This return is not a complete A1 mock.

Before you move on

Record how many lines were complete at the stop. The full form-plus-message condition belongs to the later two complete mocks.

162.3 Return to the reader and the clock

> Keep the previous lesson's six-field first attempt. In one minute, point to a line whose card mark you selected correctly and a line you would repair. Do not rewrite the timed page; its first-attempt evidence stays as it was.

Writing — one small timed opening

Close the earlier message pages. As Aman, write to Manan in Gurmukhi. In ninety seconds, greet your named reader and ask one familiar wellbeing question. Choose your own taught words; no sample sentence is visible. Stop on time and keep the first attempt.

Your turn — inspect one boundary

After the timer, check whether Manan is clearly the reader. Then check the question mark and spacing. A repair belongs on another page and is not timed evidence. This opening is not a complete A1 mock.

Before you move on

The complete paper still needs a fresh purpose, a 30–40-word message, and a twenty-minute form-plus-message clock. Those conditions belong to the two separate mocks, not this short return.

Chapter 163

Return to Making, Sewing, Filling, and Pulling

Modes: 🚗 **voice** (4) 🚗 **Hands-free start:** all 4 lessons.

> ***By the end of this chapter:*** I can retrieve four already-taught Punjabi action verbs after a long gap, one at a time, without claiming scored A1 writing or complete mock credit.
>
> *Recall four familiar making, sewing, filling, and pulling actions from short spoken cues without introducing new Punjabi.*

163.1 An old word for making

Hear **to make**. Recall ਬਣਾਉਣਾ (*baṇāuṇā*).

Your turn

Hear ਬਣਾਉਣਾ. Recall **to make**. Now hear **to make** once more. Say ਬਣਾਉਣਾ before the model. One word is enough; no sentence is needed.

Before you move on

One last cue: **to make**. Recall ਬਣਾਉਣਾ. Listen and retry once if the word does not come back.

163.2 An old word for sewing

Hear **to sew**. Say ਸਿਉਣਾ (*siuṇā*) before the model.

Your turn

Hear ਸਿਉਣਾ. Recall its meaning, **to sew**. Then hear **to sew** again. Recall ਸਿਉਣਾ. One familiar word is the whole answer.

Before you move on

Hear **to sew** once more. Say ਸਿਉਣਾ. If needed, listen to the model and try again once.

163.3 An old word for filling

Hear **to fill**. Recall ਭਰਨਾ (*bharnā*).

Your turn

Hear ਭਰਨਾ. Recall **to fill**. Now hear **to fill**. Say ਭਰਨਾ before the model. Only this old meaning and word are needed.

Before you move on

Hear **to fill** again. Recall ਭਰਨਾ. Listen and retry once if the word feels distant.

163.4 An old word for pulling

Hear **to pull**. Recall ਖਿੱਚਣਾ (*khiccṇā*).

Your turn

Pause after each familiar meaning, then hear its model:

- **to fill** — ਭਰਨਾ (*bharnā*).
- **to make** — ਬਣਾਉਣਾ (*baṇāuṇā*).
- **to pull** — ਖਿੱਚਣਾ (*khiccṇā*).
- **to sew** — ਸਿਉਣਾ (*siuṇā*).

Only the order of these four old words has changed.

Before you move on

Hear **to sew**, **to pull**, **to make**, then **to fill**. Pause after each cue and recall its Punjabi word before the model: ਸਿਉਣਾ, ਖਿੱਚਣਾ, ਬਣਾਉਣਾ, ਭਰਨਾ. Revisit only the old word you missed.

Chapter 164

Return to Waking, Driving, and Saying

Modes: 🚗 **voice** (3) 🚗 **Hands-free start:** all 3 lessons.

> ***By the end of this chapter:*** I can retrieve three already-taught Punjabi action verbs after a long gap, one at a time, without claiming scored A1 writing or complete mock credit.
>
> *Recall waking, driving, and saying from short familiar cues without introducing new Punjabi.*

164.1 An old word for waking

Hear **to wake up**. Recall ਜਾਗਣਾ (*jāgṇā*).

Your turn

Hear ਜਾਗਣਾ. Recall **to wake up**. Now hear **to wake up** again. Say ਜਾਗਣਾ before the model. One old word is enough.

Before you move on

One last cue: **to wake up**. Recall ਜਾਗਣਾ. Listen and retry once if the word does not come back.

164.2 An old word for driving

Hear **to drive**. Say ਚਲਾਉਣਾ (*calāuṇā*) before the model.

Your turn

Hear ਚਲਾਉਣਾ. Recall **to drive**. Then hear **to drive** again. Recall ਚਲਾਉਣਾ. Only this old meaning and word are needed.

> Before you move on
>
> Hear **to drive** once more. Say ਚਲਾਉਣਾ. If needed, listen to the model and try again once.

164.3 An old word for saying

Hear **to say**. Recall ਕਹਿਣਾ (*kahiṇā*).

Your turn

Pause after each familiar meaning, then hear its model:

- **to drive** — ਚਲਾਉਣਾ (*calāuṇā*).
- **to say** — ਕਹਿਣਾ (*kahiṇā*).
- **to wake up** — ਜਾਗਣਾ (*jāgṇā*).

Only the order of these old words has changed.

> Before you move on
>
> Hear **to wake up**, **to say**, then **to drive**. Pause after each cue and recall its Punjabi word before the model: ਜਾਗਣਾ, ਕਹਿਣਾ, ਚਲਾਉਣਾ. Revisit only the old word you missed.

Chapter 165

Return to Living, Spending, Saving, and Sowing

Modes: 🚗 **voice** (4) 🚗 **Hands-free start:** all 4 lessons.

> ***By the end of this chapter:*** I can retrieve four already-taught Punjabi action verbs after a long gap, one at a time, without claiming scored A1 writing or complete mock credit.
>
> *Recall living, spending, saving, and sowing from short familiar cues without introducing new Punjabi.*

165.1 An old word for living

Hear **to live**. Recall ਜੀਉਣਾ (*jīuṇā*).

Your turn

Hear ਜੀਉਣਾ. Recall **to live**. Then hear **to live** again. Say ਜੀਉਣਾ before the model. Only this old word is needed.

Before you move on

One last cue: **to live**. Recall ਜੀਉਣਾ. Listen and retry once if it does not come back.

165.2 An old word for spending

Hear **to spend**. Say ਖ਼ਰਚਣਾ (*kharcṇā*) before the model.

Your turn

Hear ਖ਼ਰਚਣਾ. Recall **to spend**. Now hear **to spend**. Recall ਖ਼ਰਚਣਾ. One old word is enough.

Before you move on

Hear **to spend** once more. Say ਖ਼ਰਚਣਾ. If needed, listen to the model and try again once.

165.3 An old word for saving

Hear **to save**. Recall ਬਚਾਉਣਾ (*bacāuṇā*).

Your turn

Hear ਬਚਾਉਣਾ. Recall **to save**. Then hear **to save** again. Say ਬਚਾਉਣਾ before the model. Keep to this one old meaning.

Before you move on

One last cue: **to save**. Recall ਬਚਾਉਣਾ. Listen and retry once if needed.

165.4 An old word for sowing

Hear **to sow**. Recall ਬੀਜਣਾ (*bījṇā*).

Your turn

Pause after each familiar meaning, then hear its model:

- **to save** — ਬਚਾਉਣਾ (*bacāuṇā*).
- **to live** — ਜੀਉਣਾ (*jīuṇā*).
- **to sow** — ਬੀਜਣਾ (*bījṇā*).
- **to spend** — ਖ਼ਰਚਣਾ (*kharcṇā*).

Only the order of these old words has changed.

Before you move on

Hear **to sow**, **to spend**, **to live**, then **to save**. Pause after each cue and recall its Punjabi word before the model: **ਬੀਜਣਾ**, **ਖ਼ਰਚਣਾ**, **ਜੀਉਣਾ**, **ਬਚਾਉਣਾ**. Revisit only the old word you missed.

Chapter 166

Return to Running, Wandering, and Stopping

Modes: 🚗 **voice** (3) 🚗 **Hands-free start:** all 3 lessons.

> ***By the end of this chapter:*** I can retrieve three already-taught Punjabi action verbs after a long gap, one at a time, without claiming scored A1 writing or complete mock credit.
>
> *Recall running, wandering, and stopping from short familiar cues without introducing new Punjabi.*

166.1 An old word for running

Hear **to run**. Recall ਭੱਜਣਾ (*bhajjṇā*).

Your turn

Hear ਭੱਜਣਾ. Recall **to run**. Then hear **to run** again. Say ਭੱਜਣਾ before the model. Only this old word is needed.

Before you move on

One last cue: **to run**. Recall ਭੱਜਣਾ. Listen and retry once if it does not come back.

166.2 An old word for wandering

Hear **to wander, to go around**. Recall ਘੁੰਮਣਾ (*ghummṇā*).

Your turn

Hear ਘੁੰਮਣਾ. Recall **to wander, to go around**. Then hear the English cue again. Say ਘੁੰਮਣਾ before the model. Only this old word is needed.

Before you move on

One last cue: **to wander, to go around**. Recall ਘੁੰਮਣਾ. Listen and retry once if it does not come back.

166.3 An old word for stopping

Hear **to stop**. Recall ਰੁਕਣਾ (*rukṇā*).

Your turn

Pause after each familiar meaning, then hear its model:

- **to wander, to go around** — ਘੁੰਮਣਾ (*ghummṇā*).
- **to stop** — ਰੁਕਣਾ (*rukṇā*).
- **to run** — ਭੱਜਣਾ (*bhajjṇā*).

Only the order of these old words has changed.

Before you move on

Hear **to stop**, **to run**, then **to wander**. Pause after each cue and recall its Punjabi word before the model: ਰੁਕਣਾ, ਭੱਜਣਾ, ਘੁੰਮਣਾ. Revisit only the old word you missed.

Chapter 167

Return to Believing and Changing

Modes: 🚗 **voice** (2) 🚗 **Hands-free start:** both lessons.

> ***By the end of this chapter:*** I can retrieve two already-taught Punjabi action verbs after a long gap, one at a time, without claiming scored A1 writing or complete mock credit.
>
> *Recall believing and changing from short familiar cues without introducing new Punjabi.*

167.1 An old word for believing

Hear **to believe, to agree**. Recall ਮੰਨਣਾ (*mannṇā*).

Your turn

Hear ਮੰਨਣਾ. Recall **to believe, to agree**. Then hear the English cue again. Say ਮੰਨਣਾ before the model. Only this old word is needed.

Before you move on

One last cue: **to believe, to agree**. Recall ਮੰਨਣਾ. Listen and retry once if it does not come back.

167.2 An old word for changing

Hear **to change**. Recall ਬਦਲਣਾ (*badalṇā*).

Your turn

Pause after each familiar meaning, then hear its model:

- **to change** — ਬਦਲਣਾ (*badalṇā*).
- **to believe, to agree** — ਮੰਨਣਾ (*mannṇā*).

Only the order of these old words has changed.

Before you move on

Hear **to believe, to agree**, then **to change**. Pause after each cue and recall its Punjabi word before the model: ਮੰਨਣਾ, ਬਦਲਣਾ. Revisit only the old word you missed.

Chapter 168

Return to the Date Line

Modes: ✎ **pen** (3) 🚘 **Hands-free start:** none of the 3 lessons.

> ***By the end of this chapter:*** I can retrieve three already-taught pieces of a fictional Punjabi date form after a long gap, one at a time, without claiming scored A1 writing or complete mock credit.
>
> *Recall the date label, two taught month positions, and the printed day/month/year order without introducing new Punjabi.*

168.1 The old date label, once more

> Look at **ਤਾਰੀਖ਼:** (*tārīkh*). Recall that it labels the **date** line, not an age or phone line. The blank after it is for a date.

Your turn

Trace **ਤਾਰੀਖ਼:** with a finger, then copy only the label and its colon once. Leave the value blank. Compare one mark at a time with the visible model.

> Before you move on
>
> Cover the model. Which familiar label asks for a date? Write **ਤਾਰੀਖ਼:**, then uncover and repair one mark if needed. This is retrieval practice, not a scored form submission.

168.2 Two old month positions

> Look at ੦੧ for January (ਜਨਵਰੀ) and ੦੨ for February (ਫ਼ਰਵਰੀ). The first place is zero in both; the second changes.

Your turn

With both codes visible, copy ੦੧ under January and ੦੨ under February. Say the month, cover the code, and try its two digits once. Uncover and repair only the differing digit.

Before you move on

From the old English cue **February**, write its month position ੦੨. Pause before looking. These are month positions, not new Punjabi words.

168.3 The old printed date order

> Look at the printed order from left to right: **day**, **month**, **year**. The familiar model ____/____/________ has two places, two places, then four places. Slashes separate the boxes; they are not digits.

Your turn

Copy only the empty frame ____/____/________. Label its boxes in English: day, month, year. Keep the two slash marks visible; do not fill a real date.

Before you move on

Cover the model. Draw the empty frame and point to the **middle month** box. Uncover and check its order and two separators. This is a no-stakes retrieval, not independent scored writing.

Chapter 169

Return to Two Fictional Dates

Modes: **pen** (2) **Hands-free start:** neither of the 2 lessons.

> ***By the end of this chapter:*** I can retrieve two already-taught fictional date examples after a long gap, one at a time, without claiming scored A1 writing or complete mock credit.
>
> *Recall the two previously taught date examples in this form's printed day/month/year order without adding new Punjabi.*

169.1 The old fictional date A

> Look at the closed bank's A card: ੧੫/੦੧/੨੦੨੫. The three pieces are day ੧੫, January month position ੦੧, and year ੨੦੨੫. The slash marks keep this form's day/month/year order visible.

Your turn

Keep A visible. Copy only its day and first slash, then its month and second slash, then its year. Check one box at a time against ੧੫/੦੧/੨੦੨੫. No new date or birthday is requested.

Before you move on

Cover A for a moment. Point to its January box, then try the familiar A line once on paper. Uncover the card and repair only the first mismatched box. This is gentle retrieval, not independent scored writing.

169.2 The old fictional date B

> Look at ૨૫/૦૨/૨૦૨૫. B has day ૨૫ and February month position ૦૨; the familiar year ૨૦૨૫ stays the same as A. The two slashes still divide day, month, and year.

Your turn

With B visible, copy ૨૫, then ૦૨, then ૨૦૨૫, placing one slash between each pair of boxes. Compare your line with ૨૫/૦૨/૨૦૨૫. If a box differs, repair only that box before moving on.

Before you move on

Hide B for a few seconds. From the old cue “fictional date B,” try its day and month boxes once, then uncover the card and check. The visible model remains available for repair; no independent mock score is assigned.

Chapter 170

Return to the Fictional Date Selector

Modes: **pen** (1) **Hands-free start:** none (1 lesson).

> ***By the end of this chapter:*** I can retrieve the already-taught two-card date selector after a long gap, with the fictional bank visible and without claiming scored A1 writing.
>
> *Recall that ਵ selects fictional date A and ਖ selects fictional date B without adding new Punjabi.*

170.1 The old two-card selector

> Look at the two old cards: A ੧੫/੦੧/੨੦੨੫ and B ੨੫/੦੨/੨੦੨੫. The mark ਵ asks for A; ਖ asks for B. These marks are selectors, not month names.

Your turn

Keep both cards and the selector map visible. Point to ਖ, then to B. Write the letter B beside ਖ. Do the same for ਵ and A. Compare each link with the printed map before trying the pair once more with the map covered. If one link differs, uncover the map and repair that link. No new date is needed.

Before you move on

Cover the map for a few seconds. Point to the card requested by ਵ, then the card requested by ਖ. Uncover the map and check A, then

B. The bank remains available for a gentle repair; this is not independent scored writing.

Chapter 171

Return to One Fictional Date Repair

Modes: ✎ **pen** (1) 🚗 **Hands-free start:** none (1 lesson).

> ***By the end of this chapter:*** I can retrieve the already-taught one-mark date-form repair after a long gap, with the fictional bank visible and without claiming scored A1 writing.
>
> *Locate and repair only the missing slash or label dot in two familiar fictional dates without adding new Punjabi.*

171.1 One old date-form repair

> The old bank is still here: ਕ chooses A ੧੫/੦੧/੨੦੨੫, and ਖ chooses B ੨੫/੦੨/੨੦੨੫. The label is ਤਾਰੀਖ਼. Check one dimension at a time: selector, day, month, year, slash marks, then label spelling and spacing.

Your turn

Keep the bank visible. For ਕ, the printed value ੧੫/੦੧੨੦੨੫ lacks only one slash. Copy it with that slash after ੦੧: ੧੫/੦੧/੨੦੨੫. Do not change any digit. For ਖ, the value in **ਤਾਰੀਖ:** ੨੫/੦੨/੨੦੨੫ is already right; copy only the repaired label ਤਾਰੀਖ਼ with its final dot beneath ਖ਼. Leave the date untouched and keep the space after the colon.

Before you move on

Cover the two repairs for a few seconds. Point to the one missing mark in each, then uncover the bank and compare. If one mark differs, repair that mark alone. The model stays available; this is not independent timed writing.

Chapter 172

Return to the Three Familiar Form Lines

Modes: **voice** (1) **pen** (1) **Hands-free start:** the first of 2 lessons.

> ***By the end of this chapter:*** I can retrieve the already-taught age, phone, date line order after a long gap, with the model visible and without claiming scored A1 writing.
>
> *Place only the three familiar fictional form labels in their taught order without adding new values or Punjabi.*

172.1 Hear three old labels

Hear ਉਮਰ (*umar*), age. Say it once after the model.

Your turn

Hear ਫ਼ੋਨ (*fon*), phone, then ਤਾਰੀਖ਼ (*taarikh*), date. Say each familiar word once after its model. No personal details are needed.

Before you move on

Hear the same three old words together: ਉਮਰ, ਫ਼ੋਨ, ਤਾਰੀਖ਼. Say them once with the model. The next lesson returns to their form lines only after you have stopped.

172.2 Three old form labels in their old order

The familiar model stays visible. The first line is **ਉਮਰ:** (age), the second **ਫ਼ੋਨ:** (phone), and the third **ਤਾਰੀਖ਼:** (date). Point to the three lines once. There is no new label or value here.

ਉਮਰ: _________

ਫ਼ੋਨ: _________

ਤਾਰੀਖ਼: _________

Your turn

Keep the model visible. Copy only those three labels onto three empty lines, in the same order. Leave every value blank. Check the first label before copying the second, then check the second before copying the third. If one line is misplaced, move that label only; do not invent a value.

Before you move on

Cover the model for five seconds. Point to where age, phone, and date belong on three empty lines; then uncover and compare. The visible model remains available for another gentle try. This is not independent timed writing.

Chapter 173

Return to Two Familiar Timed Writing Moves

Modes: ✎ **pen** (2) 🚗 **Hands-free start:** neither of the 2 lessons.

> ***By the end of this chapter:*** I can write a short named-reader message without a model under a practice clock, then preserve the first attempt and repair one line separately.
>
> *Preserve the fresh timed message and write one separate Gurmukhi correction without claiming mock or readiness credit.*

173.1 A familiar message, a fresh first attempt

> Close the earlier message pages. Put out a blank page and a three-minute timer. This is a fresh use of already-taught words: there is no model, romanization, word bank, dictionary, or copyable answer during the clock.

Writing — independent timed return

As Manan, write Aman a **30–40-word** Gurmukhi message. Greet Aman and ask how he is. Say that you like reading Punjabi and that you are well. Suggest meeting again and close in a fitting tone. Add only familiar words if you need them to reach the band; choose and order your own sentences.

Start the timer and stop after three minutes, even if the message is not finished. Record the word count and elapsed time on a separate line. Keep this first attempt unchanged for the next short lesson.

Your turn — observe, do not repair yet

Without reopening an earlier page, note whether Aman is clearly the reader, the reading purpose is present, and the message is within 30–40 words. Do not rewrite the clocked page now.

Before you move on

This short return is not a complete A1 mock. The later two full papers and human validation remain separate from this one timed message.

173.2 Keep the clocked page; repair elsewhere

> Put the previous message’s first attempt beside a new blank page. Keep the first attempt unchanged. Close the older examples: there is no model or copyable answer for this small repair.

Your turn — one separate correction

Inspect one thing at a time: named reader and purpose, sentence order, Punjabi word choice and agreement, then Gurmukhi spelling, spaces, and punctuation. Choose just one line you would improve. Write that corrected line on the new page in Gurmukhi and name the one change you made. If the first attempt has no error in that line, choose a line whose meaning could be clearer; do not invent a mistake.

Before you move on

The separate line helps the next attempt; it never replaces or raises the score of the timed page. This return is not a complete A1 mock. The two full papers, calibration, and human validation remain separate gates.

Chapter 174

Return to the Familiar Three-Field Card Cue

Modes: **pen** (1) **Hands-free start:** none (1 lesson).

> ***By the end of this chapter:*** I can use one familiar fictional card to choose the matching old age, phone, and date values, then check a brief recall against the bank.
>
> *Copy one supported three-field card selection and recall the other briefly, outside scored A1 mock credit.*

174.1 One old card, three old bank choices

This is a gentle return to fictional practice values, not a request for personal information or a scored A1 mock.

Keep this old model visible: ਕ chooses A in all three banks; ਖ chooses B in all three banks. Age A/B are ੧੫ / ੨੫; phone A/B are ੦੧੨ ੨੫੧ / ੦੨੫ ੧੨੫; date A/B are ੧੫/੦੧/੨੦੨੫ / ੨੫/੦੨/੨੦੨੫. Point to the matching bank letter for each field before writing anything.

Your turn

With the model still visible, use ਕ to copy its three A values after these printed labels. Look back at the bank before each value. Keep the card mark out of the form.

ਉਮਰ: _________

ਫ਼ੋਨ: _________

ਤਾਰੀਖ਼: _________

Before you move on

Cover the bank for five seconds. The card is now ਖ. On a fresh copy of the same three printed labels, write the familiar B values from memory. Uncover the bank and compare one value at a time. If a value differs, correct only that value with the model visible again. This brief recall is practice, not independent timed writing or mock credit.

Chapter 175

Return to One Familiar Three-Field Repair

Modes: ✎ **pen** (1) 🚗 **Hands-free start:** none (1 lesson).

> ***By the end of this chapter:*** I can compare a fictional three-field form with its familiar card and correct one different part without rewriting the correct lines.
>
> *Make one supported correction and then one brief delayed correction on familiar fictional form values, outside scored A1 mock credit.*

175.1 One old form, one small correction

Use only these old fictional cards, never your own details. ਕ chooses A: age ੧੫, phone ੦੧੨ ੨੫੧, date ੧੫/੦੧/੨੦੨੫. ਖ chooses B: age ੨੫, phone ੦੨੫ ੧੨੫, date ੨੫/੦੨/੨੦੨੫. Read the printed A/B banks one line at a time, then keep them visible for the next step. This gentle return is not a scored A1 mock.

Your turn

The card is ਖ. In this printed form, the age and date already match B; the phone's last two digits do not. Point to the single different line. Copy only its correction, **ਫ਼ੋਨ: ੦੨੫ ੧੨੫**, beside the form. Do not erase or rewrite the two correct lines.

ਉਮਰ: ੨੫

ਫ਼ੋਨ: ੦੨੫ ੧੫੨

ਤਾਰੀਖ਼: ੨੫/੦੨/੨੦੨੫

Before you move on

Cover the bank and the guided correction. The card is now ਕ. Compare the printed three-field form below with the values you remember. Find the one different line. Leave the two matching lines alone.

ਉਮਰ: ੧੫

ਫ਼ੋਨ: ੦੧੨ ੨੫੧

ਤਾਰੀਖ਼: ੧੫/੦੧੨੦੨੫

Write the repaired line on fresh paper, from memory, with the bank still covered.

Now uncover the bank and check your repair: **ਤਾਰੀਖ਼: ੧੫/੦੧/੨੦੨੫**. The only change was the missing slash; every digit, age, and phone stays the same. This is a brief independent correction within a supported practice session, not an independent timed task, paper scoring, or human A1 validation.

Chapter 176

This, Here, and In a Place

Modes: **voice** (2) **eyes** (1) **Hands-free start:** the first 2 of 3 lessons.

> ***By the end of this chapter:*** I can point to this or that, ask where a familiar thing is, and answer that it is here, there, or in a familiar place.
>
> *Ask where a familiar book or shop is, then answer with here, there, or a familiar place plus vich and hai.*

176.1 ਇਹ (eh) — this, near here

> Put one familiar contrast back in your voice. Say ਇੱਥੇ (*itthe*, here), then ਉੱਥੇ (*utthe*, there). Ask **ਕਿੱਥੇ?** (*kitthe?*, where?). Now say ਕਿਤਾਬ (*kitāb*, book), and the old distant pointer ਉਹ (*oh*, that).

You'll want to know: ਇਹ

ਇਹ — *eh* — **this**, near here

ਉਹ — *oh* — **that**, farther away

You have known ਉਹ from its earlier lesson as *he, she, it.* That lesson also told you it points to **that**. Nothing new is being added to ਉਹ now. The new half of the pair is ਇਹ: use *eh* for a nearby thing.

The same near/far choice already lives in ਇੱਥੇ / ਉੱਥੇ, *here / there.* Keep the pairs aligned:

near	**farther away**
ਇਹ — this	ਉਹ — that
ਇੱਥੇ — here	ਉੱਥੇ — there

Wiktionary traces ਇਹ to Sanskrit *eṣa*, “this”.

What you’ve built

Keep ਹੈ at the end, where Punjabi already taught you to put the verb:

ਇਹ ਕਿਤਾਬ ਹੈ। — *eh kitāb hai.* — This is a book.

ਉਹ ਕਿਤਾਬ ਹੈ। — *oh kitāb hai.* — That is a book.

Only the first word changes. The book and the verb stay still.

Your turn

- *Say it:* for a nearby thing, ਇਹ; for a farther thing, ਉਹ
- *Say it:* ਇਹ ਕਿਤਾਬ ਹੈ
- *Switch:* make it distant — ਉਹ ਕਿਤਾਬ ਹੈ

Before you move on

Near thing? (ਇਹ, *eh.*) Farther thing? (ਉਹ, *oh.*) Near place? (ਇੱਥੇ, *itthe.*) Farther place? (ਉੱਥੇ, *utthe.*)
Source: Wiktionary: ਇਹ.

176.2 ਵਿੱਚ (vich) — in, at

Near and farther: ਇਹ / ਉਹ. Now bring back two familiar places: ਘਰ (*ghar*, home) and ਸਕੂਲ (*sakūl*, school). Ask **ਕਿੱਥੇ?** (*kitthe?*, where?).

You’ll want to know: ਵਿੱਚ

ਵਿੱਚ — *vich* — **in, at**

English puts *in* before a place. Punjabi puts ਵਿੱਚ after it. That is why it is called a postposition: the place comes first.

ਘਰ ਵਿੱਚ — *ghar vich* — at home, in the house

ਸਕੂਲ ਵਿੱਚ — *sakūl vich* — at school, in the school

Do not add a verb yet. This step owns only the place chunk: noun, then ਵਿੱਚ.

The word, taken apart — its roots and family

ਵਿੱਚ is inherited through Old Punjabi *vici* and Prakrit *vicca* from a form reconstructed as Sanskrit *vīcya*, "middle" (CDIAL 12042). Hindi *bīc*, "middle", is a cousin. The old idea of being in the middle became Punjabi's ordinary word for being **in** a place.

Your turn

- *Say it:* ਘਰ ਵਿੱਚ
- *Say it:* ਸਕੂਲ ਵਿੱਚ
- *Answer:* after **ਕਿੱਥੇ?**, choose one familiar place chunk
- *Check:* did the place come before ਵਿੱਚ?

Before you move on

How do you say *at home*? (ਘਰ ਵਿੱਚ.) *At school*? (ਸਕੂਲ ਵਿੱਚ.) Which comes first, the place or ਵਿੱਚ? (**The place.**)
Sources: Wiktionary: ਵਿੱਚ; CDIAL 12042.

176.3 A thing, a place, then ਹੈ

Say the two pointing pairs: ਇਹ / ਉਹ and ਇੱਥੇ / ਉੱਥੇ. Ask ਕਿੱਥੇ?. Then say ਘਰ ਵਿੱਚ and leave ਹੈ waiting; Punjabi keeps its verb for the end.

Grammar Lens: a thing, a place, then ਹੈ

ਕਿਤਾਬ ਘਰ ਵਿੱਚ ਹੈ।

kitāb ghar vich hai.

The book is at home.

The frame has three pieces:

1. the thing that is present — ਕਿਤਾਬ;
2. its place — ਘਰ ਵਿੱਚ; and
3. ਹੈ at the end.

Punjabi does not need a separate word matching English *there* in *there is.* The placed thing plus ਹੈ states that the thing is present in that location.

Grammar Lens: pointing without a postposition

When the location itself is **here** or **there**, the familiar place word can stand directly before ਹੈ:

ਦੁਕਾਨ ਇੱਥੇ ਹੈ। — *dukān itthe hai.* — The shop is here.

ਦੁਕਾਨ ਉੱਥੇ ਹੈ। — *dukān utthe hai.* — The shop is there.

The second sentence is the short practical answer this chapter is building: ਦੁਕਾਨ ਉੱਥੇ ਹੈ.

Your turn

- *Ask:* ਕਿਤਾਬ ਕਿੱਥੇ ਹੈ?
- *Answer:* ਕਿਤਾਬ ਘਰ ਵਿੱਚ ਹੈ।
- *Ask:* ਦੁਕਾਨ ਕਿੱਥੇ ਹੈ?
- *Answer:* ਦੁਕਾਨ ਉੱਥੇ ਹੈ।
- *Switch:* point near and answer ਦੁਕਾਨ ਇੱਥੇ ਹੈ।

Before you move on

Ask where the book is and answer that it is at home. Then ask where the shop is and answer that it is there. Keep ਹੈ last.
This is a small curriculum location exchange against a partial inventory. It is not an A1 mock, not A1 readiness, and not evidence of independent human validation.

Chapter 177

A Good Boy and a Very Good Girl

Modes: **voice** (4) **eyes** (1) **Hands-free start:** the first 4 of 5 lessons.

> ***By the end of this chapter:*** I can build one masculine and one feminine adjective-noun phrase, intensify the quality, and keep the resulting noun phrase before the verb.
>
> *Retrieve eh bahut changi kuri hai through listening, speaking, reading, and bounded Gurmukhi writing after building noun gender, adjective position, agreement, and degree one joint at a time.*

177.1 Two familiar nouns, now with their gender

From the last chapter, say ਕਿਤਾਬ ਘਰ ਵਿੱਚ ਹੈ once. Now say the two familiar people words: ਮੁੰਡਾ (*muṇḍā*, boy), then ਕੁੜੀ (*kuṛī*, girl). Nothing about their meaning or spelling is new.

Grammar Lens: masculine and feminine nouns

Punjabi nouns have grammatical gender. For this first bounded pair:

noun	**meaning**	**gender**
ਮੁੰਡਾ — *muṇḍā*	boy	masculine
ਕੁੜੀ — *kuṛī*	girl	feminine

The endings help with this pair, but do not turn them into a universal guessing rule. Punjabi has masculine and feminine nouns whose endings do not advertise their gender. Learn the gender with the noun.

Your turn

- *Hear:* ਮੁੰਡਾ; YOU SAY: masculine
- *Hear:* ਕੁੜੀ; YOU SAY: feminine
- *Read it:* ਮੁੰਡਾ · ਕੁੜੀ; YOU NAME: masculine · feminine

Before you move on

Which familiar noun is masculine? (ਮੁੰਡਾ.) Which is feminine? (ਕੁੜੀ.) Keep the claim to this pair for now.
Source: University of Waterloo, *PUN 1100 Course Package* (2018), pp. 54–55, Nouns and Gender.

177.2 ਚੰਗਾ ਮੁੰਡਾ — put the quality before the noun

First retrieve the last chapter's location frame once: ਕਿਤਾਬ ਘਰ ਵਿੱਚ ਹੈ. Then retrieve ਚੰਗਾ (*changā*, good) and ਮੁੰਡਾ (*muṇḍā*, boy). Name ਮੁੰਡਾ as masculine. Keep the last two words separate for one breath.

Grammar Lens: one attributive position

Join them in this order:

ਚੰਗਾ ਮੁੰਡਾ — *changā muṇḍā* — **good boy**

In this noun phrase, ਚੰਗਾ describes ਮੁੰਡਾ and sits immediately before it: adjective first, noun second. This lesson owns that attributive pattern. It does not claim that an adjective can never appear after a noun in another kind of Punjabi sentence.

Your turn

- *Build:* ਚੰਗਾ + ਮੁੰਡਾ
- *Say it:* ਚੰਗਾ ਮੁੰਡਾ
- *Point to:* adjective ਚੰਗਾ first; noun ਮੁੰਡਾ second

Before you move on

Say *good boy.* (ਚੰਗਾ ਮੁੰਡਾ.) Which word comes immediately before the noun? (ਚੰਗਾ, the adjective.)
Source: Columbia University Punjabi Language Resource Center, Simple Sentence Structure.

177.3 ਚੰਗਾ ਮੁੰਡਾ · ਚੰਗੀ ਕੁੜੀ — let the adjective agree

Say ਚੰਗਾ ਮੁੰਡਾ. Then retrieve the familiar feminine noun ਕੁੜੀ. Keep the adjective before the noun in both phrases.

Grammar Lens: change the adjective ending

ਚੰਗਾ is a variable adjective. In this singular direct contrast, its ending agrees with the noun's gender:

noun gender	**adjective + noun**	**meaning**
masculine	ਚੰਗਾ ਮੁੰਡਾ — *changā muṇḍā*	good boy
feminine	ਚੰਗੀ ਕੁੜੀ — *changī kuṛī*	good girl

The noun changes from ਮੁੰਡਾ to ਕੁੜੀ; the adjective changes from ਚੰਗਾ to ਚੰਗੀ. This is one bounded singular direct contrast, not the whole Punjabi adjective system. Plural and oblique forms wait.

Your turn

- *Hear:* ਮੁੰਡਾ; YOU BUILD: ਚੰਗਾ ਮੁੰਡਾ
- *Hear:* ਕੁੜੀ; YOU BUILD: ਚੰਗੀ ਕੁੜੀ
- *Switch:* ਚੰਗਾ ਮੁੰਡਾ → ਚੰਗੀ ਕੁੜੀ

Before you move on

Say the masculine phrase, then the feminine phrase. Which piece changes to agree? (ਚੰਗਾ / ਚੰਗੀ, the adjective.)
Sources: University of Waterloo, *PUN 1100 Course Package* (2018), pp. 71–74, Adjectives; Columbia University Punjabi Language

Resource Center, Simple Sentence Structure.

177.4 ਬਹੁਤ — turn good into very good

Say ਚੰਗਾ ਮੁੰਡਾ, then ਚੰਗੀ ਕੁੜੀ. Hear the one ending that changes and the adjective-before-noun order that stays.

You'll want to know: ਬਹੁਤ

ਬਹੁਤ — *bahut* — **very**

Put ਬਹੁਤ before the adjective. It increases the degree; it does not take the adjective's agreement ending:

ਬਹੁਤ ਚੰਗਾ ਮੁੰਡਾ — *bahut changā muṇḍā* — very good boy

ਬਹੁਤ ਚੰਗੀ ਕੁੜੀ — *bahut changī kuṛī* — very good girl

The order is degree word + agreeing adjective + noun. Only ਚੰਗਾ / ਚੰਗੀ changes with this noun pair; ਬਹੁਤ stays ਬਹੁਤ.

Your turn

- *Say it:* ਚੰਗਾ ਮੁੰਡਾ → ਬਹੁਤ ਚੰਗਾ ਮੁੰਡਾ
- *Say it:* ਚੰਗੀ ਕੁੜੀ → ਬਹੁਤ ਚੰਗੀ ਕੁੜੀ
- *Check:* ਬਹੁਤ first; agreeing adjective second; noun last

Before you move on

Make ਚੰਗੀ ਕੁੜੀ stronger. (ਬਹੁਤ ਚੰਗੀ ਕੁੜੀ.) Which word adds *very*? (ਬਹੁਤ.) Which word still agrees? (ਚੰਗੀ.)
Source: University of Waterloo, *PUN 1100 Course Package* (2018), pp. 72–74, Adjective position and degree examples.

177.5 One phrase before the verb

Build ਬਹੁਤ ਚੰਗੀ ਕੁੜੀ one piece at a time. Bring back ਇਹ for *this* and ਹੈ for *is.* Keep ਹੈ waiting for the end.

Grammar Lens: the words work as one noun phrase

ਇਹ ਬਹੁਤ ਚੰਗੀ ਕੁੜੀ ਹੈ।

eh bahut changī kuṛī hai.

This is a very good girl.

Before ਹੈ, the words ਬਹੁਤ ਚੰਗੀ ਕੁੜੀ travel together as a multiword noun phrase: degree word + agreeing adjective + noun. The noun is feminine, so the variable adjective is ਚੰਗੀ. The verb remains last.
This proves only this one bounded singular direct pattern. It does not add noun plural, genitive, an article, or a rule for every Punjabi adjective.

Your turn

- *Hear: eh bahut changī kuṛī hai*; YOU POINT: ਇਹ ਬਹੁਤ ਚੰਗੀ ਕੁੜੀ ਹੈ
- *Say it:* ਇਹ ਬਹੁਤ ਚੰਗੀ ਕੁੜੀ ਹੈ
- *Read it:* ਇਹ ਬਹੁਤ ਚੰਗੀ ਕੁੜੀ ਹੈ
- *Write it:* ਇਹ ਬਹੁਤ ਚੰਗੀ ਕੁੜੀ ਹੈ after covering the model
- *Check:* ਬਹੁਤ + ਚੰਗੀ + ਕੁੜੀ all come before ਹੈ

Before you move on

Rebuild the sentence from *this*, *very*, *good*, *girl*, *is*. Name the multiword noun phrase before the verb. (ਬਹੁਤ ਚੰਗੀ ਕੁੜੀ.)
This closes five named points in a partial project-defined inventory. It is not an A1 mock, not A1 readiness or attainment, and not external or human validation.

Chapter 178

From Eight Until Ten, Then Home

Modes: 🚗 **voice** (4) 👁 **eyes** (1) 🚗 **Hands-free start:** the first 4 of 5 lessons.

> ***By the end of this chapter:*** I can read and give one simple schedule with a whole-hour time, a source, an end limit, a companion, and one after-time step.
>
> *Retrieve one two-sentence schedule note through listening, speaking, reading, and bounded Gurmukhi writing after building five high-reuse forms one joint at a time.*

178.1 ਅੱਠ ਵਜੇ — one familiar number becomes a clock time

Say the familiar phrase ਇਹ ਬਹੁਤ ਚੰਗੀ ਕੁੜੀ ਹੈ once. Then say the familiar number ਅੱਠ. This lesson keeps that number and adds one time word after it.

Grammar Lens: ਵਜੇ follows the whole hour

ਅੱਠ ਵਜੇ — *aṭṭh vaje* — at eight o'clock

Keep the order number + ਵਜੇ. Here ਵਜੇ marks the whole-hour time. This first step does not add half hours, minutes, or a general clock paradigm.

Your turn

- *Hear: aṭṭh vaje*; YOU SAY: ਅੱਠ ਵਜੇ

- *Say it:* ਅੱਠ ਵਜੇ
- *Say it:* the whole phrase once more — ਅੱਠ ਵਜੇ

Before you move on

Say *at eight o'clock.* (ਅੱਠ ਵਜੇ.) Which piece follows the number? (ਵਜੇ.)
Source: Ranbir Johal, *Speaking and Writing Punjabi* (2018), pp. 69–70, whole-hour vocabulary and examples.

178.2 ਘਰ ਤੋਂ ਸਕੂਲ ਜਾਣਾ — name where a route starts

First retrieve ਇਹ ਬਹੁਤ ਚੰਗੀ ਕੁੜੀ ਹੈ once. Then recall ਘਰ, ਸਕੂਲ, and ਜਾਣਾ. Keep the route in that meaning order: home, then school, then go.

Grammar Lens: ਤੋਂ follows the source

> ਘਰ ਤੋਂ ਸਕੂਲ ਜਾਣਾ — *ghar tõ sakūl jāṇā* — to go from home to school

Punjabi uses a postposition: ਤੋਂ comes after its noun. In this bounded route, ਘਰ is the source, so the pair is ਘਰ ਤੋਂ. Do not move ਤੋਂ before ਘਰ as English moves *from.*

Your turn

- *Hear:* ਘਰ ਤੋਂ; YOU SAY: the route starts at home
- *Say it:* ਘਰ ਤੋਂ ਸਕੂਲ ਜਾਣਾ
- *Read it:* ਘਰ ਤੋਂ ਸਕੂਲ ਜਾਣਾ

Before you move on

Build *to go from home to school.* (ਘਰ ਤੋਂ ਸਕੂਲ ਜਾਣਾ.) Which word comes after the source noun? (ਤੋਂ.)
Source: Ranbir Johal, *Speaking and Writing Punjabi* (2018), pp. 67–68, from-until schedule frame.

178.3 ਅੱਠ ਵਜੇ ਤੋਂ ਦਸ ਵਜੇ ਤੱਕ — give both ends of one time span

Say ਅੱਠ ਵਜੇ, then ਦਸ ਵਜੇ. Put familiar ਤੋਂ after the starting time: ਅੱਠ ਵਜੇ ਤੋਂ.

Grammar Lens: ਤੱਕ follows the end limit

ਅੱਠ ਵਜੇ ਤੋਂ ਦਸ ਵਜੇ ਤੱਕ

aṭṭh vaje tõ das vaje takk

from eight o'clock until ten o'clock

The start is followed by ਤੋਂ; the end limit is followed by ਤੱਕ. Both are postpositions and each comes after the words it relates to. This step owns only the bounded from-until time frame.

Your turn

- *Say it:* ਅੱਠ ਵਜੇ ਤੋਂ
- *Add:* ਦਸ ਵਜੇ ਤੱਕ
- *Read it:* ਅੱਠ ਵਜੇ ਤੋਂ ਦਸ ਵਜੇ ਤੱਕ
- *Check:* start + ਤੋਂ; end + ਤੱਕ

Before you move on

Give the whole span from eight until ten. (ਅੱਠ ਵਜੇ ਤੋਂ ਦਸ ਵਜੇ ਤੱਕ.)
Which word follows the limit? (ਤੱਕ.)
Source: Ranbir Johal, *Speaking and Writing Punjabi* (2018), pp. 67–70, ਤੋਂ ... ਤੱਕ and whole-hour schedule examples.

178.4 ਅਮਨ ਨਾਲ ਕੰਮ ਕਰੋ — name one companion

Recall the practice name ਅਮਨ, the familiar work word ਕੰਮ, and polite ਕਰੋ. Keep all three unchanged.

Grammar Lens: ਨਾਲ follows the companion noun

ਅਮਨ ਨਾਲ ਕੰਮ ਕਰੋ।

Aman nāl kamm karo.

Work with Aman.

As with the last two forms, the postposition comes after its noun. The companion is ਅਮਨ, so the pair is ਅਮਨ ਨਾਲ. This lesson teaches only the companion meaning of ਨਾਲ in this polite instruction.

Your turn

- *Hear:* ਅਮਨ ਨਾਲ; YOU SAY: with Aman
- *Say it:* ਅਮਨ ਨਾਲ ਕੰਮ ਕਰੋ
- *Read it:* ਅਮਨ ਨਾਲ ਕੰਮ ਕਰੋ

Before you move on

Ask politely for work with Aman. (ਅਮਨ ਨਾਲ ਕੰਮ ਕਰੋ.) Which word follows the companion? (ਨਾਲ.)
Source: Ranbir Johal, *Speaking and Writing Punjabi* (2018), pp. 76 and 84, postpositions and ਨਾਲ.

178.5 ਦਸ ਵਜੇ ਤੋਂ ਬਾਅਦ — place one step after a time

Say the schedule span ਅੱਠ ਵਜੇ ਤੋਂ ਦਸ ਵਜੇ ਤੱਕ. Then recall the companion pair ਅਮਨ ਨਾਲ. Nothing in those pieces changes.

Grammar Lens: ਤੋਂ ਬਾਅਦ marks the later step

ਦਸ ਵਜੇ ਤੋਂ ਬਾਅਦ — *das vaje tõ bāad* — after ten o'clock

Keep ਤੋਂ before ਬਾਅਦ. The time comes first, then the two-word sequence. This lesson owns only this bounded time use; it does not claim every temporal or clausal use of ਬਾਅਦ.

Your turn: one two-sentence schedule

ਅਮਨ ਨਾਲ ਅੱਠ ਵਜੇ ਤੋਂ ਦਸ ਵਜੇ ਤੱਕ ਕੰਮ ਕਰੋ। ਦਸ ਵਜੇ ਤੋਂ ਬਾਅਦ ਘਰ ਆਉਣਾ।

- *Hear:* the two-sentence schedule; YOU NAME: companion, start, limit, later step
- *Say it:* ਅਮਨ ਨਾਲ ਅੱਠ ਵਜੇ ਤੋਂ ਦਸ ਵਜੇ ਤੱਕ ਕੰਮ ਕਰੋ। ਦਸ ਵਜੇ ਤੋਂ ਬਾਅਦ ਘਰ ਆਉਣਾ।
- *Read it:* ਅਮਨ ਨਾਲ ਅੱਠ ਵਜੇ ਤੋਂ ਦਸ ਵਜੇ ਤੱਕ ਕੰਮ ਕਰੋ। ਦਸ ਵਜੇ ਤੋਂ ਬਾਅਦ ਘਰ ਆਉਣਾ।
- *Write it:* ਅਮਨ ਨਾਲ ਅੱਠ ਵਜੇ ਤੋਂ ਦਸ ਵਜੇ ਤੱਕ ਕੰਮ ਕਰੋ। ਦਸ ਵਜੇ ਤੋਂ ਬਾਅਦ ਘਰ ਆਉਣਾ। after covering the model
- *Check:* ਨਾਲ after the companion; ਤੋਂ after the start; ਤੱਕ after the limit; ਤੋਂ ਬਾਅਦ after the later time

Before you move on

Rebuild the two-sentence schedule without looking. Then point to the five newly taught forms.

This is the first prerequisite tranche exposed by Punjabi A2 mock drafting. It does not unblock Punjabi A2 mock 1 by itself. It is not an A2 mock, not A2 readiness or attainment, and not external or human validation.

Chapter 179

Morning Open, Afternoon Closed

Modes: **voice** (5) **eyes** (2) **Hands-free start:** the first 2 of 7 lessons.

> ***By the end of this chapter:*** I can read and give one simple public-hours note with morning and afternoon times and open and closed statuses.
>
> *Retrieve a two-sentence public-hours note through listening, speaking, reading, and bounded Gurmukhi writing after two atom-free review steps.*

179.1 ਸਮਾਂ — one word for time

Say the familiar schedule once: ਅਮਨ ਨਾਲ ਅੱਠ ਵਜੇ ਤੋਂ ਦਸ ਵਜੇ ਤੱਕ ਕੰਮ ਕਰੋ। ਦਸ ਵਜੇ ਤੋਂ ਬਾਅਦ ਘਰ ਆਉਣਾ।

Grammar Lens: one schedule noun

ਸਮਾਂ — *samā̃* — time

This lesson gives one useful schedule word. Keep it small: it does not add a new clock frame.

Your turn

- *Hear: samā̃*; YOU SAY: ਸਮਾਂ
- *Say it:* ਸਮਾਂ

Before you move on

Say *time.* (ਸਮਾਂ.)
Source: NCERT, Punjabi activity material, uses ਸਮਾਂ in day-part contexts.

179.2 ਸਵੇਰੇ ਅੱਠ ਵਜੇ — place the morning before the hour

Say ਸਮਾਂ. Then retrieve ਦਸ ਵਜੇ ਤੋਂ ਬਾਅਦ.

Grammar Lens: morning precedes the hour

ਸਵੇਰੇ ਅੱਠ ਵਜੇ — *savere aṭṭh vaje* — at eight in the morning

Put ਸਵੇਰੇ before the familiar whole-hour phrase. This lesson owns that bounded day-part use.

Your turn

- *Hear: savere aṭṭh vaje*; YOU SAY: ਸਵੇਰੇ ਅੱਠ ਵਜੇ
- *Read it:* ਸਵੇਰੇ ਅੱਠ ਵਜੇ

Before you move on

Say *at eight in the morning*, then say *time.*
Source: UK Government, Punjabi asylum accommodation guide, uses ਸਵੇਰੇ in public-hours language.

179.3 ਬਾਗ਼ ਸਵੇਰੇ ਖੁੱਲ੍ਹਾ ਹੈ — one open status

Read ਬਾਗ਼. Then say ਸਵੇਰੇ.

Grammar Lens: one open status

ਬਾਗ਼ ਸਵੇਰੇ ਖੁੱਲ੍ਹਾ ਹੈ — *bāġ savere khullhā hai* — the garden is open in the morning

Here ਖੁੱਲ੍ਹਾ gives the open status. Keep the whole model together.

Your turn

- *Hear:* the open-status model; YOU SAY: ਬਾਗ਼ ਸਵੇਰੇ ਖੁੱਲ੍ਹਾ ਹੈ
- *Read it:* ਬਾਗ਼ ਸਵੇਰੇ ਖੁੱਲ੍ਹਾ ਹੈ

Before you move on

Say the open-status model without looking.
Source: Punjabi University, teaching vocabulary, publishes the ਖੁੱਲ੍ਹਾ/ਬੰਦ contrast.

179.4 ਦੁਪਹਿਰ ਦੋ ਵਜੇ — place the afternoon before the hour

Say ਸਮਾਂ. Then retrieve ਬਾਗ਼ ਸਵੇਰੇ ਖੁੱਲ੍ਹਾ ਹੈ.

Grammar Lens: afternoon precedes the hour

ਦੁਪਹਿਰ ਦੋ ਵਜੇ — *dupahir do vaje* — at two in the afternoon

Put ਦੁਪਹਿਰ before the familiar whole-hour phrase. This lesson owns only this day-part use.

Your turn

- *Hear: dupahir do vaje*; YOU SAY: ਦੁਪਹਿਰ ਦੋ ਵਜੇ
- *Read it:* ਦੁਪਹਿਰ ਦੋ ਵਜੇ

Before you move on

Say *at two in the afternoon.*
Source: NCERT, Punjabi activity material, uses ਦੁਪਹਿਰ in a day-part context.

179.5 ਬਾਗ਼ ਬੰਦ ਹੈ — one closed status

Retrieve ਬਾਗ਼ ਸਵੇਰੇ ਖੁੱਲ੍ਹਾ ਹੈ.

Grammar Lens: one closed status

ਬਾਗ਼ ਬੰਦ ਹੈ — *bāġ band hai* — the garden is closed

Here ਬੰਦ gives the contrasting closed status.

Your turn

- *Hear:* the closed-status model; YOU SAY: ਬਾਗ਼ ਬੰਦ ਹੈ
- *Read it:* ਬਾਗ਼ ਬੰਦ ਹੈ

Before you move on

Say the closed model, then the open model.
Sources: Punjabi University, RCPLT dictionary, defines ਬੰਦ as closed or shut; Punjabi University teaching vocabulary gives the open/closed pair.

179.6 ਸਵੇਰੇ ਖੁੱਲ੍ਹਾ; ਦੁਪਹਿਰ ਬੰਦ — review the two statuses

Say ਸਮਾਂ. Read ਬਾਗ਼ ਸਵੇਰੇ ਖੁੱਲ੍ਹਾ ਹੈ and ਬਾਗ਼ ਬੰਦ ਹੈ. Then say ਦੁਪਹਿਰ ਦੋ ਵਜੇ.

Your turn

- *Hear:* morning; YOU SAY: ਸਵੇਰੇ
- *Hear:* afternoon; YOU SAY: ਦੁਪਹਿਰ
- *Hear:* open; YOU SAY: ਖੁੱਲ੍ਹਾ
- *Hear:* closed; YOU SAY: ਬੰਦ

Before you move on

Retrieve all five new forms without looking.
This is reinforcement inside the second prerequisite tranche. It does not unblock Punjabi A2 mock 1 and is not an A2 mock, A2 readiness, or A2 attainment.

179.7 ਬਾਗ਼ ਸਵੇਰੇ ਅੱਠ ਵਜੇ ਖੁੱਲ੍ਹਾ ਹੈ। ਦੁਪਹਿਰ ਦੋ ਵਜੇ ਬੰਦ ਹੈ।

Retrieve ਸਮਾਂ, then the morning, afternoon, open, and closed forms.

Your turn: four-skill payoff

ਬਾਗ਼ ਸਵੇਰੇ ਅੱਠ ਵਜੇ ਖੁੱਲ੍ਹਾ ਹੈ। ਦੁਪਹਿਰ ਦੋ ਵਜੇ ਬੰਦ ਹੈ।

- *Hear:* the two-sentence hours note; YOU SAY: ਬਾਗ਼ ਸਵੇਰੇ ਅੱਠ ਵਜੇ ਖੁੱਲ੍ਹਾ ਹੈ। ਦੁਪਹਿਰ ਦੋ ਵਜੇ ਬੰਦ ਹੈ।
- *Read it:* ਬਾਗ਼ ਸਵੇਰੇ ਅੱਠ ਵਜੇ ਖੁੱਲ੍ਹਾ ਹੈ। ਦੁਪਹਿਰ ਦੋ ਵਜੇ ਬੰਦ ਹੈ।
- *Write it:* ਬਾਗ਼ ਸਵੇਰੇ ਅੱਠ ਵਜੇ ਖੁੱਲ੍ਹਾ ਹੈ। ਦੁਪਹਿਰ ਦੋ ਵਜੇ ਬੰਦ ਹੈ। after covering the model

Before you move on

Rebuild the hours note without looking, then name the five new forms.
This is the second prerequisite tranche exposed by Punjabi A2 mock drafting. It does not unblock Punjabi A2 mock 1 by itself. It is not an A2 mock, not A2 readiness or attainment, and not external or human validation.
Sources: UK Government, Punjabi asylum accommodation guide, for public-hours language; Punjabi University, teaching vocabulary, for the open/closed pair.

Chapter 180

People in the Big Room

Modes: 🚗 **voice** (7) 🚗 **Hands-free start:** all 7 lessons.

> ***By the end of this chapter:*** I can understand and give one simple practical-place note about people in a room.
>
> *Retrieve a one-sentence place note through listening, speaking, reading, and bounded Gurmukhi writing after an atom-free review.*

180.1 ਲੋਕ — people

> *Hear: lok*; YOU SAY: ਲੋਕ Start by ear. This one word means *people.*

Grammar Lens: one group word

> ਲੋਕ — *lok* — people

Keep this as one useful word. No new plural rule is needed today.

The word, taken apart — its roots and family

ਲੋਕ (*lok*) is Sanskrit *loka*, “world, people”, taken over as a learned loan. Mahan Kosh identifies the Sanskrit word; CDIAL 11119 gives the same meanings.

Your turn

- *Hear: lok*; YOU SAY: ਲੋਕ

- *Read it:* ਲੋਕ

Before you move on

Say *people.* (ਲੋਕ.)
Sources: Punjabi University, RCPLT dictionary, lists ਲੋਕ as people or public. Mahan Kosh identifies Sanskrit *loka*; Turner gives its senses in CDIAL 11119.

180.2 ਉਸ — pointing to that place

Say *people* once. (ਲੋਕ.)

Grammar Lens: one pointing word

> ਉਸ ਬਾਗ਼ ਵਿੱਚ ਲੋਕ ਹਨ। — *us bāġ vic lok han* — people are in that garden.

Here ਉਸ points to *that* garden. Treat the whole line as one place model; it does not teach every form of *that.*

Your turn

- *Hear:* the garden model; YOU SAY: ਉਸ ਬਾਗ਼ ਵਿੱਚ ਲੋਕ ਹਨ।
- *Read it:* ਉਸ ਬਾਗ਼ ਵਿੱਚ ਲੋਕ ਹਨ।

Before you move on

Say *that garden*, then *people.* (ਉਸ ਬਾਗ਼, ਲੋਕ.)
Source: Punjabi University, RCPLT dictionary, lists ਉਸ as *that* in a conjunctive form.

180.3 ਥਾਂ — one place word

Retrieve ਉਸ and ਲੋਕ by ear.

Grammar Lens: one location noun

ਥਾਂ — *thā̃* — place

ਉਸ ਥਾਂ — *us thā̃* — that place

Keep this as a two-word pointing phrase, not a new rule for every location noun.

The word, taken apart — its roots and family

ਥਾਂ (*thā̃*) is a tadbhava, inherited and reshaped by sound change. It comes through Prakrit *thāma* from Sanskrit *sthāman*, "station, place" (CDIAL 13760).

Your turn

- *Hear: us thā̃*; YOU SAY: ਉਸ ਥਾਂ
- *Read it:* ਉਸ ਥਾਂ
- *Say it:* ਲੋਕ

Before you move on

Say *that place.* (ਉਸ ਥਾਂ.)
Sources: Punjabi University, RCPLT dictionary, gives ਥਾਂ as place or location. Turner derives it through Prakrit *thāma* from Sanskrit *sthāman* in CDIAL 13760.

180.4 ਕਮਰੇ — room in one location phrase

Say ਉਸ ਥਾਂ, then the old room word ਕਮਰਾ.

Grammar Lens: one room phrase

ਕਮਰਾ — *kamrā* — a room (the old word)

ਕਮਰੇ ਵਿੱਚ — *kamre vic* — in the room

The ending changes inside this one location phrase. Use this model first; do not infer every possible room ending from it.

Your turn

- *Hear: kamre vic*; YOU SAY: ਕਮਰੇ ਵਿੱਚ
- *Read it:* ਕਮਰੇ ਵਿੱਚ
- *Say it:* ਉਸ ਥਾਂ

Before you move on

Say *in the room*, then *that place.* (ਕਮਰੇ ਵਿੱਚ, ਉਸ ਥਾਂ.)
Source: Punjabi University, library description, uses ਕਮਰੇ ਵਿੱਚ in its phrase for 'in the study room'.

180.5 ਵੱਡੇ — big in one room phrase

Say the old ਵੱਡਾ, then ਕਮਰੇ ਵਿੱਚ.

Grammar Lens: one agreeing phrase

ਵੱਡੇ ਕਮਰੇ ਵਿੱਚ — *vaḍḍe kamre vic* — in the big room

This is one bounded location phrase. Notice ਵੱਡੇ beside ਕਮਰੇ; a full adjective-agreement table comes later, not here.

Your turn

- *Hear:* the big-room phrase; YOU SAY: ਵੱਡੇ ਕਮਰੇ ਵਿੱਚ
- *Read it:* ਵੱਡੇ ਕਮਰੇ ਵਿੱਚ

Before you move on

Say *in the big room.* (ਵੱਡੇ ਕਮਰੇ ਵਿੱਚ.)
Source: UK Government, Punjabi fire-safety guide, uses ਵੱਡੇ ਘਰ ਵਿੱਚ; Punjabi University, library description, uses ਕਮਰੇ ਵਿੱਚ in its room phrase.

180.6 That place, its big room — one guided review

Recall *people*, *that place*, then *in the big room*: ਲੋਕ, ਉਸ ਥਾਂ, ਵੱਡੇ ਕਮਰੇ ਵਿੱਚ.

Your turn: fit the known pieces

ਉਸ ਥਾਂ ਦੇ ਵੱਡੇ ਕਮਰੇ ਵਿੱਚ — *us thā̃ de vaḍḍe kamre vic* — in the big room of that place

Use the whole phrase as a bounded model. ਦੇ links the already known pieces here; this is not a new possessive paradigm.

- *Hear:* the place-and-room phrase; YOU SAY: ਉਸ ਥਾਂ ਦੇ ਵੱਡੇ ਕਮਰੇ ਵਿੱਚ
- *Read it:* ਉਸ ਥਾਂ ਦੇ ਵੱਡੇ ਕਮਰੇ ਵਿੱਚ
- *Say it:* ਲੋਕ

Before you move on

Rebuild the place-and-room phrase, then say who may be there. Sources: Punjabi University, RCPLT dictionary, for ਥਾਂ; Punjabi University, library description, for ਕਮਰੇ ਵਿੱਚ.

180.7 ਲੋਕ ਉਸ ਥਾਂ ਦੇ ਵੱਡੇ ਕਮਰੇ ਵਿੱਚ ਹਨ।

Say ਲੋਕ, then ਉਸ ਥਾਂ ਦੇ ਵੱਡੇ ਕਮਰੇ ਵਿੱਚ.

Your turn: four-skill payoff

ਲੋਕ ਉਸ ਥਾਂ ਦੇ ਵੱਡੇ ਕਮਰੇ ਵਿੱਚ ਹਨ। — people are in the big room at that place.

- *Hear:* the one-sentence place notice; YOU SAY: ਲੋਕ ਉਸ ਥਾਂ ਦੇ ਵੱਡੇ ਕਮਰੇ ਵਿੱਚ ਹਨ।
- *Read it:* ਲੋਕ ਉਸ ਥਾਂ ਦੇ ਵੱਡੇ ਕਮਰੇ ਵਿੱਚ ਹਨ।
- *Write it:* ਲੋਕ ਉਸ ਥਾਂ ਦੇ ਵੱਡੇ ਕਮਰੇ ਵਿੱਚ ਹਨ। after covering the model

Before you move on

Rebuild the line without looking. Keep the five forms together only in this bounded place note.

This is the third prerequisite tranche exposed by Punjabi A2 mock drafting. It does not unblock Punjabi A2 mock 1 by itself. It is not an A2 mock, not A2 readiness or attainment, and not external or human validation.

Sources: Punjabi University, RCPLT dictionary, for ਲੋਕ; Punjabi University, library description, for the public-room phrase; UK Government, Punjabi fire-safety guide, for ਵੱਡੇ ... ਵਿੱਚ.

Chapter 181

A Train Ticket and the Way Home

Modes: **voice** (7) **pen** (1) **Hands-free start:** the first 3 of 8 lessons.

> ***By the end of this chapter:*** I can understand and give one short practical note about a train ticket, a journey, and going home on foot.
>
> *Hear the journey word before seeing its spelling, recognise its newly needed opening letter, then retrieve a three-line travel note through listening, speaking, reading, and bounded Gurmukhi writing after an atom-free review.*

181.1 ਰੇਲ — rail or train

Recall ਸਟੇਸ਼ਨ, then the older train word ਗੱਡੀ.

Grammar Lens: one transport word

ਰੇਲ — *rel* — rail; train

Keep this as one practical transport word. The older ਗੱਡੀ remains useful.

The word, taken apart — its roots and family

ਰੇਲ (*rel*) is a loan from English *rail.*

Your turn

- *Hear: rel*; YOU SAY: ਰੇਲ

- *Read it:* ਰੇਲ
- *Say it:* ਸਟੇਸ਼ਨ, ਗੱਡੀ, ਰੇਲ

Before you move on

Say *rail; train.* (ਰੇਲ.)
Source: Punjabi University, RCPLT dictionary, lists ਰੇਲ as rail or train.

181.2 ਟਿਕਟ — ticket

Say the new rail word once. (ਰੇਲ.)

Grammar Lens: one travel item

ਟਿਕਟ — *ṭikaṭ* — ticket

ਰੇਲ ਦੀ ਟਿਕਟ — *rel dī ṭikaṭ* — a train ticket

Use the whole short phrase first; it adds no new possession table.

The word, taken apart — its roots and family

ਟਿਕਟ (*ṭikaṭ*) is a loan from English *ticket.*

Your turn

- *Hear: ṭikaṭ*; YOU SAY: ਟਿਕਟ
- *Read it:* ਰੇਲ ਦੀ ਟਿਕਟ

Before you move on

Say *train ticket.* (ਰੇਲ ਦੀ ਟਿਕਟ.)
Source: Punjabi University, RCPLT dictionary, lists ਟਿਕਟ as a ticket.

181.3 Yatra — hear and say journey or travel

Retrieve ਰੇਲ ਦੀ ਟਿਕਟ.

Grammar Lens: one journey word by ear

Hear: yātrā; YOU SAY: *yātrā* — journey; travel

Hear: rel nāl yātrā; YOU SAY: *rel nāl yātrā* — travel by train

Treat the second line as one useful spoken travel chunk. Its Gurmukhi form waits until the next lesson takes the new opening letter from this known word.

The word, taken apart — its roots and family

Yātrā is Sanskrit *yātrā*, "journey, procession," taken over as a learned loan.

Your turn

- *Hear: yātrā*; YOU SAY: *yātrā*
- *Hear: rel nāl yātrā*; YOU SAY: *rel nāl yātrā*
- *Say it:* ਰੇਲ ਦੀ ਟਿਕਟ, then *rel nāl yātrā*

Before you move on

Say *travel by train.* (*Rel nāl yātrā.*)
Source: Punjabi University, RCPLT dictionary, lists *yātrā* as journey or travel.

181.4 ਯ — one new letter from a journey word you can say

Say *yātrā*, then ਰੇਲ ਦੀ ਟਿਕਟ.

Script you'll notice: ਯ

ਯ

yayyā — *ya*. Keep the letter in view. It is the opening letter of the journey word *yātrā* that you already know by ear.

No stroke order is taught here: the track does not yet have a verified source for one.

Writing: copy what you can see

Keep ਯ in front of you. Trace its printed shape once with a finger, then copy it once with a pencil while the model stays visible. Say *ya* when you finish.

> This is observe-and-copy with the model visible, not writing from memory.

Your turn

- *Look:* at ਯ; YOU SAY: *ya*
- Look away. Then look back and point to ਯ.
- *Say it: yātrā*, then point to its opening letter ਯ and say *ya*
- *Say it:* ਰੇਲ ਦੀ ਟਿਕਟ, then *yātrā*

Before you move on

Point to ਯ and say its sound. (*ya*.)
Source: Unicode Gurmukhi chart.

181.5 ਵਾਪਸ — back or returning

Say *journey*, then *home*. (ਯਾਤਰਾ, ਘਰ.)

Grammar Lens: one direction word

ਵਾਪਸ — *vāpas* — back; returning

ਵਾਪਸ ਘਰ — *vāpas ghar* — back home

Keep this as one direction word and one short chunk.

Your turn

- *Hear: vāpas*; YOU SAY: ਵਾਪਸ
- *Read it:* ਵਾਪਸ ਘਰ
- *Say it:* ਯਾਤਰਾ, then ਵਾਪਸ ਘਰ

Before you move on

Say *back home.* (ਵਾਪਸ ਘਰ.)
Source: Punjabi University, RCPLT dictionary, lists ਵਾਪਸ as back or returning.

181.6 ਪੈਦਲ — on foot

Retrieve ਵਾਪਸ ਘਰ, then the old verb ਜਾਣਾ.

Grammar Lens: one way of travelling

ਪੈਦਲ — *paidal* — on foot

ਪੈਦਲ ਵਾਪਸ ਘਰ ਜਾਣਾ — *paidal vāpas ghar jāṇā* — to go back home on foot

Use this as one bounded travel chunk. No new verb ending appears here.

Your turn

- *Hear: paidal*; YOU SAY: ਪੈਦਲ
- *Read it:* ਪੈਦਲ ਵਾਪਸ ਘਰ ਜਾਣਾ
- *Say it:* ਵਾਪਸ ਘਰ, then rebuild the full chunk

Before you move on

Say *to go back home on foot.* (ਪੈਦਲ ਵਾਪਸ ਘਰ ਜਾਣਾ.)
Source: Punjabi University, RCPLT dictionary, lists ਪੈਦਲ as on foot.

181.7 Three small travel chunks — guided review

Recall ਰੇਲ, ਟਿਕਟ, ਯਾਤਰਾ, ਵਾਪਸ, and ਪੈਦਲ.

Your turn: fit the known pieces

ਰੇਲ ਦੀ ਟਿਕਟ — a train ticket

ਰੇਲ ਨਾਲ ਯਾਤਰਾ — travel by train

ਪੈਦਲ ਵਾਪਸ ਘਰ — back home on foot

- *Hear:* each chunk; YOU SAY: it once
- *Read it:* all three chunks
- *Say it:* the ticket chunk, the journey chunk, then the homeward chunk

Before you move on

Rebuild all three travel chunks without looking.
Sources: Punjabi University RCPLT entries for ਰੇਲ, ਟਿਕਟ, ਯਾਤਰਾ, ਵਾਪਸ, and ਪੈਦਲ.

181.8 One bounded travel note

Say the three travel chunks from the review.

Your turn: four-skill payoff

ਰੇਲ ਦੀ ਟਿਕਟ ਇੱਥੇ ਹੈ। ਮੈਨੂੰ ਰੇਲ ਨਾਲ ਯਾਤਰਾ ਪਸੰਦ ਹੈ। ਮੈਨੂੰ ਪੈਦਲ ਵਾਪਸ ਘਰ ਜਾਣਾ ਪਸੰਦ ਹੈ।

- *Hear:* the three-line travel note; YOU SAY: it one line at a time
- *Read it:* the whole travel note
- *Write it:* the three-line travel note after covering the model

Before you move on

Rebuild the ticket line, journey line, and homeward line without looking.
This is the fourth prerequisite tranche exposed by Punjabi A2 mock drafting. It removes 22 measured unsupported occurrences but does not unblock Punjabi A2 mock 1 by itself. It is not an A2 mock, not A2 readiness or attainment, and not external or human validation.
Sources: Punjabi University RCPLT entries for ਰੇਲ, ਟਿਕਟ, ਯਾਤਰਾ, ਵਾਪਸ, and ਪੈਦਲ.

Chapter 182

A Week on the Noticeboard

Modes: 🚗 **voice** (8) 👁 **eyes** (1) ✎ **pen** (1) 🚗 **Hands-free start:** the first 7 of 10 lessons.

> ***By the end of this chapter:*** I can recognise the seven weekdays and understand one simple opening-days notice.
>
> *Retrieve the full week and a two-line opening-days notice through listening, speaking, reading, and bounded Gurmukhi writing after an atom-free review.*

182.1 ਸੋਮਵਾਰ — Monday

> *Hear: somvaar*; YOU SAY: ਸੋਮਵਾਰ Start with the sound. It means *Monday.*

Grammar Lens: one weekday

> ਸੋਮਵਾਰ — *somvār* — Monday

Keep it as one calendar label. A full week comes slowly, one day at a time.

The word, taken apart — its roots and family

Somvār joins Sanskrit *soma*, “moon”, with *vāra*, “day of the week” (CDIAL 11547): the moon day.

Your turn

- *Hear: somvaar*; YOU SAY: ਸੋਮਵਾਰ
- *Read it:* ਸੋਮਵਾਰ

Before you move on

Say *Monday.* (ਸੋਮਵਾਰ.)
Sources: Punjabi University, Punjabi-English Dictionary, for the weekday; Turner, CDIAL 11547, for *vāra*.

182.2 ਮੰਗਲਵਾਰ — Tuesday

Retrieve Monday: ਸੋਮਵਾਰ.

Grammar Lens: one weekday by ear

Hear: mangalvaar; YOU SAY: ਮੰਗਲਵਾਰ

ਮੰਗਲਵਾਰ — *maṅgalvār* — Tuesday

The word, taken apart — its roots and family

Maṅgalvār joins Sanskrit *maṅgala*, the name of Mars, with *vāra*, "day of the week" (CDIAL 11547).

Your turn

- *Hear: mangalvaar*; YOU SAY: ਮੰਗਲਵਾਰ
- *Read it:* ਮੰਗਲਵਾਰ
- *Say it:* ਸੋਮਵਾਰ, then ਮੰਗਲਵਾਰ

Before you move on

Say Monday, then Tuesday.
Sources: Punjabi University, Punjabi-English Dictionary, for the weekday; Turner, CDIAL 11547, for *vāra*.

182.3 ਬੁੱਧਵਾਰ — Wednesday

Say ਸੋਮਵਾਰ, then ਮੰਗਲਵਾਰ.

Grammar Lens: one weekday by ear

Hear: budhvaar; YOU SAY: ਬੁੱਧਵਾਰ

ਬੁੱਧਵਾਰ — *budhvār* — Wednesday

The word, taken apart — its roots and family

Budhvār joins Sanskrit *budha*, the name of Mercury, with *vāra*, “day of the week” (CDIAL 11547).

Your turn

- *Hear: budhvaar*; YOU SAY: ਬੁੱਧਵਾਰ
- *Read it:* ਬੁੱਧਵਾਰ
- *Say it:* ਸੋਮਵਾਰ, ਮੰਗਲਵਾਰ, ਬੁੱਧਵਾਰ

Before you move on

Say *Wednesday.* (ਬੁੱਧਵਾਰ.)
Sources: Punjabi University, Punjabi-English Dictionary, for the weekday; Turner, CDIAL 11547, for *vāra*.

182.4 ਵੀਰਵਾਰ — Thursday

Say the first three labels: ਸੋਮਵਾਰ, ਮੰਗਲਵਾਰ, ਬੁੱਧਵਾਰ.

Grammar Lens: one weekday by ear

Hear: veervaar; YOU SAY: ਵੀਰਵਾਰ

ਵੀਰਵਾਰ — *vīrvār* — Thursday

The word, taken apart — its roots and family

Vīrvār is a learned borrowing of Sanskrit *vīravāra*. On the surface it contains *vīra*, “hero”, and *vāra*, “day”.

Your turn

- *Hear: veervaar*; YOU SAY: ਵੀਰਵਾਰ
- *Read it:* ਵੀਰਵਾਰ
- *Say it:* ਬੁੱਧਵਾਰ, then ਵੀਰਵਾਰ

Before you move on

Say *Thursday.* (ਵੀਰਵਾਰ.)
Sources: Punjabi University, Punjabi-English Dictionary, for the weekday; Wiktionary, for the learned Sanskrit history.

182.5 ਸ਼ੁੱਕਰਵਾਰ — Friday

Say ਬੁੱਧਵਾਰ, then ਵੀਰਵਾਰ.

Grammar Lens: one weekday by ear

Hear: shukkarvaar; YOU SAY: ਸ਼ੁੱਕਰਵਾਰ

ਸ਼ੁੱਕਰਵਾਰ — *śukkarvār* — Friday

The word, taken apart — its roots and family

Śukkarvār joins Sanskrit *śukra*, the name of Venus, with *vāra*, “day of the week” (CDIAL 11547).

Your turn

- *Hear: shukkarvaar*; YOU SAY: ਸ਼ੁੱਕਰਵਾਰ
- *Read it:* ਸ਼ੁੱਕਰਵਾਰ
- *Say it:* ਵੀਰਵਾਰ, then ਸ਼ੁੱਕਰਵਾਰ

Before you move on

Say *Friday.* (ਸ਼ੁੱਕਰਵਾਰ.)
Sources: Punjabi University, Punjabi-English Dictionary, for the weekday; Turner, CDIAL 11547, for *vāra*.

182.6 ਸ਼ਨੀਵਾਰ — Saturday

Say ਵੀਰਵਾਰ, then ਸ਼ੁੱਕਰਵਾਰ.

Grammar Lens: one weekday by ear

Hear: shanivaar; YOU SAY: ਸ਼ਨੀਵਾਰ

ਸ਼ਨੀਵਾਰ — *śanīvār* — Saturday

This is the shorter weekday form used in the draft; other Punjabi materials may use a longer Saturday form.

The word, taken apart — its roots and family

Śanīvār joins Sanskrit *śani*, the name of Saturn, with *vāra*, "day of the week" (CDIAL 11547).

Your turn

- *Hear: shanivaar*; YOU SAY: ਸ਼ਨੀਵਾਰ
- *Read it:* ਸ਼ਨੀਵਾਰ
- *Say it:* ਸ਼ੁੱਕਰਵਾਰ, then ਸ਼ਨੀਵਾਰ

Before you move on

Say *Saturday.* (ਸ਼ਨੀਵਾਰ.)
Sources: Punjabi University, Punjabi-English Dictionary, for the weekday; IBM, Punjabi locale calendar data, for the standard weekday set.

182.7 Aitvaar — Sunday by ear

Say ਸ਼ੁੱਕਰਵਾਰ, then ਸ਼ਨੀਵਾਰ.

Grammar Lens: one weekday by ear

Hear: aitvaar; YOU SAY: *aitvaar*

aitvār — Sunday

Keep this word oral for now. Its first printed letter comes next.

The word, taken apart — its roots and family

Aitvār is inherited from Sanskrit *ādityavāra*, “Sunday”. Its history is older than the transparent weekday compounds beside it.

Your turn

- *Hear: aitvaar*; YOU SAY: *aitvaar*
- *Say it:* ਸ਼ਨੀਵਾਰ, then *aitvaar*

Before you move on

Say *Sunday.* (*Aitvaar.*)
Sources: Punjabi University, Punjabi-English Dictionary, for the weekday; Wiktionary, for its inheritance from Sanskrit. Links are deferred until after the printed form is introduced.

182.8 ਐ — one new independent vowel from the Sunday word you can say

Say *aitvaar*, then ਸ਼ਨੀਵਾਰ.

Script you'll notice: ਐ

ਐ

aiṛā with dulāvā̃ — *ai*. Keep the independent vowel in view. It opens the Sunday word *aitvaar* that you already know by ear.

No stroke order is taught here: the track does not yet have a verified source for one.

Writing: copy what you can see

Keep ਐ in front of you. Trace its printed shape once with a finger, then copy it once with a pencil while the model stays visible. Say *ai* when you finish.

> This is observe-and-copy with the model visible, not writing from memory.

Your turn

- *Look:* at ਐ; YOU SAY: *ai*
- Look away. Then look back and point to ਐ.
- *Say it: aitvaar*, then point to its opening vowel ਐ and say *ai*
- *Say it:* ਸ਼ਨੀਵਾਰ, then *aitvaar*

Before you move on

Point to ਐ, say *ai*, then say *aitvaar*.

182.9 Monday through Sunday — one guided review

> Recall the two ends: ਸੋਮਵਾਰ, then ਐਤਵਾਰ.

Your turn: rebuild the week

> **ਸੋਮਵਾਰ, ਮੰਗਲਵਾਰ, ਬੁੱਧਵਾਰ, ਵੀਰਵਾਰ, ਸ਼ੁੱਕਰਵਾਰ, ਸ਼ਨੀਵਾਰ, ਐਤਵਾਰ**

Read the line once. Cover it. Rebuild it in two gentle groups: the first four, then the last three.

- *Hear:* the seven weekday labels in order; YOU SAY: the same ordered week
- *Read it:* ਸੋਮਵਾਰ ਤੋਂ ਐਤਵਾਰ

Before you move on

Say the week once without looking. Stop and return to the model if one label drops out.
Source: IBM, Punjabi locale calendar data, for the ordered weekday set.

182.10 A two-line opening-days notice

Say ਸੋਮਵਾਰ, ਸ਼ੁੱਕਰਵਾਰ, ਸ਼ਨੀਵਾਰ, ਐਤਵਾਰ.

Your turn: four-skill payoff

First retrieve the whole week once. Then use this small notice:

ਸੋਮਵਾਰ ਤੋਂ ਸ਼ੁੱਕਰਵਾਰ ਤੱਕ ਖੁੱਲ੍ਹਾ। ਸ਼ਨੀਵਾਰ ਅਤੇ ਐਤਵਾਰ ਬੰਦ।

- *Hear:* the two-line opening-days notice; YOU SAY: ਸੋਮਵਾਰ ਤੋਂ ਸ਼ੁੱਕਰਵਾਰ ਤੱਕ ਖੁੱਲ੍ਹਾ। ਸ਼ਨੀਵਾਰ ਅਤੇ ਐਤਵਾਰ ਬੰਦ।
- *Read it:* ਸੋਮਵਾਰ ਤੋਂ ਸ਼ੁੱਕਰਵਾਰ ਤੱਕ ਖੁੱਲ੍ਹਾ। ਸ਼ਨੀਵਾਰ ਅਤੇ ਐਤਵਾਰ ਬੰਦ।
- *Write it:* the same two-line notice after covering the model

Before you move on

Rebuild the week, then the notice, without looking.
This is the fifth prerequisite tranche exposed by Punjabi A2 mock drafting. It does not unblock Punjabi A2 mock 1 by itself. It is not an A2 mock, not A2 readiness or attainment, and not external or human validation.

Chapter 183

One Routine, One Familiar Engine

Modes: **voice** (4) **eyes** (4) **Hands-free start:** the first 4 of 8 lessons.

> ***By the end of this chapter:*** I can recognise and use five familiar verbs in exact present-habitual routine forms.
>
> *Retrieve five exact present-habitual routine forms through listening, speaking, reading, and bounded copying after a slow review-led ramp.*

183.1 Return to one familiar engine

> Say the four familiar infinitives: *karnaa*, *dekhnaa*, *utthnaa*, *saunaa*.

Grammar Lens: stem plus a familiar ending

You already used *-daa* for one masculine subject and *-de* for a plural or respectful subject. Today we only bring that old engine back. No written target form appears yet.

Your turn

Say these aloud:

- remove the infinitive ending from *karnaa*
- the Punjabi-shaped and Hindi-shaped twins for *to see*
- *to get up*, then *to sleep*

Before you move on

Which ending marks one masculine habitual form? (*-daa.*) Which one can mark plural or respectful agreement? (*-de.*)
This is retrieval of the required grammar and verb atoms.

183.2 ਕਰਦਾ — one man does or works

Hear: kardaa Hear the familiar stem *kar-* and the familiar masculine ending *-daa*.

Grammar Lens: the first exact form

ਕਰਦਾ — *kardaa* — does; works, for one masculine subject

In a complete sentence you already know: ਮੈਂ ਕੰਮ ਕਰਦਾ ਹਾਂ — a man says, "I work."

Your turn

- *Hear: kardaa*; YOU SAY: ਕਰਦਾ
- *Read it:* ਕਰਦਾ
- *Write it:* copy ਕਰਦਾ once while saying *kar-daa*

Before you move on

Read the exact form for "does" with one masculine subject. (ਕਰਦਾ.)
Source: the canonical Punjabi present-habitual and *kamm karnaa* entries.

183.3 ਕਰਦੇ — more than one, or respectful agreement

Read yesterday's one-man form: ਕਰਦਾ.

Grammar Lens: change only the ending

ਕਰਦੇ — *karde* — do; work, with plural or respectful agreement

The stem stays *kar-*. The visible ending changes from ਦਾ to ਦੇ. In a complete sentence: ਉਹ ਕੰਮ ਕਰਦੇ ਹਨ — "They work," or respectful "He works."

Your turn

- *Hear: kardaa, karde*; YOU SAY: ਕਰਦਾ, ਕਰਦੇ
- *Read it:* ਕਰਦੇ
- *Write it:* copy ਕਰਦੇ once, changing only the ending

Before you move on

Read the pair for one masculine subject, then plural or respectful agreement. (ਕਰਦਾ, ਕਰਦੇ.)
Source: the canonical Punjabi present-habitual agreement contrast.

183.4 ਉੱਠਦਾ — he gets up

Recall *utthnaa*, "to get up," then ਕਰਦਾ.

Grammar Lens: move the same ending

ਉੱਠਦਾ — *utthdaa* — gets up, for one masculine subject

The infinitive was learned long ago. Keep its stem and use the same ending you saw in ਕਰਦਾ. A tiny complete sentence is ਉਹ ਉੱਠਦਾ ਹੈ — "He gets up."

Your turn

- *Hear: utthdaa*; YOU SAY: ਉੱਠਦਾ
- *Read it:* ਉੱਠਦਾ
- *Write it:* copy ਉੱਠਦਾ once, then point to the familiar ਦਾ ending

Before you move on

Say and read “he gets up,” then recall the two *kar-* forms. (**ਉੱਠਦਾ; ਕਰਦਾ; ਕਰਦੇ.**)
Source: the canonical Punjabi *utthnaa* and present-habitual entries.

183.5 ਦੇਖਦਾ — he sees or watches

Recall the twin infinitives *vekhnaa* and *dekhnaa*, then read ਉੱਠਦਾ.

Grammar Lens: use the dekh- twin

ਦੇਖਦਾ — *dekhdaa* — sees or watches, for one masculine subject

Vekhnaa and *dekhnaa* are living twins. This mock-facing form uses the *dekh-* twin: ਉਹ ਦੇਖਦਾ ਹੈ — “He sees” or “He watches.”

Your turn

- *Hear: dekhdaa*; YOU SAY: ਦੇਖਦਾ
- *Read it:* ਦੇਖਦਾ
- *Write it:* copy ਦੇਖਦਾ once while saying *dekh-daa*

Before you move on

Read “he sees,” then “he gets up.” (**ਦੇਖਦਾ; ਉੱਠਦਾ.**)
Source: the canonical Punjabi *vekhnaa/dekhnaa* comparison.

183.6 ਸੌਂਦਾ — he sleeps

Recall *saunaa*, “to sleep,” then read ਦੇਖਦਾ.

Grammar Lens: one small sound change

ਸੌਂਦਾ — *saundaa* — sleeps, for one masculine subject

Hear the nasal in the middle and keep the familiar ending. In a complete sentence: ਉਹ ਸੌਂਦਾ ਹੈ — “He sleeps.”

Your turn

- *Hear: saundaa*; YOU SAY: ਸੌਂਦਾ
- *Read it:* ਸੌਂਦਾ
- *Write it:* copy ਸੌਂਦਾ once; check the nasal mark before ਦਾ

Before you move on

Read the three routine forms: ਉੱਠਦਾ, ਦੇਖਦਾ, ਸੌਂਦਾ.
Source: the canonical Punjabi *saunaa* and present-habitual entries.

183.7 Five forms, one engine

Read the agreement pair: ਕਰਦਾ, ਕਰਦੇ.

Your turn: a short routine

Read slowly, with the English meanings beside the line:

- ਉਹ ਉੱਠਦਾ ਹੈ — he gets up
- ਉਹ ਦੇਖਦਾ ਹੈ — he watches
- ਉਹ ਸੌਂਦਾ ਹੈ — he sleeps
- ਮੈਂ ਕੰਮ ਕਰਦਾ ਹਾਂ — I work, said by a man
- ਉਹ ਕੰਮ ਕਰਦੇ ਹਨ — they work, or respectful he works

Hear: the five forms in mixed order; YOU SAY: each matching meaning

Before you move on

Write it: cover the model and write ਕਰਦਾ, ਕਰਦੇ, ਉੱਠਦਾ, ਦੇਖਦਾ, ਸੌਂਦਾ once
Check the two agreement endings first; then check the three routine

stems.
This review adds no new form and makes no mock-readiness claim.

183.8 A gentle five-form payoff

> Without looking, say the *kar-* pair for one masculine subject and for plural or respectful agreement.

Your turn: four skills, bounded to five forms

- *Hear: utthdaa, dekhdaa, saundaa*; YOU SAY: ਉੱਠਦਾ, ਦੇਖਦਾ, ਸੌਂਦਾ
- *Read it:* ਮੈਂ ਕੰਮ ਕਰਦਾ ਹਾਂ। ਉਹ ਕੰਮ ਕਰਦੇ ਹਨ।
- *Write it:* cover the model and write ਕਰਦਾ, ਕਰਦੇ, ਉੱਠਦਾ, ਦੇਖਦਾ, ਸੌਂਦਾ

Now point to the ending that distinguishes ਕਰਦਾ from ਕਰਦੇ. Then say what stayed constant.

Before you move on

Retrieve all five forms once more in any order.
This is the sixth prerequisite tranche exposed by Punjabi A2 mock drafting. It does not unblock Punjabi A2 mock 1 by itself. It is not an A2 mock, not A2 readiness or attainment, and not external or human validation.

Chapter 184

Next Week, Last Week

Modes: 🚗 **voice** (1) 👁 **eyes** (7) 🚗 **Hands-free start:** the first of 8 lessons.

> ***By the end of this chapter:*** I can recognise and use five exact forms for nearby weeks, months, and next or last references.
>
> *Retrieve five exact nearby-time and reference forms through listening, speaking, reading, and bounded copying after a slow review-led ramp.*

184.1 Start with one week and one month

Say ਹਫ਼ਤਾ, then ਮਹੀਨਾ.

Grammar Lens: keep the two time ideas steady

One word names a week. One word names a month. Say each base form twice. The next steps will change only the ending or add one nearby-time word.

Your turn

- *Hear: haftaa*; YOU SAY: ਹਫ਼ਤਾ
- *Hear: mahiinaa*; YOU SAY: ਮਹੀਨਾ
- *Read it:* ਹਫ਼ਤਾ, ਮਹੀਨਾ

Before you move on

Which word means “a week”? Which means “a month”? (ਹਫ਼ਤਾ; ਮਹੀਨਾ.)
This review introduces no new written target.

184.2 ਹਫ਼ਤੇ — weeks, or week inside a time phrase

Read the base card ਹਫ਼ਤਾ.

Grammar Lens: change the final vowel

ਹਫ਼ਤੇ — *hafte* — weeks, or week inside a larger time phrase

The ending changes from *-aa* to *-e*. In the small phrase ਦੋ ਹਫ਼ਤੇ, it means “two weeks.”

Your turn

- *Hear: haftaa, hafte*; YOU SAY: ਹਫ਼ਤਾ, ਹਫ਼ਤੇ
- *Read it:* ਦੋ ਹਫ਼ਤੇ
- *Write it:* copy ਹਫ਼ਤੇ once and check the final ◌ੇ

Before you move on

Read the exact form in “two weeks.” (ਹਫ਼ਤੇ.)
Source: the canonical Punjabi ਹਫ਼ਤਾ entry and the concrete phrase ਦੋ ਹਫ਼ਤੇ.

184.3 ਮਹੀਨੇ — month inside a time phrase

Read ਮਹੀਨਾ, then yesterday’s changed week form ਹਫ਼ਤੇ.

Grammar Lens: make the same ending change

ਮਹੀਨੇ — *mahiine* — month inside a larger time phrase

Again the final *-aa* becomes *-e*. The phrase ਹਰ ਮਹੀਨੇ means “every month.”

Your turn

- *Hear: mahiinaa, mahiine*; YOU SAY: ਮਹੀਨਾ, ਮਹੀਨੇ
- *Read it:* ਹਰ ਮਹੀਨੇ
- *Write it:* copy ਮਹੀਨੇ once and check the final ◌ੇ

Before you move on

Read the changed week form, then the changed month form. (ਹਫ਼ਤੇ; ਮਹੀਨੇ.)
Source: the canonical Punjabi ਮਹੀਨਾ entry and the concrete phrase ਹਰ ਮਹੀਨੇ.

184.4 ਅਗਲੀ — next, with a feminine noun

Read ਯਾਤਰਾ, then ਮਹੀਨੇ.

Grammar Lens: one concrete next-item phrase

ਅਗਲੀ — *aglii* — next, with a feminine noun

Keep it attached to one useful model: ਅਗਲੀ ਯਾਤਰਾ — "the next journey."

Your turn

- *Hear: aglii yaatraa*; YOU SAY: ਅਗਲੀ ਯਾਤਰਾ
- *Read it:* ਅਗਲੀ ਯਾਤਰਾ
- *Write it:* copy ਅਗਲੀ once, then copy the two-word phrase

Before you move on

Read "the next journey." (ਅਗਲੀ ਯਾਤਰਾ.)
Source: standard Punjabi agreement in the concrete phrase ਅਗਲੀ ਯਾਤਰਾ.

184.5 ਅਗਲੇ — next, in a masculine or plural phrase

Read ਅਗਲੀ, then ਮਹੀਨੇ.

Grammar Lens: change only the agreement ending

ਅਗਲੇ — *agle* — next, in a masculine or plural phrase

Compare the final sounds -*ii* and -*e*. Keep this model together: ਅਗਲੇ ਮਹੀਨੇ — “next month.”

Your turn

- *Hear: aglii, agle*; YOU SAY: ਅਗਲੀ, ਅਗਲੇ
- *Read it:* ਅਗਲੇ ਮਹੀਨੇ
- *Write it:* copy ਅਗਲੇ ਮਹੀਨੇ once and check both final ◌ੇ signs

Before you move on

Read “the next journey,” then “next month.” (ਅਗਲੀ ਯਾਤਰਾ; ਅਗਲੇ ਮਹੀਨੇ.)
Source: standard Punjabi agreement in the concrete phrase ਅਗਲੇ ਮਹੀਨੇ.

184.6 ਪਿਛਲੇ — last or previous in a time phrase

Read ਅਗਲੇ, then ਹਫ਼ਤੇ.

Grammar Lens: point backward instead of forward

ਪਿਛਲੇ — *pichhle* — last or previous, in a masculine time phrase

Keep one compact contrast: ਅਗਲੇ ਮਹੀਨੇ points forward; ਪਿਛਲੇ ਹਫ਼ਤੇ points backward.

Your turn

- *Hear: agle, pichhle*; YOU SAY: ਅਗਲੇ, ਪਿਛਲੇ
- *Read it:* ਪਿਛਲੇ ਹਫ਼ਤੇ
- *Write it:* copy ਪਿਛਲੇ ਹਫ਼ਤੇ once

Before you move on

Read the backward phrase, then the forward phrase. (ਪਿਛਲੇ ਹਫ਼ਤੇ; ਅਗਲੇ ਮਹੀਨੇ.)
Source: standard Punjabi time reference in the concrete phrase ਪਿਛਲੇ ਹਫ਼ਤੇ.

184.7 Five forms in five small phrases

Read ਦੋ ਹਫ਼ਤੇ, then ਹਰ ਮਹੀਨੇ.

Your turn: keep each form in its model

Read slowly:

- ਦੋ ਹਫ਼ਤੇ — two weeks
- ਹਰ ਮਹੀਨੇ — every month
- ਅਗਲੀ ਯਾਤਰਾ — the next journey
- ਅਗਲੇ ਮਹੀਨੇ — next month
- ਪਿਛਲੇ ਹਫ਼ਤੇ — last week

Hear: the five phrases in mixed order; YOU SAY: each matching time meaning

Before you move on

Write it: cover the models and write ਹਫ਼ਤੇ, ਮਹੀਨੇ, ਅਗਲੀ, ਅਗਲੇ, ਪਿਛਲੇ once
Check the two time nouns first, then the three nearby-time forms.
This review adds no new form and makes no mock-readiness claim.

184.8 A gentle nearby-time payoff

Without looking, say the changed forms for week and month.

Your turn: four skills, bounded to five forms

- *Hear: pichhle hafte, aglii yaatraa, agle mahiine*; YOU SAY: ਪਿਛਲੇ ਹਫ਼ਤੇ, ਅਗਲੀ ਯਾਤਰਾ, ਅਗਲੇ ਮਹੀਨੇ
- *Read it:* ਦੋ ਹਫ਼ਤੇ। ਹਰ ਮਹੀਨੇ।
- *Write it:* cover the model and write ਹਫ਼ਤੇ, ਮਹੀਨੇ, ਅਗਲੀ, ਅਗਲੇ, ਪਿਛਲੇ

Now point to the form that agrees with ਯਾਤਰਾ. Then point to the two forms that end in ਲੇ.

Before you move on

Retrieve all five exact forms once more in any order.
This is the seventh prerequisite tranche exposed by Punjabi A2 mock drafting. It does not unblock Punjabi A2 mock 1 by itself. It is not an A2 mock, not A2 readiness or attainment, and not external or human validation.

Chapter 185

Whose Book, Whose Home?

Modes: 🚗 **voice** (3) 👁 **eyes** (7) 🚗 **Hands-free start:** the first of 10 lessons.

> ***By the end of this chapter:*** I can recognise and use common my, your, one's-own, and our forms that agree with familiar nouns.
>
> *Retrieve six exact possessive forms through listening, speaking, reading, and bounded copying after a slow agreement ramp.*

185.1 Start with three forms you know

Say **ਮੇਰਾ**, **ਤੁਹਾਡਾ**, then **ਆਪਣਾ**.

Grammar Lens: the ending will follow the owned noun

These familiar forms all end in *-aa*. Keep their meanings steady: my, respectful your, and one's own. The next steps will change one ending at a time to agree with a familiar noun.

Your turn

- *Hear: meraa*; YOU SAY: **ਮੇਰਾ**
- *Hear: tuhaadaa*; YOU SAY: **ਤੁਹਾਡਾ**
- *Hear: aapnaa*; YOU SAY: **ਆਪਣਾ**
- *Read it:* **ਮੇਰਾ**, **ਤੁਹਾਡਾ**, **ਆਪਣਾ**

Before you move on

Which form means my? Respectful your? One's own?
This review introduces no new written target.

185.2 ਮੇਰੀ — my, with a feminine noun

Read ਮੇਰਾ, then say ਕਿਤਾਬ.

Grammar Lens: change the agreement ending

ਮੇਰੀ — *merii* — my, agreeing with a feminine noun

The ending changes from -*aa* to -*ii*. Keep the owner the same. In ਮੇਰੀ ਕਿਤਾਬ, the form agrees with ਕਿਤਾਬ.

Your turn

- *Hear: meraa, merii*; YOU SAY: ਮੇਰਾ, ਮੇਰੀ
- *Read it:* ਮੇਰੀ ਕਿਤਾਬ
- *Write it:* copy ਮੇਰੀ once and check the final ੀ

Before you move on

Read the exact form in "my book." (ਮੇਰੀ.)
Source: the canonical Punjabi ਮੇਰਾ entry already names *merii* as its feminine agreement form; this lesson owns its exact Gurmukhi spelling.

185.3 ਮੇਰੇ — my, with plural friends

Say ਮੇਰਾ, then ਦੋਸਤ.

Grammar Lens: use the -*e* agreement form

ਮੇਰੇ — *mere* — my, with plural or oblique masculine nouns

The owner is still "me." The ending changes to -*e*. In ਮੇਰੇ ਦੋਸਤ, the form goes with friends in the plural.

Your turn

- *Hear: meraa, mere*; YOU SAY: ਮੇਰਾ, ਮੇਰੇ
- *Read it:* ਮੇਰੇ ਦੋਸਤ
- *Write it:* copy ਮੇਰੇ once and check the final ◌ੇ

Before you move on

Read the exact form in “my friends.” (ਮੇਰੇ.)
Source: the canonical Punjabi ਮੇਰਾ entry already names *mere* as its plural agreement form; this lesson owns its exact Gurmukhi spelling.

185.4 ਤੁਹਾਡੀ — respectful your, with a feminine noun

Retrieve ਤੁਹਾਡਾ from the respectful name question. Then say ਯਾਤਰਾ.

Grammar Lens: keep respect, change agreement

ਤੁਹਾਡੀ — *tuhaadii* — your, respectful, with a feminine noun

The respectful owner does not change. Only the ending becomes -*ii*. Read ਤੁਹਾਡੀ ਯਾਤਰਾ: “your journey.”

Your turn

- *Hear: tuhaadaa, tuhaadii*; YOU SAY: ਤੁਹਾਡਾ, ਤੁਹਾਡੀ
- *Read it:* ਤੁਹਾਡੀ ਯਾਤਰਾ
- *Write it:* copy ਤੁਹਾਡੀ once and check the final ◌ੀ

Before you move on

Read the respectful possessive in “your journey.” (ਤੁਹਾਡੀ.)
Source: the canonical respectful ਤੁਹਾਡਾ phrase and ordinary Punjabi agreement supply the feminine form used here.

185.5 ਆਪਣੀ — one’s own, with a feminine noun

Say ਆਪਣਾ, then ਕਿਤਾਬ.

Grammar Lens: the same *-ii* agreement

ਆਪਣੀ — *aapnii* — one’s own, with a feminine noun

The reflexive meaning stays “one’s own.” The ending follows the feminine noun. Read ਆਪਣੀ ਕਿਤਾਬ.

Your turn

- *Hear: aapnaa, aapnii*; YOU SAY: ਆਪਣਾ, ਆਪਣੀ
- *Read it:* ਆਪਣੀ ਕਿਤਾਬ
- *Write it:* copy ਆਪਣੀ once and check the final ੀ

Before you move on

Read the exact form in “one’s own book.” (ਆਪਣੀ.)
Source: the canonical Punjabi ਆਪਣਾ entry and regular feminine agreement.

185.6 ਆਪਣੇ — one’s own, with plural friends

Say ਆਪਣਾ, then ਦੋਸਤ.

Grammar Lens: use the *-e* agreement form

ਆਪਣੇ — *aapne* — one’s own, with plural or oblique masculine nouns

The meaning stays reflexive. The ending becomes -*e*. Read ਆਪਣੇ ਦੋਸਤ.

Your turn

- *Hear: aapnaa, aapne*; YOU SAY: ਆਪਣਾ, ਆਪਣੇ
- *Read it:* ਆਪਣੇ ਦੋਸਤ
- *Write it:* copy ਆਪਣੇ once and check the final ◌ੇ

Before you move on

Read the exact form in "one's own friends." (ਆਪਣੇ.)
Source: the canonical Punjabi ਆਪਣਾ entry and regular plural agreement.

185.7 ਸਾਡਾ — our, the missing base

Say ਅਸੀਂ, then ਘਰ.

Grammar Lens: connect we to our

ਸਾਡਾ — *saadaa* — our, with a masculine singular noun

This base was not printed in earlier lessons, so pause here before changing its ending. Read ਸਾਡਾ ਘਰ: "our home."

Your turn

- *Hear: asii, saadaa*; YOU SAY: ਅਸੀਂ, ਸਾਡਾ
- *Read it:* ਸਾਡਾ ਘਰ
- *Write it:* copy ਸਾਡਾ once

Before you move on

Read the new base meaning "our." (ਸਾਡਾ.)
Source: standard Punjabi ਸਾਡਾ, the masculine singular possessive paired with ਅਸੀਂ.

185.8 ਸਾਡੇ — our, with plural homes

Read the new base ਸਾਡਾ, then say ਘਰ.

Grammar Lens: change only the ending

ਸਾਡੇ — *saade* — our, with plural or oblique masculine nouns

The owner remains "we." The ending changes from -*aa* to -*e*. Read ਸਾਡੇ ਘਰ: "our homes."

Your turn

- *Hear: saadaa, saade*; YOU SAY: ਸਾਡਾ, ਸਾਡੇ
- *Read it:* ਸਾਡੇ ਘਰ
- *Write it:* copy ਸਾਡੇ once and check the final ੇ

Before you move on

Read the exact form in "our homes." (ਸਾਡੇ.)
Source: standard Punjabi plural agreement built from the newly owned base ਸਾਡਾ.

185.9 Seven forms in six small phrases

Say the four -*ii* and -*e* contrasts from memory, then the new "our" base and its -*e* form.

Your turn: keep each form beside its noun

Read slowly:

- ਮੇਰੀ ਕਿਤਾਬ — my book
- ਮੇਰੇ ਦੋਸਤ — my friends
- ਤੁਹਾਡੀ ਯਾਤਰਾ — your journey
- ਆਪਣੀ ਕਿਤਾਬ — one's own book
- ਆਪਣੇ ਦੋਸਤ — one's own friends

- **ਸਾਡਾ ਘਰ, ਸਾਡੇ ਘਰ** — our home, our homes

Hear: the six phrases in mixed order; YOU SAY: each matching owner and noun

Before you move on

Write it: cover the models and write **ਮੇਰੀ, ਮੇਰੇ, ਤੁਹਾਡੀ, ਆਪਣੀ, ਆਪਣੇ, ਸਾਡਾ, ਸਾਡੇ** once
Check the *-ii* forms first, then the *-e* forms and the one new *-aa* base.
This review adds no new form and makes no mock-readiness claim.

185.10 A gentle possessive-agreement payoff

> Without looking, say one *-ii* form, one *-e* form, and the new "our" base.

Your turn: four skills, bounded to agreement

- *Hear: merii kitaab, tuhaadii yaatraa, aapne dost, saade ghar*; YOU SAY: **ਮੇਰੀ ਕਿਤਾਬ, ਤੁਹਾਡੀ ਯਾਤਰਾ, ਆਪਣੇ ਦੋਸਤ, ਸਾਡੇ ਘਰ**
- *Read it:* **ਮੇਰੇ ਦੋਸਤ। ਆਪਣੀ ਕਿਤਾਬ। ਸਾਡਾ ਘਰ।**
- *Write it:* cover the model and write **ਮੇਰੀ, ਮੇਰੇ, ਤੁਹਾਡੀ, ਆਪਣੀ, ਆਪਣੇ, ਸਾਡੇ**

Now point to the three forms ending in ◌ੀ. Then point to the three measured forms ending in ◌ੇ.

Before you move on

Retrieve the six measured forms once more, then say the supporting base **ਸਾਡਾ**.
This is the eighth prerequisite tranche exposed by Punjabi A2 mock drafting. It does not unblock Punjabi A2 mock 1 by itself. It is not an A2 mock, not A2 readiness or attainment, and not external or human validation.
Source: the canonical Punjabi possessive bases and ordinary agreement with the familiar book, friend, journey, and home nouns.

Chapter 186

What Will Happen? Who Will Come?

Modes: 🚗 **voice** (7) 👁 **eyes** (1) 🚗 **Hands-free start:** the first 7 of 8 lessons.

> ***By the end of this chapter:*** I can recognise and use common masculine and feminine third-person future forms of to be and to come.
>
> *Retrieve four exact third-person future forms through listening, speaking, reading, and bounded copying after a slow agreement ramp.*

186.1 Start with two verbs you know

Say the Punjabi infinitive for “to be,” then the infinitive for “to come.”

Grammar Lens: one future contrast at a time

Keep the two familiar meanings steady. The next steps will make a masculine future form and then a feminine future form from the first verb. Only after that contrast is secure will the same two endings move to the second verb.

Your turn

- *Hear: honaa*; YOU SAY: ਹੋਣਾ
- *Hear: aaunaa*; YOU SAY: ਆਉਣਾ

Before you move on

Say “to be; to come” once more in Punjabi.
This voice-first review introduces no new written target.

186.2 ਹੋਵੇਗਾ — it will be or happen

Say ਹੋਣਾ, then say ਕੰਮ.

Grammar Lens: the masculine singular future

ਹੋਵੇਗਾ — *hovegaa* — it will be or it will happen

This is the masculine singular future form. First keep it whole; the feminine contrast comes in the next small step.

Your turn

- *Hear: hovegaa*; YOU SAY: ਹੋਵੇਗਾ
- *Read it:* ਕੰਮ ਹੋਵੇਗਾ
- *Write it:* copy ਹੋਵੇਗਾ once and check the final ◌ਾ

Before you move on

Read the exact form for “it will happen.” (ਹੋਵੇਗਾ.)
Source: standard Punjabi uses this form as the masculine singular future of the already-taught infinitive ਹੋਣਾ.

186.3 ਹੋਵੇਗੀ — it will be, with a feminine subject

Say ਹੋਵੇਗਾ, then say ਯਾਤਰਾ.

Grammar Lens: change only the agreement ending

ਹੋਵੇਗੀ — *hovegii* — it will be or happen, feminine singular

The ending changes from ◌ਾ to ◌ੀ. The time stays future; the form now agrees with a feminine singular subject.

Your turn

- *Hear: hovegaa, hovegii*; YOU SAY: ਹੋਵੇਗਾ, ਹੋਵੇਗੀ
- *Read it:* ਯਾਤਰਾ ਹੋਵੇਗੀ
- *Write it:* copy ਹੋਵੇਗੀ once and check the final ੀ

Before you move on

Say the masculine form, then the feminine form.
Source: standard Punjabi future agreement changes the final masculine ਾ to feminine ੀ here.

186.4 Hold the first future contrast steady

Say the pair once without looking.

Your turn

- *Hear: kamm hovegaa*; YOU SAY: ਕੰਮ ਹੋਵੇਗਾ
- *Hear: yaatraa hovegii*; YOU SAY: ਯਾਤਰਾ ਹੋਵੇਗੀ
- *Read it:* ਹੋਵੇਗਾ · ਹੋਵੇਗੀ
- *Write it:* cover the pair and write ਹੋਵੇਗਾ, ਹੋਵੇਗੀ

The stem and future meaning stay together. Only the final agreement vowel changes.

Before you move on

Which form ends in ਾ? Which ends in ੀ?
This review adds no new future form.

186.5 ਆਵੇਗਾ — he or it will come

Say ਆਉਣਾ, then retrieve the masculine future ending from the last pair.

Grammar Lens: transfer the masculine future

ਆਵੇਗਾ — *aavegaa* — he or it will come

The verb changes, but the masculine singular future ending remains familiar.

Your turn

- *Hear: aavegaa*; YOU SAY: ਆਵੇਗਾ
- *Read it:* ਅਮਨ ਆਵੇਗਾ
- *Write it:* copy ਆਵੇਗਾ once and check the final ਾ

Before you move on

Read "will come," masculine singular. (ਆਵੇਗਾ.)
Source: standard Punjabi uses this form as the masculine singular future of the already-taught infinitive ਆਉਣਾ.

186.6 ਆਵੇਗੀ — she or it will come

Say ਆਵੇਗਾ, then say ਰੇਲ.

Grammar Lens: transfer the feminine future

ਆਵੇਗੀ — *aavegii* — she or it will come

Change the final ਾ to ੀ, matching the first future pair. The verb still means "come"; agreement is now feminine singular.

Your turn

- *Hear: aavegaa, aavegii*; YOU SAY: ਆਵੇਗਾ, ਆਵੇਗੀ
- *Read it:* ਰੇਲ ਆਵੇਗੀ
- *Write it:* copy ਆਵੇਗੀ once and check the final ੀ

Before you move on

Say the masculine “will come,” then the feminine “will come.”
Source: standard Punjabi future agreement changes the final masculine ਾ to feminine ੀ here too.

186.7 Two verbs, one future agreement contrast

Say both masculine forms, then both feminine forms.

Your turn

- *Hear: kamm hovegaa; yaatraa hovegii*; YOU SAY: ਕੰਮ ਹੋਵੇਗਾ; ਯਾਤਰਾ ਹੋਵੇਗੀ
- *Hear: Aman aavegaa; rel aavegii*; YOU SAY: ਅਮਨ ਆਵੇਗਾ; ਰੇਲ ਆਵੇਗੀ
- *Read it:* ਹੋਵੇਗਾ, ਹੋਵੇਗੀ, ਆਵੇਗਾ, ਆਵੇਗੀ
- *Write it:* cover the line and write the four forms in the same order

Keep the verb pair separate from the agreement pair: “be” and “come” each have one masculine and one feminine singular future form here.

Before you move on

Retrieve all four exact forms without looking.
This review adds no first-person future and no past form.

186.8 A gentle third-person future payoff

Without looking, say one future form ending in ਾ and one ending in ੀ for each verb.

Your turn: four skills, bounded to the two pairs

- *Hear: kamm hovegaa, yaatraa hovegii, Aman aavegaa, rel aavegii*; YOU SAY: ਕੰਮ ਹੋਵੇਗਾ, ਯਾਤਰਾ ਹੋਵੇਗੀ, ਅਮਨ ਆਵੇਗਾ, ਰੇਲ ਆਵੇਗੀ
- *Read it:* ਕੰਮ ਹੋਵੇਗਾ। ਯਾਤਰਾ ਹੋਵੇਗੀ। ਅਮਨ ਆਵੇਗਾ। ਰੇਲ ਆਵੇਗੀ।
- *Write it:* cover the model and write ਹੋਵੇਗਾ, ਹੋਵੇਗੀ, ਆਵੇਗਾ, ਆਵੇਗੀ

Now underline the two masculine endings and circle the two feminine endings.

Before you move on

Retrieve the four measured forms once more.
This is the ninth prerequisite tranche exposed by Punjabi A2 mock drafting. It does not unblock Punjabi A2 mock 1 by itself. It is not an A2 mock, not A2 readiness or attainment, and not external or human validation.
Source: the standard Punjabi third-person future agreement pattern applied to the already-taught infinitives ਹੋਣਾ and ਆਉਣਾ.

Chapter 187

He Was There; They Were There

Modes: 🚗 **voice** (8) 👁 **eyes** (1) 🚗 **Hands-free start:** the first 8 of 9 lessons.

> ***By the end of this chapter:*** I can recognise and use common singular and plural past-copula forms in descriptions and familiar routines.
>
> *Retrieve exact singular and plural past-copula forms through listening, speaking, reading, and bounded copying after a slow contrast ramp.*

187.1 Start with one verb you know

Say the Punjabi infinitive for “to be.”

Grammar Lens: one past contrast at a time

Keep the familiar meaning steady. The next step will make the singular past form. After a short retrieval, a separate step will add the plural and polite past form.

Your turn

- *Hear: honaa*; YOU SAY: ਹੋਣਾ

Before you move on

Say “to be” once more in Punjabi.
This voice-first review introduces no new written target.

187.2 ਸੀ — was

Say ਹੋਣਾ, then ਅਮਨ, ਘਰ, and ਵਿੱਚ.

Grammar Lens: the singular past form

ਸੀ — *sii* — was

Use this past copula with a singular subject here. Keep the short form whole; the plural and polite past form comes after one retrieval step.

Your turn

- *Hear: sii*; YOU SAY: ਸੀ
- *Read it:* ਅਮਨ ਘਰ ਵਿੱਚ ਸੀ
- *Write it:* copy ਸੀ once and check the final ੀ

Before you move on

Read the exact singular past form. (ਸੀ.)
Source: standard Punjabi uses ਸੀ as a singular past copula.

187.3 Hold the singular past form steady

Say the exact form for "was" once without looking.

Your turn

- *Hear: Aman ghar vich sii*; YOU SAY: ਅਮਨ ਘਰ ਵਿੱਚ ਸੀ
- *Read it:* ਅਮਨ ਘਰ ਵਿੱਚ ਸੀ
- *Write it:* cover the line and write ਸੀ

The meaning is past and the subject is singular. No second past form is needed yet.

Before you move on

Retrieve ਸੀ one more time.
This review adds no new past form.

187.4 ਸਨ — were

Say ਸੀ, then ਫੁੱਲ and ਲਾਲ.

Grammar Lens: the plural and polite past form

ਸਨ — *san* — were

Use this past copula with a plural subject here. It also serves respectful singular reference, matching Punjabi's familiar plural-for-respect pattern.

Your turn

- *Hear: san*; YOU SAY: ਸਨ
- *Read it:* ਫੁੱਲ ਲਾਲ ਸਨ
- *Write it:* copy ਸਨ once and check the final ਨ

Before you move on

Say "was," then "were." (**ਸੀ, ਸਨ.**)
Source: standard Punjabi uses ਸਨ as the plural or polite past copula.

187.5 One was; more than one were

Say the pair once without looking.

Your turn

- *Hear: Aman ghar vich sii*; YOU SAY: ਅਮਨ ਘਰ ਵਿੱਚ ਸੀ
- *Hear: phull laal san*; YOU SAY: ਫੁੱਲ ਲਾਲ ਸਨ
- *Read it:* ਸੀ · ਸਨ

- *Write it:* cover the pair and write ਸੀ, ਸਨ

Keep the time past in both lines. Change the copula when the subject changes from singular to plural.

Before you move on

Which form is singular? Which is plural or polite?
This review adds no perfective verb form.

187.6 Keep “were” inside a small description

Say the plural past form once.

Your turn

- *Hear: phull laal san*; YOU SAY: ਫੁੱਲ ਲਾਲ ਸਨ
- *Read it:* ਫੁੱਲ ਲਾਲ ਸਨ
- *Write it:* copy ਸੀ, ਸਨ and underline ਸਨ

The plural subject ਫੁੱਲ keeps the plural past copula ਸਨ.

Before you move on

Say the singular and plural pair again.
This description reuses familiar words and adds no new colour or noun.

187.7 Put ਸਨ after a familiar plural habit

Say ਉਹ ਕੰਮ ਕਰਦੇ, then retrieve ਸਨ.

Grammar Lens: a familiar habit moved into the past

ਉਹ ਕੰਮ ਕਰਦੇ ਸਨ — *oh kamm karde san* — they used to work

The familiar plural habitual predicate stays before ਸਨ. The final copula moves the routine into the past.

Your turn

- *Hear: oh kamm karde san*; YOU SAY: ਉਹ ਕੰਮ ਕਰਦੇ ਸਨ
- *Read it:* ਉਹ ਕੰਮ ਕਰਦੇ ਸਨ
- *Write it:* copy ਕਰਦੇ ਸਨ once

Before you move on

Complete ਉਹ ਕੰਮ ਕਰਦੇ ... with the past copula.
This step reuses the already-owned habitual predicate and introduces no new perfective form.

187.8 Two past forms, three familiar frames

Say “was; were” in that order.

Your turn

- *Hear: Aman ghar vich sii*; YOU SAY: ਅਮਨ ਘਰ ਵਿੱਚ ਸੀ
- *Hear: phull laal san*; YOU SAY: ਫੁੱਲ ਲਾਲ ਸਨ
- *Hear: oh kamm karde san*; YOU SAY: ਉਹ ਕੰਮ ਕਰਦੇ ਸਨ
- *Write it:* cover the lines and write ਸੀ, ਸਨ

One singular description takes ਸੀ. Both plural frames take ਸਨ.

Before you move on

Retrieve both exact forms without looking.
This review adds no perfective verb and no future form.

187.9 A gentle past-copula payoff

Without looking, say the singular past form and then the plural or polite past form.

Your turn: four skills, bounded to the two forms

- *Hear: Aman ghar vich sii; phull laal san; oh kamm karde san*; YOU SAY: ਅਮਨ ਘਰ ਵਿੱਚ ਸੀ; ਫੁੱਲ ਲਾਲ ਸਨ; ਉਹ ਕੰਮ ਕਰਦੇ ਸਨ
- *Read it:* ਅਮਨ ਘਰ ਵਿੱਚ ਸੀ। ਫੁੱਲ ਲਾਲ ਸਨ। ਉਹ ਕੰਮ ਕਰਦੇ ਸਨ।
- *Write it:* cover the model and write ਸੀ, ਸਨ

Underline the singular form once and the plural form twice.

Before you move on

Retrieve both measured forms once more.
This is the tenth prerequisite tranche exposed by Punjabi A2 mock drafting. It does not unblock Punjabi A2 mock 1 by itself. It is not an A2 mock, not A2 readiness or attainment, and not external or human validation.
Source: the standard Punjabi past-copula contrast applied to familiar singular and plural phrases.

Chapter 188

To Meet; We Meet; I Met

Modes: **voice** (8) **eyes** (2) **Hands-free start:** the first 2 of 10 lessons.

> ***By the end of this chapter:*** I can distinguish and use a meeting infinitive, a regular-group meeting form, and one completed masculine-singular meeting frame.
>
> *Retrieve the bounded infinitive, habitual-plural, and masculine-singular perfective meeting contrast through listening, speaking, reading, and writing.*

188.1 Start with the meeting farewell you know

Hear: phir milaange; YOU SAY: ਫਿਰ ਮਿਲਾਂਗੇ

Grammar Lens

Keep the familiar idea of meeting steady. The chapter will separate a naming form, a regular-group form, and one completed masculine-singular form, one owner lesson at a time.

Your turn

- *Hear: phir milaange*; YOU SAY: ਫਿਰ ਮਿਲਾਂਗੇ
- *Read it:* ਫਿਰ ਮਿਲਾਂਗੇ

Before you move on

Say the familiar farewell once more. This voice-first return owns no new form.

188.2 The infinitive for “to meet”

Retrieve ਫਿਰ ਮਿਲਾਂਗੇ without looking.

Grammar Lens: name the action

ਮਿਲਣਾ — *milnaa* — to meet

Treat this as one whole infinitive. It names the action; later lessons will contrast it with a regular-group form and a completed form.

Your turn

- *Hear: milnaa*; YOU SAY: ਮਿਲਣਾ
- *Read it:* ਮਿਲਣਾ
- *Write it:* copy ਮਿਲਣਾ once

Before you move on

Give the infinitive meaning “to meet.”

188.3 Retrieve the infinitive

Say “to meet” before uncovering the line.

Grammar Lens

ਮਿਲਣਾ names the action. Keep that job distinct from the new form in the next lesson.

Your turn

- *Hear: milnaa*; YOU SAY: ਮਿਲਣਾ
- *Write it:* cover the model and write ਮਿਲਣਾ

Before you move on

Read ਮਿਲਣਾ once and state its job: it names the action.

188.4 A regular meeting by a group

Retrieve ਮਿਲਣਾ, then the familiar words ਅਸੀਂ and ਹਾਂ.

Grammar Lens: the regular-group form

ਅਸੀਂ ਮਿਲਦੇ ਹਾਂ — *asiin milde haan* — we meet

The middle word is the measured new form. In this bounded frame it presents a regular or habitual meeting by a plural group.

Your turn

- *Hear: asiin milde haan*; YOU SAY: ਅਸੀਂ ਮਿਲਦੇ ਹਾਂ
- *Read it:* ਅਸੀਂ ਮਿਲਦੇ ਹਾਂ
- *Write it:* copy ਮਿਲਦੇ once

Before you move on

Say the regular-group frame once without looking.

188.5 Name the action or describe a regular meeting

Say the naming form, then the regular-group form.

Grammar Lens: two jobs

- ਮਿਲਣਾ — names “to meet.”
- ਅਸੀਂ ਮਿਲਦੇ ਹਾਂ — says “we meet” as a regular pattern.

Your turn

- *Hear: milnaa*; YOU SAY: ਮਿਲਣਾ
- *Hear: asiin milde haan*; YOU SAY: ਅਸੀਂ ਮਿਲਦੇ ਹਾਂ
- *Write it:* ਮਿਲਣਾ and ਮਿਲਦੇ under the correct English jobs

Before you move on

Produce both forms in meaning order: action name, regular group.

188.6 Retrieve the regular-group frame

Hear "we meet regularly" and prepare the complete frame.

Grammar Lens

Do not replace the regular-group form with the infinitive. Read the subject, the meeting form, and the copula as one measured frame.

Your turn

- *Hear: asiin milde haan*; YOU SAY: ਅਸੀਂ ਮਿਲਦੇ ਹਾਂ
- *Read it:* ਅਸੀਂ ਮਿਲਦੇ ਹਾਂ
- *Write it:* cover and write ਅਸੀਂ ਮਿਲਦੇ ਹਾਂ

Before you move on

Give the middle form alone, then restore the full frame.

188.7 One completed meeting

Retrieve ਮੈਂ, ਅਮਨ, and ਨੂੰ, then the action name and the regular-group meeting form from the last lessons.

Grammar Lens: masculine singular completed form

ਮੈਂ ਅਮਨ ਨੂੰ ਮਿਲਿਆ — *main Aman nuun miliaa* — I met Aman

The final word is the measured masculine-singular completed form. This chapter does not generalize beyond that bounded agreement frame.

Your turn

- *Hear: main Aman nuun miliaa*; YOU SAY: ਮੈਂ ਅਮਨ ਨੂੰ ਮਿਲਿਆ
- *Read it:* ਮੈਂ ਅਮਨ ਨੂੰ ਮਿਲਿਆ
- *Write it:* copy ਮਿਲਿਆ once

Before you move on

Say the completed frame once without looking.

188.8 Contrast the three meeting jobs

Prepare three meanings: to meet, we meet regularly, I met Aman.

Grammar Lens: one family, three bounded jobs

- ਮਿਲਣਾ — names the action.
- ਅਸੀਂ ਮਿਲਦੇ ਹਾਂ — gives the regular-group frame.
- ਮੈਂ ਅਮਨ ਨੂੰ ਮਿਲਿਆ — gives the completed masculine-singular frame.

Your turn

- *Say it:* ਮਿਲਣਾ for “to meet”
- *Say it:* ਅਸੀਂ ਮਿਲਦੇ ਹਾਂ for the regular pattern
- *Say it:* ਮੈਂ ਅਮਨ ਨੂੰ ਮਿਲਿਆ for the completed meeting
- *Write it:* ਮਿਲਣਾ · ਮਿਲਦੇ · ਮਿਲਿਆ in meaning order

Before you move on

Cover the models and produce the same three-way contrast.

188.9 Retrieve the completed meeting

Hear “I met Aman” and prepare the bounded frame.

Grammar Lens

Keep the completed form distinct from the action name and the regular-group form. No broader agreement claim is being made here.

Your turn

- *Hear: main Aman nuun miliaa*; YOU SAY: ਮੈਂ ਅਮਨ ਨੂੰ ਮਿਲਿਆ
- *Read it:* ਮੈਂ ਅਮਨ ਨੂੰ ਮਿਲਿਆ
- *Write it:* cover and write ਮੈਂ ਅਮਨ ਨੂੰ ਮਿਲਿਆ

Before you move on

Give the completed form alone, then restore the full frame.

188.10 A bounded meeting-family payoff

Recall the action name, the regular-group form, and the completed masculine-singular form in that order.

Your turn: four skills

- *Hear: milnaa; asiin milde haan; main Aman nuun miliaa*; YOU SAY: ਮਿਲਣਾ; ਅਸੀਂ ਮਿਲਦੇ ਹਾਂ; ਮੈਂ ਅਮਨ ਨੂੰ ਮਿਲਿਆ
- *Read it:* ਮਿਲਣਾ · ਅਸੀਂ ਮਿਲਦੇ ਹਾਂ · ਮੈਂ ਅਮਨ ਨੂੰ ਮਿਲਿਆ
- *Write it:* cover the line and write ਮਿਲਣਾ · ਮਿਲਦੇ · ਮਿਲਿਆ

Check the three jobs: name an action, describe a regular group meeting, and report one completed masculine-singular meeting.

Before you move on

Produce the three-way contrast once more without looking.
This is the eleventh prerequisite tranche exposed by Punjabi A2 mock drafting. It does not unblock Punjabi A2 mock 1 by itself. It is not an A2 mock, not A2 readiness or attainment, and not external or human validation.

Chapter 189

They Want; Do You Want?

Modes: 🚗 **voice** (6) 👁 **eyes** (2) 🚗 **Hands-free start:** the first 2 of 8 lessons.

> ***By the end of this chapter:*** I can recognise and use the shared plural or respectful want form in a familiar statement and question.
>
> *Retrieve the shared plural or respectful want form in a third-person plural statement and a second-person polite question across four skills.*

189.1 Return to familiar want language

Hear: chaahunaa; YOU SAY: ਚਾਹੁਣਾ

Grammar Lens

Retrieve the familiar plural or respectful habitual frame before changing the verb: ਉਹ ਕੰਮ ਕਰਦੇ ਹਨ.

Your turn

- *Hear: chaahunaa*; YOU SAY: ਚਾਹੁਣਾ
- *Hear: oh kamm karde han*; YOU SAY: ਉਹ ਕੰਮ ਕਰਦੇ ਹਨ

Before you move on

Say the infinitive, then the familiar agreement frame. This opener owns no new form.

189.2 The plural or respectful want form

Retrieve ਚਾਹੁਣਾ, then the middle form in ਉਹ ਕੰਮ ਕਰਦੇ ਹਨ.

Grammar Lens: direct owner

ਚਾਹੁੰਦੇ — *chaahunde* — want, with plural or respectful habitual agreement

Treat the whole written form as today's measured target. The next lesson retrieves it before either complete sentence frame is built.

Your turn

- *Hear: chaahunde*; YOU SAY: ਚਾਹੁੰਦੇ
- *Read it:* ਚਾਹੁੰਦੇ
- *Write it:* copy ਚਾਹੁੰਦੇ once

Before you move on

Produce the plural or respectful want form without looking.

189.3 Retrieve the new agreement form

Hear "want, plural or respectful" and prepare the single form.

Grammar Lens

Keep ਚਾਹੁੰਦੇ distinct from the infinitive ਚਾਹੁਣਾ. Its agreement job matches the familiar plural or respectful pattern in ਕਰਦੇ.

Your turn

- *Hear: chaahunde*; YOU SAY: ਚਾਹੁੰਦੇ
- *Read it:* ਚਾਹੁੰਦੇ
- *Write it:* cover the model and write ਚਾਹੁੰਦੇ

Before you move on

Read the form once more and state its bounded agreement job.

189.4 Build the third-person plural frame

Retrieve ਉਹ, ਕੰਮ, ਕਰਨਾ, and ਚਾਹੁੰਦੇ.

Grammar Lens: complete statement

ਉਹ ਕੰਮ ਕਰਨਾ ਚਾਹੁੰਦੇ ਹਨ — *oh kamm karnaa chaahunde han* — they want to work

Read the plural subject, the wanted action, the agreement form, and the familiar plural auxiliary as one bounded frame.

Your turn

- *Hear: oh kamm karnaa chaahunde han*; YOU SAY: ਉਹ ਕੰਮ ਕਰਨਾ ਚਾਹੁੰਦੇ ਹਨ
- *Read it:* ਉਹ ਕੰਮ ਕਰਨਾ ਚਾਹੁੰਦੇ ਹਨ
- *Write it:* copy ਚਾਹੁੰਦੇ ਹਨ once

Before you move on

Produce the complete “they want to work” frame.

189.5 Retrieve the plural statement

Hear “they want to work” and prepare the whole statement.

Grammar Lens

Keep the target next to its familiar plural auxiliary. The frame remains ਉਹ ਕੰਮ ਕਰਨਾ ਚਾਹੁੰਦੇ ਹਨ.

Your turn

- *Hear: oh kamm karnaa chaahunde han*; YOU SAY: ਉਹ ਕੰਮ ਕਰਨਾ ਚਾਹੁੰਦੇ ਹਨ
- *Read it:* ਉਹ ਕੰਮ ਕਰਨਾ ਚਾਹੁੰਦੇ ਹਨ
- *Write it:* cover and write ਉਹ ਕੰਮ ਕਰਨਾ ਚਾਹੁੰਦੇ ਹਨ

Before you move on

Say the statement once more without looking.

189.6 Ask what someone wants to do

Retrieve ਤੁਸੀਂ, ਕੀ, ਕਰਨਾ, ਚਾਹੁੰਦੇ, and ਹੋ.

Grammar Lens: complete question

ਤੁਸੀਂ ਕੀ ਕਰਨਾ ਚਾਹੁੰਦੇ ਹੋ — *tusiin kii karnaa chaahunde ho* — what do you want to do?

The respectful or plural subject keeps the same target form, while the familiar second-person auxiliary closes the question.

Your turn

- *Hear: tusiin kii karnaa chaahunde ho*; YOU SAY: ਤੁਸੀਂ ਕੀ ਕਰਨਾ ਚਾਹੁੰਦੇ ਹੋ
- *Read it:* ਤੁਸੀਂ ਕੀ ਕਰਨਾ ਚਾਹੁੰਦੇ ਹੋ
- *Write it:* copy ਚਾਹੁੰਦੇ ਹੋ once

Before you move on

Ask the complete question without looking.

189.7 Contrast the two complete frames

Prepare the plural statement and the respectful question.

Grammar Lens: same target, different frame endings

- ਉਹ ਕੰਮ ਕਰਨਾ ਚਾਹੁੰਦੇ ਹਨ — a third-person plural statement.
- ਤੁਸੀਂ ਕੀ ਕਰਨਾ ਚਾਹੁੰਦੇ ਹੋ — a second-person plural or respectful question.

Your turn

- *Say it:* ਉਹ ਕੰਮ ਕਰਨਾ ਚਾਹੁੰਦੇ ਹਨ
- *Say it:* ਤੁਸੀਂ ਕੀ ਕਰਨਾ ਚਾਹੁੰਦੇ ਹੋ
- *Write it:* ਚਾਹੁੰਦੇ ਹਨ · ਚਾਹੁੰਦੇ ਹੋ

Before you move on

Cover the models and produce statement, then question.

189.8 A bounded plural and respectful want payoff

Recall the target alone, then prepare both complete frames.

Your turn: four skills

- *Hear: oh kamm karnaa chaahunde han; tusiin kii karnaa chaahunde ho*; YOU SAY: ਉਹ ਕੰਮ ਕਰਨਾ ਚਾਹੁੰਦੇ ਹਨ; ਤੁਸੀਂ ਕੀ ਕਰਨਾ ਚਾਹੁੰਦੇ ਹੋ
- *Read it:* ਉਹ ਕੰਮ ਕਰਨਾ ਚਾਹੁੰਦੇ ਹਨ · ਤੁਸੀਂ ਕੀ ਕਰਨਾ ਚਾਹੁੰਦੇ ਹੋ
- *Write it:* cover the line and write ਚਾਹੁੰਦੇ ਹਨ · ਚਾਹੁੰਦੇ ਹੋ

Before you move on

Produce the plural statement and the respectful question once more. This is the twelfth prerequisite tranche exposed by Punjabi A2 mock drafting. It does not unblock Punjabi A2 mock 1 by itself. It is not an A2 mock, not A2 readiness or attainment, and not external or human validation.

Chapter 190

I Did the Work

Modes: 🚗 **voice** (5) 👁 **eyes** (2) 🚗 **Hands-free start:** the first 2 of 7 lessons.

> ***By the end of this chapter:*** I can distinguish the familiar infinitive from one bounded masculine-singular completed-action frame.
>
> *Retrieve the infinitive and one masculine-singular completed-action frame through listening, speaking, reading, and writing.*

190.1 Return to do and a completed action

Hear: karnaa; YOU SAY: ਕਰਨਾ

Grammar Lens

Retrieve the familiar completed-action frame before changing the verb: ਮੈਂ ਅਮਨ ਨੂੰ ਮਿਲਿਆ.

Your turn

- *Hear: karnaa*; YOU SAY: ਕਰਨਾ
- *Hear: main Aman nuun miliaa*; YOU SAY: ਮੈਂ ਅਮਨ ਨੂੰ ਮਿਲਿਆ

Before you move on

Say the infinitive, then the familiar completed-action frame. This opener owns no new form.

190.2 The completed form of ਕਰਨਾ

Retrieve ਕਰਨਾ, then the final word in ਮੈਂ ਅਮਨ ਨੂੰ ਮਿਲਿਆ.

Grammar Lens: direct owner

ਕੀਤਾ — *kiitaa* — did or made, masculine singular completed form

Treat the whole written form as today's measured target. The next lesson retrieves it before a complete sentence frame is built; the later frame will make its agreement controller explicit.

Your turn

- *Hear: kiitaa*; YOU SAY: ਕੀਤਾ
- *Read it:* ਕੀਤਾ
- *Write it:* copy ਕੀਤਾ once

Before you move on

Produce the completed form without looking.

190.3 Retrieve the completed form

Hear "did or made" and prepare the single completed form.

Grammar Lens

Keep ਕੀਤਾ distinct from the infinitive ਕਰਨਾ. Familiar ਮਿਲਿਆ is a completed-action comparison, not an agreement template. In the coming transitive frame, ਕੀਤਾ will agree with the unmarked masculine-singular object ਕੰਮ.

Your turn

- *Hear: kiitaa*; YOU SAY: ਕੀਤਾ
- *Read it:* ਕੀਤਾ
- *Write it:* cover the model and write ਕੀਤਾ

Before you move on

Read the form once more and state its bounded job.

190.4 Build one completed-action frame

Retrieve ਮੈਂ, ਕੰਮ, and ਕੀਤਾ.

Grammar Lens: complete statement

ਮੈਂ ਕੰਮ ਕੀਤਾ — *main kamm kiitaa* — I did the work

Read the familiar speaker, familiar work noun, and completed form as one bounded frame. In this transitive perfective frame, ਕੀਤਾ agrees with the unmarked masculine-singular object ਕੰਮ, not the speaker.

Your turn

- *Hear: main kamm kiitaa*; YOU SAY: ਮੈਂ ਕੰਮ ਕੀਤਾ
- *Read it:* ਮੈਂ ਕੰਮ ਕੀਤਾ
- *Write it:* copy ਕੰਮ ਕੀਤਾ once

Before you move on

Produce the complete “I did the work” frame.

190.5 Retrieve the completed work frame

Hear “I did the work” and prepare the whole statement.

Grammar Lens

Keep the target beside its familiar subject and noun. The frame remains ਮੈਂ ਕੰਮ ਕੀਤਾ, with ਕੀਤਾ as the bounded completed form of familiar ਕਰਨਾ.

Your turn

- *Hear: main kamm kiitaa*; YOU SAY: ਮੈਂ ਕੰਮ ਕੀਤਾ
- *Read it:* ਮੈਂ ਕੰਮ ਕੀਤਾ
- *Write it:* cover and write ਮੈਂ ਕੰਮ ਕੀਤਾ

Before you move on

Say the statement once more without looking.

190.6 Contrast action name and completed frame

Prepare the action name, then the completed work statement.

Grammar Lens: infinitive versus completed action

- ਕਰਨਾ names the action "to do."
- ਮੈਂ ਕੰਮ ਕੀਤਾ gives one completed masculine-singular frame.

Your turn

- *Say it:* ਕਰਨਾ for the action name
- *Say it:* ਮੈਂ ਕੰਮ ਕੀਤਾ for the completed action
- *Write it:* ਕਰਨਾ · ਕੀਤਾ

Before you move on

Cover the models and produce action name, then completed frame.

190.7 A bounded completed-action payoff

Recall the infinitive and target, then prepare the complete frame.

Your turn: four skills

- *Hear: karnaa; main kamm kiitaa*; YOU SAY: ਕਰਨਾ; ਮੈਂ ਕੰਮ ਕੀਤਾ
- *Read it:* ਕਰਨਾ · ਮੈਂ ਕੰਮ ਕੀਤਾ
- *Write it:* cover the line and write ਕਰਨਾ · ਕੀਤਾ

Before you move on

Produce the action name and completed frame once more.
This is the thirteenth prerequisite tranche exposed by Punjabi A2 mock drafting. It does not unblock Punjabi A2 mock 1 by itself. It is not an A2 mock, not A2 readiness or attainment, and not external or human validation.

Chapter 191

Less Water, Time, and Space

Modes: 🚗 **voice** (7) 🚗 **Hands-free start:** all 7 lessons.

> ***By the end of this chapter:*** I can use one familiar quantity word to say there is not much water, time, or space.
>
> *Retrieve three limited-amount statements through listening, speaking, reading, and writing.*

191.1 Return to water, time, and place

Hear: paani; samaa; thaan; YOU SAY: ਪਾਣੀ; ਸਮਾਂ; ਥਾਂ

Grammar Lens

Keep three familiar nouns ready. One names water, one names time, and one names place. The next lesson adds one quantity word that can describe each noun.

Your turn

- *Hear: paani*; YOU SAY: ਪਾਣੀ
- *Hear: samaa*; YOU SAY: ਸਮਾਂ
- *Hear: thaan*; YOU SAY: ਥਾਂ

Before you move on

Say “water,” “time,” then “place.” This opener owns no new form.

191.2 One word for a limited amount

Retrieve “water,” “time,” and “place” before describing their amount.

Grammar Lens: direct owner

ਘੱਟ — *ghaṭṭ* — little, less, or not much

Use the bounded meaning “not much” here. No comparison word is needed. The next lesson retrieves this one form before it enters a complete sentence.

Across the family

Turner groups Punjabi *ghaṭṭ*, “diminished,” with Prakrit *ghaṭṭaï*, “is ruined,” under reconstructed *ghaṭṭati*, “decreases, is wanting.” The old idea and the modern quantity meaning stay close. Source: Turner, CDIAL 4415.

Your turn

- *Hear: ghatt*; YOU SAY: ਘੱਟ
- *Read it:* ਘੱਟ
- *Write it:* copy ਘੱਟ once

Before you move on

Produce the word for “not much” without looking.

191.3 Retrieve the quantity word

Hear “not much” and prepare the single Punjabi word.

Grammar Lens

Keep ਘੱਟ bounded to “little, less, or not much.” This lesson adds no opposite word and no new comparison frame.

Your turn

- *Hear: ghatt*; YOU SAY: ਘੱਟ
- *Read it:* ਘੱਟ
- *Write it:* cover the model and write ਘੱਟ

Before you move on

Say the meaning, then produce the written form.

191.4 Build the water frame

Retrieve "water," "not much," and "is."

Grammar Lens: first complete statement

ਪਾਣੀ ਘੱਟ ਹੈ — *pāṇī ghaṭṭ hai* — there is not much water

Read the familiar noun, the new quantity word, and the familiar final verb as one small practical statement.

Your turn

- *Hear: paani ghatt hai*; YOU SAY: ਪਾਣੀ ਘੱਟ ਹੈ
- *Read it:* ਪਾਣੀ ਘੱਟ ਹੈ
- *Write it:* cover and write ਪਾਣੀ ਘੱਟ ਹੈ

Before you move on

Produce "there is not much water."

191.5 Build the time frame

Retrieve "time," "not much," and "is."

Grammar Lens: complete statement

ਸਮਾਂ ਘੱਟ ਹੈ — *samā̃ ghaṭṭ hai* — there is not much time

Keep the quantity frame from the water statement. Replace only the familiar noun at the front.

Your turn

- *Hear: samaa ghatt hai*; YOU SAY: ਸਮਾਂ ਘੱਟ ਹੈ
- *Read it:* ਸਮਾਂ ਘੱਟ ਹੈ
- *Write it:* cover and write ਸਮਾਂ ਘੱਟ ਹੈ

Before you move on

Produce “there is not much time.”

191.6 Move the quantity word to space

Retrieve “place,” “not much,” and “is.”

Grammar Lens: second familiar noun

ਥਾਂ ਘੱਟ ਹੈ — *thā̃ ghaṭṭ hai* — there is not much space

The quantity word stays unchanged. Only the familiar noun changes from time to place or space.

Your turn

- *Hear: thaan ghatt hai*; YOU SAY: ਥਾਂ ਘੱਟ ਹੈ
- *Read it:* ਥਾਂ ਘੱਟ ਹੈ
- *Write it:* cover and write ਥਾਂ ਘੱਟ ਹੈ

Before you move on

Produce “there is not much space.”

191.7 A bounded quantity payoff

Recall the quantity word, then prepare the three familiar nouns.

Your turn: four skills

- *Hear: paani ghatt hai; samaa ghatt hai; thaan ghatt hai*; YOU SAY: ਪਾਣੀ ਘੱਟ ਹੈ; ਸਮਾਂ ਘੱਟ ਹੈ; ਥਾਂ ਘੱਟ ਹੈ
- *Read it:* ਪਾਣੀ ਘੱਟ ਹੈ · ਸਮਾਂ ਘੱਟ ਹੈ · ਥਾਂ ਘੱਟ ਹੈ
- *Write it:* cover the line and write ਘੱਟ once, then one complete statement

Before you move on

Produce all three complete statements once more.
This is the fourteenth prerequisite tranche exposed by Punjabi A2 mock drafting. It does not unblock Punjabi A2 mock 1 by itself. It is not an A2 mock, not A2 readiness or attainment, and not external or human validation.

Chapter 192

People Before Postpositions

Modes: 🚗 **voice** (7) 🚗 **Hands-free start:** all 7 lessons.

> ***By the end of this chapter:*** I can distinguish the standalone word for people from its form before three familiar postpositions.
>
> *Contrast standalone people with three familiar postposition phrases through listening, speaking, reading, and writing.*

192.1 Return to people and three postpositions

Hear: lok; YOU SAY: ਲੋਕ

Grammar Lens

Keep the familiar word for “people” ready. Then retrieve the three familiar postpositions ਨਾਲ, ਲਈ, and ਤੋਂ without joining them to the noun yet.

Your turn

- *Hear: lok*; YOU SAY: ਲੋਕ
- *Hear: naal; laii; ton*; YOU SAY: ਨਾਲ; ਲਈ; ਤੋਂ

Before you move on

Say “people,” then “with,” “for,” and “from.” This opener owns no new form.

192.2 Change one familiar noun before a postposition

Retrieve ਲੋਕ, then the familiar companion postposition ਨਾਲ.

Grammar Lens: direct owner

ਲੋਕਾਂ ਨਾਲ — *lokā̃ nāl* — with people

The standalone form is ਲੋਕ. Before a postposition, this noun becomes ਲੋਕਾਂ. Keep the step narrow: this lesson follows one noun and does not say that every Punjabi noun changes in the same way.

Grammar Lens: source boundary

Johal explains the oblique case before a postposition and shows that this class of masculine plural adds the nasal ending -◌ਾਂ. Here that source rule is applied only to ਲੋਕ. Source: Ranbir Johal, *Speaking and Writing Punjabi* (2018), pp. 76–78, oblique nouns before postpositions.

Your turn

- *Hear: lokaan naal*; YOU SAY: ਲੋਕਾਂ ਨਾਲ
- *Read it:* ਲੋਕਾਂ ਨਾਲ
- *Write it:* copy ਲੋਕਾਂ once, then check the final ◌ਾਂ

Before you move on

Produce the form of “people” used before ਨਾਲ.

192.3 Retrieve the pre-postposition form

Say the familiar standalone word ਲੋਕ.

Grammar Lens

Keep the contrast small: standalone ਲੋਕ; before a postposition ਲੋਕਾਂ. No other noun pattern enters this retrieval.

Your turn

- *Hear: lok; lokaan*; YOU SAY: ਲੋਕ; ਲੋਕਾਂ
- *Read it:* ਲੋਕਾਂ
- *Write it:* cover the model and write ਲੋਕਾਂ

Before you move on

Produce the form that waits for a postposition.

192.4 Return to the companion frame

Retrieve the pre-postposition form, then the word for "with."

Grammar Lens: one familiar postposition

ਲੋਕਾਂ ਨਾਲ — *lokā̃ nāl* — with people

The noun comes first. The familiar postposition follows it.

Your turn

- *Hear: lokaan naal*; YOU SAY: ਲੋਕਾਂ ਨਾਲ
- *Read it:* ਲੋਕਾਂ ਨਾਲ
- *Write it:* cover and write ਲੋਕਾਂ ਨਾਲ

Before you move on

Produce "with people."

192.5 Move the same noun form to for

Retrieve the noun form, then familiar ਲਈ.

Grammar Lens: keep the noun form

ਲੋਕਾਂ ਲਈ — *lokā̃ laī* — for people

Only the familiar postposition changes. The noun remains ਲੋਕਾਂ.

Your turn

- *Hear: lokaan laii*; YOU SAY: ਲੋਕਾਂ ਲਈ
- *Read it:* ਲੋਕਾਂ ਲਈ
- *Write it:* cover and write ਲੋਕਾਂ ਲਈ

Before you move on

Produce "for people."

192.6 Move the same noun form to from

Retrieve the noun form, then familiar ਤੋਂ.

Grammar Lens: a third familiar postposition

ਲੋਕਾਂ ਤੋਂ — *lokā̃ tõ* — from people

The postposition changes again. The pre-postposition noun form stays fixed.

Your turn

- *Hear: lokaan ton*; YOU SAY: ਲੋਕਾਂ ਤੋਂ
- *Read it:* ਲੋਕਾਂ ਤੋਂ
- *Write it:* cover and write ਲੋਕਾਂ ਤੋਂ

Before you move on

Produce "from people."

192.7 A bounded people-and-postpositions payoff

Recall standalone ਲੋਕ, then the form used before a postposition.

Your turn: four skills

- *Hear: lok; lokaan naal; lokaan laii; lokaan ton*; YOU SAY: ਲੋਕ; ਲੋਕਾਂ ਨਾਲ; ਲੋਕਾਂ ਲਈ; ਲੋਕਾਂ ਤੋਂ
- *Read it:* ਲੋਕ · ਲੋਕਾਂ ਨਾਲ · ਲੋਕਾਂ ਲਈ · ਲੋਕਾਂ ਤੋਂ
- *Write it:* cover the line and write ਲੋਕਾਂ once, then one complete postposition phrase

Before you move on

Produce the standalone form, then all three postposition phrases. This is the fifteenth prerequisite tranche exposed by Punjabi A2 mock drafting. It does not unblock Punjabi A2 mock 1 by itself. It is not an A2 mock, not A2 readiness or attainment, and not external or human validation.

Chapter 193

First and Second in a Room

Modes: 🚗 **voice** (7) 👁 **eyes** (1) 🚗 **Hands-free start:** the first 5 of 8 lessons.

> ***By the end of this chapter:*** I can contrast first and second across a direct room phrase and the same masculine oblique location frame.
>
> *Contrast first and second across direct and oblique room frames through listening, speaking, reading, and writing.*

193.1 Return to first, second, and room

Hear: pahilaa; duujaa; YOU SAY: ਪਹਿਲਾ; ਦੂਜਾ

Grammar Lens

Keep two familiar room frames separate: ਕਮਰਾ on its own and ਕਮਰੇ ਵਿੱਚ for “in the room.” No new ordinal form enters this opener.

Your turn

- *Hear: kamraa*; YOU SAY: ਕਮਰਾ
- *Hear: kamre vich*; YOU SAY: ਕਮਰੇ ਵਿੱਚ
- *Hear: pahilaa; duujaa*; YOU SAY: ਪਹਿਲਾ; ਦੂਜਾ

Before you move on

Say “first,” “second,” “room,” and “in the room.” This opener owns no new form.

193.2 Change first inside one familiar room frame

Retrieve ਪਹਿਲਾ, then ਕਮਰਾ, then ਕਮਰੇ ਵਿੱਚ.

Grammar Lens: direct owner

ਪਹਿਲਾ ਕਮਰਾ — *pahilā kamrā* — the first room

ਪਹਿਲੇ ਕਮਰੇ ਵਿੱਚ — *pahile kamre vicc* — in the first room

The familiar direct form has the final -*aa* sound. In this masculine singular phrase, the noun is oblique before ਵਿੱਚ, and the ordinal takes final -*e*.

Grammar Lens: source boundary

Gill and Gleason’s masculine adjective table contrasts the singular direct and singular oblique patterns. Here that contrast is ਪਹਿਲਾ beside ਪਹਿਲੇ. Their following numeral section lists first ਪਹਿਲਾ and second ਦੂਜਾ among Punjabi ordinals. This chapter follows these two ordinals, not a claim that every Punjabi adjective changes this way. Source: Harjeet Singh Gill and Henry A. Gleason, Jr., *A Reference Grammar of Punjabi* (1969), pp. 71–73, adjectives and numerals.

Your turn

- *Hear: pahilaa kamraa*; YOU SAY: ਪਹਿਲਾ ਕਮਰਾ
- *Hear: pahile kamre vich*; YOU SAY: ਪਹਿਲੇ ਕਮਰੇ ਵਿੱਚ
- *Read it:* ਪਹਿਲਾ ਕਮਰਾ · ਪਹਿਲੇ ਕਮਰੇ ਵਿੱਚ
- *Write it:* copy ਪਹਿਲੇ once, then compare it with ਪਹਿਲਾ

Before you move on

Produce “in the first room.”

193.3 Retrieve first in two small frames

Say the familiar direct form ਪਹਿਲਾ.

Grammar Lens

Keep one contrast: ਪਹਿਲਾ ਕਮਰਾ; ਪਹਿਲੇ ਕਮਰੇ ਵਿੱਚ.

Your turn

- *Hear: pahilaa kamraa; pahile kamre vich*; YOU SAY: ਪਹਿਲਾ ਕਮਰਾ; ਪਹਿਲੇ ਕਮਰੇ ਵਿੱਚ
- *Read it:* ਪਹਿਲੇ ਕਮਰੇ ਵਿੱਚ
- *Write it:* cover and write ਪਹਿਲੇ

Before you move on

Produce the form of “first” used in the ਕਮਰੇ ਵਿੱਚ frame.

193.4 Apply the same bounded change to second

Retrieve ਦੂਜਾ, then the room-frame change practised one lesson ago.

Grammar Lens: direct owner

ਦੂਜਾ ਕਮਰਾ — *dūjā kamrā* — the second room

ਦੂਜੇ ਕਮਰੇ ਵਿੱਚ — *dūje kamre vicc* — in the second room

The boundary stays narrow: the familiar direct ordinal changes from final -*aa* to -*e* in this same masculine singular oblique room frame.

Your turn

- *Hear: duujaa kamraa*; YOU SAY: ਦੂਜਾ ਕਮਰਾ
- *Hear: duuje kamre vich*; YOU SAY: ਦੂਜੇ ਕਮਰੇ ਵਿੱਚ
- *Read it:* ਦੂਜਾ ਕਮਰਾ · ਦੂਜੇ ਕਮਰੇ ਵਿੱਚ
- *Write it:* copy ਦੂਜੇ once, then compare it with ਦੂਜਾ

Before you move on

Produce “in the second room.”

193.5 Retrieve second in two small frames

Say the familiar direct form ਦੂਜਾ.

Grammar Lens

Keep one contrast: ਦੂਜਾ ਕਮਰਾ; ਦੂਜੇ ਕਮਰੇ ਵਿੱਚ.

Your turn

- *Hear: duujaa kamraa; duuje kamre vich*; YOU SAY: ਦੂਜਾ ਕਮਰਾ; ਦੂਜੇ ਕਮਰੇ ਵਿੱਚ
- *Read it:* ਦੂਜੇ ਕਮਰੇ ਵਿੱਚ
- *Write it:* cover and write ਦੂਜੇ

Before you move on

Produce the form of “second” used in the ਕਮਰੇ ਵਿੱਚ frame.

193.6 Put both ordinal contrasts side by side

Retrieve ਪਹਿਲਾ and ਦੂਜਾ without a following noun.

Grammar Lens

Direct room frame	**Oblique room frame**
ਪਹਿਲਾ ਕਮਰਾ	ਪਹਿਲੇ ਕਮਰੇ ਵਿੱਚ
ਦੂਜਾ ਕਮਰਾ	ਦੂਜੇ ਕਮਰੇ ਵਿੱਚ

Read down one column before crossing to the other. The ending change belongs to this bounded masculine room contrast.

Your turn

- *Hear: pahilaa kamraa; pahile kamre vich*; YOU SAY: **ਪਹਿਲਾ ਕਮਰਾ; ਪਹਿਲੇ ਕਮਰੇ ਵਿੱਚ**
- *Hear: duujaa kamraa; duuje kamre vich*; YOU SAY: **ਦੂਜਾ ਕਮਰਾ; ਦੂਜੇ ਕਮਰੇ ਵਿੱਚ**
- *Write it:* cover the table and write the two location-frame ordinal forms

Before you move on

Say both “in the room” ordinal phrases.

193.7 Choose first or second in the same location frame

Produce the two new forms without adding the room phrase.

Your turn

- *Hear: pahile kamre vich*; YOU SAY: **ਪਹਿਲੇ ਕਮਰੇ ਵਿੱਚ**
- *Hear: duuje kamre vich*; YOU SAY: **ਦੂਜੇ ਕਮਰੇ ਵਿੱਚ**
- *Read it:* **ਪਹਿਲੇ ਕਮਰੇ ਵਿੱਚ · ਦੂਜੇ ਕਮਰੇ ਵਿੱਚ**
- *Write it:* cover the line and write one phrase, then the other

Grammar Lens

The choice changes the ordinal meaning. The familiar **ਕਮਰੇ ਵਿੱਚ** frame and the final *-e* stay stable.

Before you move on

Say “in the first room,” then “in the second room.”

193.8 A bounded first-and-second payoff

Recall both direct ordinals, then both forms used in the familiar location frame.

Your turn: four skills

- *Hear: pahilaa kamraa; pahile kamre vich; duujaa kamraa; duuje kamre vich*; YOU SAY: ਪਹਿਲਾ ਕਮਰਾ; ਪਹਿਲੇ ਕਮਰੇ ਵਿੱਚ; ਦੂਜਾ ਕਮਰਾ; ਦੂਜੇ ਕਮਰੇ ਵਿੱਚ
- *Read it:* ਪਹਿਲਾ ਕਮਰਾ · ਪਹਿਲੇ ਕਮਰੇ ਵਿੱਚ · ਦੂਜਾ ਕਮਰਾ · ਦੂਜੇ ਕਮਰੇ ਵਿੱਚ
- *Write it:* cover the line and write the two location phrases

Before you move on

Produce both direct room phrases, then both location phrases. This is the sixteenth prerequisite tranche exposed by Punjabi A2 mock drafting. It does not unblock Punjabi A2 mock 1 by itself. It is not an A2 mock, not A2 readiness or attainment, and not external or human validation.

Chapter 194

He or She Is a Student

Modes: **voice** (4) **eyes** (1) **Hands-free start:** the first 2 of 5 lessons.

> ***By the end of this chapter:*** I can recognise and use the familiar noun for a student in one bounded identity statement.
>
> *Recognise and produce the student noun in one bounded identity statement through listening, speaking, reading, and writing.*

194.1 Return to a familiar identity frame

Hear: oh; hai; YOU SAY: ਉਹ; ਹੈ

Grammar Lens

Keep the familiar pronoun first and the familiar copula last. The middle slot will stay empty until the next lesson owns its new noun.

Your turn

- *Hear: oh*; YOU SAY: ਉਹ
- *Hear: hai*; YOU SAY: ਹੈ
- Say the first word, pause for the empty middle, then say the last.

Before you move on

Produce the two familiar words around the empty middle slot. This opener owns no new noun.

194.2 One noun for a student

Retrieve the familiar first and last words of the identity frame.

Grammar Lens: direct owner

ਵਿਦਿਆਰਥੀ — *vidiārthī* — student

Hear and say the whole word before reading it. Keep it whole rather than inventing smaller pieces. This lesson owns the noun alone; a complete identity statement comes only after a separate retrieval.

Across the family

Wiktionary records the Punjabi noun as a borrowing from Sanskrit *vidyārthī*. The Punjabi University dictionary defines the Punjabi word as "student, pupil, learner." Keep the source history separate from today's Punjabi pronunciation, *vidiārthī*, and learn the Punjabi form as one whole. Sources: Wiktionary: ਵਿਦਿਆਰਥੀ; Punjabi University Punjabi-English Dictionary.

Your turn

- *Hear: vidiārthī*; YOU SAY: ਵਿਦਿਆਰਥੀ
- *Read it:* ਵਿਦਿਆਰਥੀ
- *Write it:* copy ਵਿਦਿਆਰਥੀ once, checking the whole word

Before you move on

Produce the noun for "student" without looking.

194.3 Retrieve the new noun on its own

Hear: vidiārthī; YOU SAY: ਵਿਦਿਆਰਥੀ

Your turn

- *Hear: student*; YOU SAY: ਵਿਦਿਆਰਥੀ
- *Read it:* ਵਿਦਿਆਰਥੀ

- *Write it:* cover and write ਵਿਦਿਆਰਥੀ

Grammar Lens

Keep one form and one meaning here. Number changes and case changes stay outside this bounded lesson.

Before you move on

Say and then write the noun once from memory.

194.4 Put the noun into one identity statement

Retrieve ਉਹ, then ਵਿਦਿਆਰਥੀ, then ਹੈ.

Grammar Lens

ਉਹ ਵਿਦਿਆਰਥੀ ਹੈ — *oh vidiārthī hai* — he or she is a student

Punjabi ਉਹ is gender-neutral in this frame; the pronoun itself does not mark "he" versus "she." Keep the noun in the middle and the copula last.

Your turn

- *Hear: oh vidiārthī hai*; YOU SAY: ਉਹ ਵਿਦਿਆਰਥੀ ਹੈ
- *Read it:* ਉਹ ਵਿਦਿਆਰਥੀ ਹੈ
- *Write it:* cover and write ਉਹ ਵਿਦਿਆਰਥੀ ਹੈ

Before you move on

Produce the complete identity statement.

194.5 A bounded student-noun payoff

Retrieve the noun alone before rebuilding its sentence.

Your turn: four skills

- *Hear: oh vidiārthī hai*; YOU SAY: ਉਹ ਵਿਦਿਆਰਥੀ ਹੈ
- *Read it:* ਉਹ ਵਿਦਿਆਰਥੀ ਹੈ
- *Write it:* cover the line and write ਉਹ ਵਿਦਿਆਰਥੀ ਹੈ

Before you move on

Say the noun, then produce the complete identity statement.
This is the seventeenth prerequisite tranche exposed by Punjabi A2 mock drafting. It does not unblock Punjabi A2 mock 1 by itself. It is not an A2 mock, not A2 readiness or attainment, and not external or human validation.

Chapter 195

A Room with a Window

Modes: 🚗 **voice** (6) 👁 **eyes** (1) 🚗 **Hands-free start:** the first 5 of 7 lessons.

> ***By the end of this chapter:*** I can contrast a room with a window with in that room, using one bounded masculine direct-oblique pattern.
>
> *Contrast a room with a window and in that room through listening, speaking, reading, and writing.*

195.1 Return to window and room

Hear: khirkii; kamraa; YOU SAY: ਖਿੜਕੀ; ਕਮਰਾ

Grammar Lens

Keep the familiar room contrast small: ਕਮਰਾ on its own; ਕਮਰੇ ਵਿੱਚ for “in the room.” This opener adds no new form.

Your turn

- *Hear: khirkii*; YOU SAY: ਖਿੜਕੀ
- *Hear: kamraa*; YOU SAY: ਕਮਰਾ
- *Hear: kamre vich*; YOU SAY: ਕਮਰੇ ਵਿੱਚ

Before you move on

Say “window,” “room,” and “in the room.”

195.2 Add one bounded association to room

Retrieve ਖਿੜਕੀ, then ਕਮਰਾ.

Grammar Lens: direct owner

ਖਿੜਕੀ ਵਾਲਾ ਕਮਰਾ — *khiṛkī vālā kamrā* — a room with a window

Here noun ਖਿੜਕੀ plus ਵਾਲਾ forms an adjective phrase describing the masculine singular noun ਕਮਰਾ. Learn this one direct room phrase before any broader pattern.

Grammar Lens: source and scope boundary

Gill and Gleason describe noun plus ਵਾਲਾ as an adjective phrase and show the masculine adjective direct–oblique pattern. This chapter follows only one room contrast. It is not a rule for every noun or postposition. The earlier ਵਾਲੀ, “earring,” word lesson owns a separate lexical homograph, not a grammatical form licensed by that old word lesson. Source: Harjeet Singh Gill and Henry A. Gleason, Jr., *A Reference Grammar of Punjabi* (1969), pp. 71–72 and 107, adjective phrases.

Your turn

- *Hear: khirkii vaalaa kamraa*; YOU SAY: ਖਿੜਕੀ ਵਾਲਾ ਕਮਰਾ
- *Read it:* ਖਿੜਕੀ ਵਾਲਾ ਕਮਰਾ
- *Write it:* copy ਵਾਲਾ once, then rebuild the whole phrase

Before you move on

Produce “a room with a window.”

195.3 Retrieve the direct room phrase

Say the new direct form ਵਾਲਾ.

Your turn

- *Hear: khirkii vaalaa kamraa*; YOU SAY: ਖਿੜਕੀ ਵਾਲਾ ਕਮਰਾ
- *Read it:* ਖਿੜਕੀ ਵਾਲਾ ਕਮਰਾ
- *Write it:* cover and write ਵਾਲਾ

Grammar Lens

Keep the meaning and form together inside this one room phrase.

Before you move on

Produce "a room with a window."

195.4 Change the association inside one location frame

Retrieve ਖਿੜਕੀ ਵਾਲਾ ਕਮਰਾ, then ਕਮਰੇ ਵਿੱਚ.

Grammar Lens: direct owner

ਖਿੜਕੀ ਵਾਲਾ ਕਮਰਾ — *khiṛkī vālā kamrā* — a room with a window

ਖਿੜਕੀ ਵਾਲੇ ਕਮਰੇ ਵਿੱਚ — *khiṛkī vāle kamre vicc* — in the room with a window

In this second phrase, ਵਾਲੇ is masculine singular oblique. It agrees with masculine singular oblique ਕਮਰੇ before ਵਿੱਚ. Here ਵਾਲੇ is not a plural or honorific form. This chapter does not extend the pattern to every noun or postposition.

Your turn

- *Hear: khirkii vaale kamre vich*; YOU SAY: ਖਿੜਕੀ ਵਾਲੇ ਕਮਰੇ ਵਿੱਚ

- *Read it:* ਖਿੜਕੀ ਵਾਲੇ ਕਮਰੇ ਵਿੱਚ
- *Write it:* copy ਵਾਲੇ once, then compare it with ਵਾਲਾ

Before you move on

Produce “in the room with a window.”

195.5 Retrieve the location phrase

Say the new form ਵਾਲੇ.

Your turn

- *Hear: khirkii vaale kamre vich*; YOU SAY: ਖਿੜਕੀ ਵਾਲੇ ਕਮਰੇ ਵਿੱਚ
- *Read it:* ਖਿੜਕੀ ਵਾਲੇ ਕਮਰੇ ਵਿੱਚ
- *Write it:* cover and write ਵਾਲੇ

Grammar Lens

Keep ਵਾਲੇ beside ਕਮਰੇ ਵਿੱਚ in this bounded masculine singular oblique location frame.

Before you move on

Produce the complete location phrase.

195.6 Put the two room phrases side by side

Retrieve ਵਾਲਾ, then ਵਾਲੇ.

Grammar Lens

Direct room phrase	Oblique location phrase
ਖਿੜਕੀ ਵਾਲਾ ਕਮਰਾ	ਖਿੜਕੀ ਵਾਲੇ ਕਮਰੇ ਵਿੱਚ

Read the direct phrase first. Then move to the one familiar location frame. The chapter claims only this contrast.

Your turn

- *Hear: khirkii vaalaa kamraa*; YOU SAY: ਖਿੜਕੀ ਵਾਲਾ ਕਮਰਾ
- *Hear: khirkii vaale kamre vich*; YOU SAY: ਖਿੜਕੀ ਵਾਲੇ ਕਮਰੇ ਵਿੱਚ
- *Write it:* cover the table and write both complete phrases

Before you move on

Say the direct phrase, then the location phrase.

195.7 A bounded room-association payoff

Recall the direct form, then the form in the location frame.

Your turn: four skills

- *Hear: khirkii vaalaa kamraa; khirkii vaale kamre vich*; YOU SAY: ਖਿੜਕੀ ਵਾਲਾ ਕਮਰਾ; ਖਿੜਕੀ ਵਾਲੇ ਕਮਰੇ ਵਿੱਚ
- *Read it:* ਖਿੜਕੀ ਵਾਲਾ ਕਮਰਾ · ਖਿੜਕੀ ਵਾਲੇ ਕਮਰੇ ਵਿੱਚ
- *Write it:* cover the line and write both phrases

Before you move on

Produce both complete room phrases.
This is the eighteenth prerequisite tranche exposed by Punjabi A2 mock drafting. It does not unblock Punjabi A2 mock 1 by itself. It is not an A2 mock, not A2 readiness or attainment, and not external or human validation.

Chapter 196

Start the Work

Modes: 🚗 **voice** (4) 👁 **eyes** (1) 🚗 **Hands-free start:** the first 2 of 5 lessons.

> ***By the end of this chapter:*** I can recognise and use the familiar word for start in one bounded polite work instruction.
>
> *Recognise and produce the start word in one bounded polite work instruction through listening, speaking, reading, and writing.*

196.1 Return to work and a polite command

Hear: kamm; karo; YOU SAY: **ਕੰਮ; ਕਰੋ**

Grammar Lens

Keep the familiar work word first and the familiar polite command last. The middle slot stays empty until the next lesson owns its new word.

Your turn

- *Hear: kamm*; YOU SAY: **ਕੰਮ**
- *Hear: karo*; YOU SAY: **ਕਰੋ**
- Say the first word, pause for the empty middle, then say the last.

Before you move on

Produce the two familiar words around the empty middle slot. This opener owns no new word.

196.2 One noun for a beginning or start

Retrieve the familiar first and last words of the work instruction.

Grammar Lens: direct owner

ਸ਼ੁਰੂ — *shurū* — beginning; start

Hear and say the whole word before reading it. Keep it as a whole word rather than inventing smaller Punjabi pieces. This lesson owns the word alone; the complete instruction comes only after a separate retrieval.

Across the family

The Punjabi University dictionary records this Punjabi noun for a beginning or start; its index uses the equivalent precomposed letter spelling. Wiktionary records the Punjabi word as borrowed from Arabic. Keep that source history separate from present-day Punjabi use, and learn the Punjabi form as one whole. Sources: Punjabi University Punjabi-English Dictionary; Wiktionary: ਸ਼ੁਰੂ.

Your turn

- *Hear: shurū*; YOU SAY: ਸ਼ੁਰੂ
- *Read it:* ਸ਼ੁਰੂ
- *Write it:* copy ਸ਼ੁਰੂ once, checking the whole word

Before you move on

Produce the noun for “beginning” or “start” without looking.

196.3 Retrieve the new word on its own

Hear: shurū; YOU SAY: ਸ਼ੁਰੂ

Your turn

- *Hear: beginning; start*; YOU SAY: ਸ਼ੁਰੂ
- *Read it:* ਸ਼ੁਰੂ
- *Write it:* cover and write ਸ਼ੁਰੂ

Grammar Lens

Keep one noun and one meaning here. Broader location and verb patterns stay outside this bounded lesson.

Before you move on

Say and then write the word once from memory.

196.4 Put the new word into one work instruction

Retrieve ਕੰਮ, then ਸ਼ੁਰੂ, then ਕਰੋ.

Grammar Lens

ਕੰਮ ਸ਼ੁਰੂ ਕਰੋ — *kamm shurū karo* — start the work

Keep the new noun whole between familiar ਕੰਮ and ਕਰੋ. Familiar ਕਰੋ carries the polite command in the already-owned noun-plus-ਕਰਨਾ pattern. Gill and Gleason describe such noun/adjective-plus-verb conjuncts as conventional combinations: this chapter teaches only this one instruction, not every possible combination, tense, or function. Source: Harjeet Singh Gill and Henry A. Gleason, Jr., *A Reference Grammar of Punjabi* (1969), pp. 122 and 124, conjunct verbs.

Your turn

- *Hear: kamm shurū karo*; YOU SAY: ਕੰਮ ਸ਼ੁਰੂ ਕਰੋ

- *Read it:* ਕੰਮ ਸ਼ੁਰੂ ਕਰੋ
- *Write it:* cover and write ਕੰਮ ਸ਼ੁਰੂ ਕਰੋ

Before you move on

Produce the complete polite instruction.

196.5 A bounded start-word payoff

Retrieve the new word alone before rebuilding its instruction.

Your turn: four skills

- *Hear: kamm shurū karo*; YOU SAY: ਕੰਮ ਸ਼ੁਰੂ ਕਰੋ
- *Read it:* ਕੰਮ ਸ਼ੁਰੂ ਕਰੋ
- *Write it:* cover the line and write ਕੰਮ ਸ਼ੁਰੂ ਕਰੋ

Before you move on

Say the new word, then produce the complete work instruction. This is the nineteenth prerequisite tranche exposed by Punjabi A2 mock drafting. It does not unblock Punjabi A2 mock 1 by itself. It is not an A2 mock, not A2 readiness or attainment, and not external or human validation.

Chapter 197

This Is a Daily Routine

Modes: 🚗 **voice** (4) 👁 **eyes** (1) 🚗 **Hands-free start:** the first 2 of 5 lessons.

> ***By the end of this chapter:*** I can recognise and use the noun for a daily routine in one bounded identity frame.
>
> *Recognise and produce the daily-routine noun in one bounded identity frame through listening, speaking, reading, and writing.*

197.1 Return to this and is

Hear: eh; hai; YOU SAY: ਇਹ; ਹੈ

Grammar Lens

Keep the familiar pointer first and the familiar verb last. The middle slot stays empty until the next lesson owns its new word.

Your turn

- *Hear: eh*; YOU SAY: ਇਹ
- *Hear: hai*; YOU SAY: ਹੈ
- Say the first word, pause for the empty middle, then say the last.

Before you move on

Produce the two familiar words around the empty middle slot. This opener owns no new word.

197.2 One noun for a daily routine

Retrieve the familiar first and last words of the identity frame.

Grammar Lens: direct owner

ਦਿਨਚਰਿਆ — *dinchariā* — daily routine; the usual ordered activities of a day

Hear and say the whole word before reading it. Keep it as one whole noun rather than inventing smaller Punjabi pieces. This lesson owns the word alone; the complete identity frame comes only after a separate retrieval.

The word, taken apart — its roots and family

An Australian Government Punjabi health page uses this exact word in an everyday routine context. It supports only the present-day daily-routine sense taught here; this lesson makes no claim about other specialised uses. Source: Australian Government Medicare Mental Health Check In.

The Punjabi origin of ਦਿਨਚਰਿਆ remains unknown in the sources used here. For a memory comparison only, Apte records the matching Sanskrit form *dinacaryā* with the sense "daily occupation, daily routine of business." This comparison does not establish a Sanskrit-to-Punjabi transmission and does not turn its parts into a productive Punjabi rule: keep the present-day Punjabi noun whole. Source: V. S. Apte, *The Practical Sanskrit-English Dictionary*, p. 0813-1, Cologne Digital Sanskrit Dictionaries.

Your turn

- *Hear: dinchariā*; YOU SAY: ਦਿਨਚਰਿਆ
- *Read it:* ਦਿਨਚਰਿਆ

- *Write it:* copy ਦਿਨਚਰਿਆ once, checking the whole word

Before you move on

Produce the noun for “daily routine” without looking.

197.3 Retrieve the new word on its own

Hear: dincharīā; YOU SAY: ਦਿਨਚਰਿਆ

Your turn

- *Hear: daily routine*; YOU SAY: ਦਿਨਚਰਿਆ
- *Read it:* ਦਿਨਚਰਿਆ
- *Write it:* cover and write ਦਿਨਚਰਿਆ

Grammar Lens

Keep one noun and one daily-routine meaning here. Inflection, specialised uses, and a longer routine narrative stay outside this bounded lesson.

Before you move on

Say and then write the word once from memory.

197.4 Put the new noun into one identity frame

Retrieve ਇਹ, then the new noun, then ਹੈ.

Grammar Lens

ਇਹ ਦਿਨਚਰਿਆ ਹੈ — *eh dincharīā hai* — this is a daily routine

Keep the new whole noun between familiar ਇਹ and ਹੈ. Familiar ਹੈ stays last in the already-owned identity frame. This chapter teaches only this one label; it does not add an inflection rule or a full routine narrative.

Your turn

- *Hear: eh dinchariā hai*; YOU SAY: ਇਹ ਦਿਨਚਰਿਆ ਹੈ
- *Read it:* ਇਹ ਦਿਨਚਰਿਆ ਹੈ
- *Write it:* cover and write ਇਹ ਦਿਨਚਰਿਆ ਹੈ

Before you move on

Produce the complete identity frame.

197.5 A bounded daily-routine noun payoff

Retrieve the new noun alone before rebuilding its identity frame.

Your turn: four skills

- *Hear: eh dinchariā hai*; YOU SAY: ਇਹ ਦਿਨਚਰਿਆ ਹੈ
- *Read it:* ਇਹ ਦਿਨਚਰਿਆ ਹੈ
- *Write it:* cover the line and write ਇਹ ਦਿਨਚਰਿਆ ਹੈ

Before you move on

Say the new noun, then produce the complete identity frame.
This is the twentieth prerequisite tranche exposed by Punjabi A2 mock drafting. It does not unblock Punjabi A2 mock 1 by itself. It is not an A2 mock, not A2 readiness or attainment, and not external or human validation.

Chapter 198

This Is a Message

Modes: 🚗 **voice** (4) 👁 **eyes** (1) 🚗 **Hands-free start:** the first 2 of 5 lessons.

> ***By the end of this chapter:*** I can recognise and use the noun for a message in one bounded identity frame.
>
> *Recognise and produce the message noun in one bounded identity frame through listening, speaking, reading, and writing.*

198.1 Return to this and is

Hear: eh; hai; YOU SAY: **ਇਹ; ਹੈ**

Grammar Lens

Keep the familiar pointer first and the familiar verb last. The middle slot stays empty until the next lesson owns its new word.

Your turn

- *Hear: eh*; YOU SAY: **ਇਹ**
- *Hear: hai*; YOU SAY: **ਹੈ**
- Say the first word, pause for the empty middle, then say the last.

Before you move on

Produce the two familiar words around the empty middle slot. This opener owns no new word.

198.2 One noun for a message

Retrieve the familiar first and last words of the identity frame.

Grammar Lens: direct owner

ਸੁਨੇਹਾ — *sunehā* — message; information communicated from one party to another

Hear and say the whole word before reading it. Keep it as one whole noun rather than inventing smaller Punjabi pieces. This lesson owns the word alone; the complete identity frame comes only after a separate retrieval.

The word, taken apart — its roots and family

Punjabi University's Punjabipedia defines this exact word as information given from one party to another. It supports only the present-day message sense taught here. Source: Punjabi University Punjabipedia.

The exact history of modern written ਸੁਨੇਹਾ remains unresolved in the sources used here. For a historical comparison only, Turner's CDIAL entry 12904 groups Punjabi *sanehā̃* with Sanskrit *saṁdēśa*, "message, information." The source does not document the intermediate changes into this modern spelling. This historical comparison is not a letter-by-letter derivation and does not create a productive Punjabi rule: keep the present-day Punjabi noun whole. Source: Turner, CDIAL 12904.

Your turn

- *Hear: sunehā*; YOU SAY: ਸੁਨੇਹਾ
- *Read it:* ਸੁਨੇਹਾ
- *Write it:* copy ਸੁਨੇਹਾ once, checking the whole word

Before you move on

Produce the noun for “message” without looking.

198.3 Retrieve the new word on its own

Hear: sunehā; YOU SAY: ਸੁਨੇਹਾ

Your turn

- *Hear: message*; YOU SAY: ਸੁਨੇਹਾ
- *Read it:* ਸੁਨੇਹਾ
- *Write it:* cover and write ਸੁਨੇਹਾ

Grammar Lens

Keep one noun and one message meaning here. Inflection, specialised digital uses, and a send-message construction stay outside this bounded lesson.

Before you move on

Say and then write the word once from memory.

198.4 Put the new noun into one identity frame

Retrieve ਇਹ, then the new noun, then ਹੈ.

Grammar Lens

ਇਹ ਸੁਨੇਹਾ ਹੈ — *eh sunehā hai* — this is a message

Keep the new whole noun between familiar ਇਹ and ਹੈ. Familiar ਹੈ stays last in the already-owned identity frame. This chapter teaches only this one label; it does not add an inflection rule or a send-message construction.

Your turn

- *Hear: eh sunehā hai*; YOU SAY: ਇਹ ਸੁਨੇਹਾ ਹੈ
- *Read it:* ਇਹ ਸੁਨੇਹਾ ਹੈ
- *Write it:* cover and write ਇਹ ਸੁਨੇਹਾ ਹੈ

Before you move on

Produce the complete identity frame.

198.5 A bounded message-noun payoff

Retrieve the new noun alone before rebuilding its identity frame.

Your turn: four skills

- *Hear: eh sunehā hai*; YOU SAY: ਇਹ ਸੁਨੇਹਾ ਹੈ
- *Read it:* ਇਹ ਸੁਨੇਹਾ ਹੈ
- *Write it:* cover the line and write ਇਹ ਸੁਨੇਹਾ ਹੈ

Before you move on

Say the new noun, then produce the complete identity frame. This is the twenty-first prerequisite tranche exposed by Punjabi A2 mock drafting. It does not unblock Punjabi A2 mock 1 by itself. It is not an A2 mock, not A2 readiness or attainment, and not external or human validation.

Chapter 199

This Is Information

Modes: **voice** (4) **eyes** (1) **Hands-free start:** the first 2 of 5 lessons.

> ***By the end of this chapter:*** I can recognise and use the noun for information or a notice in one bounded identity frame.
>
> *Recognise and produce the information noun in one bounded identity frame through listening, speaking, reading, and writing.*

199.1 Return to this and is

Hear: eh; hai; YOU SAY: **ਇਹ; ਹੈ**

Grammar Lens

Keep the familiar pointer first and the familiar verb last. The middle slot stays empty until the next lesson owns its new word.

Your turn

- *Hear: eh*; YOU SAY: ਇਹ
- *Hear: hai*; YOU SAY: ਹੈ
- Say the first word, pause for the empty middle, then say the last.

Before you move on

Produce the two familiar words around the empty middle slot. This opener owns no new word.

199.2 One noun for information or a notice

Retrieve the familiar first and last words of the identity frame.

Grammar Lens: direct owner

ਸੂਚਨਾ — *sūchnā* — information; notice

Hear and say the whole word before reading it. Keep it as one whole noun rather than inventing smaller Punjabi pieces. This lesson owns the word alone; the complete identity frame comes only after a separate retrieval.

The word, taken apart — its roots and family

Your turn

- *Hear: sūchnā*; YOU SAY: ਸੂਚਨਾ
- *Read it:* ਸੂਚਨਾ
- *Write it:* copy ਸੂਚਨਾ once, checking the whole word

Before you move on

Produce the noun for “information” or “notice” without looking.

199.3 Retrieve the new word on its own

Hear: sūchnā; YOU SAY: ਸੂਚਨਾ

Your turn

- *Hear: information or notice*; YOU SAY: ਸੂਚਨਾ
- *Read it:* ਸੂਚਨਾ
- *Write it:* cover and write ਸੂਚਨਾ

Grammar Lens

Keep one noun and the bounded information-or-notice meaning here. Inflection, specialised compounds, and wider constructions stay outside this lesson.

Before you move on

Say and then write the word once from memory.

199.4 Put the new noun into one identity frame

Retrieve ਇਹ, then the new noun, then ਹੈ.

Grammar Lens

> ਇਹ ਸੂਚਨਾ ਹੈ — *eh sūchnā hai* — this is information / a notice

Keep the new whole noun between familiar ਇਹ and ਹੈ. Familiar ਹੈ stays last in the already-owned identity frame. This chapter teaches only this one label; it does not add an inflection rule or a wider construction.

Your turn

- *Hear: eh sūchnā hai*; YOU SAY: ਇਹ ਸੂਚਨਾ ਹੈ

200.1 Return to this and is

Hear: eh; hai; YOU SAY: ਇਹ; ਹੈ

Grammar Lens

Keep the familiar pointer first and the familiar verb last. The middle slot stays empty until the next lesson owns its new word.

Your turn

- *Hear: eh*; YOU SAY: ਇਹ
- *Hear: hai*; YOU SAY: ਹੈ
- Say the first word, pause for the empty middle, then say the last.

Before you move on

Produce the two familiar words around the empty middle slot. This opener owns no new word.

200.2 One noun for a vegetable or cooked vegetable dish

Retrieve the familiar first and last words of the identity frame.

Grammar Lens: direct owner

ਸਬਜ਼ੀ — *sabzī* — vegetable; cooked vegetable dish

Hear and say the whole word before reading it. Keep it as one whole noun rather than inventing smaller Punjabi pieces. This lesson owns the word alone; the complete identity frame comes only after a separate retrieval.

The word, taken apart — its roots and family

Punjabi University's Punjabipedia records the present-day Punjabi vegetable category. It supports the bounded everyday vegetable meaning taught here. Source: Punjabi University Punjabipedia. The exact origin of modern written ਸਬਜ਼ੀ is unresolved in the sources used here. Its origin remains unknown here. This lesson therefore makes no etymological claim. Keep the present-day Punjabi noun whole rather than turning spelling resemblance into a derivation. A Government of Punjab canteen rate list provides a current food-service use of the singular noun. Produce the two familiar words around the empty middle slot. This opener owns no new word.

201.2 One school noun for a class or grade

Retrieve the familiar first and last words of the identity frame.

Grammar Lens: direct owner

ਕਲਾਸ — *kalās* — school class; grade

Hear and say the whole word before reading it. Keep it as one whole school noun rather than inventing smaller Punjabi pieces. This lesson owns the word alone; the complete identity frame comes only after a separate retrieval.

The word, taken apart — its roots and family

Punjabi University's Punjabipedia explicitly records English **Class** as the source of modern written ਕਲਾਸ. It also lists several meanings; this lesson keeps only the bounded school class-or-grade meaning. The Punjabi school noun comes from English **Class**. Source: Punjabi University Punjabipedia.

The Punjab School Education Board's current circular page uses the word in school scheduling prose. That current school use supports the narrow meaning here. The deeper history and other meanings stay outside this lesson. Source: Punjab School Education Board.

202.1 Return to this person and is

Hear: eh; hai; YOU SAY: **ਇਹ; ਹੈ**

Grammar Lens

Keep the familiar pointer for a person first and the familiar verb last. The middle slot stays empty until the next lesson owns its new person word.

Your turn

- *Hear: eh*; YOU SAY: ਇਹ
- *Hear: hai*; YOU SAY: ਹੈ
- Say the first word, pause for the empty middle, then say the last.

Before you move on

Produce the two familiar words around the empty middle slot. This opener owns no new word.

202.2 One person noun for a traveller

Retrieve the familiar first and last words of the identity frame.

Grammar Lens: direct owner

ਯਾਤਰੀ — *yātrī* — traveller; person who travels

Hear and say the whole word before reading it. Keep it as one whole person noun rather than inventing smaller Punjabi pieces. This lesson owns the word alone; the complete identity frame comes only after a separate retrieval.

The word, taken apart — its roots and family

Current Punjab School Education Board Class 11 material gives this word as the meaning of another traveller term. PSEB's Class 5 book independently uses it for a person who travels beyond Earth. Together they support the bounded person-who-travels meaning in current educational Punjabi. Sources: PSEB Class 11 and PSEB Class 5. The exact origin of modern written ਯਾਤਰੀ remains unknown in the cited sources. Its origin remains unknown here. This lesson therefore makes no etymological claim. Keep the present-day noun whole rather than turning a spelling resemblance into a derivation.

Your turn

- *Hear: yātrī*; YOU SAY: ਯਾਤਰੀ
- *Read it:* ਯਾਤਰੀ
- *Write it:* copy ਯਾਤਰੀ once, checking the whole word

Before you move on

Produce the person noun for "traveller" without looking.

202.3 Retrieve the new person word on its own

Hear: yātrī; YOU SAY: ਯਾਤਰੀ

Your turn

- *Hear: traveller or person who travels*; YOU SAY: ਯਾਤਰੀ
- *Read it:* ਯਾਤਰੀ
- *Write it:* cover and write ਯਾਤਰੀ

Grammar Lens

Keep one person noun and the bounded traveller meaning here. Wider forms, combinations, and nearby transport meanings stay outside this lesson.

Before you move on

Say and then write the word once from memory.

202.4 Put the new person noun into one identity frame

Retrieve ਇਹ, then the new person noun, then ਹੈ.

Grammar Lens

ਇਹ ਯਾਤਰੀ ਹੈ — *eh yātrī hai* — this person is a traveller

Keep the new whole noun between familiar ਇਹ and ਹੈ. Familiar ਹੈ stays last in the already-owned identity frame. This chapter teaches only this one person label; it does not add a form rule or a wider construction.

Your turn

- *Hear: eh yātrī hai*; YOU SAY: ਇਹ ਯਾਤਰੀ ਹੈ

> ***By the end of this chapter:*** I can recognise and use the postposition for about in one bounded familiar-noun frame.
>
> *Recognise and produce the about-postposition in one bounded familiar-noun frame through listening, speaking, reading, and writing.*

203.1 Return to the familiar book noun

Hear: kitāb; YOU SAY: ਕਿਤਾਬ

Grammar Lens

Keep this familiar noun ready. A new relationship word will follow it only after the next lesson owns that word.

Your turn

- *Hear: book*; YOU SAY: ਕਿਤਾਬ
- Say the familiar noun once, then leave a silent space after it.

Before you move on

Produce the familiar noun from meaning. This opener owns no new word.

203.2 One postposition for about

Retrieve the familiar noun for a book, then leave a silent space after it.

Grammar Lens: direct owner

ਬਾਰੇ — *bāre* — about; concerning

Hear and say the whole word before reading it. Keep it as one whole postposition. Punjabi places a postposition after its noun; the next lesson will retrieve this new word before the familiar noun returns.

The word, taken apart — its roots and family

Punjabi University Patiala explains the after-the-noun position. A dictionary entry records the “about / concerning” meaning and cites Bhai Maya Singh’s 1895 dictionary. Punjab School Education Board Class 5 material independently uses the word in ordinary school prompts. Sources: Punjabi University Patiala, dictionary entry, and PSEB Class 5.

The exact historical derivation of modern written ਬਾਰੇ remains unknown in the cited sources. Its origin remains unknown here. This lesson therefore makes no etymological claim. Keep the present-day word whole.

Your turn

- *Hear: bāre*; YOU SAY: ਬਾਰੇ
- *Read it:* ਬਾਰੇ
- *Write it:* copy ਬਾਰੇ once, checking the whole word

Before you move on

Produce the postposition for “about / concerning” without looking.

203.3 Retrieve the new postposition on its own

Hear: bāre; YOU SAY: ਬਾਰੇ

Your turn

- *Hear: about or concerning*; YOU SAY: ਬਾਰੇ
- *Read it:* ਬਾਰੇ
- *Write it:* cover and write ਬਾਰੇ

Grammar Lens

Keep one whole postposition and one bounded meaning here. A familiar noun will return only after this separate retrieval.

Before you move on

Say and then write the word once from memory.

203.4 Put the postposition after one familiar noun

Retrieve the familiar book noun, then the new postposition.

Grammar Lens

ਕਿਤਾਬ ਬਾਰੇ — *kitāb bāre* — about the book

Punjabi puts this postposition after the familiar noun: book first, then "about." This chapter owns only that relationship word in this one gentle frame; the book noun remains old.

Your turn

- *Hear: kitāb bāre*; YOU SAY: ਕਿਤਾਬ ਬਾਰੇ
- *Read it:* ਕਿਤਾਬ ਬਾਰੇ
- *Write it:* cover and write ਕਿਤਾਬ ਬਾਰੇ

Before you move on

Produce the complete "about the book" frame.

203.5 A bounded about-postposition payoff

> Retrieve the new postposition alone before rebuilding its familiar noun frame.

Your turn: four skills

- *Hear: kitāb bāre*; YOU SAY: ਕਿਤਾਬ ਬਾਰੇ

Chapter 204

With Children

Modes: 🚗 **voice** (4) 👁 **eyes** (1) 🚗 **Hands-free start:** the first 2 of 5 lessons.

> ***By the end of this chapter:*** I can recognise and use one children form before a familiar postposition.
>
> *Recognise and produce one children form in a bounded familiar-postposition frame through listening, speaking, reading, and writing.*

204.1 Return to the familiar child noun

> *Hear: bachchā*; YOU SAY: ਬੱਚਾ

Grammar Lens

Keep this familiar singular noun ready. The next lesson will own one new form; this opener does not reveal it.

Your turn

- *Hear: a child*; YOU SAY: ਬੱਚਾ
- Say the familiar noun once, then stop.

Before you move on

Produce the familiar noun from meaning. This opener owns no new form.

204.2 One whole form for children before a postposition

Retrieve the familiar singular noun for a child, then stop.

Grammar Lens: direct owner

ਬੱਚਿਆਂ — *bachchiā̃* — children, before a postposition

Hear and say the whole form before reading it. Keep ਬੱਚਿਆਂ whole. Use this form for “children” before the familiar ਨਾਲ. The next lesson retrieves the new form alone before that old postposition returns.

The word, taken apart — its roots and family

Punjabi University Patiala’s noun grammar explains the form pattern used here. Its lexical statistics identifies this exact word as the plural-oblique form of the familiar child noun, and University Lesson 12 independently presents the same pattern. Sources: Punjabi University noun grammar, Punjabi University lexical statistics, and Punjabi University Lesson 12.

An earlier lesson records that the origin of ਬੱਚਾ remains unsettled. This lesson makes no new historical claim and keeps the new form whole.

Your turn

- *Hear: bachchiā̃*; YOU SAY: ਬੱਚਿਆਂ
- *Read it:* ਬੱਚਿਆਂ
- *Write it:* copy ਬੱਚਿਆਂ once, checking the whole form

Before you move on

Produce the form for “children” used before a postposition.

204.3 Retrieve the new children form on its own

Hear: bachchiā̃; YOU SAY: ਬੱਚਿਆਂ

Your turn

- *Hear: children, before a postposition*; YOU SAY: ਬੱਚਿਆਂ
- *Read it:* ਬੱਚਿਆਂ
- *Write it:* cover and write ਬੱਚਿਆਂ

Grammar Lens

Keep one whole form and one job here. The familiar postposition returns only after this separate retrieval.

Before you move on

Say and then write the form once from memory.

204.4 Put the new form before one familiar postposition

Retrieve the new children form, then the familiar word for "with."

Grammar Lens

ਬੱਚਿਆਂ ਨਾਲ — *bachchiā̃ nāl* — with children

For this one frame, place the whole children form before ਨਾਲ. The noun form comes first; the familiar postposition follows it. Nothing else is added.

Your turn

- *Hear: bachchiā̃ nāl*; YOU SAY: ਬੱਚਿਆਂ ਨਾਲ
- *Read it:* ਬੱਚਿਆਂ ਨਾਲ
- *Write it:* cover and write ਬੱਚਿਆਂ ਨਾਲ

Before you move on

Produce the complete "with children" frame.

204.5 A bounded with-children payoff

Retrieve the new children form alone before rebuilding its familiar postposition frame.

Your turn: four skills

- *Hear: bachchiā̃ nāl*; YOU SAY: ਬੱਚਿਆਂ ਨਾਲ
- *Read it:* ਬੱਚਿਆਂ ਨਾਲ
- *Write it:* cover the line and write ਬੱਚਿਆਂ ਨਾਲ

Before you move on

Say the new form, then produce the complete familiar-postposition frame.
This is the twenty-seventh prerequisite tranche exposed by Punjabi A2 mock drafting. It does not unblock Punjabi A2 mock 1 by itself. It is not an A2 mock, not A2 readiness or attainment, and not external or human validation.

Chapter 205

Everything Is Fine

Modes: 🚗 **voice** (4) 👁 **eyes** (1) 🚗 **Hands-free start:** the first 2 of 5 lessons.

> ***By the end of this chapter:*** I can recognise and use one word for all in a bounded familiar frame.
>
> *Recognise and produce one word for all in a bounded familiar frame through listening, speaking, reading, and writing.*

205.1 Return to a familiar fine-is frame

Hear: thik hai; YOU SAY: ਠੀਕ ਹੈ

Grammar Lens

Keep these two familiar words ready in this order. The next lesson will own one new word; this opener does not reveal it.

Your turn

- *Hear: fine, is*; YOU SAY: ਠੀਕ ਹੈ
- Say the familiar two-word frame once, then stop.

Before you move on

Produce the familiar frame from meaning. This opener owns no new word.

205.2 One whole word for all

Recall the English idea “all,” then listen for one new Punjabi word.

What to know first

ਸਭ — *sabh* — all; everyone; everything here

Hear and say the whole word before reading it. Keep ਸਭ whole. In this chapter it carries one beginner idea: all, understood as everyone or everything in the small frame that follows. The lesson does not open every grammatical use.

The word, taken apart — its roots and family

Punjabi University Patiala’s lexical statistics lists ਸਭ as an indefinite pronoun with the meanings “all / every / whole.” Its pronoun grammar also lists the word among plural indefinite pronouns and glosses it “all.” Its number introduction independently shows that the same form can serve an indefinite numeral role. Sources: Punjabi University lexical statistics, Punjabi University pronoun grammar, and Punjabi University number introduction.

Those sources support the present meaning, but they do not establish a deeper history. The Punjabi origin remains unknown in the sources used here. Make no historical derivation claim; remember the whole form.

Your turn

- *Hear: sabh*; YOU SAY: ਸਭ
- *Read it:* ਸਭ
- *Write it:* copy ਸਭ once, checking the whole word

Before you move on

Produce the one word for “all.”

205.3 Retrieve the new all word on its own

Hear: sabh; YOU SAY: ਸਭ

Your turn

- *Hear: all, everyone, or everything here*; YOU SAY: ਸਭ
- *Read it:* ਸਭ
- *Write it:* cover and write ਸਭ

Grammar Lens

Keep one whole form and one bounded idea here. The familiar two-word frame returns only after this separate retrieval.

Before you move on

Say and then write the word once from memory.

205.4 Put all before one familiar frame

Retrieve the new word for “all,” then the familiar words for “fine, is.”

Grammar Lens

ਸਭ ਠੀਕ ਹੈ — *sabh thik hai* — everything is fine

For this one frame, put the whole word ਸਭ before familiar ਠੀਕ ਹੈ. Here “all” is naturally understood as “everything.” Nothing else is added.

Your turn

- *Hear: sabh thik hai*; YOU SAY: ਸਭ ਠੀਕ ਹੈ
- *Read it:* ਸਭ ਠੀਕ ਹੈ
- *Write it:* cover and write ਸਭ ਠੀਕ ਹੈ

Before you move on

Produce the complete “everything is fine” frame.

205.5 A bounded everything-is-fine payoff

> Retrieve the new word for “all” alone before rebuilding its familiar frame.

Your turn: four skills

- *Hear: sabh thik hai*; YOU SAY: ਸਭ ਠੀਕ ਹੈ
- *Read it:* ਸਭ ਠੀਕ ਹੈ
- *Write it:* cover the line and write ਸਭ ਠੀਕ ਹੈ

Before you move on

Say the new word, then produce the complete familiar frame.
This is the twenty-eighth prerequisite tranche exposed by Punjabi A2 mock drafting. It does not unblock Punjabi A2 mock 1 by itself. It is not an A2 mock, not A2 readiness or attainment, and not external or human validation.

Chapter 206

They Went

Modes: 🚗 **voice** (4) 👁 **eyes** (1) ✎ **pen** (1) 🚗 **Hands-free start:** the first 2 of 6 lessons.

> ***By the end of this chapter:*** I can recognise and use one bounded masculine plural form for went.
>
> *Recognise and produce one bounded they-went frame through listening, speaking, reading, and writing.*

206.1 Return to a familiar pronoun and verb

Hear: oh; jaana; YOU SAY: **ਉਹ; ਜਾਣਾ**

Grammar Lens

Keep the familiar pronoun and the familiar infinitive ready. The next lesson will own one new past form; this opener does not reveal it.

Your turn

- *Hear: they or respectful he*; YOU SAY: ਉਹ
- *Hear: to go*; YOU SAY: ਜਾਣਾ
- Say the familiar pronoun, then the familiar infinitive.

Before you move on

Produce the two familiar forms from meaning. This opener owns no new form.

206.2 One bounded past form of to go

Retrieve the familiar infinitive ਜਾਣਾ, “to go,” then listen for one irregular past form.

Grammar Lens: direct owner

ਗਏ — *gae* — went, masculine plural

Hear and say the form before reading it. Punjabi also uses this masculine plural form for one respectfully mentioned masculine person. Keep the irregular form whole. This chapter practises only the small “they went” frame; it does not open the wider perfective or agreement system.

The word, taken apart — its roots and family

Punjabi University Patiala’s lexical statistics identifies ਗਏ as the masculine plural perfect form of the verb “go.” Its verb reference places the same form in the perfective family of that verb, and its reference grammar independently labels it masculine plural. Sources: Punjabi University lexical statistics, Punjabi University verb reference, and Punjabi University reference grammar.

Those sources support the modern form. Reuse the history already attached to ਜਾਣਾ; do not invent a second etymology for an inflected form. For this lesson, remember the whole irregular form and one bounded meaning.

Your turn

- *Hear: gae*; YOU SAY: ਗਏ
- *Read it:* ਗਏ
- *Write it:* copy ਗਏ once, checking the whole form

Before you move on

Produce the masculine plural form for “went.”

206.3 ਏ — one vowel from the went form you can say

Say ਗਏ, the whole “went” form from the previous lesson.

Script you’ll notice: ਏ

ਗ + ਏ → ਗਏ

ਏ — *e* — an independent Gurmukhi vowel

Keep ਏ in view. It is the second letter in the known word ਗਏ.

No stroke order is taught here: the track does not yet have a verified source for one.

Writing: copy what you can see

Keep ਏ in front of you. Trace its printed shape once with a finger, then copy it once with a pencil while the model stays visible. Say *e* when you finish.

> This is observe-and-copy with the model visible, not writing from memory.

Your turn

- *Look:* at ਏ; YOU SAY: *e*
- *Read it:* ਗਏ, then point to ਏ
- *Write it:* copy ਏ once while the model remains visible

Before you move on

Point to ਏ, say *e*, then say the whole word ਗਏ.
Source: Unicode Gurmukhi chart.

206.4 Retrieve the new went form on its own

Hear: gae; YOU SAY: ਗਏ, then point to ਏ

Your turn

- *Hear: went, masculine plural*; YOU SAY: ਗਏ
- *Read it:* ਗਏ, then point to ਏ and say *e*
- *Write it:* cover and write ਗਏ

Grammar Lens

Keep one whole irregular form and one bounded past meaning here. The familiar pronoun returns only after this separate retrieval.

Before you move on

Say and then write the form once from memory.

206.5 Put the new went form after a familiar pronoun

Retrieve the familiar pronoun for "they," then the new masculine plural form for "went."

Grammar Lens

ਉਹ ਗਏ — *oh gae* — they went

For this one frame, put familiar ਉਹ before the new whole form ਗਏ. In a different context the same masculine plural form can respectfully refer to one masculine person. Nothing else in the perfective or agreement system is added.

Your turn

- *Hear: oh gae*; YOU SAY: ਉਹ ਗਏ
- *Read it:* ਉਹ ਗਏ
- *Write it:* cover and write ਉਹ ਗਏ

Before you move on

Produce the complete “they went” frame.

206.6 A bounded they-went payoff

Retrieve the familiar infinitive “to go,” then the new whole form for masculine plural “went.”

Your turn: four skills

- *Hear: oh gae*; YOU SAY: ਉਹ ਗਏ
- *Read it:* ਉਹ ਗਏ
- *Write it:* cover the line and write ਉਹ ਗਏ

Before you move on

Say the new form, then produce the complete familiar-pronoun frame.
This is the twenty-ninth prerequisite tranche exposed by Punjabi A2 mock drafting. It does not unblock Punjabi A2 mock 1 by itself. It is not an A2 mock, not A2 readiness or attainment, and not external or human validation.

Chapter 207

This Happens Every Day

Modes: 🚗 **voice** (4) 👁 **eyes** (1) 🚗 **Hands-free start:** the first 2 of 5 lessons.

207.1 Return to to be and every day

Hear: hona, roz; YOU SAY: ਹੋਣਾ · ਰੋਜ਼

Grammar Lens

Keep the familiar infinitive "to be" and the familiar time word "every day" ready. The next lesson will own one new form; this opener does not reveal it.

Your turn

- *Hear: to be, every day*; YOU SAY: ਹੋਣਾ · ਰੋਜ਼
- Say the two familiar items once, then stop.

Before you move on

Produce the familiar infinitive and time word from meaning. This opener owns no new form.

207.2 One bounded habitual form of to be

Retrieve familiar ਹੋਣਾ, “to be,” then listen for one masculine singular habitual form.

Grammar Lens: direct owner

ਹੁੰਦਾ — *hundaa* — happens; masculine singular habitual form

Hear and say the whole form before reading it. Keep ਹੁੰਦਾ whole. This chapter uses it only for one repeated event in the small frame that follows. It does not open the wider habitual agreement system.

The word, taken apart — its roots and family

Punjabi University Patiala’s lexical statistics identifies ਹੁੰਦਾ as the masculine singular non-perfect form of ਹੋ, with continuous or habitual use. Its reference grammar gives ਹੋ as the stem of ਹੋਣਾ and lists ਹੁੰਦਾ as Present II. Punjabi University lesson 13 describes the agreeing *-dā* construction with a present auxiliary, and its verb reference identifies ਹੈ as the third-person singular present auxiliary. Sources: Punjabi University lexical statistics, Punjabi University reference grammar, Punjabi University lesson 13, and Punjabi University verb reference. Those sources support the modern form. Reuse the history already attached to ਹੋਣਾ; do not invent a second etymology for an inflected form. This chapter teaches the habitual reading only, not generic “is,” a progressive, counterfactual “would,” a past form, or a feminine or plural form.

Your turn

- *Hear: hundaa*; YOU SAY: ਹੁੰਦਾ
- *Read it:* ਹੁੰਦਾ
- *Write it:* copy ਹੁੰਦਾ once, checking the whole form

Before you move on

Produce the masculine singular habitual form for “happens.”

207.3 Retrieve the new habitual form on its own

Hear: hundaa; YOU SAY: ਹੁੰਦਾ

Your turn

- *Hear: happens, masculine singular habitual*; YOU SAY: ਹੁੰਦਾ
- *Read it:* ਹੁੰਦਾ
- *Write it:* cover and write ਹੁੰਦਾ

Grammar Lens

Keep one whole form and one bounded habitual meaning here. The familiar frame arrives only after this separate retrieval.

Before you move on

Say and then write the whole form once from memory.

207.4 Put the new form in one daily frame

Retrieve the familiar words for “this,” “every day,” and the final auxiliary ਹੈ, then retrieve the new habitual form.

Grammar Lens

ਇਹ ਰੋਜ਼ ਹੁੰਦਾ ਹੈ — *eh roz hundaa hai* — this happens every day

For this one frame, put familiar ਇਹ ਰੋਜ਼ before the new whole form ਹੁੰਦਾ, then keep familiar ਹੈ last. Nothing else in the habitual or agreement system is added.

Your turn

- *Hear: eh roz hundaa hai*; YOU SAY: ਇਹ ਰੋਜ਼ ਹੁੰਦਾ ਹੈ
- *Read it:* ਇਹ ਰੋਜ਼ ਹੁੰਦਾ ਹੈ
- *Write it:* cover and write ਇਹ ਰੋਜ਼ ਹੁੰਦਾ ਹੈ

Before you move on

Produce the complete “this happens every day” frame.

207.5 A bounded this-happens-every-day payoff

Retrieve the new habitual form alone before rebuilding its familiar frame.

Your turn: four skills

- *Hear: eh roz hundaa hai*; YOU SAY: ਇਹ ਰੋਜ਼ ਹੁੰਦਾ ਹੈ
- *Read it:* ਇਹ ਰੋਜ਼ ਹੁੰਦਾ ਹੈ
- *Write it:* cover the line and write ਇਹ ਰੋਜ਼ ਹੁੰਦਾ ਹੈ

Before you move on

Say the new form, then produce the complete daily frame.
This is the thirtieth prerequisite tranche exposed by Punjabi A2 mock drafting. It does not unblock Punjabi A2 mock 1 by itself. It is not an A2 mock, not A2 readiness or attainment, and not external or human validation.

Chapter 208

I Had to Go

Modes: 🚗 **voice** (4) 👁 **eyes** (1) 🚗 **Hands-free start:** the first 2 of 5 lessons.

> ***By the end of this chapter:*** I can recognise and use one bounded masculine singular past-necessity form.
>
> *Recognise and produce one bounded I-had-to-go frame through listening, speaking, reading, and writing.*

208.1 Return to to me and to go

Hear: mainu; jaana; YOU SAY: ਮੈਨੂੰ · ਜਾਣਾ

Grammar Lens

Keep the familiar "to me" form and the familiar infinitive "to go" ready. The next lesson will own one new auxiliary base and one exact past form; this opener does not reveal either one.

Your turn

- *Hear: to me*; YOU SAY: ਮੈਨੂੰ
- *Hear: to go*; YOU SAY: ਜਾਣਾ
- Say the two familiar items once, then stop.

Before you move on

Produce “to me” and “to go” from meaning. This opener owns no new form.

208.2 One bounded past-necessity form

Retrieve familiar ਮੈਨੂੰ, “to me,” and ਜਾਣਾ, “to go.” Then listen for one new auxiliary base and its one past form.

Grammar Lens: direct owner

ਪੈਣਾ — *paina* — to have to

ਪਿਆ — *piaa* — had to; masculine singular perfective form

Hear and say the two whole forms before reading them. Keep ਪਿਆ whole. This chapter uses it only after one familiar infinitive in one past-necessity frame. It does not open the wider agreement system.

The word, taken apart — its roots and family

Punjabi University Patiala’s reference grammar describes the -ਣਾ ਪੈ- construction as “have to,” says that the person uses ਨੂੰ, and gives both present or future and past examples. AQA’s official Panjabi grammar lists the infinitive, past and perfective forms, and auxiliary ਪੈ. Sources: Punjabi University reference grammar and AQA Panjabi grammar. Those sources support this modern construction. Keep the exact form whole; do not invent a separate etymology for it. This chapter teaches only the masculine singular perfective in one “had to” frame, not a present or future obligation, a feminine or plural form, a full agreement paradigm, or any other sense of the auxiliary.

Your turn

- *Hear: paina*; YOU SAY: ਪੈਣਾ
- *Hear: piaa, had to*; YOU SAY: ਪਿਆ
- *Read it:* ਪੈਣਾ · ਪਿਆ

- *Write it:* copy ਪਿਆ once, checking the whole form

Before you move on

Produce the auxiliary base, then its one masculine singular perfective “had to” form.

208.3 Retrieve the new past-necessity form on its own

Hear: piaa; YOU SAY: ਪਿਆ

Your turn

- *Hear: had to, masculine singular perfective*; YOU SAY: ਪਿਆ
- *Read it:* ਪਿਆ
- *Write it:* cover and write ਪਿਆ

Grammar Lens

Keep one whole form and one bounded past-necessity meaning here. The familiar words that complete its frame return only after this separate retrieval.

Before you move on

Say and then write the whole form once from memory.

208.4 Put the new form in one past-necessity frame

Retrieve familiar “to me” and “to go,” then retrieve the new “had to” form.

Grammar Lens

ਮੈਨੂੰ ਜਾਣਾ ਪਿਆ — *mainu jaana piaa* — I had to go

For this one frame, begin with familiar ਮੈਨੂੰ, keep familiar infinitive ਜਾਣਾ

in the middle, and place new whole form ਪਿਆ last. Nothing else in the necessity or agreement system is added.

Your turn

- *Hear: mainu jaana piaa*; YOU SAY: ਮੈਨੂੰ ਜਾਣਾ ਪਿਆ
- *Read it:* ਮੈਨੂੰ ਜਾਣਾ ਪਿਆ
- *Write it:* cover and write ਮੈਨੂੰ ਜਾਣਾ ਪਿਆ

Before you move on

Produce the complete “I had to go” frame.

208.5 A bounded I-had-to-go payoff

Retrieve the new past-necessity form alone before rebuilding its familiar frame.

Your turn: four skills

- *Hear: mainu jaana piaa*; YOU SAY: ਮੈਨੂੰ ਜਾਣਾ ਪਿਆ
- *Read it:* ਮੈਨੂੰ ਜਾਣਾ ਪਿਆ
- *Write it:* cover the line and write ਮੈਨੂੰ ਜਾਣਾ ਪਿਆ

Before you move on

Say the new form, then produce the complete “I had to go” frame. This is the thirty-first prerequisite tranche exposed by Punjabi A2 mock drafting. It does not unblock Punjabi A2 mock 1 by itself. It is not an A2 mock, not A2 readiness or attainment, and not external or human validation.

Chapter 209

This Is a Blue Shoe

Modes: 🚗 **voice** (4) 👁 **eyes** (1) 🚗 **Hands-free start:** the first 2 of 5 lessons.

> ***By the end of this chapter:*** I can recognise and use one bounded feminine singular adjective form.
>
> *Recognise and produce one bounded blue-shoe frame through listening, speaking, reading, and writing.*

209.1 Return to blue and a shoe

Hear: nila; jutti; YOU SAY: ਨੀਲਾ · ਜੁੱਤੀ

Grammar Lens

Keep the familiar colour word and the familiar noun ready. The next lesson will change one ending to own one exact agreeing form; this opener does not reveal that form.

Your turn

- *Hear: blue*; YOU SAY: ਨੀਲਾ
- *Hear: a shoe*; YOU SAY: ਜੁੱਤੀ
- Say the two familiar items once, then stop.

Before you move on

Produce “blue” and “a shoe” from meaning. This opener owns no new form.

209.2 One bounded feminine adjective form

Retrieve familiar ਨੀਲਾ, “blue,” and the familiar rule that a variable adjective agrees with a feminine noun.

Grammar Lens: direct owner

ਨੀਲਾ — *nīlā* — blue, masculine singular direct

ਨੀਲੀ — *nīlī* — blue, feminine singular direct

For this one form, change the final -ਾ ending of familiar ਨੀਲਾ to feminine singular -ੀ. The result is ਨੀਲੀ. Keep the stem and meaning steady; only the ending changes.

Grammar Lens: source boundary

Punjabi University Patiala’s reference grammar says that inflectable adjectives agree with their head noun in gender, number, and case. Its noun-phrase examples contrast masculine ਚੰਗਾ ਮੁੰਡਾ with feminine ਚੰਗੀ ਕੁੜੀ. Source: Punjabi University reference grammar.
That source supports this one feminine singular direct ending change. This chapter does not teach a full agreement paradigm, plural or oblique forms, a new colour, or a general contrast between attributive and predicative uses.

Your turn

- *Hear: nili, blue for one feminine noun*; YOU SAY: ਨੀਲੀ
- *Read it:* ਨੀਲਾ · ਨੀਲੀ
- *Write it:* copy ਨੀਲੀ once, checking the final -ੀ
- *Check:* familiar ਨੀਲਾ ends in -ਾ; exact feminine singular ਨੀਲੀ ends in -ੀ

Before you move on

Produce familiar “blue,” then its one feminine singular direct form.

209.3 Retrieve the new feminine form on its own

Hear: nili; YOU SAY: ਨੀਲੀ

Your turn

- *Hear: blue, feminine singular direct*; YOU SAY: ਨੀਲੀ
- *Read it:* ਨੀਲੀ
- *Write it:* cover and write ਨੀਲੀ

Grammar Lens

Keep one exact form and one bounded agreement job here. The familiar noun and sentence frame return only after this separate retrieval.

Before you move on

Say and then write the exact form once from memory.

209.4 Put the new form before one familiar feminine noun

Retrieve the new feminine colour form, familiar “shoe,” familiar “this,” and familiar “is.”

Grammar Lens

ਇਹ ਨੀਲੀ ਜੁੱਤੀ ਹੈ — *eh nīlī juttī hai* — This is a blue shoe.

For this one frame, begin with familiar ਇਹ, place new ਨੀਲੀ before the familiar feminine noun ਜੁੱਤੀ, and keep familiar ਹੈ at the end. The adjective is feminine singular direct because it agrees with this one noun.

Your turn

- *Hear: eh nili jutti hai*; YOU SAY: ਇਹ ਨੀਲੀ ਜੁੱਤੀ ਹੈ
- *Read it:* ਇਹ ਨੀਲੀ ਜੁੱਤੀ ਹੈ
- *Write it:* cover and write ਇਹ ਨੀਲੀ ਜੁੱਤੀ ਹੈ
- *Check:* ਨੀਲੀ comes before ਜੁੱਤੀ; ਹੈ waits at the end

Before you move on

Produce the complete “This is a blue shoe” frame.

209.5 A bounded blue-shoe payoff

Retrieve the new feminine colour form alone before rebuilding its familiar frame.

Your turn: four skills

- *Hear: eh nili jutti hai*; YOU SAY: ਇਹ ਨੀਲੀ ਜੁੱਤੀ ਹੈ
- *Read it:* ਇਹ ਨੀਲੀ ਜੁੱਤੀ ਹੈ
- *Write it:* cover the line and write ਇਹ ਨੀਲੀ ਜੁੱਤੀ ਹੈ

Before you move on

Say the new form, then produce the complete “This is a blue shoe” frame.
This is the thirty-second prerequisite tranche exposed by Punjabi A2 mock drafting. It does not unblock Punjabi A2 mock 1 by itself. It is not an A2 mock, not A2 readiness or attainment, and not external or human validation.

Chapter 210

Aman Did the Work

Modes: 🚗 **voice** (3) 👁 **eyes** (2) 🚗 **Hands-free start:** the first of 5 lessons.

> ***By the end of this chapter:*** I can recognise and use the agent marker in one named-person completed-action frame.
>
> *Recognise and produce one named-agent completed-action frame through listening, speaking, reading, and writing.*

210.1 Return to a familiar completed action

Hear: Aman; kamm; kiitaa Say ਅਮਨ · ਕੰਮ · ਕੀਤਾ.

Grammar Lens

ਕੰਮ is familiar "work." ਕੀਤਾ is the familiar completed form in ਮੈਂ ਕੰਮ ਕੀਤਾ. In that old frame it agrees with the unmarked work object. Keep those pieces ready; the next lesson adds one small marker to a named person's completed action.

Your turn

- *Hear: the practice name* Say ਅਮਨ.
- *Hear: work* Say ਕੰਮ.
- *Hear: did, completed form* Say ਕੀਤਾ.

Before you move on

Say only these familiar pieces. No new form is required yet.

210.2 A small marker after the agent

Recall the practice name ਅਮਨ, “work” ਕੰਮ, and the completed form ਕੀਤਾ.

Grammar Lens: direct owner

ਨੇ — *ne* — marks the person who did the action in this frame

ਅਮਨ ਨੇ ਕੰਮ ਕੀਤਾ — *Aman ne kamm kiitaa* — Aman did the work

Put ਨੇ immediately after ਅਮਨ in this one third-person completed transitive action. The short marker points to the doer. Familiar ਕੀਤਾ still agrees with the unmarked masculine-singular object ਕੰਮ. Say the whole sentence once, then point to its doer, work, and action.

Grammar Lens: source boundary

Punjabi University Patiala’s lesson 14 shows a comparable completed-action pattern and warns that usage varies by sentence. This is a safe small example; not every past sentence takes ਨੇ. The same written sound can also be a present-tense auxiliary at the *end* of a different sentence; that is not today’s marker. We do not generalise beyond this named-agent, third-person frame.

Your turn

- *Hear: Aman ne kamm kiitaa* Say ਅਮਨ ਨੇ ਕੰਮ ਕੀਤਾ.
- *Read it:* ਅਮਨ ਨੇ ਕੰਮ ਕੀਤਾ
- *Write it:* copy only ਨੇ, checking ਨ then ◌ੇ

Before you move on

Recall the marker after the named doer.

210.3 Hear and read one agent marker again

Remember the tiny marker immediately after ਅਮਨ in the completed-action sentence.

Your turn

- *Hear: ne, after the doer* Say ਨੇ.
- *Read it:* ਨੇ Say *ne.*
- *Write it:* cover the model and write ਨੇ once

If it does not come yet, look back at the model and try again. The two visible pieces are familiar; the new work is where this whole marker sits.

Before you move on

Say where the marker belongs: after the named doer in today's completed-action frame.

210.4 Build one completed-action sentence

Say ਅਮਨ, then the new marker ਨੇ. Recall ਕੰਮ ਕੀਤਾ from the earlier completed-action chapter.

Grammar Lens: bounded frame

ਅਮਨ ਨੇ ਕੰਮ ਕੀਤਾ — *Aman ne kamm kiitaa* — Aman did the work

Read left to right: named doer, small agent marker, work object, completed action. Keep this one frame; do not use it to guess a rule for every past sentence.

Your turn

- *Hear: Aman did the work* Say ਅਮਨ ਨੇ ਕੰਮ ਕੀਤਾ.
- *Read it:* ਅਮਨ ਨੇ ਕੰਮ ਕੀਤਾ Point to the small marker after ਅਮਨ.
- *Write it:* copy ਅਮਨ ਨੇ ਕੰਮ ਕੀਤਾ once

Before you move on

Cover the model, rebuild the four pieces, and check the marker's position.

210.5 A bounded completed-action payoff

Recall the small agent marker, then retrieve the full frame.

Your turn: four skills

- *Hear: Aman ne kamm kiitaa* Say ਅਮਨ ਨੇ ਕੰਮ ਕੀਤਾ.
- *Read it:* ਅਮਨ ਨੇ ਕੰਮ ਕੀਤਾ Give its meaning: Aman did the work.
- *Write it:* cover the line and write ਅਮਨ ਨੇ ਕੰਮ ਕੀਤਾ
- Check that ਨੇ is after the named doer, not the final auxiliary.

Before you move on

Produce this one third-person completed-action sentence once more. This is not an A2 mock or mock readiness evidence. It does not, by itself, unblock Punjabi A2 mock 1; the full public-corpus closure must be rechecked.

Chapter 211

Going and Drinking Every Day

Modes: 🚗 **voice** (5) 👁 **eyes** (2) 🚗 **Hands-free start:** the first of 7 lessons.

> ***By the end of this chapter:*** I can say what I go to, eat and drink every day, with the present forms of jana, khana and pina.
>
> *Say where you go and what you eat and drink every day, as a man, a woman and a group.*

211.1 Return to four familiar verbs

Hear: jāṇā; khāṇā; pīṇā Say ਜਾਣਾ · ਖਾਣਾ · ਪੀਣਾ.

Grammar Lens

You already say ਕਰਦਾ, “does”, and ਸੌਂਦਾ, “sleeps”. Listen to the two middles: *kar-dā* runs straight into its ending, but *saun-dā* carries a nasal hum before it. The next lesson gives that hum to three verbs you use every day.

Your turn

- *Hear: to go* Say ਜਾਣਾ.
- *Hear: to eat* Say ਖਾਣਾ.
- *Hear: to drink* Say ਪੀਣਾ.
- *Hear: sleeps, of a man* Say ਸੌਂਦਾ.

Before you move on

Say the four once more, slowly. Nothing new is needed yet.

211.2 ਜਾਂਦਾ, ਜਾਂਦੀ — goes, every day

Say ਜਾਣਾ, “to go”, then ਸੌਂਦਾ, “sleeps”. Then *every day*: ਰੋਜ਼.

Grammar Lens: a stem that ends in a vowel

Take -ਣਾ off ਜਾਣਾ and the stem ਜਾ ends in a vowel. Before -ਦਾ such a stem takes a nasal, the dot ◌ਂ, as ਸੌਂਦਾ does:

ਜਾ + ◌ਂ + ਦਾ → ਜਾਂਦਾ

ਮੈਂ ਰੋਜ਼ ਸਕੂਲ ਜਾਂਦਾ ਹਾਂ। — *maiṁ roz sakūl jāndā hāṁ.* — I go to school every day (a man speaking).

ਮੈਂ ਰੋਜ਼ ਸਕੂਲ ਜਾਂਦੀ ਹਾਂ। — *maiṁ roz sakūl jāndī hāṁ.* — I go to school every day (a woman speaking).

The ending agrees with the one who goes, as in ਮੈਂ ਪੰਜਾਬੀ ਬੋਲਦਾ ਹਾਂ. The helper ਹਾਂ stays at the end.

Your turn

- *Hear: I go home every day, as a man* Say ਮੈਂ ਰੋਜ਼ ਘਰ ਜਾਂਦਾ ਹਾਂ।
- *Hear: she goes to school every day* Say ਉਹ ਰੋਜ਼ ਸਕੂਲ ਜਾਂਦੀ ਹੈ।
- *Read it:* ਜਾਂਦਾ Point to the dot that brings the nasal.
- *Write it:* copy ਜਾਂਦਾ once

Before you move on

Goes, of a man? (ਜਾਂਦਾ.) Of a woman? (ਜਾਂਦੀ.)

211.3 Hear and say goes again

Hear: jāndā; jāndī Say ਜਾਂਦਾ · ਜਾਂਦੀ.

Your turn

- *Hear: he goes home every day* Say ਉਹ ਰੋਜ਼ ਘਰ ਜਾਂਦਾ ਹੈ।
- *Hear: I go to school every day, as a woman* Say ਮੈਂ ਰੋਜ਼ ਸਕੂਲ ਜਾਂਦੀ ਹਾਂ।
- *Read it:* ਜਾਂਦੀ Say *jāndī.*
- *Write it:* cover the model and write ਜਾਂਦੀ once

Before you move on

Say one true sentence about where you go every day.

211.4 ਖਾਂਦਾ, ਪੀਂਦਾ — eats, drinks

Say *I go to school every day.* Then ਖਾਣਾ and ਪੀਣਾ.

Grammar Lens: ਖਾ and ਪੀ

ਖਾ and ਪੀ end in vowels too, so they work like ਜਾ: ਖਾਂਦਾ, ਖਾਂਦੀ; ਪੀਂਦਾ, ਪੀਂਦੀ.

> ਮੈਂ ਰੋਜ਼ ਰੋਟੀ ਖਾਂਦਾ ਹਾਂ। — *maiṁ roz roṭī khāndā hāṁ.* — I eat roti every day (a man speaking).
>
> ਉਹ ਰੋਜ਼ ਦੁੱਧ ਪੀਂਦੀ ਹੈ। — *uh roz duddh pīndī hai.* — She drinks milk every day.

Your turn

- *Hear: I drink water every day, as a woman* Say ਮੈਂ ਰੋਜ਼ ਪਾਣੀ ਪੀਂਦੀ ਹਾਂ।
- *Hear: he eats roti every day* Say ਉਹ ਰੋਜ਼ ਰੋਟੀ ਖਾਂਦਾ ਹੈ।
- *Read it:* ਪੀਂਦਾ Point to ◌ਂ, then say *pīndā.*
- *Write it:* copy ਖਾਂਦਾ once

Before you move on

Eats, of a man? (ਖਾਂਦਾ.) *Drinks*, of a woman? (ਪੀਂਦੀ.)

211.5 Hear and say eats and drinks again

Hear: khāndā; pīndā; jāndā Say ਖਾਂਦਾ · ਪੀਂਦਾ · ਜਾਂਦਾ.

Your turn

- *Hear: I drink tea every day, as a man* Say ਮੈਂ ਰੋਜ਼ ਚਾਹ ਪੀਂਦਾ ਹਾਂ।
- *Hear: she eats roti every day* Say ਉਹ ਰੋਜ਼ ਰੋਟੀ ਖਾਂਦੀ ਹੈ।
- *Read it:* ਖਾਂਦੀ Say *khāndī.*
- *Write it:* cover the model and write ਪੀਂਦੀ once

Before you move on

Say what you drink every day, with the ending that fits you.

211.6 ਅਸੀਂ ਰੋਜ਼ ਚਾਹ ਪੀਂਦੇ ਹਾਂ — we drink tea every day

Say *I drink tea every day.* Then the familiar ਅਸੀਂ ਮਿਲਦੇ ਹਾਂ, "we meet".

Grammar Lens: -ਦੇ for more than one

ਮਿਲਦੇ showed the -ਦੇ ending for ਅਸੀਂ. The vowel stems take it too, nasal and all: ਜਾਂਦੇ, ਖਾਂਦੇ, ਪੀਂਦੇ. ਤੁਸੀਂ takes it as well, with ਹੋ:

> ਅਸੀਂ ਰੋਜ਼ ਚਾਹ ਪੀਂਦੇ ਹਾਂ। — *asīṁ roz chāh pīnde hāṁ.* — We drink tea every day.
>
> ਤੁਸੀਂ ਰੋਜ਼ ਸਕੂਲ ਜਾਂਦੇ ਹੋ। — *tusīṁ roz sakūl jānde ho.* — You go to school every day.

Your turn

- *Hear: we eat roti every day* Say ਅਸੀਂ ਰੋਜ਼ ਰੋਟੀ ਖਾਂਦੇ ਹਾਂ।
- *Hear: you go home every day* Say ਤੁਸੀਂ ਰੋਜ਼ ਘਰ ਜਾਂਦੇ ਹੋ।
- *Read it:* ਅਸੀਂ ਰੋਜ਼ ਚਾਹ ਪੀਂਦੇ ਹਾਂ।
- *Write it:* copy ਪੀਂਦੇ once

Before you move on

We go? (ਅਸੀਂ ਜਾਂਦੇ ਹਾਂ.) *You drink*? (ਤੁਸੀਂ ਪੀਂਦੇ ਹੋ.)

211.7 Every day: a four-skill payoff

Say *goes*, *eats* and *drinks*, for a man and then for a woman.

Your turn: four skills

- *Hear: I drink tea every day* Say it as yourself: ਮੈਂ ਰੋਜ਼ ਚਾਹ ਪੀਂਦਾ ਹਾਂ। or ਮੈਂ ਰੋਜ਼ ਚਾਹ ਪੀਂਦੀ ਹਾਂ।
- *Hear: we go to school every day* Say ਅਸੀਂ ਰੋਜ਼ ਸਕੂਲ ਜਾਂਦੇ ਹਾਂ।
- *Read it:* ਉਹ ਰੋਜ਼ ਰੋਟੀ ਖਾਂਦੀ ਹੈ। Give its meaning: she eats roti every day.
- *Write it:* cover the line and write ਮੈਂ ਰੋਜ਼ ਪਾਣੀ ਪੀਂਦਾ ਹਾਂ। or its woman's form

Before you move on

Tell someone three things you do every day: where you go, what you eat, what you drink.

Chapter 212

I Don’t Drink Tea

Modes: **voice** (3) **eyes** (2) **Hands-free start:** the first of 5 lessons.

> ***By the end of this chapter:*** I can say that I do not do something, and that something is not so, with nahin before the verb.
>
> *Say what you do not eat, drink or do, and that a place is not open, with nahin before the verb.*

212.1 Return to a familiar no

> *Hear: nahīṁ* Say ਨਹੀਂ. Then the whole sentence you have used since the early lessons: ਮੈਨੂੰ ਸਮਝ ਨਹੀਂ ਆਈ, “I did not understand”.

Grammar Lens

You learned that ਨਹੀਂ goes directly before the verb and that nothing else in the sentence moves. Hold that idea next to a sentence you can say now: ਮੈਂ ਚਾਹ ਪੀਂਦਾ ਹਾਂ.

Your turn

- *Hear: no* Say ਨਹੀਂ.
- *Hear: I did not understand* Say ਮੈਨੂੰ ਸਮਝ ਨਹੀਂ ਆਈ.
- *Hear: I drink tea, as a man* Say ਮੈਂ ਚਾਹ ਪੀਂਦਾ ਹਾਂ.

Before you move on

Say *no*, then *I drink tea.* The next lesson joins them.

212.2 ਮੈਂ ਚਾਹ ਨਹੀਂ ਪੀਂਦਾ ਹਾਂ — I don’t drink tea

Say *I drink tea every day*, with the ending that fits you.

Grammar Lens: ਨਹੀਂ before the verb

Put ਨਹੀਂ directly before ਪੀਂਦਾ. Everything else stays where it was, the helper ਹਾਂ included:

> ਮੈਂ ਚਾਹ ਨਹੀਂ ਪੀਂਦਾ ਹਾਂ। — *maiṁ chāh nahīṁ pīndā hāṁ.* — I don’t drink tea (a man speaking).
>
> ਮੈਂ ਚਾਹ ਨਹੀਂ ਪੀਂਦੀ ਹਾਂ। — *maiṁ chāh nahīṁ pīndī hāṁ.* — I don’t drink tea (a woman speaking).
>
> ਉਹ ਰੋਟੀ ਨਹੀਂ ਖਾਂਦਾ ਹੈ। — *uh roṭī nahīṁ khāndā hai.* — He doesn’t eat roti.

This book keeps the helper after ਨਹੀਂ in every sentence it prints.

Your turn

- *Hear: I don’t drink milk, as a woman* Say ਮੈਂ ਦੁੱਧ ਨਹੀਂ ਪੀਂਦੀ ਹਾਂ।
- *Hear: he doesn’t go to school* Say ਉਹ ਸਕੂਲ ਨਹੀਂ ਜਾਂਦਾ ਹੈ।
- *Read it:* ਮੈਂ ਚਾਹ ਨਹੀਂ ਪੀਂਦਾ ਹਾਂ। Point to ਨਹੀਂ, then to the verb after it.
- *Write it:* copy ਨਹੀਂ ਪੀਂਦਾ ਹਾਂ once

Before you move on

Where does ਨਹੀਂ go? (Directly before the verb.) Does ਹਾਂ stay? (Yes.)

212.3 Say what you don’t do

Hear: I don’t drink tea Say it with the ending that fits you.

Your turn

- *Hear: she doesn't eat roti* Say ਉਹ ਰੋਟੀ ਨਹੀਂ ਖਾਂਦੀ ਹੈ।
- *Hear: I don't go home, as a man* Say ਮੈਂ ਘਰ ਨਹੀਂ ਜਾਂਦਾ ਹਾਂ।
- *Read it:* ਉਹ ਸਕੂਲ ਨਹੀਂ ਜਾਂਦਾ ਹੈ। Give its meaning.
- *Write it:* cover the model and write ਮੈਂ ਚਾਹ ਨਹੀਂ ਪੀਂਦੀ ਹਾਂ। once

Before you move on

Say one thing you do every day, then one thing you don't.

212.4 ਬਾਗ਼ ਖੁੱਲ੍ਹਾ ਨਹੀਂ ਹੈ — the garden is not open

Say *the garden is open in the morning*, then *the garden is closed*. Then *I don't drink tea*.

Grammar Lens: when ਹੈ is the verb

In ਬਾਗ਼ ਖੁੱਲ੍ਹਾ ਹੈ the verb is ਹੈ itself. So ਨਹੀਂ goes directly before ਹੈ:

ਬਾਗ਼ ਖੁੱਲ੍ਹਾ ਨਹੀਂ ਹੈ। — *bāgh khullhā nahīṁ hai.* — The garden is not open.

ਬਾਗ਼ ਬੰਦ ਨਹੀਂ ਹੈ। — *bāgh band nahīṁ hai.* — The garden is not closed.

ਉਹ ਘਰ ਵਿੱਚ ਨਹੀਂ ਹੈ। — *uh ghar vichch nahīṁ hai.* — He is not at home.

Your turn

- *Hear: the garden is not closed* Say ਬਾਗ਼ ਬੰਦ ਨਹੀਂ ਹੈ।
- *Hear: she is not at home* Say ਉਹ ਘਰ ਵਿੱਚ ਨਹੀਂ ਹੈ।
- *Read it:* ਬਾਗ਼ ਖੁੱਲ੍ਹਾ ਨਹੀਂ ਹੈ। Point to the word ਨਹੀਂ stands before.
- *Write it:* copy ਨਹੀਂ ਹੈ once

Before you move on

Not open? (ਖੁੱਲ੍ਹਾ ਨਹੀਂ ਹੈ.) *Doesn't drink*? (ਨਹੀਂ ਪੀਂਦਾ ਹੈ.)

212.5 Saying no: a four-skill payoff

Say *I don't drink tea*, then *the garden is not open.*

Your turn: four skills

- *Hear: I don't eat roti* Say it with the ending that fits you.
- *Hear: the garden is not closed* Say ਬਾਗ਼ ਬੰਦ ਨਹੀਂ ਹੈ।
- *Read it:* ਉਹ ਸਕੂਲ ਨਹੀਂ ਜਾਂਦੀ ਹੈ। Give its meaning: she doesn't go to school.
- *Write it:* cover the line and write ਮੈਂ ਦੁੱਧ ਨਹੀਂ ਪੀਂਦਾ ਹਾਂ। or its woman's form

Before you move on

Say two true things you don't do, and one place that is not open now.

Chapter 213

Please Don’t Get Up

Modes: 🚗 **voice** (5) 👁 **eyes** (1) 🚗 **Hands-free start:** the first of 6 lessons.

> ***By the end of this chapter:*** I can ask someone politely to sit or get up, and ask them not to, with na before the request.
>
> *Make a polite request in -o, turn it into a don’t with na, and say not yet with aje.*

213.1 Return to a familiar request

> *Hear: māf karo* Say ਮਾਫ਼ ਕਰੋ, “excuse me”. Then *work with Aman*: ਅਮਨ ਨਾਲ ਕੰਮ ਕਰੋ.

Grammar Lens

Both requests end in ਕਰੋ, “do”, said to someone politely. You also know ਨਾ, the short “no; don’t”, and two verbs for the body: ਬੈਠਣਾ, “to sit”, and ਉੱਠਣਾ, “to get up”.

Your turn

- *Hear: don’t* Say ਨਾ.
- *Hear: to sit* Say ਬੈਠਣਾ.
- *Hear: to get up* Say ਉੱਠਣਾ.

Before you move on

Say *excuse me*, then *don't*. Keep both ready.

213.2 ਬੈਠੋ, ਉੱਠੋ — please sit, please get up

Say ਮਾਫ਼ ਕਰੋ. Then *to sit* and *to get up*.

Grammar Lens: stem + ◌ੋ

ਕਰੋ is the stem ਕਰ with the sign ◌ੋ. Other stems that end in a consonant work the same way:

ਬੈਠ + ◌ੋ → ਬੈਠੋ

ਇੱਥੇ ਬੈਠੋ। — *itthe baiṭho.* — Please sit here.

ਸਵੇਰੇ ਜਲਦੀ ਉੱਠੋ। — *savere jaldī uṭṭho.* — Get up early in the morning.

ਕਿਤਾਬ ਪੜ੍ਹੋ। — *kitāb paṛho.* — Read the book.

It is the polite form, the one you say to ਤੁਸੀਂ.

Your turn

- *Hear: please sit there* Say ਉੱਥੇ ਬੈਠੋ।
- *Hear: please get up* Say ਉੱਠੋ।
- *Read it:* ਇੱਥੇ ਬੈਠੋ। Point to ◌ੋ at the end of the request.
- *Write it:* copy ਬੈਠੋ once

Before you move on

Please sit? (ਬੈਠੋ.) *Please get up?* (ਉੱਠੋ.)

213.3 Ask politely again

Hear: baiṭho; uṭṭho Say ਬੈਠੋ · ਉੱਠੋ.

Your turn

- *Hear: please sit here* Say ਇੱਥੇ ਬੈਠੋ।
- *Hear: get up early in the morning* Say ਸਵੇਰੇ ਜਲਦੀ ਉੱਠੋ।
- *Read it:* ਉੱਠੋ। Say *uṭṭho.*
- *Write it:* cover the model and write ਉੱਠੋ once

Before you move on

Ask a guest, politely, to sit.

213.4 ਨਾ ਉੱਠੋ — please don't get up

Say *please get up.* Then *don't*, ਨਾ. Then *I don't drink tea.*

Grammar Lens: ਨਾ for a request, ਨਹੀਂ for a statement

A request takes ਨਾ, directly before it:

> ਨਾ ਉੱਠੋ। — *nā uṭṭho.* — Please don't get up.
>
> ਉੱਥੇ ਨਾ ਬੈਠੋ। — *utthe nā baiṭho.* — Please don't sit there.
>
> ਹੁਣ ਕੰਮ ਨਾ ਕਰੋ। — *huṇ kamm nā karo.* — Don't work now.

A statement keeps ਨਹੀਂ: ਮੈਂ ਚਾਹ ਨਹੀਂ ਪੀਂਦਾ ਹਾਂ. So the short ਨਾ asks, and the long ਨਹੀਂ tells.

Your turn

- *Hear: please don't sit there* Say ਉੱਥੇ ਨਾ ਬੈਠੋ।
- *Hear: don't work now* Say ਹੁਣ ਕੰਮ ਨਾ ਕਰੋ।
- *Read it:* ਨਾ ਉੱਠੋ। Give its meaning.
- *Write it:* copy ਨਾ ਉੱਠੋ once

Before you move on

Don't get up? (ਨਾ ਉੱਠੋ.) *I don't get up?* (ਮੈਂ ਨਹੀਂ ਉੱਠਦਾ ਹਾਂ.)

213.5 ਅਜੇ (aje) — not yet; still

Before the new word: say *please don't get up*, then *now*.

You'll want to know: ਅਜੇ

ਅਜੇ — *aje* — "not yet; still".

> ਮੈਂ ਅਜੇ ਘਰ ਵਿੱਚ ਹਾਂ। — *maiṁ aje ghar vichch hāṁ.* — I am still at home.
>
> ਅਜੇ ਨਾ ਉੱਠੋ। — *aje nā uṭṭho.* — Don't get up yet.

The word, taken apart — its roots and family

ਅਜੇ (*aje*) is inherited from Sanskrit *adyaiva*, "even today": CDIAL lists Punjabi *aje*, "hitherto" (CDIAL 245). "Up to today" is where both of its senses come from: *still*, and with a no, *not yet*.

What you've built

One more word for saying no and asking.

Your turn

- *Say it: aje*
- *Hear: I am still at home* Say ਮੈਂ ਅਜੇ ਘਰ ਵਿੱਚ ਹਾਂ।
- *Hear: don't get up yet* Say ਅਜੇ ਨਾ ਉੱਠੋ।
- *Write it:* copy ਅਜੇ once from the model

Before you move on

What does ਅਜੇ mean? ("Not yet; still".) Say it once more.

213.6 Please, and please don’t: a four-skill payoff

Say *please sit*, then *please don’t sit*.

Your turn: four skills

- *Hear: please sit here* Say ਇੱਥੇ ਬੈਠੋ।
- *Hear: don’t get up yet* Say ਅਜੇ ਨਾ ਉੱਠੋ।
- *Read it:* ਉੱਥੇ ਨਾ ਬੈਠੋ। Give its meaning: please don’t sit there.
- *Write it:* cover the line and write ਅਜੇ ਨਾ ਉੱਠੋ।
- Check which no you used: ਨਾ for a request, ਨਹੀਂ for a statement.

Before you move on

A guest stands up to leave too early. Ask them, politely, not to get up yet.

Chapter 214

Are You a Traveller?

Modes: 🚗 **voice** (2) 👁 **eyes** (3) 🚗 **Hands-free start:** the first of 5 lessons.

> ***By the end of this chapter:*** I can ask a yes-or-no question with ki at the front and answer it with han ji or nahin ji.
>
> *Ask a yes-or-no question with ki, tell it from ki 'what', and answer yes or no politely.*

214.1 Return to a familiar question

> *Hear: tuhāḍā nāṁ kī hai?* Say **ਤੁਹਾਡਾ ਨਾਂ ਕੀ ਹੈ?**, "what is your name?"

Grammar Lens

In that question **ਕੀ** means "what", and it sits where the answer will go. You also know **ਯਾਤਰੀ**, "a traveller", and **ਤੁਸੀਂ ... ਹੋ**, "you are".

Your turn

- *Hear: what is your name?* Say **ਤੁਹਾਡਾ ਨਾਂ ਕੀ ਹੈ?**
- *Hear: a traveller* Say **ਯਾਤਰੀ**.
- *Hear: how are you?* Say **ਤੁਸੀਂ ਕਿਵੇਂ ਹੋ?**

Before you move on

Say *what*, then *a traveller*.

214.2 ਕੀ ਤੁਸੀਂ ਯਾਤਰੀ ਹੋ? — are you a traveller?

Say *what is your name?* Then *you are a traveller*: ਤੁਸੀਂ ਯਾਤਰੀ ਹੋ.

Grammar Lens: ਕੀ at the front

Put ਕੀ in front of a statement and it becomes a yes-or-no question. The voice rises at the end:

ਤੁਸੀਂ ਯਾਤਰੀ ਹੋ। — *tusīṁ yātrī ho.* — You are a traveller.

ਕੀ ਤੁਸੀਂ ਯਾਤਰੀ ਹੋ? — *kī tusīṁ yātrī ho?* — Are you a traveller?

ਕੀ ਬਾਗ਼ ਖੁੱਲ੍ਹਾ ਹੈ? — *kī bāgh khullhā hai?* — Is the garden open?

Same word, two jobs. In ਤੁਹਾਡਾ ਨਾਂ ਕੀ ਹੈ? it stands where the answer goes, and means "what". At the very front it asks only yes or no.

Your turn

- *Hear: is he a traveller?* Say ਕੀ ਉਹ ਯਾਤਰੀ ਹੈ?
- *Hear: is the garden closed?* Say ਕੀ ਬਾਗ਼ ਬੰਦ ਹੈ?
- *Read it:* ਕੀ ਤੁਸੀਂ ਯਾਤਰੀ ਹੋ? Point to ਯ in ਯਾਤਰੀ and say *ya*.
- *Write it:* copy ਕੀ ਤੁਸੀਂ ਯਾਤਰੀ ਹੋ? once

Before you move on

ਕੀ at the front: what does it ask? (Yes or no.) In the middle? (What.)

214.3 Ask yes or no again

Hear: are you a traveller? Say ਕੀ ਤੁਸੀਂ ਯਾਤਰੀ ਹੋ?

Your turn

- *Hear: is she a traveller?* Say ਕੀ ਉਹ ਯਾਤਰੀ ਹੈ?
- *Hear: is the garden open?* Say ਕੀ ਬਾਗ਼ ਖੁੱਲ੍ਹਾ ਹੈ?
- *Read it:* ਯਾਤਰੀ Point to ਯ, say *ya*, then say the whole word.
- *Write it:* cover the model and write ਕੀ ਉਹ ਯਾਤਰੀ ਹੈ? once

Before you move on

Ask someone whether they are a traveller.

214.4 ਹਾਂ ਜੀ, ਨਹੀਂ ਜੀ — yes, no

Say *are you a traveller?* Then *yes*, *no*, and the polite ਜੀ.

Grammar Lens: answering

Answer with ਹਾਂ ਜੀ or ਨਹੀਂ ਜੀ, then say the whole sentence back. A no answer puts ਨਹੀਂ before the verb, as you already do:

> ਹਾਂ ਜੀ, ਮੈਂ ਯਾਤਰੀ ਹਾਂ। — *hāṁ jī, maiṁ yātrī hāṁ.* — Yes, I am a traveller.
>
> ਨਹੀਂ ਜੀ, ਮੈਂ ਯਾਤਰੀ ਨਹੀਂ ਹਾਂ। — *nahīṁ jī, maiṁ yātrī nahīṁ hāṁ.* — No, I am not a traveller.

Your turn

- *Hear: is the garden open? Yes.* Say ਹਾਂ ਜੀ, ਬਾਗ਼ ਖੁੱਲ੍ਹਾ ਹੈ।
- *Hear: is the garden closed? No.* Say ਨਹੀਂ ਜੀ, ਬਾਗ਼ ਬੰਦ ਨਹੀਂ ਹੈ।
- *Read it:* ਨਹੀਂ ਜੀ, ਮੈਂ ਯਾਤਰੀ ਨਹੀਂ ਹਾਂ। Give its meaning.
- *Write it:* copy ਹਾਂ ਜੀ once

Before you move on

Are you a traveller? Answer it truthfully, in a whole sentence.

214.5 Yes or no: a four-skill payoff

Ask *are you a traveller?* Then answer it with ਹਾਂ ਜੀ.

Your turn: four skills

- *Hear: is he a traveller?* Say ਕੀ ਉਹ ਯਾਤਰੀ ਹੈ?
- *Hear: no, he is not a traveller* Say ਨਹੀਂ ਜੀ, ਉਹ ਯਾਤਰੀ ਨਹੀਂ ਹੈ।
- *Read it:* ਕੀ ਬਾਗ਼ ਖੁੱਲ੍ਹਾ ਹੈ? Give its meaning, then point to ਯ in ਯਾਤਰੀ once more.
- *Write it:* cover the line and write ਕੀ ਤੁਸੀਂ ਯਾਤਰੀ ਹੋ?

Before you move on

ਕੀ asks; ਹਾਂ ਜੀ or ਨਹੀਂ ਜੀ answers. Ask and answer once more.

Chapter 215

Do You Drink Tea?

Modes: 🚗 **voice** (5) 🚗 **Hands-free start:** all 5 lessons.

> ***By the end of this chapter:*** I can ask whether someone does something every day and answer yes or no in a short exchange.
>
> *Ask whether someone drinks, eats or goes somewhere, and answer with a whole yes or no sentence.*

215.1 Return to asking and saying no

> *Hear: are you a traveller?* Say ਕੀ ਤੁਸੀਂ ਯਾਤਰੀ ਹੋ? Then answer: ਹਾਂ ਜੀ, ਮੈਂ ਯਾਤਰੀ ਹਾਂ।

Grammar Lens

You can also say ਮੈਂ ਚਾਹ ਨਹੀਂ ਪੀਂਦਾ ਹਾਂ and ਤੁਸੀਂ ਚਾਹ ਪੀਂਦੇ ਹੋ. The next lesson puts ਕੀ in front of the second one.

Your turn

- *Hear: is the garden open?* Say ਕੀ ਬਾਗ਼ ਖੁੱਲ੍ਹਾ ਹੈ?
- *Hear: I don't drink tea* Say it with the ending that fits you.
- *Hear: you drink tea* Say ਤੁਸੀਂ ਚਾਹ ਪੀਂਦੇ ਹੋ।

Before you move on

Ask one yes-or-no question, then say one thing you don’t do.

215.2 ਕੀ ਤੁਸੀਂ ਚਾਹ ਪੀਂਦੇ ਹੋ? — do you drink tea?

Say *you drink tea.* Then *are you a traveller?*

Grammar Lens: ਕੀ and the every-day present

Nothing new to build: put ਕੀ in front of a present sentence, and let the voice rise.

> ਕੀ ਤੁਸੀਂ ਚਾਹ ਪੀਂਦੇ ਹੋ? — *kī tusīṁ chāh pīnde ho?* — Do you drink tea?
>
> ਕੀ ਉਹ ਰੋਜ਼ ਸਕੂਲ ਜਾਂਦੀ ਹੈ? — *kī uh roz sakūl jāndī hai?* — Does she go to school every day?
>
> ਕੀ ਤੁਸੀਂ ਰੋਜ਼ ਕੰਮ ਕਰਦੇ ਹੋ? — *kī tusīṁ roz kamm karde ho?* — Do you work every day?

Your turn

- *Hear: do you eat roti?* Say ਕੀ ਤੁਸੀਂ ਰੋਟੀ ਖਾਂਦੇ ਹੋ?
- *Hear: does he drink milk?* Say ਕੀ ਉਹ ਦੁੱਧ ਪੀਂਦਾ ਹੈ?
- *Read it:* ਕੀ ਤੁਸੀਂ ਚਾਹ ਪੀਂਦੇ ਹੋ? Give its meaning.
- *Write it:* copy ਕੀ ਤੁਸੀਂ ਚਾਹ ਪੀਂਦੇ ਹੋ? once

Before you move on

Ask someone whether they drink tea, and whether they go to school every day.

215.3 Ask do-you questions again

Hear: do you drink tea? Say ਕੀ ਤੁਸੀਂ ਚਾਹ ਪੀਂਦੇ ਹੋ?

Your turn

- *Hear: does she go to school every day?* Say ਕੀ ਉਹ ਰੋਜ਼ ਸਕੂਲ ਜਾਂਦੀ ਹੈ?
- *Hear: yes, she goes to school every day* Say ਹਾਂ ਜੀ, ਉਹ ਰੋਜ਼ ਸਕੂਲ ਜਾਂਦੀ ਹੈ।
- *Read it:* ਕੀ ਤੁਸੀਂ ਰੋਟੀ ਖਾਂਦੇ ਹੋ? Give its meaning.
- *Write it:* cover the model and write ਕੀ ਉਹ ਦੁੱਧ ਪੀਂਦਾ ਹੈ? once

Before you move on

Ask one do-you question and answer it yourself.

215.4 A short exchange: tea or milk?

Ask *do you drink tea?* Answer it *no*, in a whole sentence.

Grammar Lens: four lines

A host and a guest. Hear the turns; each answer repeats the verb.

ਕੀ ਤੁਸੀਂ ਚਾਹ ਪੀਂਦੇ ਹੋ? — *kī tusīṁ chāh pīnde ho?* — Do you drink tea?

ਨਹੀਂ ਜੀ, ਮੈਂ ਚਾਹ ਨਹੀਂ ਪੀਂਦੀ ਹਾਂ। — *nahīṁ jī, maiṁ chāh nahīṁ pīndī hāṁ.* — No, I don't drink tea.

ਕੀ ਤੁਸੀਂ ਦੁੱਧ ਪੀਂਦੇ ਹੋ? — *kī tusīṁ duddh pīnde ho?* — Do you drink milk?

ਹਾਂ ਜੀ, ਮੈਂ ਦੁੱਧ ਪੀਂਦੀ ਹਾਂ। — *hāṁ jī, maiṁ duddh pīndī hāṁ.* — Yes, I drink milk.

Your turn

- *Hear: do you drink tea?* Answer *no* as yourself.
- *Hear: do you drink milk?* Answer *yes* as yourself.
- *Read it:* the four lines Say both parts aloud.
- *Write it:* copy the second line once

Before you move on

Play the host: ask both questions. Then play the guest.

215.5 Tea or milk: a four-skill payoff

Ask *do you drink tea?* and answer it.

Your turn: four skills

- *Hear: do you go home every day?* Say ਕੀ ਤੁਸੀਂ ਰੋਜ਼ ਘਰ ਜਾਂਦੇ ਹੋ?
- *Hear: no, I don't go home every day* Answer as yourself.
- *Read it:* ਕੀ ਉਹ ਰੋਟੀ ਖਾਂਦੀ ਹੈ? Give its meaning: does she eat roti?
- *Write it:* cover the line and write ਕੀ ਤੁਸੀਂ ਦੁੱਧ ਪੀਂਦੇ ਹੋ?

Before you move on

Hold the whole four-line exchange once more, both parts, without the model.

Chapter 216

Where Did They Go?

Modes: 🚗 **voice** (3) 👁 **eyes** (3) 🚗 **Hands-free start:** the first 2 of 6 lessons.

> ***By the end of this chapter:*** I can say where someone went, yesterday or earlier, with gia, gai or gae agreeing with them.
>
> *Say who went where, with gia for a man, gai for a woman and gae for a group, and use kall for yesterday.*

216.1 Return to a familiar went

Hear: oh gae Say ਉਹ ਗਏ, “they went”. Then *to go*: ਜਾਣਾ.

Grammar Lens

ਗਏ is the went form for a group, or for one person you respect. Today it gets two partners: one for a man, one for a woman. Hold ਉਹ ਰੋਜ਼ ਸਕੂਲ ਜਾਂਦਾ ਹੈ beside it: every day, and once, in the past.

Your turn

- *Hear: they went* Say ਉਹ ਗਏ.
- *Hear: he goes to school every day* Say ਉਹ ਰੋਜ਼ ਸਕੂਲ ਜਾਂਦਾ ਹੈ.

Before you move on

Say *they went* once more. No new form is needed yet.

216.2 ਗਿਆ, ਗਈ — went

Say *they went*. Then *home* and *school*.

Grammar Lens: one went for each

The went form agrees with whoever went: ਗਿਆ for a man or a boy, ਗਈ for a woman or a girl, and the ਗਏ you know for a group.

ਅਮਨ ਘਰ ਗਿਆ। — *Aman ghar giā.* — Aman went home.

ਕੁੜੀ ਸਕੂਲ ਗਈ। — *kuṛī sakūl gaī.* — The girl went to school.

ਉਹ ਕਿੱਥੇ ਗਏ? — *uh kitthe gae?* — Where did they go?

There is no helper at the end. CDIAL lists Punjabi *geā*, "gone", under Sanskrit *gata*, "gone" (CDIAL 4008).

Your turn

- *Hear: the boy went to school* Say ਮੁੰਡਾ ਸਕੂਲ ਗਿਆ।
- *Hear: she went home* Say ਉਹ ਘਰ ਗਈ।
- *Read it:* ਅਮਨ ਘਰ ਗਿਆ। Give its meaning.
- *Write it:* copy ਗਿਆ and ਗਈ once

Before you move on

Went, for a man? (ਗਿਆ.) For a woman? (ਗਈ.) For a group? (ਗਏ.)

216.3 Hear and say went again

Hear: giā; gaī; gae Say ਗਿਆ · ਗਈ · ਗਏ.

Your turn

- *Hear: the girl went home* Say ਕੁੜੀ ਘਰ ਗਈ।
- *Hear: Aman went to school* Say ਅਮਨ ਸਕੂਲ ਗਿਆ।

- *Read it:* ਗਏ Point to ਏ, say *e*, then say the whole form.
- *Write it:* cover the model and write ਗਈ once

Before you move on

Which went has ਏ at its end? (ਗਏ, for a group.)

216.4 ਕੱਲ੍ਹ (kall) — yesterday; tomorrow

> Before the new sense: say *Aman went home*, then the farewell ਕੱਲ੍ਹ ਮਿਲਾਂਗੇ, "we will meet tomorrow".

You'll want to know: ਕੱਲ੍ਹ

ਕੱਲ੍ਹ — *kall* — "yesterday; tomorrow". It names the day one step from today, either way; the verb tells you which.

> ਅਮਨ ਕੱਲ੍ਹ ਘਰ ਗਿਆ। — *Aman kallh ghar giā.* — Aman went home yesterday.

With a went form it is yesterday; in ਕੱਲ੍ਹ ਮਿਲਾਂਗੇ it is tomorrow.

The word, taken apart — its roots and family

ਕੱਲ੍ਹ (*kall*) is inherited from Sanskrit *kālya*, "at dawn; tomorrow": CDIAL lists Punjabi *kall*, "yesterday, tomorrow" (CDIAL 3104).

What you've built

One more word for talking about the past.

Your turn

- *Say it: kall*
- *Hear: the girl went to school yesterday* Say ਕੁੜੀ ਕੱਲ੍ਹ ਸਕੂਲ ਗਈ।
- *Recall:* say *we will meet tomorrow*, then *Aman went home yesterday*
- *Write it:* copy ਕੱਲ੍ਹ once from the model

Before you move on

What does ਕੱਲ੍ਹ mean? (“Yesterday; tomorrow”.) Which one, with ਗਿਆ? (Yesterday.)

216.5 ਉਹ ਕੱਲ੍ਹ ਕਿੱਥੇ ਗਏ? — where did they go yesterday?

Say *yesterday*, then *where?* Then *the girl went to school.*

Grammar Lens: asking where

ਕਿੱਥੇ goes right before the went form, where the place will go in the answer:

> ਉਹ ਕੱਲ੍ਹ ਕਿੱਥੇ ਗਏ? — *uh kallh kitthe gae?* — Where did they go yesterday?
>
> ਉਹ ਕੱਲ੍ਹ ਬਾਜ਼ਾਰ ਗਏ। — *uh kallh bāzār gae.* — They went to the market yesterday.
>
> ਅਮਨ ਕੱਲ੍ਹ ਕਿੱਥੇ ਗਿਆ? — *Aman kallh kitthe giā?* — Where did Aman go yesterday?

Your turn

- *Hear: where did the girl go yesterday?* Say ਕੁੜੀ ਕੱਲ੍ਹ ਕਿੱਥੇ ਗਈ?
- *Hear: she went home* Say ਉਹ ਘਰ ਗਈ।
- *Read it:* ਉਹ ਕੱਲ੍ਹ ਕਿੱਥੇ ਗਏ? Point to ਏ in ਗਏ.
- *Write it:* copy ਉਹ ਕੱਲ੍ਹ ਕਿੱਥੇ ਗਏ? once

Before you move on

Ask where Aman went yesterday, then answer it.

216.6 Where they went: a four-skill payoff

Say *went* for a man, a woman and a group. Then *yesterday.*

Your turn: four skills

- *Hear: Aman went to school yesterday* Say ਅਮਨ ਕੱਲ੍ਹ ਸਕੂਲ ਗਿਆ।
- *Hear: where did they go?* Say ਉਹ ਕਿੱਥੇ ਗਏ?
- *Read it:* ਕੁੜੀ ਕੱਲ੍ਹ ਘਰ ਗਈ। Give its meaning. Then point to ਏ in ਗਏ.
- *Write it:* cover the line and write ਅਮਨ ਕੱਲ੍ਹ ਘਰ ਗਿਆ।

Before you move on

Say where you went yesterday, with the went form that fits you.

Chapter 217

Who Came?

Modes: **voice** (4) **eyes** (2) **pen** (1) **Hands-free start:** the first 4 of 7 lessons.

> ***By the end of this chapter:*** I can say who came, a man, a woman or a group, and tell a man from a woman in the past.
>
> *Say who came with aia, ai or ae, use aurat 'a woman', and recognise the letter au.*

217.1 Return to come

Hear: āuṇā Say ਆਉਣਾ, "to come". Then ਮੈਨੂੰ ਸਮਝ ਨਹੀਂ ਆਈ.

Grammar Lens

Listen to the last word of ਮੈਨੂੰ ਸਮਝ ਨਹੀਂ ਆਈ: *āī*. It is a came form, and you have been saying it since the early lessons. Next to it, hold the went forms ਗਿਆ · ਗਈ.

Your turn

- *Hear: to come* Say ਆਉਣਾ.
- *Hear: Aman went home* Say ਅਮਨ ਘਰ ਗਿਆ.
- *Hear: I did not understand* Say ਮੈਨੂੰ ਸਮਝ ਨਹੀਂ ਆਈ.

Before you move on

Say *went*, for a man and a woman, once more.

217.2 ਆਇਆ, ਆਈ, ਆਏ — came

Say *to come*. Then *Aman went home yesterday.*

Grammar Lens: came, three ways

ਆਉਣਾ has three came forms, like the three went forms: ਆਇਆ for a man, ਆਈ for a woman, ਆਏ for a group or for respect.

> ਅਮਨ ਕੱਲ੍ਹ ਆਇਆ। — *Aman kallh āiā.* — Aman came yesterday.
>
> ਕੁੜੀ ਕੱਲ੍ਹ ਆਈ। — *kuṛī kallh āī.* — The girl came yesterday.
>
> ਉਹ ਕੱਲ੍ਹ ਆਏ। — *uh kallh āe.* — They came yesterday.

The ਆਈ in ਮੈਨੂੰ ਸਮਝ ਨਹੀਂ ਆਈ is the woman's form: ਸਮਝ, "understanding", is a feminine word, and it is the one that did not come. CDIAL lists Punjabi *āiā*, "he came" (CDIAL 1045).

Your turn

- *Hear: the boy came yesterday* Say ਮੁੰਡਾ ਕੱਲ੍ਹ ਆਇਆ।
- *Hear: they came home* Say ਉਹ ਘਰ ਆਏ।
- *Read it:* ਕੁੜੀ ਕੱਲ੍ਹ ਆਈ। Give its meaning.
- *Write it:* copy ਆਇਆ once

Before you move on

Came, for a man? (ਆਇਆ.) A woman? (ਆਈ.) A group? (ਆਏ.)

217.3 Hear and say came again

Hear: āiā; āī; āe Say ਆਇਆ · ਆਈ · ਆਏ.

Your turn

- *Hear: Aman came yesterday* Say ਅਮਨ ਕੱਲ੍ਹ ਆਇਆ।
- *Hear: the girl went home* Say ਕੁੜੀ ਘਰ ਗਈ।
- *Read it:* ਉਹ ਕੱਲ੍ਹ ਆਏ। Give its meaning.
- *Write it:* cover the model and write ਆਈ once

Before you move on

Say who came yesterday, and who went.

217.4 ਔਰਤ (aurat) — a woman

Before the new word: say *a man*, ਆਦਮੀ. Then *the girl came yesterday*.

You'll want to know: ਔਰਤ

ਔਰਤ — *aurat* — "a woman". A feminine noun, so the past that agrees with her ends like ਆਈ:

> ਔਰਤ ਕੱਲ੍ਹ ਆਈ। — *aurat kallh āī.* — The woman came yesterday.

The word, taken apart — its roots and family

ਔਰਤ (*aurat*) is a loan: it is usually traced to Persian *aurat*, "a woman", a word Persian itself took from Arabic. CDIAL gives no Punjabi form.

What you've built

One more word for talking about the past.

Your turn

- *Say it: aurat*
- *Hear: the woman came yesterday* Say ਔਰਤ ਕੱਲ੍ਹ ਆਈ।
- *Recall:* say *a man*, then *a woman*
- *Write it:* copy ਔਰਤ once from the model

Before you move on

What does ਔਰਤ mean? (“A woman”.) Say it once more.

217.5 ਔ — one vowel from the word for a woman

Say ਔਰਤ, “a woman”, the word from the previous lesson.

Script you’ll notice: ਔ

ਅ + ◌ੌ → ਔ

ਔ — *au* — an independent Gurmukhi vowel

You know ਅ and the sign ◌ੌ. Together they make the standing vowel ਔ, the first letter of ਔਰਤ.

No stroke order is taught here: the track does not yet have a verified source for one.

Writing: copy what you can see

Keep ਔ in front of you. Trace its printed shape once with a finger, then copy it once with a pencil while the model stays visible. Say *au* when you finish.

> This is observe-and-copy with the model visible, not writing from memory.

Your turn

- *Look:* at ਔ; YOU SAY: *au*
- *Read it:* ਔਰਤ, then point to ਔ
- *Write it:* copy ਔ once while the model remains visible

Before you move on

Point to ਔ, say *au*, then say the whole word ਔਰਤ.
Source: Unicode Gurmukhi chart.

217.6 ਕੌਣ ਆਇਆ? — who came?

Say *who?*, ਕੌਣ. Then *the woman came yesterday.*

Grammar Lens: the one who came decides

Asking, you do not know who came, so you use the plain ਆਇਆ. The answer fits the person:

ਕੌਣ ਆਇਆ? — *kauṇ āiā?* — Who came?

ਆਦਮੀ ਆਇਆ। — *ādmī āiā.* — A man came.

ਔਰਤ ਆਈ। — *aurat āī.* — A woman came.

The went forms work the same way: ਆਦਮੀ ਗਿਆ, ਔਰਤ ਗਈ.

Your turn

- *Hear: a woman went home* Say ਔਰਤ ਘਰ ਗਈ।
- *Hear: a man came yesterday* Say ਆਦਮੀ ਕੱਲ੍ਹ ਆਇਆ।
- *Read it:* ਔਰਤ ਆਈ। Point to ਔ, then give the meaning.
- *Write it:* copy ਔਰਤ ਆਈ। once

Before you move on

Ask *who came?* Then answer: a woman came.

217.7 Who came: a four-skill payoff

Say *came* three ways. Then *a woman.*

Your turn: four skills

- *Hear: who came yesterday?* Say ਕੱਲ੍ਹ ਕੌਣ ਆਇਆ?
- *Hear: a woman came* Say ਔਰਤ ਆਈ।
- *Read it:* ਆਦਮੀ ਘਰ ਗਿਆ। Give its meaning, then point to ਔ in ਔਰਤ.

- *Write it:* cover the line and write **ਔਰਤ ਕੱਲ੍ਹ ਆਈ।**

Before you move on

Tell who came to your home yesterday, a man, a woman or a group.

Chapter 218

I Got Up Early

Modes: **voice** (3) **eyes** (2) **Hands-free start:** the first of 5 lessons.

> ***By the end of this chapter:*** I can say that I got up or sat down, and that I did not go, with past forms that agree with me.
>
> *Say you got up and sat down with -ia or -i, and say what you did not do with nahin before a past form.*

218.1 Return to getting up and sitting

> *Hear: uṭṭhṇā; baiṭhṇā* Say ਉੱਠਣਾ · ਬੈਠਣਾ. Then *Aman came yesterday.*

Grammar Lens

You already say ਮੈਂ ਅਮਨ ਨੂੰ ਮਿਲਿਆ, “I met Aman”. Listen to its end: *-iā*, the same sound that ends ਆਇਆ. The next lesson gives that ending to getting up and sitting down.

Your turn

- *Hear: to get up* Say ਉੱਠਣਾ.
- *Hear: to sit* Say ਬੈਠਣਾ.
- *Hear: I met Aman* Say ਮੈਂ ਅਮਨ ਨੂੰ ਮਿਲਿਆ.

Before you move on

Say *please get up*, then *please sit*.

218.2 ਉੱਠਿਆ, ਬੈਠਿਆ — got up, sat down

Say *to get up*, *to sit*, then *I met Aman*.

Grammar Lens: stem + ਿਆ, stem + ੀ

Most stems make their past by adding ਿਆ for a man and ੀ for a woman:

ਉੱਠ + ਿਆ → ਉੱਠਿਆ · ਉੱਠ + ੀ → ਉੱਠੀ

ਮੈਂ ਸਵੇਰੇ ਜਲਦੀ ਉੱਠਿਆ। — *maiṁ savere jaldī uṭṭhiā.* — I got up early in the morning (a man speaking).

ਮੈਂ ਸਵੇਰੇ ਜਲਦੀ ਉੱਠੀ। — *maiṁ savere jaldī uṭṭhī.* — I got up early in the morning (a woman speaking).

ਉਹ ਇੱਥੇ ਬੈਠਿਆ। — *uh itthe baiṭhiā.* — He sat here.

Getting up and sitting are done by you, not to anything, so the ending agrees with you.

Your turn

- *Hear: she sat here* Say ਉਹ ਇੱਥੇ ਬੈਠੀ।
- *Hear: Aman got up early* Say ਅਮਨ ਜਲਦੀ ਉੱਠਿਆ।
- *Read it:* ਉੱਠਿਆ Point to ਿਆ after the stem.
- *Write it:* copy ਉੱਠਿਆ and ਉੱਠੀ once

Before you move on

Got up, for a man? (ਉੱਠਿਆ.) For a woman? (ਉੱਠੀ.)

218.3 Hear and say got up again

Hear: uṭṭhiā; uṭṭhī; baiṭhiā; baiṭhī Say all four.

Your turn

- *Hear: I got up early in the morning* Say it with the ending that fits you.
- *Hear: the woman came and sat here* Say ਔਰਤ ਆਈ ਅਤੇ ਇੱਥੇ ਬੈਠੀ।
- *Read it:* ਉਹ ਇੱਥੇ ਬੈਠਿਆ। Give its meaning.
- *Write it:* cover the model and write ਬੈਠੀ once

Before you move on

Say when you got up this morning: early, or not.

218.4 ਮੈਂ ਨਹੀਂ ਗਿਆ — I didn't go

Say *I don't drink tea.* Then *Aman went to school.*

Grammar Lens: ਨਹੀਂ before the past

ਨਹੀਂ goes before the past form, as before any verb. A past like this has no helper to keep:

> ਮੈਂ ਕੱਲ੍ਹ ਸਕੂਲ ਨਹੀਂ ਗਿਆ। — *maiṁ kallh sakūl nahīṁ giā.* — I didn't go to school yesterday (a man speaking).
>
> ਮੈਂ ਕੱਲ੍ਹ ਸਕੂਲ ਨਹੀਂ ਗਈ। — *maiṁ kallh sakūl nahīṁ gaī.* — I didn't go to school yesterday (a woman speaking).
>
> ਉਹ ਜਲਦੀ ਨਹੀਂ ਉੱਠਿਆ। — *uh jaldī nahīṁ uṭṭhiā.* — He didn't get up early.

Your turn

- *Hear: Aman didn't come yesterday* Say ਅਮਨ ਕੱਲ੍ਹ ਨਹੀਂ ਆਇਆ।
- *Hear: she didn't sit* Say ਉਹ ਨਹੀਂ ਬੈਠੀ।

- *Read it:* ਮੈਂ ਕੱਲ੍ਹ ਸਕੂਲ ਨਹੀਂ ਗਿਆ। Point to ਨਹੀਂ, then to the past form.
- *Write it:* copy ਨਹੀਂ ਗਿਆ once

Before you move on

Say one place you went yesterday, and one place you didn't.

218.5 This morning: a four-skill payoff

Say *I got up early*, then *I didn't go to school.*

Your turn: four skills

- *Hear: I got up early in the morning* Say it with the ending that fits you.
- *Hear: Aman didn't come yesterday* Say ਅਮਨ ਕੱਲ੍ਹ ਨਹੀਂ ਆਇਆ।
- *Read it:* ਉਹ ਜਲਦੀ ਨਹੀਂ ਉੱਠੀ। Give its meaning: she didn't get up early.
- *Write it:* cover the line and write ਮੈਂ ਇੱਥੇ ਬੈਠਿਆ। or its woman's form

Before you move on

Tell your morning in two lines: when you got up, and where you didn't go.

Chapter 219

I Drank the Tea

Modes: 🚗 **voice** (4) 👁 **eyes** (3) ✎ **pen** (1) 🚗 **Hands-free start:** the first of 8 lessons.

> ***By the end of this chapter:*** I can say what I drank, ate and took out, with a past form that agrees with the thing.
>
> *Say what you drank and ate with pita / piti and khadha / khadhi, use kaddhna 'to take out', and recognise ddha.*

219.1 Return to a familiar did

Hear: maiṁ kamm kītā Say ਮੈਂ ਕੰਮ ਕੀਤਾ, "I did the work".

Grammar Lens

In ਮੈਂ ਕੰਮ ਕੀਤਾ, ਕੀਤਾ agrees with the work, ਕੰਮ, not with the speaker: a woman says it the same way. Hold that next to two verbs that are also done to something: ਪੀਣਾ, ਖਾਣਾ.

Your turn

- *Hear: I did the work* Say ਮੈਂ ਕੰਮ ਕੀਤਾ.
- *Hear: to drink* Say ਪੀਣਾ.
- *Hear: to eat* Say ਖਾਣਾ.

Before you move on

Who decides the ending of ਕੀਤਾ? (The work, ਕੰਮ.)

219.2 ਪੀਤਾ, ਪੀਤੀ — drank

Say *I did the work.* Then *tea* and *milk.*

Grammar Lens: the thing decides

ਪੀਣਾ works like ਕੀਤਾ: after ਮੈਂ, ਅਸੀਂ or ਤੁਸੀਂ, its past agrees with what was drunk. ਚਾਹ is a feminine word, ਦੁੱਧ a masculine one:

ਮੈਂ ਚਾਹ ਪੀਤੀ। — *maiṁ chāh pītī.* — I drank tea.

ਮੈਂ ਦੁੱਧ ਪੀਤਾ। — *maiṁ duddh pītā.* — I drank milk.

A man and a woman say both lines the same way.

Your turn

- *Hear: we drank water* Say ਅਸੀਂ ਪਾਣੀ ਪੀਤਾ।
- *Hear: you drank tea* Say ਤੁਸੀਂ ਚਾਹ ਪੀਤੀ।
- *Read it:* ਮੈਂ ਚਾਹ ਪੀਤੀ। Point to ਚਾਹ, then to the ending that follows it.
- *Write it:* copy ਪੀਤਾ and ਪੀਤੀ once

Before you move on

I drank tea? (ਮੈਂ ਚਾਹ ਪੀਤੀ.) *I drank milk?* (ਮੈਂ ਦੁੱਧ ਪੀਤਾ.)

219.3 Hear and say drank again

Hear: pītā; pītī Say ਪੀਤਾ · ਪੀਤੀ.

Your turn

- *Hear: I drank milk* Say ਮੈਂ ਦੁੱਧ ਪੀਤਾ।
- *Hear: we drank tea* Say ਅਸੀਂ ਚਾਹ ਪੀਤੀ।
- *Read it:* ਤੁਸੀਂ ਪਾਣੀ ਪੀਤਾ। Give its meaning.
- *Write it:* cover the model and write ਮੈਂ ਚਾਹ ਪੀਤੀ। once

Before you move on

Say what you drank this morning.

219.4 ਖਾਧਾ, ਖਾਧੀ — ate

Say *I drank tea.* Then *to eat* and *roti.*

Grammar Lens: a past of its own

ਖਾਣਾ has a past of its own, ਖਾਧਾ, and it agrees with the food in the same way:

ਮੈਂ ਰੋਟੀ ਖਾਧੀ। — *maiṁ roṭī khādhī.* — I ate a roti.

ਅਸੀਂ ਸੇਬ ਖਾਧਾ। — *asīṁ seb khādhā.* — We ate an apple.

CDIAL lists Punjabi *khādhā*, “eaten” (CDIAL 3865).

Your turn

- *Hear: you ate a roti* Say ਤੁਸੀਂ ਰੋਟੀ ਖਾਧੀ।
- *Hear: I ate an apple and drank milk* Say ਮੈਂ ਸੇਬ ਖਾਧਾ ਅਤੇ ਦੁੱਧ ਪੀਤਾ।
- *Read it:* ਮੈਂ ਰੋਟੀ ਖਾਧੀ। Give its meaning.
- *Write it:* copy ਖਾਧਾ and ਖਾਧੀ once

Before you move on

I ate a roti? (ਮੈਂ ਰੋਟੀ ਖਾਧੀ.) *I ate an apple?* (ਮੈਂ ਸੇਬ ਖਾਧਾ.)

219.5 ਕੱਢਣਾ (kaḍḍhṇā) — to take out

Before the new one: say *I ate a roti*, then *a book*.

You’ll want to know: ਕੱਢਣਾ

ਕੱਢਣਾ — *kaḍḍhṇā* — “to take out”. It is done to something, so its past agrees with the thing:

ਮੈਂ ਕਿਤਾਬ ਕੱਢੀ। — *maiṁ kitāb kaḍḍhī.* — I took out the book.

The word, taken apart — its roots and family

ਕੱਢਣਾ (*kaḍḍhṇā*) is inherited: CDIAL lists Punjabi *kaḍḍhṇā*, “to pull out”, under a reconstructed **kaḍḍhati*, “pulls, draws” (CDIAL 2660).

What you’ve built

One more word for talking about the past.

Your turn

- *Say it: kaḍḍhṇā*
- *Hear: I took out the book* Say ਮੈਂ ਕਿਤਾਬ ਕੱਢੀ।
- *Recall:* say *to eat*, *to drink*, then *to take out*
- *Write it:* copy ਕੱਢਣਾ once from the model

Before you move on

What does ਕੱਢਣਾ mean? (“To take out”.) Say it once more.

219.6 ਢ — one letter from the verb to take out

Say ਕੱਢਣਾ, “to take out”, the verb from the previous lesson.

Script you’ll notice: ਢ

ਕ + ◌ੱ + ਢ + ਣ + ◌ਾ → ਕੱਢਣਾ

ਢ — *ḍha* — a Gurmukhi consonant

Keep ਢ in view. It is the third piece of ਕੱਢਣਾ, after the doubling sign ◌ੱ. It belongs to the same row as ਡ, which you know.

No stroke order is taught here: the track does not yet have a verified source for one.

Writing: copy what you can see

Keep ਢ in front of you. Trace its printed shape once with a finger, then copy it once with a pencil while the model stays visible. Say *ḍha* when you finish.

> This is observe-and-copy with the model visible, not writing from memory.

Your turn

- *Look:* at ਢ; YOU SAY: *ḍha*
- *Read it:* ਕੱਢਣਾ, then point to ਢ
- *Write it:* copy ਢ once while the model remains visible

Before you move on

Point to ਢ, say *ḍha*, then say the whole word ਕੱਢਣਾ.
Source: Unicode Gurmukhi chart.

219.7 ਮੈਂ ਰੋਟੀ ਖਾਧੀ ਅਤੇ ਚਾਹ ਪੀਤੀ — I ate a roti and drank tea

Say *I drank tea*, *I ate a roti*, then *I took out the book.*

Grammar Lens: two things, two endings

Join two pasts with ਅਤੇ. Each one agrees with its own thing:

> ਮੈਂ ਰੋਟੀ ਖਾਧੀ ਅਤੇ ਚਾਹ ਪੀਤੀ। — *maiṁ roṭī khādhī ate chāh pītī.* — I ate a roti and drank tea.
>
> ਅਸੀਂ ਸੇਬ ਖਾਧਾ ਅਤੇ ਦੁੱਧ ਪੀਤਾ। — *asīṁ seb khādhā ate duddh pītā.* — We ate an apple and drank milk.

Your turn

- *Hear: I ate an apple and drank tea* Say ਮੈਂ ਸੇਬ ਖਾਧਾ ਅਤੇ ਚਾਹ ਪੀਤੀ।
- *Hear: I didn't drink milk* Say ਮੈਂ ਦੁੱਧ ਨਹੀਂ ਪੀਤਾ।
- *Read it:* ਕੱਢਣਾ Point to ਢ and say *ḍha*.
- *Write it:* copy ਮੈਂ ਰੋਟੀ ਖਾਧੀ ਅਤੇ ਚਾਹ ਪੀਤੀ। once

Before you move on

Tell your breakfast: what you ate, and what you drank.

219.8 Breakfast: a four-skill payoff

Say *I drank tea*, then *I ate a roti.*

Your turn: four skills

- *Hear: we drank milk* Say ਅਸੀਂ ਦੁੱਧ ਪੀਤਾ।
- *Hear: I took out the book* Say ਮੈਂ ਕਿਤਾਬ ਕੱਢੀ।
- *Read it:* ਤੁਸੀਂ ਰੋਟੀ ਨਹੀਂ ਖਾਧੀ। Give its meaning, then point to ਢ in ਕੱਢਣਾ.
- *Write it:* cover the line and write ਮੈਂ ਚਾਹ ਪੀਤੀ।

Before you move on

Who decides ਪੀਤਾ or ਪੀਤੀ after ਮੈਂ? (The thing drunk.)

Chapter 220

Aman Bought a Book

Modes: **voice** (6) **eyes** (1) **Hands-free start:** the first of 7 lessons.

> ***By the end of this chapter:*** I can say what Aman, or he or she, bought, gave or took, with ne after the doer.
>
> *Say what a named person or us did to something with ne, use lia and ditta, and ask a ki question in the past.*

220.1 Return to the small marker

> *Hear: Aman ne kamm kītā* Say ਅਮਨ ਨੇ ਕੰਮ ਕੀਤਾ, “Aman did the work”.

Grammar Lens

After a name, the doer of a past like ਕੀਤਾ takes the small marker ਨੇ. After ਮੈਂ it takes nothing: ਮੈਂ ਚਾਹ ਪੀਤੀ. Hold one more verb ready: ਖ਼ਰੀਦਣਾ, “to buy”.

Your turn

- *Hear: Aman did the work* Say ਅਮਨ ਨੇ ਕੰਮ ਕੀਤਾ.
- *Hear: I drank tea* Say ਮੈਂ ਚਾਹ ਪੀਤੀ.
- *Hear: to buy* Say ਖ਼ਰੀਦਣਾ.

Before you move on

Where does ਨੇ go? (Right after the named doer.)

220.2 ਅਮਨ ਨੇ ਕਿਤਾਬ ਖ਼ਰੀਦੀ — Aman bought a book

Say *Aman did the work.* Then *to buy* and *a book.*

Grammar Lens: ਨੇ beyond the work

The marker works with any verb that is done to something. The past still agrees with the thing: ਕਿਤਾਬ is feminine, so ਖ਼ਰੀਦੀ.

> ਅਮਨ ਨੇ ਕਿਤਾਬ ਖ਼ਰੀਦੀ। — *Aman ne kitāb kharīdī.* — Aman bought a book.
>
> ਅਮਨ ਨੇ ਚਾਹ ਪੀਤੀ। — *Aman ne chāh pītī.* — Aman drank tea.
>
> ਅਮਨ ਨੇ ਸੇਬ ਖਾਧਾ। — *Aman ne seb khādhā.* — Aman ate an apple.

Going and coming are not done to anything, so they take no ਨੇ: ਅਮਨ ਘਰ ਗਿਆ.

Your turn

- *Hear: Aman ate a roti* Say ਅਮਨ ਨੇ ਰੋਟੀ ਖਾਧੀ।
- *Hear: Aman went to school* Say ਅਮਨ ਸਕੂਲ ਗਿਆ।
- *Read it:* ਅਮਨ ਨੇ ਕਿਤਾਬ ਖ਼ਰੀਦੀ। Point to ਨੇ, then to the thing the ending agrees with.
- *Write it:* copy ਅਮਨ ਨੇ ਕਿਤਾਬ ਖ਼ਰੀਦੀ। once

Before you move on

Does ਅਮਨ ਘਰ ਗਿਆ take ਨੇ? (No: going is not done to anything.)

220.3 ਉਸ ਨੇ — he or she, before the marker

Say *Aman bought a book.* Then *he*, *she*, ਉਹ, and the familiar ਉਸ.

Grammar Lens: ਉਹ turns into ਉਸ

Before ਨੇ, ਉਹ turns into ਉਸ. The verb still agrees with the thing:

> ਉਸ ਨੇ ਦੁੱਧ ਪੀਤਾ। — *us ne duddh pītā.* — He drank milk; she drank milk.
>
> ਉਸ ਨੇ ਕਿਤਾਬ ਖ਼ਰੀਦੀ। — *us ne kitāb kharīdī.* — He bought a book; she bought a book.

So ਉਸ ਨੇ can mean he or she: the sentence does not say which.

Your turn

- *Hear: she ate a roti* Say ਉਸ ਨੇ ਰੋਟੀ ਖਾਧੀ।
- *Hear: he drank tea* Say ਉਸ ਨੇ ਚਾਹ ਪੀਤੀ।
- *Read it:* ਉਸ ਨੇ ਦੁੱਧ ਪੀਤਾ। Give its meaning.
- *Write it:* copy ਉਸ ਨੇ once

Before you move on

He before ਨੇ? (ਉਸ.) *He went?* (ਉਹ ਗਿਆ, with no ਨੇ.)

220.4 Hear and say the doer again

Hear: Aman ne kitāb kharīdī Say ਅਮਨ ਨੇ ਕਿਤਾਬ ਖ਼ਰੀਦੀ।

Your turn

- *Hear: she bought a book* Say ਉਸ ਨੇ ਕਿਤਾਬ ਖ਼ਰੀਦੀ।
- *Hear: Aman ate an apple* Say ਅਮਨ ਨੇ ਸੇਬ ਖਾਧਾ।
- *Hear: he went home* Say ਉਹ ਘਰ ਗਿਆ।

- *Read it:* ਉਸ ਨੇ ਚਾਹ ਪੀਤੀ। Give its meaning.
- *Write it:* cover the model and write ਉਸ ਨੇ ਦੁੱਧ ਪੀਤਾ। once

Before you move on

Which of the three takes no ਨੇ? (Going home.)

220.5 ਲਿਆ, ਦਿੱਤਾ — took, gave

Say *to take* and *to give*: ਲੈਣਾ, ਦੇਣਾ. Then *Aman bought a book.*

Grammar Lens: two short pasts

ਲੈਣਾ and ਦੇਣਾ have short pasts of their own: ਲਿਆ, ਦਿੱਤਾ. They agree with the thing, like every past you have met:

> ਮੈਂ ਪਾਣੀ ਲਿਆ। — *maiṁ pāṇī liā.* — I took water.
>
> ਅਮਨ ਨੇ ਪੈਸਾ ਦਿੱਤਾ। — *Aman ne paisā dittā.* — Aman gave money.
>
> ਮੈਂ ਅਮਨ ਨੂੰ ਕਿਤਾਬ ਦਿੱਤੀ। — *maiṁ Aman nūṁ kitāb dittī.* — I gave Aman a book.

The one who receives takes ਨੂੰ. CDIAL lists Punjabi *dittā*, "given" (CDIAL 6140).

Your turn

- *Hear: she gave the book* Say ਉਸ ਨੇ ਕਿਤਾਬ ਦਿੱਤੀ।
- *Hear: I took milk* Say ਮੈਂ ਦੁੱਧ ਲਿਆ।
- *Read it:* ਮੈਂ ਅਮਨ ਨੂੰ ਕਿਤਾਬ ਦਿੱਤੀ। Give its meaning.
- *Write it:* copy ਲਿਆ and ਦਿੱਤਾ once

Before you move on

Took? (ਲਿਆ.) *Gave*, a book? (ਦਿੱਤੀ.)

220.6 ਕੀ ਤੁਸੀਂ ਰੋਟੀ ਖਾਧੀ? — did you eat the roti?

Ask *do you drink tea?* Then say *you ate a roti.*

Grammar Lens: ਕੀ in the past

ਕੀ turns a past sentence into a question the same way it turns a present one:

> ਕੀ ਤੁਸੀਂ ਰੋਟੀ ਖਾਧੀ? — *kī tusīṁ roṭī khādhī?* — Did you eat the roti?
>
> ਹਾਂ ਜੀ, ਮੈਂ ਰੋਟੀ ਖਾਧੀ। — *hāṁ jī, maiṁ roṭī khādhī.* — Yes, I ate the roti.
>
> ਨਹੀਂ ਜੀ, ਮੈਂ ਅਜੇ ਰੋਟੀ ਨਹੀਂ ਖਾਧੀ। — *nahīṁ jī, maiṁ aje roṭī nahīṁ khādhī.* — No, I haven't eaten the roti yet.

Your turn

- *Hear: did you drink tea?* Say ਕੀ ਤੁਸੀਂ ਚਾਹ ਪੀਤੀ?
- *Hear: did Aman buy the book?* Say ਕੀ ਅਮਨ ਨੇ ਕਿਤਾਬ ਖ਼ਰੀਦੀ?
- *Read it:* ਨਹੀਂ ਜੀ, ਮੈਂ ਅਜੇ ਰੋਟੀ ਨਹੀਂ ਖਾਧੀ। Give its meaning.
- *Write it:* copy ਕੀ ਤੁਸੀਂ ਰੋਟੀ ਖਾਧੀ? once

Before you move on

Ask a guest whether they ate the roti. Then answer as the guest.

220.7 Who did what: a four-skill payoff

Say *Aman bought a book*, then *she drank tea.*

Your turn: four skills

- *Hear: Aman gave money* Say ਅਮਨ ਨੇ ਪੈਸਾ ਦਿੱਤਾ।
- *Hear: did he drink milk?* Say ਕੀ ਉਸ ਨੇ ਦੁੱਧ ਪੀਤਾ?

- *Read it:* ਉਸ ਨੇ ਕਿਤਾਬ ਲਈ ਪੈਸਾ ਦਿੱਤਾ। Give its meaning: he paid money for the book.
- *Write it:* cover the line and write ਅਮਨ ਨੇ ਕਿਤਾਬ ਖ਼ਰੀਦੀ।
- Check: ਨੇ after the named doer, and the ending after the thing.

Before you move on

Tell what Aman did yesterday: he went to the market, bought a book, and drank tea.

Chapter 221

I Will Go

Modes: 🚗 **voice** (5) 👁 **eyes** (1) 🚗 **Hands-free start:** the first of 6 lessons.

> ***By the end of this chapter:*** I can say that I, someone else or we will go somewhere tomorrow, with the -ga future.
>
> *Say who will go where tomorrow with javanga / javangi, javega / javegi and javange.*

221.1 Return to three familiar futures

> *Hear: hovegā; āvegā* Say ਹੋਵੇਗਾ · ਆਵੇਗਾ, “will be; will come”. Then the farewell ਫਿਰ ਮਿਲਾਂਗੇ, “we will meet again”.

Grammar Lens

All three end in **-ਗਾ** or **-ਗੇ**, the future. ਹੋਵੇਗੀ and ਆਵੇਗੀ have **-ਗੀ** for a feminine subject. ਮਿਲਾਂਗੇ is “we will meet”. The next lesson gives you *I will go.*

Your turn

- *Hear: Aman will come* Say ਅਮਨ ਆਵੇਗਾ.
- *Hear: the train will come* Say ਰੇਲ ਆਵੇਗੀ.
- *Hear: we will meet tomorrow* Say ਕੱਲ੍ਹ ਮਿਲਾਂਗੇ.

Before you move on

Say *will come*, then *we will meet*.

221.2 ਜਾਵਾਂਗਾ, ਜਾਵਾਂਗੀ — I will go

Say *Aman will come*. Then *we will meet tomorrow*.

Grammar Lens: ਮੈਂ in the future

After ਜਾ comes ਵ, as in ਆਵੇਗਾ. With ਮੈਂ the ending is -◌ਾਂਗਾ for a man and -◌ਾਂਗੀ for a woman:

ਜਾ + ਵ + ◌ਾਂਗਾ → ਜਾਵਾਂਗਾ

ਮੈਂ ਕੱਲ੍ਹ ਸਕੂਲ ਜਾਵਾਂਗਾ। — *maiṁ kallh sakūl jāvāṅgā.* — I will go to school tomorrow (a man speaking).

ਮੈਂ ਕੱਲ੍ਹ ਸਕੂਲ ਜਾਵਾਂਗੀ। — *maiṁ kallh sakūl jāvāṅgī.* — I will go to school tomorrow (a woman speaking).

With a future form, ਕੱਲ੍ਹ means tomorrow.

Your turn

- *Hear: I will go home tomorrow* Say it with the ending that fits you.
- *Hear: I will go to the market* Say ਮੈਂ ਬਾਜ਼ਾਰ ਜਾਵਾਂਗਾ। or ਮੈਂ ਬਾਜ਼ਾਰ ਜਾਵਾਂਗੀ।
- *Read it:* ਜਾਵਾਂਗਾ Point to ਵ, then to ਗਾ.
- *Write it:* copy ਜਾਵਾਂਗਾ once

Before you move on

I will go, as a man? (ਜਾਵਾਂਗਾ.) As a woman? (ਜਾਵਾਂਗੀ.)

221.3 Hear and say I will go again

Hear: jāvāṅgā; jāvāṅgī Say ਜਾਵਾਂਗਾ · ਜਾਵਾਂਗੀ.

Your turn

- *Hear: I will go to school tomorrow* Say it with the ending that fits you.
- *Hear: I went to school yesterday* Say ਮੈਂ ਕੱਲ੍ਹ ਸਕੂਲ ਗਿਆ। or ਮੈਂ ਕੱਲ੍ਹ ਸਕੂਲ ਗਈ।
- *Read it:* ਮੈਂ ਕੱਲ੍ਹ ਘਰ ਜਾਵਾਂਗੀ। Give its meaning.
- *Write it:* cover the model and write ਜਾਵਾਂਗੀ once

Before you move on

Same ਕੱਲ੍ਹ, two days: which verb makes it tomorrow? (The future.)

221.4 ਜਾਵੇਗਾ, ਜਾਵੇਗੀ — will go

Say *I will go tomorrow.* Then *Aman will come* and *the train will come.*

Grammar Lens: like ਆਵੇਗਾ

For one other person the ending is the one ਆਵੇਗਾ has: -◌ੇਗਾ for a man, -◌ੇਗੀ for a woman.

> ਅਮਨ ਕੱਲ੍ਹ ਘਰ ਜਾਵੇਗਾ। — *Aman kallh ghar jāvegā.* — Aman will go home tomorrow.
>
> ਕੁੜੀ ਕੱਲ੍ਹ ਸਕੂਲ ਜਾਵੇਗੀ। — *kuṛī kallh sakūl jāvegī.* — The girl will go to school tomorrow.

Your turn

- *Hear: he will go to the market* Say ਉਹ ਬਾਜ਼ਾਰ ਜਾਵੇਗਾ।
- *Hear: the woman will go home tomorrow* Say ਔਰਤ ਕੱਲ੍ਹ ਘਰ ਜਾਵੇਗੀ।
- *Read it:* ਅਮਨ ਕੱਲ੍ਹ ਘਰ ਜਾਵੇਗਾ। Give its meaning.
- *Write it:* copy ਜਾਵੇਗਾ once

Before you move on

He will go? (ਜਾਵੇਗਾ.) *She will go?* (ਜਾਵੇਗੀ.)

221.5 ਅਸੀਂ ਜਾਵਾਂਗੇ — we will go

Say *Aman will go home tomorrow.* Then *we will meet again.*

Grammar Lens: the ending of ਮਿਲਾਂਗੇ

ਮਿਲਾਂਗੇ has been "we will meet" since the early lessons. Its ending, -◌ਂਗੇ, is the one for ਅਸੀਂ:

> ਅਸੀਂ ਕੱਲ੍ਹ ਬਾਜ਼ਾਰ ਜਾਵਾਂਗੇ। — *asīṁ kallh bāzār jāvāṅge.* — We will go to the market tomorrow.
>
> ਅਸੀਂ ਸਵੇਰੇ ਜਾਵਾਂਗੇ। — *asīṁ savere jāvāṅge.* — We will go in the morning.

Your turn

- *Hear: we will go home tomorrow* Say ਅਸੀਂ ਕੱਲ੍ਹ ਘਰ ਜਾਵਾਂਗੇ।
- *Hear: I will go, and Aman will go* Say ਮੈਂ ਜਾਵਾਂਗਾ ਅਤੇ ਅਮਨ ਜਾਵੇਗਾ।
- *Read it:* ਅਸੀਂ ਸਵੇਰੇ ਜਾਵਾਂਗੇ। Give its meaning.
- *Write it:* copy ਜਾਵਾਂਗੇ once

Before you move on

We will go? (ਅਸੀਂ ਜਾਵਾਂਗੇ.) *We will meet?* (ਅਸੀਂ ਮਿਲਾਂਗੇ.)

221.6 Tomorrow: a four-skill payoff

Say *I will go*, *she will go*, *we will go.*

Your turn: four skills

- *Hear: I will go to the market tomorrow* Say it with the ending that fits you.
- *Hear: she went yesterday; he will go tomorrow* Say ਉਹ ਕੱਲ੍ਹ ਗਈ। ਉਹ ਕੱਲ੍ਹ ਜਾਵੇਗਾ।
- *Read it:* ਅਸੀਂ ਕੱਲ੍ਹ ਸਕੂਲ ਜਾਵਾਂਗੇ। Give its meaning: we will go to school tomorrow.
- *Write it:* cover the line and write ਅਮਨ ਕੱਲ੍ਹ ਘਰ ਜਾਵੇਗਾ।

Before you move on

Say where you will go tomorrow, and who will go with you.

Chapter 222

What Will You Do Tomorrow?

Modes: 🚗 **voice** (5) 👁 **eyes** (1) 🚗 **Hands-free start:** the first of 6 lessons.

> ***By the end of this chapter:*** I can say and ask what people will do tomorrow, and say what I will not do.
>
> *Say what you, others and a group will do with karanga, karega, karoge and karange, and ask or deny it.*

222.1 Return to going tomorrow

Hear: jāvāṅgā; jāvegā; jāvāṅge Say ਜਾਵਾਂਗਾ · ਜਾਵੇਗਾ · ਜਾਵਾਂਗੇ.

Grammar Lens

Those three futures needed ਵ after the vowel of ਜਾ. The verb ਕਰਨਾ, "to do", has a stem that ends in a consonant, ਕਰ. Keep it ready.

Your turn

- *Hear: I will go tomorrow* Say it with the ending that fits you.
- *Hear: she will go tomorrow* Say ਉਹ ਕੱਲ੍ਹ ਜਾਵੇਗੀ.
- *Hear: to do* Say ਕਰਨਾ.

Before you move on

Say *we will go*, then *to do*.

222.2 ਕਰਾਂਗਾ, ਕਰੇਗਾ — will do

Say *I will go* and *he will go.* Then *to do.*

Grammar Lens: the ending straight on

A consonant stem takes the endings with no ਵ between:

ਕਰ + ◌ਾਂਗਾ → ਕਰਾਂਗਾ · ਕਰ + ◌ੇਗਾ → ਕਰੇਗਾ

ਮੈਂ ਕੱਲ੍ਹ ਕੰਮ ਕਰਾਂਗਾ। — *maiṁ kallh kamm karāṅgā.* — I will work tomorrow (a man speaking).

ਮੈਂ ਕੱਲ੍ਹ ਕੰਮ ਕਰਾਂਗੀ। — *maiṁ kallh kamm karāṅgī.* — I will work tomorrow (a woman speaking).

ਅਮਨ ਕੰਮ ਕਰੇਗਾ। — *Aman kamm taregā.* — Aman will work.

ਕਰੇਗੀ is for a woman, and ਕਰਾਂਗੇ for ਅਸੀਂ.

Your turn

- *Hear: she will work tomorrow* Say ਉਹ ਕੱਲ੍ਹ ਕੰਮ ਕਰੇਗੀ।
- *Hear: we will work* Say ਅਸੀਂ ਕੰਮ ਕਰਾਂਗੇ।
- *Read it:* ਕਰਾਂਗਾ Point to the stem ਕਰ, then the ending.
- *Write it:* copy ਕਰਾਂਗਾ and ਕਰੇਗਾ once

Before you move on

I will do? (ਕਰਾਂਗਾ or ਕਰਾਂਗੀ.) *He will do?* (ਕਰੇਗਾ.)

222.3 ਕਰੋਗੇ, ਕਰਨਗੇ — you will do, they will do

Say *I will work tomorrow* and *we will work.* Then ਤੁਸੀਂ.

Grammar Lens: two more cells

With ਤੁਸੀਂ the future of ਕਰਨਾ is ਕਰੋਗੇ; with ਉਹ, for a group, it is ਕਰਨਗੇ:

ਤੁਸੀਂ ਕੱਲ੍ਹ ਕੀ ਕਰੋਗੇ? — *tusīṁ kallh kī karoge?* — What will you do tomorrow?

ਉਹ ਕੱਲ੍ਹ ਕੰਮ ਕਰਨਗੇ। — *uh kallh kamm karange.* — They will work tomorrow.

Here ਕੀ is “what”: it stands where the answer goes.

Your turn

- *Hear: what will you do tomorrow?* Say ਤੁਸੀਂ ਕੱਲ੍ਹ ਕੀ ਕਰੋਗੇ?
- *Hear: I will go to the market* Answer it with the ending that fits you.
- *Read it:* ਉਹ ਕੱਲ੍ਹ ਕੰਮ ਕਰਨਗੇ। Give its meaning.
- *Write it:* copy ਕਰੋਗੇ once

Before you move on

You will do? (ਕਰੋਗੇ.) *They will do?* (ਕਰਨਗੇ.)

222.4 Hear and say will do again

Hear: karāṅgā; karegā; karoge; karange Say all four.

Your turn

- *Hear: Aman will work tomorrow* Say ਅਮਨ ਕੱਲ੍ਹ ਕੰਮ ਕਰੇਗਾ।
- *Hear: what will you do?* Say ਤੁਸੀਂ ਕੀ ਕਰੋਗੇ?
- *Hear: we will go home* Say ਅਸੀਂ ਘਰ ਜਾਵਾਂਗੇ।
- *Read it:* ਉਹ ਕੰਮ ਕਰਨਗੇ। Give its meaning.
- *Write it:* cover the model and write ਮੈਂ ਕੰਮ ਕਰਾਂਗਾ। or its woman’s form

Before you move on

Say what you will do tomorrow.

222.5 ਕੀ ਤੁਸੀਂ ਕੱਲ੍ਹ ਕੰਮ ਕਰੋਗੇ? — will you work tomorrow?

Say *what will you do tomorrow?* Then *are you a traveller?*

Grammar Lens: ਕੀ and ਨਹੀਂ with the future

Nothing moves. ਕੀ goes in front to ask yes or no; ਨਹੀਂ goes before the verb to say no:

> ਕੀ ਤੁਸੀਂ ਕੱਲ੍ਹ ਕੰਮ ਕਰੋਗੇ? — *kī tusīṁ kallh kamm karoge?* — Will you work tomorrow?
>
> ਨਹੀਂ ਜੀ, ਮੈਂ ਕੱਲ੍ਹ ਕੰਮ ਨਹੀਂ ਕਰਾਂਗੀ। — *nahīṁ jī, maiṁ kallh kamm nahīṁ karāṅgī.* — No, I won't work tomorrow.
>
> ਕੀ ਅਮਨ ਕੱਲ੍ਹ ਆਵੇਗਾ? — *kī Aman kallh āvegā?* — Will Aman come tomorrow?

Your turn

- *Hear: will she go to school tomorrow?* Say ਕੀ ਉਹ ਕੱਲ੍ਹ ਸਕੂਲ ਜਾਵੇਗੀ?
- *Hear: no, she won't go* Say ਨਹੀਂ ਜੀ, ਉਹ ਨਹੀਂ ਜਾਵੇਗੀ।
- *Read it:* ਕੀ ਅਮਨ ਕੱਲ੍ਹ ਆਵੇਗਾ? Give its meaning.
- *Write it:* copy ਨਹੀਂ ਕਰਾਂਗਾ once

Before you move on

Ask *will you work tomorrow?* and answer it truthfully.

222.6 Tomorrow's work: a four-skill payoff

Ask *what will you do tomorrow?*

Your turn: four skills

- *Hear: I will work tomorrow* Say it with the ending that fits you.
- *Hear: will they work tomorrow?* Say ਕੀ ਉਹ ਕੱਲ੍ਹ ਕੰਮ ਕਰਨਗੇ?

- *Read it:* **ਨਹੀਂ ਜੀ, ਅਮਨ ਕੱਲ੍ਹ ਨਹੀਂ ਆਵੇਗਾ।** Give its meaning: no, Aman won't come tomorrow.
- *Write it:* cover the line and write **ਤੁਸੀਂ ਕੱਲ੍ਹ ਕੀ ਕਰੋਗੇ?**

Before you move on

Say one thing you will do tomorrow and one thing you will not.

Chapter 223

Perhaps Next Week

Modes: 🚗 **voice** (5) 🚗 **Hands-free start:** all 5 lessons.

> ***By the end of this chapter:*** I can tell a short plan for tomorrow or next week, and say perhaps with shaid.
>
> *Tell a four-line plan with a time word first and the future last, hedged with shaid.*

223.1 Return to next week

> *Hear: agle hafte* Say ਅਗਲੇ ਹਫ਼ਤੇ, "next week". Then *the next journey*: ਅਗਲੀ ਯਾਤਰਾ.

Grammar Lens

You can now say *we will go* and *I will do.* A time word at the front tells when: ਕੱਲ੍ਹ, ਅਗਲੇ ਹਫ਼ਤੇ.

Your turn

- *Hear: next week* Say ਅਗਲੇ ਹਫ਼ਤੇ.
- *Hear: we will go tomorrow* Say ਅਸੀਂ ਕੱਲ੍ਹ ਜਾਵਾਂਗੇ.
- *Hear: the journey will be by train* Say ਯਾਤਰਾ ਰੇਲ ਨਾਲ ਹੋਵੇਗੀ.

Before you move on

Say *next week* and *tomorrow* once more.

223.2 ਅਗਲੇ ਹਫ਼ਤੇ ਅਸੀਂ ਬਾਜ਼ਾਰ ਜਾਵਾਂਗੇ — next week we will go to the market

Say *next week*, then *we will go to the market.*

Grammar Lens: when, then who, then the future

A plan opens with its time, then names who, and keeps the future verb last:

> ਅਗਲੇ ਹਫ਼ਤੇ ਅਸੀਂ ਬਾਜ਼ਾਰ ਜਾਵਾਂਗੇ। — *agle hafte asīṁ bāzār jāvāṅge.* — Next week we will go to the market.
>
> ਅਗਲੀ ਯਾਤਰਾ ਰੇਲ ਨਾਲ ਹੋਵੇਗੀ। — *aglī yātrā rel nāl hovegī.* — The next journey will be by train.
>
> ਕੱਲ੍ਹ ਸਵੇਰੇ ਮੈਂ ਕੰਮ ਕਰਾਂਗਾ। — *kallh savere maiṁ kamm karāṅgā.* — Tomorrow morning I will work.

Your turn

- *Hear: next week Aman will go home* Say ਅਗਲੇ ਹਫ਼ਤੇ ਅਮਨ ਘਰ ਜਾਵੇਗਾ।
- *Hear: tomorrow morning we will work* Say ਕੱਲ੍ਹ ਸਵੇਰੇ ਅਸੀਂ ਕੰਮ ਕਰਾਂਗੇ।
- *Read it:* ਅਗਲੀ ਯਾਤਰਾ ਰੇਲ ਨਾਲ ਹੋਵੇਗੀ। Give its meaning.
- *Write it:* copy ਅਗਲੇ ਹਫ਼ਤੇ ਅਸੀਂ ਬਾਜ਼ਾਰ ਜਾਵਾਂਗੇ। once

Before you move on

Say one plan for next week, time first.

223.3 ਸ਼ਾਇਦ (shāid) — perhaps

Before the new word: say *next week we will go to the market*, then *Aman will come.*

You’ll want to know: ਸ਼ਾਇਦ

ਸ਼ਾਇਦ — *shāid* — “perhaps”. It usually opens the sentence and softens a plan:

> ਸ਼ਾਇਦ ਅਮਨ ਕੱਲ੍ਹ ਆਵੇਗਾ। — *shāid Aman kallh āvegā.* — Perhaps Aman will come tomorrow.

The word, taken apart — its roots and family

ਸ਼ਾਇਦ (*shāid*) is a loan: it is usually traced to Persian *shāyad*, “it may be; perhaps”. CDIAL gives no Punjabi form.

What you’ve built

One more word for talking about plans.

Your turn

- *Say it: shāid*
- *Hear: perhaps Aman will come tomorrow* Say ਸ਼ਾਇਦ ਅਮਨ ਕੱਲ੍ਹ ਆਵੇਗਾ।
- *Recall:* say *next week*, then *perhaps*
- *Write it:* copy ਸ਼ਾਇਦ once from the model

Before you move on

What does ਸ਼ਾਇਦ mean? (“Perhaps”.) Say it once more.

223.4 A four-line plan

> Say *perhaps Aman will come tomorrow.* Then *next week we will go to the market.*

Grammar Lens: sure, and perhaps

Four lines, each with its time first. ਸ਼ਾਇਦ marks the one that is not sure:

> ਕੱਲ੍ਹ ਮੈਂ ਬਾਜ਼ਾਰ ਜਾਵਾਂਗੀ। — *kallh maiṁ bāzār jāvāṅgī.* — Tomorrow I will go to the market.

ਅਮਨ ਕੱਲ੍ਹ ਕੰਮ ਕਰੇਗਾ। — *Aman kallh kamm karegā.* — Aman will work tomorrow.

ਸ਼ਾਇਦ ਅਸੀਂ ਅਗਲੇ ਹਫ਼ਤੇ ਜਾਵਾਂਗੇ। — *shāid asīṁ agle hafte jāvāṅge.* — Perhaps we will go next week.

ਅਗਲੀ ਯਾਤਰਾ ਰੇਲ ਨਾਲ ਹੋਵੇਗੀ। — *aglī yātrā rel nāl hovegī.* — The next journey will be by train.

Your turn

- *Hear: tomorrow I will go to the market* Say it with the ending that fits you.
- *Hear: perhaps we will go next week* Say ਸ਼ਾਇਦ ਅਸੀਂ ਅਗਲੇ ਹਫ਼ਤੇ ਜਾਵਾਂਗੇ।
- *Read it:* the four lines Say them aloud, in order.
- *Write it:* copy the third line once

Before you move on

Say the four lines again without the model.

223.5 My plan: a four-skill payoff

Say *next week*, *tomorrow* and *perhaps*.

Your turn: four skills

- *Hear: next week we will go home* Say ਅਗਲੇ ਹਫ਼ਤੇ ਅਸੀਂ ਘਰ ਜਾਵਾਂਗੇ।
- *Hear: perhaps Aman won't come* Say ਸ਼ਾਇਦ ਅਮਨ ਨਹੀਂ ਆਵੇਗਾ।
- *Read it:* ਕੱਲ੍ਹ ਸਵੇਰੇ ਅਸੀਂ ਕੰਮ ਕਰਾਂਗੇ। Give its meaning: tomorrow morning we will work.
- *Write it:* cover the line and write ਸ਼ਾਇਦ ਅਸੀਂ ਅਗਲੇ ਹਫ਼ਤੇ ਜਾਵਾਂਗੇ।

Before you move on

Tell your own plan in four lines: tomorrow, then next week, with one **ਸ਼ਾਇਦ**.

Chapter 224

A Message About Tomorrow

Modes: 🚗 **voice** (4) 👁 **eyes** (1) 🚗 **Hands-free start:** the first of 5 lessons.

> ***By the end of this chapter:*** I can follow a short message that says what happened, what did not, and what will happen at what time.
>
> *Read a short message and answer by ear what happened, what did not, and when the train will come; then review the whole core.*

224.1 Return to a message and a time

Hear: sunehā Say ਸੁਨੇਹਾ, "a message". Then *at nine*: ਨੌਂ ਵਜੇ.

Grammar Lens

A message from a friend often says three things: what happened, what did not, and what will happen when. You can say all three now. Listen for ਕੱਲ੍ਹ: the verb tells you whether it is yesterday or tomorrow.

Your turn

- *Hear: a message* Say ਸੁਨੇਹਾ.
- *Hear: at eight* Say ਅੱਠ ਵਜੇ.
- *Hear: I went to the market yesterday* Say it with the ending that fits you.
- *Hear: we will go tomorrow* Say ਅਸੀਂ ਕੱਲ੍ਹ ਜਾਵਾਂਗੇ.

Before you move on

ਕੱਲ੍ਹ with ਗਿਆ? (Yesterday.) With ਜਾਵਾਂਗੇ? (Tomorrow.)

224.2 A message about tomorrow

Say *a message*. Then *Aman*.

Aman sends you a message. Read it for one thing first: what time you have to be at the station.

Read this

ਸਤਿ ਸ੍ਰੀ ਅਕਾਲ ਜੀ!

ਮੈਂ ਅਮਨ ਹਾਂ। ਕੱਲ੍ਹ ਮੈਂ ਬਾਜ਼ਾਰ ਗਿਆ। ਮੈਂ ਇੱਕ ਕਿਤਾਬ ਖ਼ਰੀਦੀ, ਪਰ ਮੈਂ ਚਾਹ ਨਹੀਂ ਪੀਤੀ। ਕੱਲ੍ਹ ਸਵੇਰੇ ਅਸੀਂ ਰੇਲ ਨਾਲ ਜਾਵਾਂਗੇ। ਰੇਲ ਨੌਂ ਵਜੇ ਆਵੇਗੀ। ਮੈਂ ਅੱਠ ਵਜੇ ਸਟੇਸ਼ਨ ਜਾਵਾਂਗਾ। ਟਿਕਟ ਨਾ ਭੁੱਲੋ! ਸ਼ਾਇਦ ਮੇਰਾ ਭਰਾ ਆਵੇਗਾ। ਫਿਰ ਮਿਲਾਂਗੇ।

Read it: the message once, straight through, without translating
Read it: it a second time, and find every line with a clock time

What to know first

ਕੱਲ੍ਹ comes twice: with ਗਿਆ it is yesterday, with ਜਾਵਾਂਗੇ tomorrow. ਟਿਕਟ ਨਾ ਭੁੱਲੋ! is a request built like ਨਾ ਉੱਠੋ, on ਭੁੱਲਣਾ, “to forget”. The last line but one is the only one that is not sure.

Your turn

- *Answer:* what did Aman buy yesterday? (A book: ਮੈਂ ਇੱਕ ਕਿਤਾਬ ਖ਼ਰੀਦੀ।)
- *Answer:* what did he not do? (He didn’t drink tea.)
- *Answer:* when will the train come? (At nine: ਨੌਂ ਵਜੇ.)
- *Answer:* who will perhaps come? (His brother.)

Before you move on

When will Aman be at the station? (At eight.) What must you not forget? (The ticket.)

224.3 The message, by ear

Hold Aman's message in mind: yesterday, and tomorrow.

Your turn

- *Hear: Aman kall kitthe giā?* Answer: ਉਹ ਬਾਜ਼ਾਰ ਗਿਆ।
- *Hear: kī Aman ne chāh pītī?* Answer: ਨਹੀਂ ਜੀ, ਉਸ ਨੇ ਚਾਹ ਨਹੀਂ ਪੀਤੀ।
- *Hear: rel kadoṁ āvegī?* Answer: ਰੇਲ ਨੌਂ ਵਜੇ ਆਵੇਗੀ।
- *Hear: Aman kinne vaje saṭeshan jāvegā?* Answer: ਅੱਠ ਵਜੇ।

Before you move on

Tell the message back in three lines: what Aman did, what he didn't, and what will happen tomorrow.

224.4 Looking back: saying no and asking

Say *I don't drink tea.* Then ask *do you drink tea?*

Your turn

- *Hear: I go to school every day* Say it with the ending that fits you.
- *Hear: we eat roti every day* Say ਅਸੀਂ ਰੋਜ਼ ਰੋਟੀ ਖਾਂਦੇ ਹਾਂ।
- *Hear: the garden is not open* Say ਬਾਗ਼ ਖੁੱਲ੍ਹਾ ਨਹੀਂ ਹੈ।
- *Hear: please sit here; don't get up yet* Say ਇੱਥੇ ਬੈਠੋ। ਅਜੇ ਨਾ ਉੱਠੋ।
- *Hear: are you a traveller? No.* Say ਕੀ ਤੁਸੀਂ ਯਾਤਰੀ ਹੋ? ਨਹੀਂ ਜੀ, ਮੈਂ ਯਾਤਰੀ ਨਹੀਂ ਹਾਂ।
- *Read it:* ਕੀ ਉਹ ਰੋਜ਼ ਸਕੂਲ ਜਾਂਦੀ ਹੈ? Give its meaning.

Before you move on

ਨਹੀਂ tells, ਨਾ asks someone not to, ਕੀ at the front asks yes or no. Say one sentence for each.

224.5 Looking back: yesterday and tomorrow

Say *Aman went home yesterday.* Then *we will go tomorrow.*

Your turn

- *Hear: a woman came yesterday* Say ਔਰਤ ਕੱਲ੍ਹ ਆਈ।
- *Hear: I got up early and drank tea* Say it with the ending that fits you.
- *Hear: Aman bought a book and she gave money* Say ਅਮਨ ਨੇ ਕਿਤਾਬ ਖ਼ਰੀਦੀ ਅਤੇ ਉਸ ਨੇ ਪੈਸਾ ਦਿੱਤਾ।
- *Hear: I took out the book* Say ਮੈਂ ਕਿਤਾਬ ਕੱਢੀ।
- *Hear: what will you do tomorrow?* Say ਤੁਸੀਂ ਕੱਲ੍ਹ ਕੀ ਕਰੋਗੇ?
- *Hear: perhaps we will go next week* Say ਸ਼ਾਇਦ ਅਸੀਂ ਅਗਲੇ ਹਫ਼ਤੇ ਜਾਵਾਂਗੇ।
- *Read it:* ਰੇਲ ਨੌਂ ਵਜੇ ਆਵੇਗੀ। Give its meaning, then say when Aman will be at the station.
- *Write it:* cover the models and write ਮੈਂ ਕੱਲ੍ਹ ਸਕੂਲ ਨਹੀਂ ਗਿਆ। or its woman's form

Before you move on

Tell your yesterday in two lines and your tomorrow in two lines.

Chapter 225

Waking Up Early

Modes: **voice** (5) **Hands-free start:** all 5 lessons.

> ***By the end of this chapter:*** I can say when I wake and when I am free.
>
> *Complete the last lesson of chapter 225: I can say when I wake and when I am free.*

225.1 ਪਸਾਰਨਾ (pasārnā) — to stretch out (arms or legs)

Before the new one: say the Punjabi for to take out, then the Punjabi for perhaps.

You'll want to know: ਪਸਾਰਨਾ

ਪਸਾਰਨਾ — *pasārnā* — "to stretch out (arms or legs)".

> **ਸਵੇਰੇ ਮੈਂ ਮੰਜੇ ਉੱਤੇ ਲੱਤਾਂ ਪਸਾਰਦਾ ਹਾਂ।**
>
> *savere maiṁ manje utte lattāṁ pasārdā hāṁ.*
>
> In the morning I stretch out my legs on the cot.

Past (I ...): **ਮੈਂ ਲੱਤਾਂ ਪਸਾਰੀਆਂ**, *maiṁ lattāṁ pasārīāṁ.*

The word, taken apart — its roots and family

ਪਸਾਰਨਾ (*pasārnā*) is inherited from Sanskrit *prasārayati*, “stretches out, extends”; CDIAL lists Punjabi *pasārṇā*, “to stretch out” (CDIAL 8838). CDIAL adds that the Punjabi form may have been taken from the central languages.

What you’ve built

One more word for saying what you do.

Your turn

- *Say it: pasārnā*
- *Say it: pasārnā*, once more
- *Say it: savere maiṁ manje utte lattāṁ pasārdā hāṁ.* — In the morning I stretch out my legs on the cot.

225.2 ਜਗਾਉਣਾ (jagāuṇā) — to wake (someone) up

Before the new one: say the Punjabi for perhaps, then the Punjabi for to stretch out.

You’ll want to know: ਜਗਾਉਣਾ

ਜਗਾਉਣਾ — *jagāuṇā* — “to wake (someone) up”.

ਮੈਂ ਸਵੇਰੇ ਛੇ ਵਜੇ ਬੱਚਿਆਂ ਨੂੰ ਜਗਾਉਂਦੀ ਹਾਂ।

maiṁ savere chhe vaje bachchiāṁ nū̃ jagāundī hāṁ.

I wake the children at six in the morning.

Past (I ...): ਮੈਂ ਅਮਨ ਨੂੰ ਜਗਾਇਆ, *maiṁ Aman nū̃ jagāiā.*

The word, taken apart — its roots and family

ਜਗਾਉਣਾ (*jagāuṇā*) is the causative partner of ਜਾਗਣਾ, built on a verb inherited from Sanskrit *jāgrati*, "are awake"; CDIAL lists Punjabi *jagāuṇā* under it (CDIAL 5175).

What you've built

One more word for saying what you do.

Your turn

- *Say it: jagāuṇā*
- *Say it: jagāuṇā*, once more
- *Say it: maiṁ savere chhe vaje bachchiāṁ nū̃ jagāundī hāṁ.* — I wake the children at six in the morning.
- *Recall:* say the Punjabi for perhaps, then the Punjabi for to stretch out, then say *jagāuṇā* again
- *Write it:* copy ਜਗਾਉਣਾ once, checking the whole word

225.3 ਵਿਹਲਾ (vihlā) — free; not busy

Before the new one: say the Punjabi for to stretch out, then the Punjabi for to wake (someone) up.

You'll want to know: ਵਿਹਲਾ

ਵਿਹਲਾ — *vihlā* — "free; not busy".

ਸ਼ਾਮ ਨੂੰ ਮੈਂ ਵਿਹਲਾ ਹੁੰਦਾ ਹਾਂ।

shām nū̃ maiṁ vihlā hundā hāṁ.

In the evening I am free.

The word, taken apart — its roots and family

ਵਿਹਲਾ (*vihlā*) is inherited from a reconstructed **vēlya*, “at leisure”; CDIAL lists Punjabi *vihlā*, “vacant, at leisure” (CDIAL 12118).

What you’ve built

One more word for saying what you do.

Your turn

- *Say it: vihlā*
- *Say it: vihlā*, once more

- *Write it:* copy ਲੇਟਣਾ once, checking the whole word

Before you move on

What does ਲੇਟਣਾ mean? (“To lie down”.) Say it once more.

225.5 ਕਾਹਲਾ (kāhlā) — in a hurry; hasty

Before the new one: say the Punjabi for not busy, then the Punjabi for to lie down.

You’ll want to know: ਕਾਹਲਾ

ਕਾਹਲਾ — *kāhlā* — “in a hurry; hasty”.

ਸਵੇਰੇ ਮੈਂ ਬਹੁਤ ਕਾਹਲਾ ਹੁੰਦਾ ਹਾਂ।

savere maiṁ bahut kāhlā hundā hāṁ.

In the mornings I am in a great hurry.

The word, taken apart — its roots and family

ਕਾਹਲਾ (*kāhlā*) is inherited: CDIAL sets it under Sanskrit *kāhala*, “speaking indistinctly, faint-hearted”, and lists Punjabi *kāhlā*, “impatient, hasty” (CDIAL 3142); CDIAL does not give the everyday sense “in a hurry” as such.

What you’ve built

One more word for saying what you do.

Your turn

- *Say it: kāhlā*
- *Say it: kāhlā*, once more
- *Say it: savere maiṁ bahut kāhlā hundā hāṁ.* — In the mornings I am in a great hurry.

The Gurmukhi script — a reference

A **reference**, not a chapter — the lessons teach reading through real words. This page gathers the system and flags what is special about **Gurmukhi** and Punjabi.

How Gurmukhi works (the three facts)

1. **Consonants carry a built-in "a".** ਕ = ka, ਨ = na, ਮ = ma — written left to right under a connecting top line.
2. **A vowel sign changes it:** ਕਾ kā · ਕਿ ki · ਕੀ kī · ਕੁ ku · ਕੂ kū · ਕੇ ke · ਕੋ ko. The signs themselves are ◌ਾ ā · ◌ਿ i · ◌ੀ ī · ◌ੁ u · ◌ੂ ū · ◌ੇ e · ◌ੋ o. A *bindi* ◌ਂ or *ṭippi* ◌ੰ nasalises the vowel.
3. **Word-initial vowels ride a carrier.** Three bearer letters — ੳ (u-series), ਅ (a-series), ੲ (i-series) — hold a vowel that starts a word: ਅ + nothing = *a*, ਆ = *ā*.

What is special about Gurmukhi and Punjabi

- **The *pair bindi* (a dot beneath)** marks Perso-Arabic sounds Punjabi borrowed: ਸ਼ *sh*, ਖ਼ *x/kh*, ਜ਼ *z*, ਫ਼ *f*, ਗ਼ *ġ*. The script literally annotates its loanwords — a visible record of Punjab's two vocabularies.
- **Tone.** Punjabi is unusual among Indian languages in being **tonal** — the old voiced-aspirate letters (ਘ ਝ ਢ ਧ ਭ) now trigger a low or high tone on the syllable rather than a breathy consonant. Picked up by ear; the lessons flag it only where it changes a word.

- **Two number/vocabulary streams.** Like Hindi and Urdu, Punjabi keeps parallel Sanskritic and Perso-Arabic words for many ideas (*dhannavād* / *shukrīā*).

Punjabi in the family

Punjabi is **Indo-Aryan** (like Hindi, Marathi, Bengali — all descended from Sanskrit), spoken across Punjab in India and Pakistan. In India it is written in **Gurmukhi**, "from the mouth of the Guru," shaped by the second Sikh Guru, Angad, in the 16th century, to write the community's teachings; in Pakistan it is more often written in a Perso-Arabic script (*Shahmukhi*) — a mirror of Punjabi's own twin inheritances. The lessons trace both the Sanskrit and the Persian threads.
